RE: Review Information

=====

We received the licensing amendment from the permit owner and he increased the number of acres to 14 in T13N, R02W, S35. According to the exam maps, it could be a justified change. The original permit was for 505 acres; therefore, we are not exceeding the allowable amount.

Also, because the rate is limited by the capacity, the rates and volume figures do not change even though the number of acres has increased.
