Conditions of Approval:

1. E56 The rights listed below are limited to the irrigation of a combined total of 8 acres in a single irrigation season. Combined Right Nos.: 67-7003A, 67-2191A, 67-7213.

3. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
4. E61 The rights listed below are limited to a total combined diversion rate of 0.16 cfs and to a total combined annual diversion volume of 36 AF for irrigation purposes. Combined Right Nos.: 67-7003A, 67-2191A, 67-7213.
5. S39 The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

Remarks:Comments:

1. mcase 5/12/2004 Period of Use

Comment: Licensed Period of Use shorter than Standard Season of Use. Recommend shoulder remark.

2. jdean 9/19/2006 Priority Date

Comment: The claimed priority date is 8/16/74 rather than the licensed priority date 7/16/74. I could find no explanation for this in the files. It did appear however based on the original signed claim that 8/16/74 was what was intended to be claimed and therefore it was recommended. If the claimant chooses, they may amend the claim to match the license.

3. jdean 9/19/2006 Combined Use limits

Comment: For the combined use limits, I used the licensed amount for this right (it having additional uses beyond irrigation and therefore additional quantity). I conditioned the three recommendations based on just the irrigation components so the diversion rate and volume are slightly less.
