RE: Amended SRBA Recommendations for 67-467A, B, C and 67-468A, B, C

Dear Claimants:

This letter is to inform you that the recommendations for the split portions of 67-467 and 67-468 have been amended based on new evidence. Through the Notice of Error (NOE) process, 1919 tax assessment records were submitted as additional evidence of which ground was the historically irrigated under rights 67-467 and 67-468.

The recommendations for this right have been adjusted three times. The first time the decreed rights were distributed based on what was interpreted to be the original irrigated ground.

There was claimant disagreement with this distribution based on this procedure so lacking better evidence, I recommended the split proportions based on water master records, knowing that there was evidence to indicate that the water master records were wrong for rights 67-467 and 67-468 as they show delivery of more water than was originally decreed.

After the preliminary mailing was sent out, Mr. Dunham provided 1919 tax assessment documents that showed how much irrigated ground existed in each of the decreed 40 acre tracts. The actual acreage shown in the 1919 tax roll was 140 acres and a total decreed acreage between the two rights was 131.2 acres.

By taking the number of acres in each 40 and dividing it by the total 140 acres, we came up with a percentage of irrigated ground per QQ for the decreed POU. That percentage was then used to calculate how much each split portion had from each decreed right.

The 1919 tax assessment roll appears to be the most reliable date I have currently. If you disagree with the recommendations for your water rights, you will have a chance to file an objection and be heard by the SRBA court.

Respectfully submitted,

A handwritten signature in cursive script, reading 'Craig L. Saxton'.

Remarks:Comments:

1. csaxton 12/28/2005 POU

Comment: Claimant claimed additional acreage that does not overlap the decreed acres. However, no additional evidence of priority was provided from our September 2005 solicitation. Since the ground claimed is part of the Little Weiser Irrigation District place of use, I can recommend a priority date of one day after the licensing FE was done for LWID as we know that the delivery system was in place at that time.

2. csaxton 12/28/2005 Diversion Rate (1)

Comment: Measurement: 67-7525 is currently at draft status for licensing. 67-7525 uses the same POD as this claim. The beneficial use field report states under the measurement information, "Ditch Capacity assumed sufficient". The recommendation for 67-7525 was to license a diversion rate of 0.58 cfs which is less than what was calculated. The calculation was for 1.16 cfs. The difference is .58 cfs. The ditch has the capacity to recommend 0.25 cfs under this right.

3. csaxton 11/26/2006 Diversion Rate(3)

Comment: Diversion rate change to reflect changes in overlapping decreed rights.

4. csaxton 12/14/2006 Diversion Rate (2)

Comment: Diversion rate recommended is to bring the total diversion rate of 1 inch per acre when the decreed water and flood water are used in combination.

E. NARRATIVE/REMARKS/COMMENTS

Permit developed to supplement decreed and storage water on 60 acres. Flows delivered through Steward Ditch, and distributed through 12" gated pipe from the south end of the field. Ditch capacity assumed sufficient.

It is limited to diversion prior to June 15 (floodwaters). It not typically delivered after WM is called due to late priority.

This permit filed to supplement acres with full duty of water when combined with 67-00463. (67-00463 decreed for .64 CFS for same acres from same source)

(See 67-07524 for ditch description)

Ownership Change Memo

Date: December 15, 2006

To: File 67-467B, 67-468B, and 67-4548B

From: Craig L. Saxton

In office meeting with Ron Dunham on Dec 11, 2006, we discussed ownership of the property under the above mentioned rights. Ron said that the property was his mom's place but she has since deeded it to him and we needed to change ownership.

What he sent in was the deed confirming ownership of the property, but he never sent in a change of ownership form. Based on my conversation with him and all evidence shows he is the owner of the property and the associated water right, I am changing ownership on the above rights.
