2. 167 This right shall receive 100% of its decreed amount until the natural flow of the waters of Mann Creek shall decrease so that all rights cannot receive 100%, at which time this right and other various decreed rights, as established by the district court in Jefferson et al. v. Higgenbotham et al. (Washington County, June 3, 1921), shall be cut to 70% of the said amounts, beginning with the latest right and proceeding to the earliest right in the order of priority.

Comment: The remarks of this claim mention 67-523,-524,-525, and -526, but only 524 & 525 are appurtenant to this land. Another right that is appurtenant but was not mentioned in the remarks is 67-593. This is a secondary right with a PD of 1888. This will make the PD of this recommended right more junior and convert it to a secondary right, however it is the only way to cover all of the acres claimed. I will contact claimant.

Re: SRBA claims **67-10406** & **67-593**

October 5, 2005

Dear Mr. and Mrs. Queen:

My name is Dan Narsavage and it is my task to review the claims to water rights along Mann Creek in the Snake River Basin Adjudication (SRBA). In reviewing your SRBA claims 67-10406 and -593, I have encountered some issues that I cannot resolve without your assistance. Please refer to the map and claim report that I have enclosed with this letter when addressing the following questions:

The Places of Use (POUs) outlined in blue and green can be covered at a full inch to the acre by these two claims. However the yellow POU appears not to have been included in the findings of the 1921 Jefferson vs. Higgenbotham decree (the Mann Creek Decree). In fact the southern portion is on a hill and is not serviceable by Mann Creek Ditch with technology available in the 1880s (your claimed priority date). As such, I cannot include these portions in my recommendation of 67-10406 or 67-593 as these claims are based on that decree. If the hill is indeed irrigated, then either a separate SRBA claim or an application for permit will most likely be necessary to cover the water usage for the POU outlined in yellow.

Please contact me at the addresses and phone number listed below my signature. I understand that it has been several years since you filed these claims and that the goals of this letter may not be completely clear to you. If this is the case, I will gladly discuss your options with you.

In addition, I hope that you can take a few moments to answer some more questions that may assist me in reviewing your claims as well as several others along Mann Creek. In your claim, you labeled a pipe crossing Mann Creek at the north end of your property that services the POU outlined in blue. To your knowledge, when was this pipe installed? Are there others like it along Mann Creek? Do you know if the water flowing through your pipe ends up on any property in addition to your own? Also, 67-593 is the only right that was decreed to flow through Landson Ditch. I have no record of a Landson Ditch at all. Do you know where this ditch is/was?

I look forward to hearing from you in the near future. Please call, write, or email me on or before October 28, 2005 so that I may recommend your SRBA claims in a timely and accurate manner. Thank you very much for your time.

Sincerely,

Daniel L. Narsavage

Hi Dan, Perhaps I can clear up your questions. Please if you still have questions let us know. We may need to amend parts.

1. Hill ground was irrigated by a tractor that pumped water from the ditch to a feeder ditch. The remains of the ditch are still visible. We use the same method with a pump. We may need to make another claim if this is not covered by decree. There is a flat place where the yellow line by the visible section line that is under irrigation. We pay for land above the ditch. The exact amount is on file.

2. There is indeed a pipe that crosses Mann Creek that we use for irrigation. It was installed prior to our arrival in 1977. We have used it yearly to irrigate the twenty plus acres on that side of the Creek. The run off water trickles through our own pasture into the Mann Creek. I believe the neighbor has irrigated with our ditch. We rented that portion of property this year, and we used that ditch to irrigate that piece of ground. It is my understanding that it was legal to do that.

3. This may be in reference to a spring that we developed to use for stock water and house water. It has nothing to do with Mann Creek, however.

I hope that this helps with your questions. If you need more info let us know.

Mrs Queen,

Thanks very much for your quick reply. I'll address your comments one-at-a-time below.

Okay. I'll ask around here a little and pick the brains of the people who know more than I do. If you do end up making a separate claim for the hill ground, then you'll need to provide evidence of when this ground was irrigated (called "evidence of priority"), so start rounding up anything you can find that might be useful to us. Perhaps the "file" you speak of that records your payments for water might also hold records of similar payments made before you bought the property. Someone found meeting minutes from the Mann Creek Irrigation District referring to his land above the ditch. There are lots of different places to get evidence of priority, so don't get discouraged.

I'm not completely clear on which ditch your neighbor is irrigating out of, or even which neighbor you're talking about. But I don't think any of that is illegal.

> 3. This may be in reference to a spring that we developed to use for stock water and
> house water.

Nope, that's different. Just FYI: The spring is covered in the SRBA by claims 67-7545 and 67-7021. These were both based on a license and have been recommended to the court and partially decreed.

> I hope that this helps with your questions.

It does. Again, thank you very much. After I speak with my supervisor, I'll get back to you about what we'll do about the irrigated ground on the hill. Take care.

Mrs Queen,

It appears that we will indeed need to have you file a separate claim for your irrigation above Mann Creek Ditch. I have included a "Notice of Claim..." form with this email. Please fill in the date of priority that you can support with the evidence you've got, look over the rest of the form to make sure it is correct, print it and sign it in front of a notary, then return it to me at

Dan Narsavage

There is a \$50 filing fee to file a new claim with the SRBA, so please enclose a check for that amount as well. **If your evidence cannot support a priority date before March of 1972, then please contact me before submitting this form.** If you have any difficulties at all with the form I'm sending you, please let me know and I will send a hard copy by mail. If you have any questions, my phone number is (208) 287-4885. Thank you again.

Dan
