Remarks:Comments:

1. STERLING 11/4/1992 CHANGE OF OWNERSHIP & FEDERAL LAND

Comment: RECEIVED CHANGE OF OWNERSHIP FORM FROM BARINAGAS ON 11/13/90. OWNERSHIP CHANGED FROM BARINAGAS TO THE WOODYS. DEED INCLUDED DID NOT MATCH CLAIMED POU. LETTER WAS SENT TO BARINAGAS REQUESTING AN EXPLANATION. THE RESPONSE FROM JOHN BARINAGA EXPLAINED THAT SOME OF THE LANDS WERE OWNED BY BLM. THOSE QUARTER QUARTERS HAVE BEEN REMOVED FROM THIS RECORD.

2. SSHERMAN 3/1/1996 ADDRESS CHANGE

Comment: ADDRESS CHANGE BY CLAIMANT LETTER.

3. csaxton 6/21/2006 Recommendation

Comment: This right was claimed as de-minimus use and only \$25 was paid. The total diversion rate from all points of diversion will be limited to 13k per day. QQs not recommended fell on BLM land.

4. csaxton 6/21/2006 Diversion Rate

Comment: Diversion rate recommended is based on 4000 sheep per conversation with claimant. 1000 sheep is 0.04 cfs, so 4000 sheep should divert 0.16 cfs.

5. csaxton 6/21/2006 de-minimus

Comment: 6500 sheep or less will divert less than 13k per day.

Dear Tom Woody,

Per our conversation, I am attaching several documents in a couple of different e-mails so I don't bog down your system.

- 1) Claim forms for 67-10695 and 67-10696. Please make whatever changes you want to the claim, sign the claim in front of a notary and return it to this office.
- 2) Notice in change of water right ownership form.
- 3) Proof report of water right 67-4509 which appears to be applicable to land you know own.

Please feel free to contact me with any questions.

Respectfully submitted,

CONVERSATIONAL MEMORANDUM

Date: September 8, 2005

To: File 67-10695 and 67-10696

From: Craig L. Saxton

Subject: Evidence of Priority and amended claims

Tom Woody called about the letter we send him requesting evidence of priority for the above mentioned claims

Hm: (541) 534-4741

Cell: (541) 980-2747

woody@eoni.com

After reviewing the claims, both 67-10695 and 67-10696 were filed on the \$25 claim form for de-minimus use. I asked Tom if he felt he used more than 13,000 gal per day. He didn't seem to think so. He waters 4000 sheep max in the summer and 200-600 head in the winter. He is fine with how the claim is filed short of needing to amend the claim. No evidence of priority needed.

He did say that there was a POD missing on one of the claims. I sent him two unsigned claim forms in a word document. I told him to make the changes he wanted to make, either by altering the document or just printing it off and marking changes in pen and initialing his changes. He will have it notarized and send it back to me with a map he is having someone put together with GPS points of the POD locations.

We also spoke about the need for a change of ownership for claim 67-4509 as he is the owner of that property.

RE: Snake River Basin Adjudication (SRBA)
Washington County, Claims #A67-10695, A67-10696
Department of Water Resources
Western Regional Office

Dear Claimants:

We are writing with regard to the Change in Ownership Form which we received from you. There are a few items which will require clarification before the completion of the change of ownership of the water right claims listed above.

On the form which you returned to our office, you stated that the change in ownership does not result in a splitting of the water rights claimed. However, there are some lands which you have claimed for stock watering which are not included in the deed we received from you. I have enclosed a map showing in pink the acres not included in the deed but described in the above claims for stock watering. Those in purple are the claimed acres covered by the deed. Also included are proof reports for the claims in question.

The main question we have is this: Do you intend to convey all of the water right to Mr. and Mrs. Woody? If this is NOT your intention, please continue reading for further explanation.

Claim A67-10695 describes two quarter-quarters which are not included in the deed: the NW NE of Section 3 and the SW NW of Section 4, both in T14N R4W. From our data, it appears that land may be owned by the federal government. If that is the case and the land is used for stock watering, please confirm that so we can include the information in the claim. If they are not used for stock watering, those quarter-quarters should be removed from the claim.

Claim A67-10696 describes seven quarter-quarters not included in the deed: the SW NW and NW SW of Section 20, the SW SW of Section 28, the SW SE and SE SE of Section 31, and the SW SW and SE SW of Section 35, all of these in T15N R4W. The federal government appears to own the SW SE and SE SE of Section 31 and the SW SW and SE SW of Section 35. As explained above, please confirm this or reduce the acreage accordingly. If any of these lands are not government

property, but are still owned by you and are used for stock watering, the water right claim should be split so that you do not lose those portions of the water right which still belong to you. Please indicate which quarter-quarters those may be and the portion of the total diversion rate and number of livestock which is used on those tracts. If they are not used for stock watering, they should be removed from the claim.

Please send the information to this office to my attention. Please respond to our questions before February 18, 1991. Do not hesitate to contact this office if you have any questions or concerns.

Sincerely,

I sent a letter to the Woodys asking that they make the necessary changes to the claims and sign and return those claims so that we could change the POUs to include only the lands described in the deed. See the letter dated 8/3/92. We received no response from the Woodys. Since no response was received, the federal lands were not removed from the A records, nor were the quarter-quarters that were mistakenly claimed. They were removed from the R records, however. If BLM doesn't claim those quarter-quarters, the reviewer may find it appropriate to recommend them as a part of these rights. The BLM owned land that was removed from the R records was: NWNE S3 & SWNW S4, T14N R4W on Claim R67-10695; SWSE, SESE S31 & SWSW, SESW S35, T15N R4W on Claim R67-10696. The lands which Mr. Barinaga stated were mistakenly claimed and were then removed from R67-10696 were: SWNW, NWSW S20 & SWSW S28, T15N R4W. Another item worthy of additional review is the apparent mistake on Mr. Barinaga's part in his 1/21/91 letter. He described the NWNW S3 & SWNE S4 instead of those which I removed, the NWNE S3 & SWNW S4 of T14N R4W.

RE: Snake River Basin Adjudication (SRBA)
Washington County, Claims A67-10694, A67-10695, &
A67-10696

Dear Claimants:

We are writing with regard to a Change in Ownership of a Water Right form which we received from the John Barinaga family. All correspondence up to this point has been with the Barinagas, but since they have stated that you are now the owners of the water rights, any further contact will be with you. Before we complete the change of ownership of the referenced water rights, there are a few items which we would like you to review.

There were originally questions as to the ownership of some of the land described on the claims. The uncertainties arose when a comparison was made between the claims and the deed conveying the Barinagas' land to you. There were a few quarter-quarters which had been claimed but were not described in the deed. According to a letter from John Barinaga, some of those quarter-quarters are owned by the federal government. There seems to be an error in the legal description of two of the quarter-quarters, however. For Claim A67-10695, apparently the lots he described as the NWNW Section 3 and the SWNE Section 4 of Township 14 N, Range 4 W should actually be the NWNE Section 3 and the SWNW Section 4 of the same Township and Range. Please confirm this. The letter from Mr. Barinaga is attached.

Mr. Barinaga went on to explain that some of the land originally described in Claim A67-10696 was improperly included and that they did not use those quarter-quarters for stock watering. Please check those legal descriptions and confirm whether they are lands which should not be included on the claim.

I have included an amended version of Claim A67-10696 for your review. The three legal descriptions which were mistakenly included on the original claim have been removed. In order for this amended claim to replace the original, it must be signed and notarized. Please review the claim before

signing and returning it and see that it correctly describes the water right.

Proof reports of claims A67-10695 and A67-10694 have been included for informational purposes. A map of the area has also been included to make your review of these claims easier.

Please return the amended claim to this office if you agree that the information is correct. If you disagree with the claim, make the appropriate changes on the claim and explain why those changes were made. I would appreciate your response by September 3, 1992. Thank you for your help and do not hesitate to contact me if you have any questions.

Sincerely,
