MOTION TO FILE:

☒ LATE NOTICE OF CLAIM

☒ AMENDED NOTICE OF CLAIM

INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a separate form for each late or amended Notice of Claim.

This form has been adopted by the court in *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

☐ I have read SRBA Administrative Order 1, Rules of Procedure (amended Sept. 30, 1996).

My name is Norman L. Bagnall

My address is 571 N Meridian

MOTION TO FILE A LATE NOTICE OF CLAIM

A Motion to File a Late Notice of Claim will require a hearing before the Presiding Judge.

☒ I did not file a Notice of claim to the use of water in the SRBA because:

The claim being filed now was a combined claim
under the Number A36-15172

☐ I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stock watering use.

☐ I am providing legal and factual documentation for my claimed use of water. You must describe these documents and attach a readable copy. (You do not need to fill this out if you are reinstating a Notice of Claim for domestic or stock watering use, but you must attach a copy of your Notice of Claim.)

I have attached:

- ☐ A fully completed Notice of Claim (available from IDWR).
- ☐ A claim filing fee for a domestic and stock watering use. IDWR may charge this fee pursuant to I.C. § 42-1414. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____.
- ☒ A claim filing fee and a late claim fee for those claims other than a domestic or stock watering use for which a notice of claim was not filed. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ 56⁰⁰.

Follow these instructions regarding the hearing on this motion.

1. Contact the Clerk of the SRBA Court (208-736-3011) to request a hearing date and time.
2. Fill in the following information:

This motion will be heard on _____
(Insert Date and Time)

at the SRBA courthouse, 253 Third Avenue North, Twin Falls, Idaho.

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A Motion to File an Amended Notice of Claim may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

- ☒ I must amend my Notice of Claim to the use of water in the SRBA because:

Two claims were combined (36-02072 & 36-04110) using 8-20-54
as Priority Date. We are asking to divide the claim into the
original (298 acres Priority date of 7-9-48) (licensed) and the
beneficial use claim (52 acres Priority date of 8-20-54)
WLP

- ☐ I am providing legal and factual documentation to support my amended Notice of Claim. You must describe these documents and attach a readable copy.

I have attached:

- ☐ An amended Notice of Claim (available from IDWR).
- ☐ Payment of the following additional fees required by IDWR:

SUBJECT: SF4 LATE CLAIM FILING FOR A36-04110
phone () walk-in(X)

He came in to file a late claim and I assisted him in completing the late claim and filling out the sf4.

We discussed the status of the rights and identified the conflict in claimed vs developed diversion rates. He stated that the 200 hp pump was on the system in 1968 when he moved onto the property but that he did not know when it was installed. He stated that he would research that issue. That right was claimed with an addition of 6 acres that were identified through GIS and with a diversion rate that would when combined with the licensed right, be for an inch to the acre. This was with the understanding that the claim will not necessarily be the recommendation. I visited with Nick on the legal procedures for the two rights to proceed through the adj court. He felt that the original right would not require a SF4 amendment filing with the court as none of the licensed elements of the original claim were being expanded.

Nick indicated that the hearing May 27 should still be valid but that everyone could participate by phone. I suggested that when he contacts the court to file the SF4, that he notify them at that time that he wishes to participate by phone.

Norman called to discuss some papers he received from the S.O. In reviewing them he saw where I had identified the date that he purchased the property as being in 1968. He indicated that it was actually in the 1970s that he purchased the property.

I called the SO and talked to Sara Denniston. She indicated that it would be acceptable for Norman to make the change on that page and initial the change. She also stated that a department representative would also have to initial the change.

The change will not affect the recommendation or any elements of the settlement.

Duration: 0 hours

We met to discuss the priority date for the beneficial use claim. He brought in an aerial photo that he obtained from the USDA-ASCS aerial photo archive office in Salt Lake City UT. He stated that the flight date was 1956. The map number was Y5-3R-100B. I made a copy of the relevant portion of the map at 78% of normal. That photo showed the corral area under construction and the small triangular area in the SWSW corner as not being irrigated. We discussed the findings and I told him that I would get with the attorney at the SO and prepare a SF-5 hopefully by mid month.

COMMUNICATION DOCUMENTATION

AGENT: Kelly K Christensen

He called to let me know that he had talked to Joe Shep concerning the addition of the 200 hp pump. Joe stated that he was working on a neighboring farm in 1954 and that he recalled the well for this right needing to be deepened following the drilling of the Bureau of Rec. well that went in across the road. As far as he could remember, that time would have been when the 200-hp pump was installed and the additional acres developed subsequent to that date.

He called to discuss the installation date of the 200 hp pump. He knows that the pump was already installed when he showed up on the property in 1968.

He stated that there was also a Joe Shep that had worked on the property. I also suggested some questions to narrow the installation time frame for the pump

In seeking information to establish the priority date for the increase in diversion rate and additional acres Mr Bagnall sought power records, cfsa records, well drilling records, aerial photography, and visited with 2 individuals. He stated that he could not find any documentation of the date the 200-hp pump was installed.

Conversations with Mr Burton (owner at the time of the licensing field examination) did not provide any concrete information. He did state that he thought that the well was deepened in the 1950s when A&B developed a well on the adjoining property.

He also visited with Joe Schoepp who worked on a neighboring farm during that time and later worked on that property. He stated that he remembered that the well was deepened around 1955. He could not remember the 200-hp pump being installed but figured that they would have installed the pump when the well was deepened to be able to produce an equivalent diversion rate from the lower water level. The additional acres would then be developed after that date.

Mr Bagnall stated that he recorded the diversion rate in July 1998 as approximately 2400 gpm when the system was operating at full capacity. This equates to approximately 5.38 cfs. Brian Higgs (522-0399) is the contact person for the measurement district for this area.

1948	application for permit	
1954	licensing field exam.	Agent identifies the 150-hp pump and the 350 acres
1955	approx. date of well deepening	200-hp pump installed (assumption)
1956	place of use expanded	approximate date of additional acres developed under 36-04110 Per Mr Schoepp
1962	ascs aerial located	photo shows 348.8 acres irrigated and 7.2 acres not irrigated
1968	property sold	Mr Bagnall purchased property. 200-hp pump already on well
1978	corrals removed	the 6.4 acres were developed
1979	canal straightened	the 0.80 acre was developed
