Re: Amended Claim/Director's Report in Accordance with Rule 10.f

Dear Clerk:

Please find attached an Amended Director's Report for water right no. 67-12337. As the initial hearings for Basin 67 have not already occurred, an amended claim was filed by the claimants in accordance with Rule 10.f of Administrative Order 1. The attached Amended Director's Report takes into consideration the amended claim.

If possible, please ensure that the objection and response deadlines for the attached Amended Director's Report has already been established prior to the scheduling of the initial hearings for Basin 67. It is anticipated that the initial hearings will be held in March of 2008.

If you have any questions regarding the Amended Director's Report, do not hesitate to contact me at 287-4921.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Shaff', is written over a horizontal line.

Remarks:Comments:

1. csaxton 7/28/2006 POD system
Comment: My understanding is that this system is a separate delivery system than the decreed water on the same POU.
2. csaxton 7/28/2006 Priority Date
Comment: Priority date recommended as the first day of the irrigation season in 1940.
3. csaxton 7/28/2006 Copied From Claim (1)
Comment: ROBERTSON-SEVY DITCH: 24" SEE 67-00054, 67-00060 & 67-04114.
LOST VALLEY RESERVOIR - 26 SHARES UNDER CERT. #63 & 86.
4. mvanbussum 12/11/2006 NOE
Comment: Per NOE, we are not combining diversion limit between decreed rights 67-54B and 67-60B and 67-12337.
5. mvanbussum 8/9/2007 Amended claim
Comment: Changed recommendation per amended claim. Claimant added acreage in SENE and NWSE and included stockwater on those two QQs. Claimant added cfs commensurate with new acreage.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

① Combination with 67-54B and 67-60B
② Maximum flow rate of 0.44 cfs

2. Describe the changes you wish to make in the proposed recommendation:

① Do not combine with any other rights
② Remove maximum flow rate stipulation.

3. Give a brief explanation as to why you disagree with these portions:

— See Attached Letter —

This is waste water so we have no control over
the volume.

___ I AGREE with this proposed recommendation: no changes need to be made.

Dave Tuthill
Coordinator
DEPARTMENT OF WATER RESOURCES
P.O. Box 83720
Boise, Idaho 83720

Dear Dave,

I was at the well-attended meeting in Council yesterday. I want to thank you for listening to my complaints so politely, answering so reasonably, and for the most enthusiastic help of Monica Van Bussum. Water rights are a complicated subject but very important to the life of our farm. I really appreciated your efforts to inform us about the adjudication process. However, my complaints from last September--of ridiculously short time frames and impossibly blurry photo maps--are again problems in this iteration. It seems that, as we are about the last basin and the Department needs to finish this phase of the SRBA, we are getting unfairly squeezed to meet overarching deadlines. I have been on the phone all morning hoping to get the answers I need to properly submit the Notice of Error forms. If there is a problem, I hope your office will inform me and allow the extra time you mentioned yesterday to get it straight.

First, I want to discuss why I am filing a Notice of Error on 67-54B, 67-60B, and 67-12337. Your office combined these three water rights and write they "are limited to a total combined diversion rate of 0.66 cfs." **I think it is fundamentally incorrect to combine water rights from the Robertson-Seavy Ditch (54B and 60B) with water that flows naturally onto our fields as waste water (12337).** Walk with me for a minute around the farm and I will try to explain why. The R/S ditch is up the hill from us so we go up to a neighbor's place to turn it on. There is a concrete head gate (put in by Joe Jordan) and a valve that we can close or open 2 turns, 4 turns, etc. to regulate the amount of water we are using. The water goes into a system of pipes that take it to high points on the property and then, through a system of ditches following the high ground, we can gravity-flow irrigate the pastures. A restriction to 0.66 cfs of these two rights is something we can comply with. Now let's look at the waste water. As I stated in my September 9, 2005 letter to your office concerning 67-12337, this is water over which we have no control. We cannot turn it on and we cannot turn it off. It just flows down from the mountains, through culverts under the county road and the old railroad bed, and onto our fields. It comes in at a natural low spot, and then floods onto fields that are lower yet. Provision has been made for its beneficial use, as I indicated on the map accompanying the September letter, probably since the 1940 filing date. In the spring, huge volumes of water come through the culverts and flood many acres of our pastures. In summer, it ebbs and flows as people irrigate their fields above us. By combining these three water rights, will IDWR now require us to guess what is coming in as waste water, then run up and down the hill to adjust our ditch water accordingly? Twice a day? Every two days? How are we to do this? And then, because we cannot stop the waste water, we are now supposed to neglect our better pastures that we can only irrigate with ditch water? I think this is the logical result if we allow the waste water to be counted as part of a "total combined diversion" with a maximum flow rate. It seems to me that we are put in the **untenable position of trying to comply with legal requirements that include a water flow over which we have no control.** I am requesting that your office dissolve the combination of water rights 67-54B, 67-60B, and 67-12337 in the 11/14/2006 "PRELIMINARY RECOMMENDATION." You may combine the two Robertson-Seavy rights (54B and 60B), but please leave the waste water (12337) completely separate.

SCANNED
DEC 07 2006

Now, on 67-60B, you say, "This right is limited to the irrigation of 1.6 acres within the place of use described above in a single irrigation season." The "place of use described above" is all 33 acres for which we have ditch rights. The water is all coming out of the same ditch, the same pipe, at the same time (and remember, you, yourselves, combined our ditch rights in the immediately preceding remark). How do you expect us to water just 1.6 acres out of 33 acres with a specific part of the same water and keep it separate? Any practical suggestions? Any useful reasons why we should try? If yes, please write me a note of explanation. If not, would you please completely remove the 1.6 acre limitation?

Next let's discuss 67-12337. I see you will allow me to use this water year-around for watering stock and from 3/15 to 11/15 I may irrigate with a maximum flow rate of 0.44 cfs. Does that mean that on 3/15 every year I should block up the culverts under the county road so that only 0.44 cfs comes onto our fields? That would certainly help us to not flood so many acres of pasture, but I think, depending on the snow pack, it would take one--maybe two--spring run-offs to completely wash out the county road. Alternatively, would IDWR propose to pay the millions and millions of dollars it would cost to put really big culverts (much larger than current--these run like geysers for a month or more) under the road, the railroad, our fields, the farmers' canal, and through more pastures and cottonwood trees (about ¼ to ½ mile as a guess) to deliver the flow to the Weiser River? I would certainly welcome this! And, under those circumstances, I would be happy to restrict my use to a maximum flow rate of 0.44 cfs. Failing this, however, once again, this is waste water that we cannot turn on, we cannot turn off, and we have no control over the volume so would you please completely remove the maximum flow rate stipulation?

Finally, I want to discuss issues concerning the Lost Valley Reservoir water. You say, concerning 67-2053A, 67-82A and 67-81AD, "Recommended as Right Nos. 67-14566, 67-14567, and 67-14568 in the name of the Lost Valley Reservoir Company." This morning I have talked with Steve Shumway, Dale Bolton (past President), and Bill Shore (current President). I get different answers from all of them concerning what the new water right numbers actually mean. One would assume that the three water right numbers will correspond with the A, B, and C shares but I see nothing in writing to this effect. I am unwilling to allow my individual, enforceable rights to be subsumed into an amorphous blob where, in the future, I may have no legs to stand on should problems arise here locally. Furthermore, when these water rights are officially questioned again in 20 years or so--as has been the history of our water rights over the past century--the paper trail will be hard to follow so these rights will once more be threatened from the state level. This needs more structure! A particular water right needs to be assigned to a specific new number. How about a meeting with the Lost Valley folks (invite all the shareholders, not just one at a time) to get an agreement that will be fair--and understandable--to all? We need to know how to comply with the new rules and I need to know more than that my rights are "recommended in another claimants name."

Thank you again for your attention to our case. And, please remember that if I have not stated my case clearly enough, I get extra time to correct it.

Sincerely,

Anita VanGrunsvan

STOCKWATER same as IRRIGATION

33 ACRES TOTAL

The rights listed below are limited to the irrigation of a combined total of 33.0 acres in a single irrigation season. Combined Right Nos.: 67-54B, 67-60B, and 67-12337

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Stockwater use is for 50 dairy cattle.

Use of this right is combined with water from Lost Valley Reservoir Co.

RE: 67-12337

Dear Sir:

This letter is in reply to your letter dated August 30, with an enclosure dated September 1, giving a deadline of September 16 for response or your department would "recommend...the claim be disallowed." The lucky citizens--like me--got their notices at the start of Labor Day weekend--with three days to worry about it. Others may have received theirs on September 6. Allowing time for return mail that leaves the luckiest with only 7 DAYS when legal offices would be open to formulate a reply. Hasn't this adjudication process been going on since 1987--or about 18 YEARS? Why are we given such a short end of the stick? And then, to add further insult, the map your office enclosed--on which we are to indicate our water use--is so blurry that buildings, fence lines and farm roads are indistinguishable! How can your office expect the citizens to give an accurate, notarized answer based on such poor quality information? And then, double the frustration level because water rights are such a critical issue. This communication certainly adds facts to the local suspicion that IDWR is trying to extinguish our water rights with bureaucratic timeframes, misinformation, start-all-over-again staff changes, and general bungling! I do hope the end results will be better than this letter and enclosures would indicate.

On September 6, I called your office and got a recording. However, my call was returned the next day. I talked to Dan Narsavage. He said, "Don't shoot the messenger!" and that IDWR really is on our side. I was reassured by his words and his polite attitude. He answered my questions, offered helpful suggestions, and sympathized with us for the short time frame allowed for reply. This was an encouraging start.

Now, to my specific issue. This water from "unnamed drains" is run-off water from the fields above our property. Some if it may even be gray water from the older homes in Fruitvale. It comes onto our property through culverts going under the Fruitvale-Glendale Road and the old railroad grade that parallels it. More water may come from as far up as the West Fork Road in a ditch between the F-G road and the railroad and continuing through a culvert at Monroe Street. By the lay of the land, run-off water has been draining onto our fields since the mountains were formed, and must have continued draining onto our property through the culverts since fill was put in for the county road

SCANNED

SEP 15 2005

and the railroad, probably in the 1880's. This is water we cannot turn on or off. However, one can see that provision has been made for its beneficial use. A collection basin has been dug where the culvert empties onto our ground and a system of ditches and weirs take the water to various parts of the pastures. While I could find no specific documentation, a reasonable conclusion, based on the evidence on the ground, is that in 1940 someone decided to file for the rights to this water, even though neither its source, nor the volume, was actually under his control. I am enclosing a Deed Record showing that this property sold with "water rights, aqueducts and ditches" that dates from 1903. This should easily cover a 1940 priority date. I am also enclosing an aerial photomap obtained from Adams County and indicating the point where this water enters our property and the ground that is irrigated from this water right. I have obtained copies of tax records showing this as "agricultural land" in 1915, when Adams County was formed. However, this document would not fit in the envelope provided--that your office asked us to use "to assure it arrives at the correct location." Please let me know if the enclosed is not yet sufficient proof to support the priority date claimed and the historic use of the water. I can get more; just tell me what, specifically. Also, as I have been advised, I am requesting a written copy of your recommendation for claim 67-12337.

I am also enclosing "Change in Address" and "Notice of Change in Water Right Ownership" forms. The change in ownership, I think, has been done already but the address was inexplicably shown as the property we sold in Oregon! Most likely, all the notices that have been sent previously by your office have been discarded by the Post Office in Oregon. Fortunately, a neighbor alerted me to what was happening on other of our water rights and a call got this letter to us at the correct address! Would we have lost this water right if your office had continued sending our notices to Oregon? Has a deadline passed on any other of our claims? Please check that all the water rights that go with this property have been changed to our names and correct the addresses to:

2555 Fruitvale-Glendale Road, Council, ID 83612

If you discover any problems or if there are questions, please call me at (208) 253-4456.

Thank you,

Anita VanGrunsvan

THIS INDENTURE Made this 26th day of February in the year of our Lord one thousand nine hundred and three, between Joseph Whiteley (a widower) of Council, County of Washington State of Idaho, the party of the first part and Isaac McMahan of Council, County of Washington, State of Idaho, the party of the second part,

WITNESSETH That the said party of the first part for and in consideration of the sum of Three Thousand Seven Hundred Dollars, lawful money of the United States of America to him in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged, has granted, bargained and sold and by these presents does grant, bargain, sell, convey and confirm unto the said party of the second part and to his heirs and assigns forever all the following described real estate, situate in Council Precinct, County of Washington, State of Idaho, to-wit:-

South half of the North east quarter and the north east quarter of the south east quarter of section Fifteen (15) and the North west quarter of the South west quarter of Section Fourteen (14) all in Township Seventeen (17) North of Range One (1) West B M containing one hundred and sixty acres more or less.

Together with all water rights, agqueducts and ditches thereunto belonging or appertaining thereto.

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in any wise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof and all estate, right, title and interest in and to the said property as well in law as in equity of the said party of the first part

TO HAVE AND TO HOLD all and singular the above mentioned and described premises, together with the appurtenances, unto the said party of the second part and to his heirs and assigns forever. And the said party of the first part and his heirs, the said premises in the quiet and peaceable possession of the said party of the second part his heirs and assigns, against the said party of the first part, his heirs and against all and every person and persons whomsoever lawfully claiming or to claim the same, shall and will warrant and by these presents forever Defend.

DEPARTMENT OF WATER RESOURCES

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split

<u>67-82A</u>	_____	___	_____	_____	___
<u>67-12337</u>	_____	___	_____	_____	___

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or SURVEY MAP clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

Re: Change of Ownership for SRBA claims 67-00054B, 67-00060B, 67-00081AD, 67-00082A, 67-02053A, and 67-12337. *mon mon Dave*

- ✓ The above mentioned rights are Ok to change in their entirety. No split necessary. *mon*
- ✓ Shapes have been updated already as there is no split so I just did it so Melanie wouldn't have to mess with it. *Dave*
- ✓ No recommendations were made on this right so only the claims need split.
- ✓ Please give back to Melanie when you are finished, and for now, I have b-coded them to your desk.

Thank you!

RECEIVED

DEC 29 1995

WATER RESOURCES
WESTERN REGION

December 27, 1995

Dear John

Two water right questions to make
sure your after-holiday work schedule
is exciting.

First Civil Case No. A 67-00081 AD

Your Receipt No. W016 332

Received by Ron Howerton

Jan Shurts did some good research
for me but as you know the physical
relationship up here, I'll start w/ you.
I bought 20 shares of Lost Valley Reservoir
storage from the Ball family estate in
1993. To avoid any question by SRBA
re beneficial use of the right since
purchase, I had intended to pump from
the Weiser River as correctly shown on the
Notice of Claim. We have brought power
to the site but deferred buying & setting
a pump system as the possibility exists
to deliver via the Farmers Canal by
gravity. That canal traverses our property
below the Robertson-Sevey Ditch. Both
ditches come from divertors on the main
Weiser, whereas our storage right is on
a tributary of the West Fork.

MICROFILMED

OCT 23 1996

Q-1 Assuming both the source (Main River) & exchange storage (West Fork) are fully appropriated, is the concept of ditch delivery OK — if approved by a ditch board?

Q-2 Some say I need only ditch board approval. Others say I must apply for a change of diversion (transfer) and for ditch rights through the public notice process. Given the Notice of Claim info, what do you say?

Q-3 Provided one of the ditches has adequate capacity (I'm toward the upper end of both) would my junior ditch right be of concern to existing users?

I can make temporary arrangements to deliver the 20 AF during the 1993-1998 5-year period but would prefer to "do it right" for sake of good neighbors & possible future sale of land.

Second Civil Case No. 39576
Your Receipt No. WO 16332
Received by JFW

This notice of claim to waste water was filed by me 10/29/92 & marked received by you 6/2/93. Your office marked \$50.00 by receipt but my records do not confirm payment. I have no copy of a

typed Notice of Claim from your office
as I do for the first case.

Q-4 Do I owe you \$50⁰⁰?

Q-5 Will that payment allow claim
to be finalized?

I am making beneficial use of
waste water & would prefer 1993
priority date if possible.

We can discuss these by phone
253-1103 or in Boise about
Jan 11-12 when IWRB meets there.
Hope this gives you time to review.

Best wishes to Dave T, you
& all the staff for 96.

Sincerely

Joe Jordan

Telephone
CONVERSATION-MEMORANDUM
Notes.

FILE 67-0081AD

NAME OF PARTY J. Jordan

EMPLOYEE JFW

Response

RE: Letter received from Mr. Jordan. 12/29/95 Attached.

- ① Q-1 Concept is OK as the Ditch Co will act as conveyance of storage
shores only - must be OK'd with Ditch Co.
- Q-2 A Transfer should be filed with Dept. (Discussed with J Short, DRT,
Glen Saxton)
Storage shores have been purchased - New P/O + P/A.
Claim filed for P/O on river in 1992 -
- Q-3 Ditch is used for conveyance only - shouldn't effect if physical
capacity is there. Transfer process will clear questions.
Make sure Ditch Co is willing to do this before filing transfer.
- ② Receipt covers 2 claims - see attach receipt copy.
