I don't know who you might have handling Basin 67, but I have a loose end I'd like to get tied up.

Claim no. 67-14406 resulted from 69-10099, which was recommended in the D&S, objected to by the Federal Stockwater Group and also found to actually be located in Basin 67 instead of Basin 69. In the end, as shown on the Summary Sheet of the SRBA Court web site, 69-10099 was decreed disallowed - should be filed as 67-14406.

I see on the IDWR site no recommendation has been made, but the claimed priority date is 6/1/1883. This is a claim for stockwater from a spring and we have been changing our priority dates for these beneficial use claims from the earliest historic use to the forest reservation date. As such, the priority date for this claim should be changed to 5/10/1906. The other elements of the claim on the site are accurate. If this change can be made, we'll look forward to seeing it in the preliminary recommendations when they are circulated.

Subject: 5 SRBA claims in B-67

Hey Steve,

I have 5 SRBA claims for stock water filed by the Forest Service. I have attached a spreadsheet. I have two questions;

Are the priority dates claimed for these rights the dates that the "forest" was established and can you send documentation supporting that? If not, how where the priority dates established?

Secondly. Two of the claims 67-13503 and 67-13504 shows their basis as license. However there are also SRBA claims filed on the licenses. Note that if recommended, the basis on the recommendation will be changed to beneficial use. Is there a reason you doubled up with claims on that land?

Thanks,
