RE: Water Right Claims for Park Intermediate School (67-10583) and Weiser Middle School (67-10584)

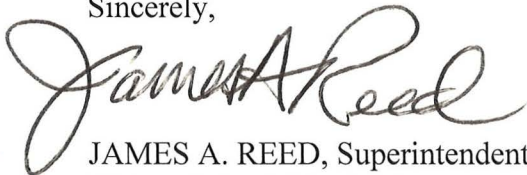

Dear Sir or Madam:

Please find enclosed the information to verify the priority dates for the water rights claims for:

- **Park Intermediate School (67-10583):** A notarized copy of a Board of Trustees resolution to begin using an independent source of water (well) dated August, 1958.
- **Weiser Middle School (67-10584):** A notarized copy of Board of Trustee minutes from May, 1957 describing the change from irrigating with ditch water to use of a pump and a well.

We hope this documentation sufficiently establishes the priority water use rights for these two claims.

Sincerely,

JAMES A. REED, Superintendent

BOARD Minutes
5-13-57 to 3/11/68

May 13, 1957

RESOLUTION OF GOVERNING BOARD

"Resolved that SASP Form 1A, Certification and Agreement for participation in the Federal Surplus Property Program, noted above shall be spread upon the minutes of this meeting and that L. J. Eason, Superintendent of Schools, shall be and he is hereby authorized as the representative of Class A School District No. 431, of Washington County, Idaho, to obligate its funds and obtain the transfer to it, from said agency, of surplus property upon and subject to the terms and conditions relating to transfer of property for educational or health or civil defense purposes set forth above and in its name and on its behalf agree thereto.

"Resolved further that a certified copy of this resolution be given to the Idaho State Agency for surplus property, and that the same shall remain in full force and effect until written notice to the contrary is given surplus property section."

I, Agnes Allan, hereby certify that I am the custodian of the official records of the Class A School District No. 431 Board of Trustees, and that the foregoing resolution is a true and correct copy of a resolution adopted by a majority of the members thereof present at a meeting of said Board regularly called on the 13th day of May, 1957 at which a quorum was present; and that L. J. Eason, is duly appointed and acting superintendent of said organization.

The above resolution was seconded by Arlo Alder and carried by unanimous vote.

An award for safe operation of the schools from the State Insurance Fund was read.

It was decided that the chairman of the Board, Mr. A. A. Bresheers present the diplomas to the high school graduates and that Carroll Martin present them to the 8th grade graduates.

The bids on the pipe and sprinklers were discussed. Motion was made by Fred Eisenbarth that the superintendent be authorized to go ahead and purchase the materials from the bids presented wherever he could get them the cheapest and best. Motion was seconded by Carroll Martin and carried.

Motion was made by Carroll Martin, seconded by Robert Emmons that additional liability insurance be taken to raise the limit of liability for one person to \$100,00 and for more than one person \$300,000. Motion carried.

It was decided that Charles Williamson should be paid the cannery salary for May and that the cannery would open some time the first week in June on a trial basis for one day a week.

Motion was made by Carroll Martin, seconded by Fred Eisenbarth that a hay blower be purchased from H-H-H Co. for use on the farm. Motion carried. Price of blower \$250.00.

It was reported that the City and the County were no longer going to use the irrigation line that carries water to the football field back of the Junior High. It was decided to look into the possibility of installing a pump when this line is no longer usable by the school district. With regard to the line that irrigates the front lawn at the Junior High it was decided that a meeting should be called with the rest of the people on the line to work out some means of repair acceptable to all concerned.

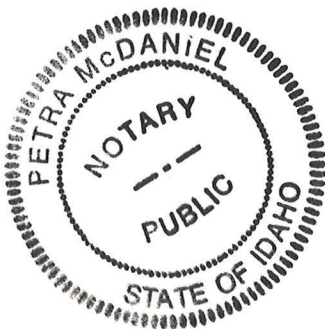

The purchase of an adding machine for the high school office was postponed until such time as we can be more nearly sure as to what our reserve balance will be at the end of June.

Purchase of football equipment for the Junior High school was postponed for the same reason.

Park Intermediate School- 67-10583
Weiser Middle School- 67-10584

Jim: In your affidavits you stated that the priority date is based upon when the school was built and water was first used. Based on this information, it seems that if you could supply information as to when the schools were built, we would probably have enough information. There are all types of information that could be used to show this: newspaper articles, school building records, town histories, dated photographs, affidavits of individuals who have first hand knowledge of the schools, etc. We have a pamphlet from the department that I could send you (or you may already have) that has other suggestions of documents that can be supplied as evidence of priority. If you have specific information related to when the wells were dug or the pumps were purchased and installed that information would be particularly helpful. The letter you have from the previous superintendent may also be useful to support additional information because it would relate specifically to the water rights.

If you cannot provide information that relates to the claimed priority dates, please look for the oldest records you have that will support water use. If we can show that the water was used prior to March 25, 1963, the claim will be recommended with the priority date that can be supported. An earlier priority date is better, but for groundwater a later priority date will probably not cause you problems with getting your water. Please contact me again if you have any additional questions about what types of information can be used to show the claimed priority date for these water rights or if you have any questions about the information contained in this letter.
Thanks for your help in this matter.

Jennifer: I am in receipt of your October 2 letter. Would you provide me some examples of "additional information" that is acceptable to support the water rights claims? The superintendent before me provided a letter stating that he had first hand conversations with school officials that came before him of the use of the wells. We would not have retained electric bills or service records for pumps. Minutes of Board meeting would not contain mention of a pump.

I appreciate your help.

Subject: Additional SRBA information requested

Dear Mr. Reed,

I have been reviewing SRBA claims for 2 school yards in the Weiser School District and found your contact information in our files. I am in need of some additional information related to these water rights. If there is another person who should handle my request, please let me know as soon as possible.

In reviewing the school district's water right claims for Park Intermediate School (67-10583) and Weiser Middle School (67-10584), I have discovered that additional information is needed to verify the priority dates for these claims. Contained in the files are two affidavits provided by yourself that indicate water use began when the schools were developed in 1956 and 1904, respectively.

For an affidavit to sufficiently support a given priority date it should be a statement conveying first hand knowledge of the water use. Based on the statements that were provided, it seems that you do not have first hand knowledge of the development of these water rights. However, you are likely in possession of additional information that was the basis of your statements. Could you submit the information that you based your statements on? Anything that shows the use of water in the years claimed will be helpful. In addition, information related to where water was obtained from prior to pumping the well at Weiser Middle School, would be helpful if it is available.

Please respond with this information by October 16, 2006. If you have any questions, feel free to contact me at this e-mail address or by calling (208) 287-4918.

Sincerely,
Jennifer Dean

Hello Mr. Reed,

Thank you for your correspondence. I have put a note in the files that you are indeed attempting to collect evidence of priority, and that I have granted you an extension. September 22 is acceptable for you to submit your evidence of priority. The pamphlet included with our letter should explain what we need, but please don't hesitate to contact us again if you need assistance.

Thank you,

Department of Water Resources

Gentlemen:

Enclosed please find copies for your files of the following claims: A67-07022, A67-07023, and A67-10584. These three notices of claim have been processed and no further action is required by you at this time. Please review these claims to verify the information; if there are any errors or questions, please contact this office.

The fourth claim, A67-10583, however, has not been processed. Inadvertently, the notary did not sign this notice of claim. Please obtain her signature and return the notice of claim to this office for processing.

If the claim is returned to this office by January 29, 1990, late fees will not be assessed. Please do not hesitate to contact this office if you have any questions.

Sincerely,

for *Donald V. Shaff*
