Re: Original Notice of Claim to a Water Right No. 67-706

Renumbered to Notice of Claim to a Water Right No. 67-14410

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section
Western Region Office
