I keep mistakenly putting 86-12075 as your claim number. It is **86-12078**:

<http://164.165.134.61/S8612078XX.HTM>

Sorry about that.

Subject: Motion for Determination of Deferred De minimis Stock Water Use claim 86-12078

Jeremy,

Here is the address listed on the courts website:

Idaho Water Adjudications
253 3rd Ave North
P.O. Box 2707
Twin Falls, Idaho 83303-2707

Here is the link to the court's website:

<http://www.srba.idaho.gov/>

When you get the "Affidavit of Publication" (it will look something like this:

<http://164.165.134.61/Images/2019-11/8612069xx00004.pdf>)

You will need to send a copy to the court.

With that said, you are only required to send a copy to the court, but if you could e-mail me a copy too that would be great.

Then what happens is IDWR will send out a "Notice of Examination" to you and the court. This is where we tell the court that we will review your claim, how much it will cost, and when we plan to report the recommendation to the court. Here is an example of a Notice of Examination:

<http://164.165.134.61/Images/2019-12/8612069xx00005.pdf>

For your claim, the estimated cost will be \$100.00 and we will set the deadline out a year from when we send the notice. It will look very much like the one on the link above.

The \$100 is the last of the fees. Then we will send our recommendation to the court and you will have the opportunity to object. If everything looks good, then the court will issue a partial decree at the end of the objection/response period.

Let me know if you have further questions.

Thanks,

Craig L. Saxton
