IDAHO DEPARTMENT OF WATER RESOURCES
RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 67-10112

NAME AND ADDRESS: GUY AMIDON
2711 TONEY LN
CAMBRIDGE ID 83610

KAREN AMIDON
2711 TONEY LN
CAMBRIDGE ID 83610

SOURCE: SPRINGS

TRIBUTARY: UNNAMED STREAM

QUANTITY: 0.020 CFS
1.150 AFY

The quantity of water under this right shall not exceed 13,000 gallons per day.

PRIORITY DATE: 06/21/1921

POINT OF DIVERSION:

T14N R03W S10 NWSW Within WASHINGTON County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
STOCKWATER STORAGE	01/01 12/31	1.15 AFY
STOCKWATER	01/01 12/31	0.020 CFS
STOCKWATER FROM STORAGE	01/01 12/31	1.15 AFY

PLACE OF USE: STOCKWATER in WASHINGTON County

T14N R03W S10 NWSW

STOCKWATER STORAGE in WASHINGTON County

T14N R03W S10 NWSW

STOCKWATER FROM STORAGE same as STOCKWATER

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Stockwater use is for 25 head.

Saxton, Craig

Subject: RE: 67-10112

Dear Special Master Booth,

The recommended tributary on this should be "unnamed stream". I have made the appropriate changes in the IDWR database.

Thanks and sorry about that.

Craig

Subject: 67-10112

Craig,
This one does not have a tributary listed.
Ted Booth

Water Supply Bank:

Memorandum

Date: November 4, 2006
To: File **67-192B, 67-193B, 67-10112**
From: Craig L. Saxton

RE: Recommendation of 67-10112

67-10112 claims three sources; Pine Creek, Springs, Wastewater.

The POU claimed under 67-10112 directly overlaps the POU for decreed rights 67-192B and 67-193B. Normally a beneficial use claim that directly overlaps the decreed water could be recommended with a priority of one day after Muir v. Allison was signed. However, the source claimed under 67-10112 are not the same sources as decreed to that "rule" does not apply. Evidence of priority for the use of waste water and springs needs to be submitted in addition to needing to know when the storage of spring water and waste water first took place.

The irrigation from Pine Creek does not need a storage component as the pond can be filled with the Pine Creek water rights in less than 24 hours.

The claimant submitted insufficient priority which dated back to 1995 when he purchased the property.

In the back ground, between 67-192B and 67-193B there is enough decreed water to irrigate the claimed POU with a full inch per acre so a flood water right is not needed.

Lastly, it is unclear if the waste water is actually waste water or if it is just water coming out of a second delivery ditch.

Based on the above information 67-10112 will be recommended as such:

- Irrigation, Irrigation Storage, and Irrigation From Storage will be dropped in the recommendation.
- Waste water will be dropped as a source as it appears Pine Creek water is what is irrigating that side of the field and will be recommended in 67-192B & 67-193B
- Stock water can then be recommended as a de-minimus use from the springs limited to 13,000 gpd.

Separate claims will need to be filed for irrigation from the springs with EOP. Waste water can be recommended on this right if we have EOP for waste use as it is the same system as the irrigation right.

RE: Water Right No. 67-10112
Evidence of Priority Date

Dear Mr. Saxton:

Enclosed is my statement & supporting evidence that declares and proves the use and importance of subject water right to the operation of our ranch.

Although we have not been able to find anyone that could attest to the actual date of June 21, 1921 as the creation date, discussions with local ranchers, many of whom have had their ranches passed on to them from their family, it is apparent our ranch has always been used for agriculture purposes. Our beneficial water is crucial as it sustains a large part of our ranch and is imperative to the survival of our cattle. Our survival depends on the survival of the tools needed to keep it going.

Please let us know if you have any questions or need further information.

Sincerely,

Guy D. Amidon

RE: Notice of Claim to a
Water Right No. 67-10112

State of Idaho
County of Washington

By the enclosed copies of our Income Tax Return and Property Tax Notice, proves that I am in the ranching business and our land is for agriculture use. We have owned this property for over ten years and have consistently used the beneficial water right in question, for irrigation and stock water purposes. During the cold winter months, the pond is the only source for my cows to get water and in the summer months is my only means to irrigate our bottom pastures on which my cattle graze during the summer. We have leased the land of which was used to raise corn and wheat. I have raised hay for my own purposes and corn, which I sold for cattle feed. Our beneficial water is crucial to keep our ranch in operation. History of this entire area has determined this parcel has always been used for agriculture purposes and it would have always required the beneficial water as it feeds a good portion of this parcel.

Without all of our water, including our claimed water, this ranch will not survive. We will not survive without this ranch as it is a major source of our income.

RE: Claims to Water Right Nos. A67-00192C & A67-00193C

Ronald M. Lee
2707 Toney Lane
Cambridge, ID 83610

Dear Mr. Lee:

I met with Mr. Amidon this morning and we discussed the water rights that were filed on both of your properties. In looking at the orthophoto quad of these properties, I am uncertain that your land has received water from Pine Creek for quite some time, if ever. However, Mr. Amidon has no problem with you receiving the water rights that are referenced above. Please be advised that you may be required to submit evidence of use of water from Pine Creek on your land when we begin our work in that area.

Regarding the claims that I questioned in my letter of January 28, 1997, I offer the following. Claim No. A67-10112 was amended so none of that right is appurtenant to your property and Claim No. A67-10113 is for the Amidon's domestic well. We will not take any more action on those claims at this time.

I have enclosed an application for permit form, with instructions, that can be used to file on irrigation water from your well. We are not taking any action on new irrigation applications at this time. However, you can submit the application to initiate a date of priority and that will put your proposal in line for processing when we do begin taking action on these filings.

I have also enclosed a Notice of Claim form for your domestic and stockwater use if you wish to claim the date the well was completed. The enclosed brochure entitled "Idaho Water Rights - A Primer" is good information regarding Idaho water rights and some of the procedures we follow.

If you have any questions regarding your water rights, please feel free to contact me. If you feel you need to come into the office for assistance, please call ahead and make an appointment.

Sincerely,

KAY WALKER

RE: OWNERSHIP CHANGE COMPLETED 1/28/97

I received a phone call from Guy Amidon this morning concerning the portion of these water rights that had been split to the Lee's. Mr. Amidon stated that the Lee's property was on a rocky hillside that was not irrigated. He is coming into the office on February 4 to discuss the lands actually irrigated. He is going to bring a copy of an ASCS photo of the lands with him. I told Mr. Amidon that we changed the ownership on Lee's 7 acres because the entire 40 acre parcel was claimed as irrigated under both above referenced claims. Hopefully our meeting next week will resolve any errors that may have been made when these claims were submitted.

Ron Lee also called me this morning. He said that the ditch does go to his property but is in bad disrepair. He did not purchase the home under Claim A67-10113 but would like to file on the well for his home that was drilled in 1994. He would also like to file for irrigation of his land from this well. He requested an application for permit form be sent to him. None of the ponds under Claim A67-10113 are on the Lee property unless there is high water and then the water does get onto his property. I mentioned that only a portion of decreed Rts. 67-00192 and 67-00193 were filed on. I told Mr. Lee I would look at those decrees and see if I could figure out where the water from the original decrees was used.

RE: Original Notice of Claim to a Water Right No. A67-00192A
Renumbered to Notice of Claim to a Water Right No. A67-00192B

AND

Original Notice of Claim to a Water Right No. A67-00193A
Renumbered to Notice of Claim to a Water Right No. A67-00193B

Guy and Karen Amidon
2711 Toney Lane
Cambridge, ID 83610

Dear Claimants:

We have processed a Change of Ownership for portions of your original claims to water rights as referenced above. This change of ownership resulted in a split of your claims.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by adding alpha-suffixes to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim numbers reflect your remaining portion of the original claims after the change of ownership. Enclosed is a copy of the new claims for your records. Please refer to your new claim numbers when corresponding with our office.

While reviewing our records for any water rights on the 7 acres now owned by the Lee's, I found two other claims that I have some questions on. I have included profile reports of these claims for your convenience. Under Claim No. A67-10112, I found the Lee's property is covered for irrigation. I am uncertain, however, if I should split any of the stockwater use to the Lee's. Are any of the ponds under this claim on the land they purchased? Please indicate on the profile report what portion of this claim should be split to the Lee's besides the irrigation of their 7 acres. I also have a question on Claim A67-10113, which is for domestic and stockwater use from a well. If this home and well were sold to the Lee's too, we will need to change the ownership on that claim. Please let me know within 30 days of the date of this letter how you want Claim A67-10112 split. If I don't hear from you within this 30 day period I will split A67-10112 to show the Lee's have

ownership of 7 acres under this claim. I will not take any action on the domestic well unless I hear otherwise from you or the Lee's.

If you have any questions concerning this ownership change, or the enclosed claim copies, please feel free to contact this office. If you would like to come into the office for assistance in this matter, please call first and make an appointment to meet with one of us.

Sincerely,

and
Original Notice of Claim to a Water Right No. A67-00193A
Renumbered to Notice of Claim to a Water Right No. A67-00193C

Ronald M. and Janice I. Lee
2707 Toney Lane
Cambridge, ID 83610

Dear Claimants:

We have received and processed a Change of Ownership for a portion of the original claims to water rights as referenced above. This change of ownership required a split of the original claims resulting in renumbering the claims by adding alpha-suffixes to represent each split. The new notice of claims to water rights, for your portion, are referenced above and copies are enclosed.

Your portion of the claims have a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use or point of diversion under these rights, including adding a new point of diversion, then an Application for Transfer on your portion of these rights is required. Please contact this office for further information on the application for transfer form. If you do not plan on changing any items on your claims, then no further action is required at this time. You will be notified of any future action taken on these claims.

While checking your property description for any other water rights that may be appurtenant to your land, I found a couple of claims that I have questions on. I have included profile reports of the claims for your convenience. Claim A67-10112 covers irrigation of your 7 acres, along with the lands of the previous owners. However, I am uncertain how to split this claim. This claim covers some ponds that are located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10, Twp. 14N, Rge. 3W, with irrigation and stockwater use from the ponds. Are any of these ponds on the property you purchased? Please discuss this with the previous owners and let me know which portion of this claim should be changed to your names, besides the irrigation of your 7 acres. I also found Claim A67-10113 which claims the use of water from a well for one home and stockwater. Did you purchase the land where this well and home are located? If so, we need to change the ownership of that claim also. I will not take any

action on these claims until I hear from you. If I don't hear from you within 30 days of the date of this letter, I will split Claim A67-10112 to split off your 7 acres but not change any of the stockwater parameters of the claim. I will also assume the well and home are not yours and leave it as it is now recorded.

If you have any questions concerning this letter or the enclosed claims, please feel free to contact this office. If you feel you need to come into the office for assistance, please call ahead and make an appointment.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in dark ink and is positioned above the typed name.
