Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

Dear Sirs:

Again and I have tried to find records of our domestic wells. (3) the people that owned the property at that time is deceased. The person who drilled the wells are deceased - and no record can be found - tax office - Clerk's office - assessor's office - Where else can I go - I'll be glad to do what ever I can if you will let me know - D. (Glenna) have lived here all my life - I'm 64 now - and I know this one well was here when I was a little girl and the others (2) were put in 1948 - because that is the year West Gant Highway - put pavement on the Buhl - West Gant road - as the people who owned the land - boarded the highway employees. This is best I can do. Thanks for listening -

Sincerely,

RE: SRBA Claim(s) 36-04048
Water Right 36-10498, 36-10499

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Enclosed is also a profile report of water right 36-10498 and 36-10499 showing you as the current owner. Once a right has been decreed it is no longer necessary for a Notice of Completed Administrative Proceeding to be filed with the SRBA Court.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett

Dear Mr. and Mrs. Ruffing:

Department of Water Resources
Southern Region

I have reviewed your letter of November 3 with Gary Spackman. I have also reviewed your water right for the ground water well in question, which you correctly identified as right 36-04048.

Your water right was originally filed as a beneficial use claim and thus had not been verified by the Department prior to the Snake River Basin Adjudication (SRBA). As a result, the claim never had any Department conditions which would have clearly identified your well and right as supplemental. The right as recommended in the SRBA does include a remark stating that the right is used in combination with water from the North Side Canal Co.

If North Side Canal water was used on 100 of your total 200 (approximate) acres at the time the well was drilled, then we believe there is a presumption that your well and ground water right 36-04048 is supplemental to 100 acres (or whatever number of acres you applied the canal water to prior to developing the ground water). Our ground water measurement reports and field notes indicate that a canal lateral and pump is still in place and tied into the mainline off of your well.

We do not believe that in your case, the Department can prohibit you from selling your canal shares. However, future management of ground water in the Snake Plain Aquifer may mean that you will have to use your 100 canal shares on a portion of your farm before applying ground water to that same portion. If this management scenario or requirement is implemented and you have sold your shares, then you may be prohibited from using ground water on the acreage or portion of your farm which was once irrigated by the canal shares. For this reason, you should carefully consider the sale of your canal shares and realize that such a sale may not be in your best future interests.

Sincerely,

Tim Luke

Gary Spackman -

Sir: - Tony & I (Glenna)

Ruffing (36-04048) have
been thinking about selling
our canal water - We have
100 shares - but want to
only sell 90 shares -

We are not sure as to how
our irrigation well is classified.
We wanted like a clarification
- is it a regular well or
a sub well - Please
classify for us - We
do not want to get
into trouble - We have
200 acres of land - I really
do not know what information
you need - the irrigation
well can handle all the
irrigation - very good - &
we do not have enough
canal water -

Thank you for your
time - Hope to hear from
you soon -
"Have a good day" (☺)

SUBJECT: Claim 36-04048, Tony Ruffing

Today Mr. & Mrs. Ruffing came into my office to discuss Spackman's letter concerning the sale of their canal shares. Mr. Ruffing said that he bought 160 acres in 1952 with 90 canal shares. A few years later they drilled an irrigation well. They have very sandy soil, and irrigated by gravity. A small ditch runs 1/2 mile to their farm to deliver the canal water. Both sources were used fully to properly irrigate the ground. Sometime later, they bought another 40 acres with another 10 shares. Irrigation was by gravity until 1978 or '79 when two pivots were installed with high-pressure nozzles. They used the well as the primary water source for the sprinklers, but continued to divert canal water in order to protect their shares. The actual amount of water that was used in the pivots probably was not very much; most of the time, water in their ditch simply ran through their farm and back into the canal system. They converted to low-pressure nozzles two years ago, and can no longer use canal water (debris in the canal water plugs up the sprinklers).

Since the canal water represents a financial burden without providing any economic benefit, they want to sell their shares to someone else. It will be too expensive to continue to pay for the shares once Mr. Ruffing retires (which could be very soon). Kelly talked to him about injecting the shares into the aquifer, but this may not provide any economic benefit to these folks. They will probably be back in later to talk to Allen. Hope this information helps.

GROUNDWATER MEASUREMENT REQUIREMENT ANALYSIS

FILE: A36-04048

DATE: 7/24/90

BY: lw

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8) \times (H.P.) \times (EFF.)}{TDH}$

Q = CFS

H.P. = Total Brake Horsepower of pumping plant (including booster)

EFF. = Pumping plant efficiency (ASSUME 70% OR 0.70)

TDH = total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = depth to water in FEET from land surface to pumping water level

PSI = pumping pressure measured in psi near pump
(if open discharge assume zero [0])

$$Q = \frac{(8.8) \times (125) \times (0.70)}{[(.70) + (.76 \times 2.31)]} = 3.14$$

REMARKS

ANNUAL VOLUME ANALYSIS

POTENTIAL Acre Feet/Acre/Annum = $\frac{(\text{DAYS IN SEASON}) \times (1.98) \times (Q)}{(\text{RECOMMENDED ACRES IRRIGATED})}$

(season)	(days)	
3/15 - 11/15	246	(246) X (1.98) X (3.14)
4/1 - 11/1	215	
4/15 - 10/15	184	
3/1 - 12/1	276	(200)

POTENTIAL = 7.64

REQUIRED Acre Feet/Acre/Annum = 4
(AF/Ann/Ac irrigation requirement from chart for area)

NOTE that this is NOT Consumptive use

IF POTENTIAL IS GREATER THAN REQUIRED THEN NO MEASUREMENT NECESSARY (✓)

IF POTENTIAL IS LESS THAN REQUIRED THEN MEASUREMENT IS NECESSARY ()
