Hey Tiffany,

Here is what I am proposing as SF5s. I have sent them to our legal staff to have them officially mailed out. Unless our staff finds something different that needs changed, this is what you will be getting. I just thought I would send them to you incase something obvious stands out that your client would disagree with.

Again, these are not official copies... this is more of an FYI.

Thanks,
C

Craig:

Thank you for your email. You indicated that you could remove the "language that limits the diversion volume." Does this mean you are removing both the combined annual volumetric limitation **and** the combined diversion rate impacting water rights 67-7066 and 67-7070?

We will discuss with our client the inclusion of 67-7166 in the 41 acreage limitation.

I've attached the supplemental affidavit we spoke of earlier this week. Hopefully this supplemental affidavit, in conjunction with the initial affidavit, will clear up any confusion about the change of water right ownership.

Thanks again and please let me know if you have any questions.

7/9/2008

Hey Tiffany.

Per our conversation on Monday, I wanted to let you know that I feel I can remove the language that limits the diversion volume. I think the one I wasn't sure about was the diversion volume language.

There is one change that I have to make that we didn't discuss and it is the result of one of the changes your client requested. There is language that limits use of 67-7066 and 67-7070 to 41 acres that you said your client would accept. However, since we are going to define an acreage within the place of use for 67-7166 because we are adding **Irrigation from Storage** as a purpose of use, I am going to have to include that water right in the limiting language. So in essence the language will limit 67-7066, 67-7070, and 67-7166 to 41 acres, rather than just 67-7066 and 67-7070.

I will wait on the supplemental affidavit we spoke about that will address ownership of the surface water rights. When I get that I will prepare SF5's and send them out.

Let me know if you have any questions.

Thanks,

Craig

Dear Tiffany,

Thank you for responding to the May 29th letter. After reading through the affidavit of Lauren G Mallory, dated June 13th 2008, I can change ownership of 67-7066 to Tree Top Ranches, LP, without splitting the right as 67-7066 describes a ground water source. Please note that a transfer will need to be filed to move that portion of the water right off of Mallory's property.

However, the affidavit appears to only reference ground water use. 67-7070 and 67-7166 both claim a source of Hot Creek. Was referring to all water rights described in the affidavit as ground water simply an oversight, or was the intent of the affidavit to convey only the ground water right described under 67-7066, with Mr. Mallory retaining his proportionate share of the remaining surface water rights described in 67-7070 and 67-7166?

Sorry about the confusion.

Thanks.

1. I am over the age of eighteen years and make this affidavit based upon personal information.
2. This document is intended to supplement the Affidavit of Lauren G. Mallory dated June 13, 2008 (the "Affidavit").

3. The Well, which term is defined in the Affidavit, serves as the point of diversion for water right 67-7066.

4. The point of diversion for the remaining two water rights described in the Affidavit, 67-7070 and 67-7166, is on Hot Creek, within the Southeast Quarter of the Southeast Quarter of Section 30, Township 14 North, Range 3 West, Boise Meridian, Washington County, Idaho.

5. As stated in my Affidavit, it was my intent upon conveyance of the Property to Larry and Marianne Williams that water rights 67-7066, 67-7070, and 67-7166, together with the Well, would be conveyed in their entirety and I would not retain any right, title, or interest in and to such water rights or the Well.

6. Since the conveyance of the Property to Larry and Marianne Williams, I have not irrigated my five acre parcel with groundwater or surface water diverted pursuant to the water rights described in the Affidavit and this Supplemental Affidavit. From: Craig L. Saxton

I split the above rights in the database so I could process a change of ownership that was identified in an objection filed on these rights. However, all I did was create the new splits. I didn't update the data or create files or any of that. I created the new numbers and then decided that I should wait till initial hearings to split the rights because of some questions I had for how to split them.

When I did create the new numbers it changed the status of the claim and recommendation for 67-7066, 67-7070, & 67-7166 to Parent. I haven't asked Carter to change them back to active yet because it is my belief that the initial hearings will result in a splitting them eventually.

I did change the split claims to Temporary putting a note in them why they are temporary. The children are:

67-7066 split to	67-14928
	67-14929

67-7070 split to	67-14930
	67-14931

67-7166 split to	67-14932
	67-14933

However, the recommendations for the splits still show active, not temporary as they should.
