Comments:

1. jdean 10/30/2006 POU

Comment: Based on maps in both licensing files, the POU was recommended for 15 acres. The alignment of the acres appears to be somewhat different than originally licensed, but they are all within the same qq.

2. jdean 10/30/2006 Season of Use

Comment: A standard season of use was recommended because there was no season of use licensed.

3. jdean 10/30/2006 Quantity

Comment: The diversion rate for this right is the sum of water rights 67-2206 and 67-2231. ($0.2 + 0.1 = 0.3$ cfs) The diversion volume for this right is the standard per acre multiplied by the number of acres.
