Comments:

1. Igraves 6/13/2005 Field Report Narrative

Comment: Application 67-7265 was filed by Guy Phelps for three reservoirs for irrigation and stockwater use. A field visit was made 10/6/1997. The examiner found reservoirs No. 1 and 2 located in a common draw and reservoir No. 3 in a separate draw as supported by the topo map. As a result, the source should be licensed as unnamed streams rather than unnamed stream. An SRBA claim was filed on the right as permitted by Marla and Tim Bordges. Per telcon with Tim 6/9/2005, Tim is the current owner of the property and Marlas is now his ex wife and no longer part owner. Tim stated that the reservoirs are currently only used to water a maximum of 200 range cattle and that water is not diverted from the reservoirs. Tim stated that he tried to install an irrigation system about 4 years ago, but the pvc pipe was destroyed in a range fire and nothing has been done since. Proof of beneficial use was filed by the original owner in 1988 (paid in 1989). The proof listed 40 acres irrigation and 500 stock. The following evidence in the file indicates that irrigation use was not developed:

1979 ASCS map

8/19/1996 telecon with Marlas Bordges stating that there was no irrigation, only stockwater use. 9/3/1996 telecon with Marlas Bordges stating that irrigation was never developed.

10/6/1997 field exam notes indicating irrigation use was not evident.

6/10/2005 John Westra stated that he found no indication of irrigation use during his dam safety inspections that occurred in 1989, 1992, 1993, 1995, 1997 and 1999.

I telephoned Tim and told him that he could not get credit for irrigation that he attempted after the proof was filed in 1988. He stated that it was difficult to do anything while he lived in California. He plans to move to Adams County in the near future and will pursue the irrigation use then. I sent him an application for permit and change in ownership forms 6/13/2005.

SRBA claim file 67-7265 was sent a copy of this field report.
