MEMORANDUM

TO: ADJ FILE A36-04045

FROM: DALLAS TRYON

SUBJECT: NON-PRODUCTION WELL- RICKETTS

DATE: APRIL 4, 1995

ON APRIL 7, 1994 I WAS ASKED TO INVESTIGATE A STOCKWATER WELL SITE IN TWP-09S R-17E S-24 TO DETERMINE WELL STATUS AND/OR PRODUCTION. UPON ARRIVAL AT THE WELL SITE, I OBSERVED THAT THE WELL WAS NOT IN PRODUCTION AND DID NOT APPEAR TO HAVE BEEN IN PRODUCTION FOR QUITE A WHILE. ENCLOSED PHOTOS WERE TAKEN AND I RETURNED TO THE REGIONAL OFFICE.

ON APRIL 4 1995 I STARTED A FOLLOW-UP ON THIS PROJECT AND PHONED MRS RICKETTS WHO INFORMED ME THAT THEY HAD CLEARED AWAY THE STOCK TANK AND WELL HEAD. WHEN ASKED ABOUT THE ABANDONMENT OF THE WELL, WAS INFORMED THAT THEY HAD MET THE BLM STANDARDS AND BEYOND THAT, SHE DIDN'T KNOW WHAT PROCEDURES THEY HAD FOLLOWED.

ON APRIL 5, A CALL WAS PLACED TO DOUG BARNUM, THE BLM CONSERVATIONIST SPECIALIST IN SHOSHONE, AND THE PERTAINENT INFORMATION WAS GIVEN HIM TO CONDUCT HIS INVESTIGATION INTO THE MATTER. MR BARNUM CALLED BACK TO INFORM ME THAT THE BLM ONLY REQUIRES THE WELL TO BE CAPPED FOR IT TO BE CONSIDERED ABANDONED AND FURTHER, ALL HE HAD ON FILE WAS A PETITION FOR PERMISSION TO CLAIM THE WATER RIGHT THROUGH THE BLM.

AT THIS TIME, IT IS UNKNOWN IF THE OLD WELL HAS BEEN ABANDONED AS PER IDAHO CODE.

Re: Snake River Basin Adjudication (SRBA)
Transfer of Water Right No. 36-04045

Dear Claimants,

We are writing in regards to a proposed transfer of the above noted water right. This procedure would move the point of diversion of the right from the "Lickley Well #1", on public land, to the newly constructed "Ricketts Well", on your property.

It has come to our attention that an application for this transfer has not been submitted. Perhaps this is an oversight; a transfer cannot occur without the required application. Please call our office in Twin Falls as soon as possible to initiate this process.

If you have any questions, please feel free to contact me at (208) 327-7925 in Boise.

Sincerely,

Roxanne McCarthy
Senior Water Resource Agent

IN REPLY REFER TO:
Basin 36 Objections

March 17, 1994

Clair & Virginia Ricketts
516 E 300 S
Jerome ID 83338

RECEIVED

MAR 21 1994
Department of Water Resources
Southern Region Office

Dear Clair & Virginia:

Earlier this year you requested approval to transfer Water Right No. 36-04045, which is the water right for our Section 4-permitted range improvement (Section 4 of the Taylor Grazing Act) known as the Lickley Well #1, Project No. 4434, to a location on nearby private land.

The location of the Lickley Well #1 on public land is T.09S., R.17E., Section 24 NE1/4 NE1/4 NE1/4. The location of the newly constructed "Ricketts Well", completed June 25, 1993 and field inspected by the Idaho Department of Water Resources on August 11 and 17, 1993, lies on private land in T. 09s., R. 18E., Section 18 SW1/4 SE1/4 NW1/4.

The Shoshone District is not opposed in principle to the transfer of Water Right No. 36-04045, in its entirety, including the August 20, 1961 priority date, from the above-described location to the newly-constructed "Ricketts Well" providing certain removal, restoration, and rehabilitation requirements on public land are closely adhered to.

It is, therefore, the intent of the Shoshone District, Bureau of Land Management to provide the Idaho Department of Water Resources a letter of approval for the subject transfer upon completion of the following requirements:

- * Removal Completely remove from public land the pump jack and base, exclosure, wood and steel fence posts, wire, debris, concrete storage tank, troughs, fittings, pipe, etc. The only exception is the above ground portion of well casing and the concrete around the well casing. Complete removal of the concrete chunks from the cast concrete storage tank is preferred. However they may be buried nearby if sufficiently deep soil occurs. Only concrete chunks may be buried. All other material, including small chunks of concrete, loose re-enforcing bar, and gravel from degrading concrete, is to be removed from the public land.
- * Restoration As used here, the word restoration means smoothing the land surface, by hand tools or by appropriate machinery, to its original natural shape. If burial of concrete pieces occurs, at least 18 inches of soil must overlie the highest concrete piece without producing an artificial "mound" of dirt. Dirt mounds have a tendency to "wash down" by rainfall exposing the contents of the "grave." If burial occurs, the 18-inch overtopping must match the surrounding landscape.

- * Rehabilitation As used here, the word rehabilitation means seeding all disturbed areas (from any kind of disturbance) with a minimum of 10 pounds of Crested wheatgrass seed per acre and hand raking or harrowing the seed as well as compacting the soil around the seed. You will be asked for the certified seed label during final field review by BLM. Certified seed must be dated, its germination percentage must be shown and it must be certified to be free of noxious weeds. Common variety weeds are no stranger to the existing well site, but BLM can ill-afford to control aggressive noxious weeds like Yellow Star-thistle, Leafy Spurge, or Dyer's Woad inadvertently established by using non-certified seed. As agricultural people, you can well understand our concern about weeds.
- * Well abandonment As used here, abandonment means the discontinuance of use with intent not to use the well in the future. Because the Lickley Well #1 will no longer be used, we ask that you properly close and seal the above-ground well casing to prevent contamination of ground water and to eliminate safety hazards. As a minimum, BLM will require a round steel plate of the same diameter as the well casing be placed on the well casing and welded completely around with no openings or cracks apparent. Also please place additional grout around the base of the above-ground well casing if cracks, leaks, or other defects are apparent. The Idaho Department of Water Resources should be contacted for any additional required abandonment or decommissioning measures beyond those described above. BLM's evaluation of proper abandonment will, of course, be governed by the Idaho Department of Water Resources requirements because they are the responsible agency.
- * Notification of BLM by the Ricketts family We request that you notify us, at your earliest convenience following completion of the work described above, so that we can schedule a field inspection.
- * Time allowed for completion of the work So the process of transferring the water right to your new well location can be completed promptly, we request that all field work be accomplished as soon as possible, but no later than May 31, 1994.

This letter may seem overly technical and specific at first glance. Please remember that the objection filed by BLM on Water Right No. 36-04045 is part of the litigation referred to commonly as the Snake River Basin Water Adjudication. Because of the litigation we must be very precise and accurate. Hopefully that precision and accuracy will be of assistance to you as you set about doing your part of the work. Our part of the work so far has been to describe in detail what the present situation is, the desired future condition and ways to go about reaching that situation.

Upon timely completion of the above-described field work, and completion of the water right transfer by Idaho Department of Water Resources, we will recommend to the Department of Justice that appropriate steps be taken to withdraw our Objection to your water right filing. That may take some time to accomplish. Meanwhile, we want you to know that we value your cooperation and ask your continued patience as we both work our way toward the best solution to the present difficulty.

If we can be of further assistance, please call Floyd DeWitt or Bart Koonce at (208) 886-2206.

Sincerely,

 for Mary C. Gaylord
 District Manager
