I don't know who you might have handling Basin 67, but I have a loose end I'd like to get tied up.

Claim no. 67-14406 resulted from 69-10099, which was recommended in the D&S, objected to by the Federal Stockwater Group and also found to actually be located in Basin 67 instead of Basin 69. In the end, as shown on the Summary Sheet of the SRBA Court web site, 69-10099 was decreed disallowed - should be filed as 67-14406.

I see on the IDWR site no recommendation has been made, but the claimed priority date is 6/1/1883. This is a claim for stockwater from a spring and we have been changing our priority dates for these beneficial use claims from the earliest historic use to the forest reservation date. As such, the priority date for this claim should be changed to 5/10/1906. The other elements of the claim on the site are accurate. If this change can be made, we'll look forward to seeing it in the preliminary recommendations when they are circulated.

#67-11875.
