Subject: Got your phone message

Craig, Thanks for returning my call. (I got your message on my home phone when I returned last night).

On December 6, I sent you a letter with the Error Forms for each of my claimed water rights. (On three of them I checked "I Accept"). On the one water right in question, I sent a printout of a map that Doug Jones of the Twin Falls IDWR office and I worked up to help with visualization. It looks like the "Place of Diversion" section and "Place of Use" need to be altered.

I did have a few questions which I outlined in the letter. If I need to come up to Boise to sit down with you, I can do so. It's no big deal for me to make the trip. When you get a chance, if you could take a look at the material I sent and let me know what you think, I'd appreciate it.

I think the one thing that I should have done that I failed to do is claim spring stock water rights for the unnamed stream which delivers that Falls Creek irrigation water. I did claim stock water use for water right 67-0098 but in retrospect, I should have claimed year-round use for livestock use out of that stream. I'm sure the stream must have been a natural drainage before it was ever used by the homesteaders for water delivery because there are natural springs all along it and it never seems to dry up, regardless of whether Falls Creek water is being diverted to it or not.

Thanks again for your help. SVZ

Dear Craig,

In late November, I received the packet of information about the preliminary recommendations concerning the four water rights I claimed on my place in Indian Valley, Basin 67; namely, water right #'s 67-98, 67-11267, 67-11268 & 67-11269. In principal, I agree with your recommendations but I would like to discuss some possible discrepancies in some of the them. Because I live in Twin Falls and work near the IDWR regional office here, I met with Doug Jones on December 5 to see if he felt that some of my issues had merit. As a result of that meeting, I am attaching a map of my property along with his interpretation of the way the Beginning and Ending segments of water right # 67-11267 should read under Point of Diversion. That one water right was the only one I discussed with Doug but I have made comments about some of the other one. Doug informed me that he does not have authority to make entries into the IDWR computer system for Basin 67 and I would have to forward my questions to you.

Here are my comments about each of the water rights:

Water Right 67-11267, Thorn Creek

Under Point of Diversion, your preliminary recommendation shows the Begin of Stream at the same point as the End of Stream. (See printouts). You will notice the Thorn creek enters my property from the north and from an unnamed tributary to the east. I believe both of these sources should be declared in my water right. One thing I am not sure about is whether the springs along Thorn Creek and its tributaries is part of my water right. Not only do the livestock use the springs but during spring run-off, they use surface water which flows from the mountains. Because Section 24 E1/2 NW1/4 is owned by the BLM, Doug believes there should be an End of Reach as the water travels from east to west onto BLM land and then another Beginning of Reach as it enters Section 24: NWNW. Under Place of Use, S24: NENW should be removed also because I don't own it. (It does appear the U.S. government has claimed a water right for that 80 acres piece because there is a little blue box shown on the map).

In late 2002, I purchased two 40 acre parcels on the west part of my property from the BLM: Section 23: NENW and Section 23: NESW. Your records seem to already accurately reflect this fact because in your recommendation, you show Section 23: NESW as the End of Stream Flow.

Thank you for your help on my water rights issues. I really appreciate all the hard work you are doing.

Dear Craig,

Thanks again for returning my telephone call this morning to let me know that no further evidence of priority is necessary regarding my Adjudication Claims, 67-11267, 67-11268 and 67-11269. If I correctly understood what you were saying, because these claims are for springs, stock water and storage, the letter which IDWR sent me dated August 30, 2005 should not have been sent after all.

According to the letter, I was required to respond by September 16, 2005. Although I believe that no written reply is necessary, I am sending you this correspondence to confirm our conversation of this morning. If I am mistaken and I am required to submit any further documentation of any kind, please let me know. I certainly want to do everything possible to insure my water rights are preserved.

Once again, thanks for taking the time to call me to let me know what was going on. I was trying to decide if I needed to drive to Weiser and to see if I could get Bob Whiteman, the former owner, to draft and sign an affidavit. Your call saved me a lot of trouble.

Sincerely,

Steve VanZandt

Subject: Evidence of priority

Spoke with Steve Vanzandt about EOP. Wk: 736-2190.

I told him that his letter was sent in error and that he paid \$25 for all his claims and that meant that they were claimed under 42-111 and did not require EOP. I told him he didn't need to send anything in.
