Remarks:

Comments:

1. csaxton 11/16/2005 Exchange

Comment: This is claimed as an exchange. Water decreed from Fort Hall Creek is injected into the Weiser River simply by not diverting from Fort Hall Creek, and is taken from the Weiser River through the Farmers canal as an exchange. This practice can only take place when there is sufficient water in Fort Hall Creek to fill the priority of this right.

2. csaxton 11/16/2005 POU

Comment: The PPU acreage recommended under this right is limited to the maximum amount of acres that could be irrigated by water rights 67-373B, 67-375A, and 67-11304A at 5/8 inches per acre.

3. csaxton 11/16/2005 Quantity

Comment: No limiting remarks put on quantity because when all the rights applicable to this POU are used in conjunction, the maximum diversion rate never exceeds 1 inch per acre.

4. csaxton 11/16/2005 Copied From Claim

Comment: THIS CLAIM IS BASED ON A COMBINATION OF WATER RIGHTS 67-00372 AND 67-00374. 67-00372 = 0.08 CFS AND 67-00374 = 0.12 CFS | THIS WATER RIGHT IS DECREED FROM FORT HALL CREEK, HOWEVER IT IS DELIVERED THROUGH THE FARMERS CANAL. FORT HALL CREEK WATER IS EXCHANGED FOR WEISER RIVER WATER.

MEMORANDUM

*no flow measurement

To: File
From: Melanie Vining, contract field examiner, Basin 67
Date: June 14, 2005

Re: Water rights 67-14532, 67-14534, 67-14542

The Problem:

The water rights listed above originated with decreed water rights 67-50a, 67-55, and 67-11305 (combined from 67-61 and 67-62). These rights were all subject to the Muir vs. Allison decree; however, the place of use for each was different than is currently claimed. I met with Mr. Scism, the current owner, on 6/14/05.

Notes:

The decreed place of use for 67-14532 was originally to the northwest of the claimed POU, in T17N, R01W, Section 15 NESW, NWSW, NWSE, NESE, SWSE, and Section 14 SWNW. This ground lies upstream on the Weiser River.

The decreed place of use for 67-14534 was originally to the west of the claimed POU, in T17N, R01W, Section 15 SESE, Section 22 NENE and SENE, and Section 14 SWSW (this QQ is included in claimed POU).

The decreed place of use for 67-14542 was originally to the north of the claimed POU, in T17N, R01W, Section 14, NWSW.

Mr. Scism bought the property in question in 1979. He said that all of the water rights currently used came with the land and were in use when he purchased it. It does not appear that there are any competing claims on this water. He also stated that he was told that originally, there were several small ditches in the area and that at some point in time their waters were combined and added to the Robertson-Sevey ditch, from which all of these claims are delivered. This MAY explain the change in POU, but Mr. Scism was not aware of any further history.

I visited the claimed POU with Mr. Scism, and the lay of the land supports the delivery of water from the Robertson-Sevey ditch (see attached map and notes). Geography supports that this water could have been transferred from the decreed POUs to the claimed POU, as all of the lands in question lie downhill from the Robertson-Sevey ditch, and downstream from the POD (T17N R01W, Section 4, NENENE).

The west half of Section 23 NWNW in the claimed POU lies on the west side of Farmer's canal, which cuts through the claimed POU (see attached map). Mr. Scism said that in some years, this land could be irrigated with Farmer's canal water. However, the

claimant explained that in order to irrigate this land from the Robertson-Sevey ditch, water was allowed to flow into Farmers Canal (see red arrows on map) and then immediately was pumped via a “big squirt” tractor-mounted pump onto the land in question.

NOTE: This memo may also be pertinent to 67-14533, 14531, and 14541, as they are the other parts of the splits off of the parent rights. These claims are all in the name of Karl and Judit Cole. See attached map for location of property.

Dear Mr. Scism:

We have processed Changes of Ownership for portions (one portion to Fruitvale Properties and one portion to Shumway) of your original claims to water rights as referenced above. These changes of ownership resulted in splits of your claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by adding alpha-suffixes to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim numbers reflect your remaining portion of the original claims after the changes of ownership. Enclosed are copies of these new claims for your records. Please refer to your new claim numbers when corresponding with our office.

If you have any questions concerning the ownership changes, or the enclosed claim copies, please feel free to contact this office.

RE: Ownership of Property in Adams County

Timberline Title and Escrow
P.O. Box 6
Council, ID 83612

Gentlemen:

I have received several Notice of Change of Water Right Ownership forms for property within your county. I need more information regarding the **current ownership** of this property in order to update our claim files. Could you please research your records and send me the deeds to complete the chain of title between Douglas Scism's ownership and the current ownership of each parcel listed below?

The property in question is located within the following legal descriptions:

Twp. 17N, Rge. 1W

Section 14	S $\frac{1}{2}$ SW $\frac{1}{4}$
Section 15	SE $\frac{1}{4}$ SE $\frac{1}{4}$
Section 22	E $\frac{1}{2}$ NE $\frac{1}{4}$
Section 23	W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$

Your assistance in this matter would be greatly appreciated. This property appears to have changed ownership several times since the claims to water rights were submitted in 1989 and I would like to make sure I take appropriate action in regard to the ownership changes.

If you have any questions in regard to this request, please do not hesitate to contact me.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
