Comments:

1. mvanbussum 3/6/2006 Lapsed Permit 67-2379

Comment: It appears this claim is based on lapsed permit 67-2379, which lapsed for failure to pay examination fee.

2. mvanbussum 3/6/2006 Quantity/POU

Comment: Combined use limits will be needed for this claim and 67-2356. Exact limits dependent on field exam.

3. mvanbussum 4/24/2006 POD

Comment: During field exam, Carol Youngblood only showed field examiner one POD. Recommended according to field exam.

4. mvanbussum 4/24/2006 copied from remarks

Comment: SECONDARY STORAGE IN CRANE CREEK RESERVOIR, 400 ACRE FEET. PIPE, LINES & PUMP INSTALLED IN RIVER IN JAN. 1968. PERMIT #33576/ 67-2379 ISSUED BY IDWR. CRANE CREEK RESERVOIR HAS ALSO FILED A CLAIM FOR THIS ON OUR WATER WE GET FROM THEM & WE HAVE PAID THE ASSESSMENT TO CRANE CREEK WATER USER INDEPENDENT CO INCO.

THIS CLAIM WAS AMENDED TO REFLECT THE WATER RIGHT AS DESCRIBED IN PROOF OF BENEFICIAL USE SUBMITTED BY MR. BRUMMETT, HOLDER OF PERMIT NO. 67-02379. THE ACRES IN T11N, R04W, S 34, NWSE, HAVE BEEN ADDED TO THE PERMITTED ACRES. THESE ACRES MAY NOT HAVE BEEN OWNED BY MR. BRUMMETT AT THE TIME PROOF WAS SUBMITTED, AND IT IS POSSIBLE THAT THE ACRES IN THE NWSE WERE IRRIGATED PRIOR TO THE BRUMMETT ACRES. 05/01/1995 MM.

EASEMENT

BOOK 90 , PAGE 453
INSTRUMENT NO. 92599

THIS AGREEMENT, Made and entered into this 12th day of January, 1968,
by and between WILLIAM YOUNGBLOOD and CAROL YOUNGBLOOD, husband
and wife, of the County of Washington, State of Idaho, parties of the first
part; and WILLIAM E. BRUMMETT and BETTY BRUMMETT, husband and wife,
of the County and State aforesaid, parties of the second part;

WITNESSETH: That the parties of the first part for and in consideration of
the sum of One (\$1.00) DOLLARS and other good and valuable consideration to
them in hand paid and the promises and agreements of the parties of the sec-
ond part herein more particularly set forth do hereby grant and convey unto the
parties of the second part an easement for the construction of a pipeline twenty-
two inches (22") in diameter through, under, and across the following described
lands owned by the parties of the first part situate in the County of Washington,
State of Idaho and more particularly described as follows, to-wit:

All that part of the Northwest Quarter of the Southeast Quarter
of Section Thirty-Four (34), Township Eleven (11) North, Range
Four (4) West of the Boise Meridian, lying Northwesterly of the
County Road (known as Crane Creek Road) right-of-way; SAVE
AND EXCEPTING THEREFROM a tract of land described as Block
Twelve (12), Appleton Townsite (now vacated) and more particu-
larly described as beginning at a point 437.1 feet West of the
Northeast corner of the Northwest Quarter of the Southeast
Quarter of Section Thirty-Four (34), Township Eleven (11) North,
Range Four (4) West of the Boise Meridian, thence South 249.4
feet; thence West 208 feet; thence North 249.4 feet; thence
East 208 feet to the place of beginning.

That the course and extent of the easement so hereby granted is described
as follows, to-wit:

LAW OFFICES
DONART & DONART
WEISER, IDAHO

A right-of-way twenty feet (20') in width, ten feet (10') being on either side of the following described centerline: Commencing at the East Quarter corner of Section Thirty-Four (34), Township Eleven (11) North, Range Four (4) West of the Boise Meridian; thence West along the centerline of said Section Thirty-Four (34), 1302.6 feet to the true point of beginning for this description; thence South 0° 40.8' West 845.5 feet to the Northerly right-of-way fence of that certain county road which now runs through the Northeast Quarter of the Southeast Quarter of said Section Thirty-Four (34) to the point of termination of this description.

This easement is granted to serve lands belonging to the parties of the second part which are more particularly described as follows, to-wit:

The Northeast Quarter of Section Thirty-Four (34), Township Eleven (11), North of Range Four (4) West of the Boise Meridian, Washington County, Idaho.

and this easement is given for the purpose of permitting the parties of the second part to construct a pipeline through, under and across the lands first above described belonging to the parties of the first part so that the lands last above described belonging to the parties of the second part may be irrigated therefrom.

This easement is granted upon the following conditions which are imposed upon the parties of the second part and with which the parties of the second part covenant and agree that they will comply and in the event of failure to comply then these presents shall be void and of no further force and effect. Such conditions are as follows, to-wit:

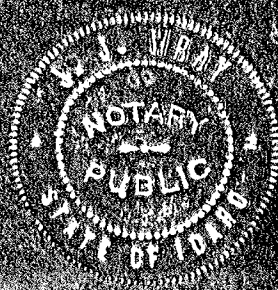

The parties of the second part covenant and agree that the pipeline to be constructed will not exceed twenty-two inches (22") in diameter;

The parties of the second part covenant and agree that they will so install said pipeline in such manner as to minimize the risk of leakage and will place the same Two feet (2') beneath the surface of the earth;

The parties of the second part covenant and agree that as soon as construction is commenced that they will cause the same to be prosecuted diligently to completion without any unnecessary delay and that they will upon completion of the same cause the earth that is removed to be properly backfilled to the end and purpose that the surface be restored as nearly as possible to its former condition;

The parties of the second part covenant and agree that they will as and when necessary cause to be performed such labor and maintenance as may be necessary to render said pipeline safe and free from leakage and that they will undertake to perform such maintenance in such manner as to cause a minimum of interference with the use of the lands of the parties of the first part. It being understood and agreed, however, that the parties of the second part shall have the right as and when it is necessary to go upon the course of said easement for the purpose of inspection and performance of maintenance that they will accomplish the same in such manner as to cause a minimum of interference with the use of said lands by the parties of the first part and keep all gates securely closed while such maintenance is being performed and insofar as possible cause the same to be performed without damage to any crops that may be growing on said lands of the parties of the first part and that they will hold harmless the parties of the first part from any damage that might occur by reason of the presence of said pipeline across said premises;

IN WITNESS WHEREOF The parties hereto have hereunto set their hands and seals the day and year first above written.

RE: Notices of claim to a water right nos. A67-02356, A67-14076

Dear Mr. and Mrs. Youngblood:

Enclosed please find copies of the above-referenced claims. Claim no. A67-02356 is a copy for your files. Claim no. A67-14076 requires your attention and a possible response from you.

Claim no. A67-14076 is based on a lapsed permit (67-02379). This permit lapsed because Mr. Brummett, the permit holder, failed to pay the required exam fee. Your claim on this water described the water right differently than was described on the permit, and added the acres in Twp. 11N, Rge. 04W, s. 34, NW $\frac{1}{4}$ SE $\frac{1}{4}$. The claim has been filed in the SRBA as a "Beneficial Use" claim; that is as a water use which has existed but has never been investigated or verified by the Department of Water Resources (IDWR).

One consequence of filing the water right as a beneficial use claim is that you can include the acres in s. 34, NW $\frac{1}{4}$ SE $\frac{1}{4}$ without filing another claim (since those acres were not included in Mr. Brummett's permit). However, you must provide evidence that all of the claimed acres were irrigated in 1968. Enclosed is a pamphlet entitled "Evidence of Priority" which describes some sources of information for establishing the claimed priority date. If you have personal knowledge of the development of the water on the property, you can submit your own affidavit describing the dates and acres irrigated in the development of the water right. It is very important that you determine if you will be able to provide evidence of the priority date for all of the irrigated acres. If you are unable to provide this evidence, a new application for permit will be required for the acres which are not covered by the evidence of priority that is submitted to this office.

MICROFILMED
OCT 22 1996

The enclosed claim form A67-14076 is for an amended claim. The amended claim reflects the water right as described by Mr. Brummett in 1978 ("proof of beneficial use" enclosed), but not as described in your original claim. The changes are the 10 acres in s. 34, SW $\frac{1}{4}$ NW $\frac{1}{4}$, which you claimed in s. 34, SW $\frac{1}{4}$ SW $\frac{1}{4}$, and the acres in s. 33 were described on your claim as being in s. 32. Please review the amended claim carefully, and if you agree with the changes, complete the claim with your notarized signature(s), and return the claim to this office. If the completed, amended claim is not returned to this office, the claim will remain in our records as originally claimed.

Thank you for your attention to these matters. I have enclosed a map which shows the water rights as described by Mr. Brummett and yourselves. The blue area shows the acres served by groundwater, the green areas are the acres described by Mr. Brummett, and the red area is the acres added to permit 67-02379 to become SRBA claim no. A67-14076.

Please contact me if you need additional information or have any questions. As I mentioned this morning during our telephone conversation, I will be out of the office from May 2, 1995 through May 11, 1995. Other than those days, I am always in the office on Tuesdays.

Sincerely,

Maria Minicucci

I called Mrs. Youngblood to discuss their claim for
Wessex River water. She indicated that they owned
the 34 acre parcel since 1958, and it has been
irrigated the entire time. Previous owner was
Mr. Delt. They then bought Mr. Brummett's property
represented in ~~at~~ permit 67-02379. We discussed
that the permit had lapsed because the exam fee
was not paid, and that the priority date would be
advanced should they pay the fee now. B/U claim

Dear Claimant(s):

This office is presently processing the Notice of Claim(s) to a Water Right you submitted during the Snake River Basin Adjudication claims filing in your area. However, due to the item(s) checked below, we cannot continue to process this claim(s). We are returning this claim(s) to you either because we need you to complete an item or items on your claim form, or because the claim cannot be filed at all and it is being rejected or because you may need to file a different claim form or other additional forms. **ONLY THE ITEMS CHECKMARKED IN THIS LETTER NEED COMPLETION. IF AN ITEM IS NOT CHECKMARKED, IT IS NOT PERTINANT TO THIS CLAIM(S).** Also enclosed is the receipt for the filing fee previously submitted with this claim.

____ Fee - No fee received or inadequate fee received, fee due is ____.

(Filing fees, based on use(s) of water, were due on all claims filed)

____ Late Notice of Claim - This claim was received on ____ which is after the deadline for filing claims in ____ County. The deadline for this County was ____, and the late fee now due is ____ . The enclosed Late Fee Notice explains the late fee and how it was computed.

____ Item No. 2 - Date of Priority - month/day/year that water was first put to a beneficial use, regardless of ownership. If the month or day is unknown the Department will recommend 12/31 of the year designated.

____ Priority Date Additional Note - If the first date of beneficial use for your water right was after March 25, 1963 from a groundwater source, or after May 20, 1971 from a surface water source, the enclosed application for permit may need to be filed instead of this claim. See the enclosed pamphlet entitled "Idaho Water Rights A Primer" under the "How is a water right established?" section for further explanation of these dates. A surface or groundwater claim filed with a priority date after the respective dates mentioned above, for the water use(s) you have claimed, will likely be recommended for disallowal to the court since an application for permit was required to be filed at the time the water was first developed and no previously filed permit was found in our records. You may withdraw this claim by completing the Request for Withdrawal form enclosed and receive a refund of the filing fees if you decide to file the application for permit instead. The refund can also be transferred to pay the filing fee for the application if you designate this on the Withdrawal form. You may also decide to pursue this claim with the court for a priority date after the dates mentioned above. If so, return the claim form, completing the items indicated, with a note stating you still wish to file the claim.

Item No. 4 - Point of Diversion -The point of diversion listed on this claim is not in the correct form for legal descriptions. Diversion points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Item No. 6 - Uses of Water

Item No. 9 - Non-irrigation Uses

Item No. 10 - Place of Use - The place of use listed on this claim is not in the correct form for legal descriptions. Places of use points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Item No. 12 - Ownership of Place of Use.

Item No. 15 - Basis of Claim - Please designate if your water right is based on beneficial use of the water - Beneficial Use, or if it is based upon a previously filed water right - Posted Notice, License, Permit or Decree.

Item No. 16 - Signature - this claim form does require your signature be affixed and notarized by a notary public. Note, the notary public signs below the signature blocks listed on this item.

Adjudication Claim Form No. 42-1409(2)a., needs to be filed instead of Claim Form No. 42-1409(2)b., due to the following reasons: _____

Enclosed is the correct claim form with instructions for completion. The fee schedule is also in the instruction sheets to help you figure the fee needed for filing this type of claim form.

✓ This claim was filed based on an existing permit which has lapsed for failure of the permit holder to submit proof of beneficial use. Unless this permit is reinstated, your claim cannot be accepted. In order to reinstate the permit, proof must be submitted showing that the water had been developed prior to the date proof of beneficial use was originally due for this permit which was 5/19/78. This proof can be in the form of dated power bills for a pump, dated ASCS crop reports indicating irrigation and the source of water used, or a notarized statement from a neighbor or previous owner who was aware of the date the water was developed. The enclosed proof of beneficial use form must also be submitted along with the proof mentioned above. Note that there is a filing fee required to file this proof of beneficial use form. If water was not developed prior to the above proof due date, then an application for permit form must be filed. This form and instructions are enclosed for your review and possible completion. Idaho is presently under a moratorium on approval of applications for permit for new uses. The exception to this moratorium are applications for permit filed on uses developed prior to the commencement of the adjudication, November 19, 1987. If your water use was developed prior to this date, and you

submit the same type of proof mentioned above documenting the development date, and no protests are submitted, then this application for permit could be approved. If the development took place after the 1987 date, then your application for permit will be held pending the outcome of this winter's snowpack.

_____ An adjudication claim cannot be filed when no water use or development has taken place. An application for permit is the form to file at the time you decide to begin development. Claims are required only on water uses developed prior to the commencement of the adjudication, November 19, 1987. Enclosed is an application for permit form with instructions to be completed at the time development will begin.

_____ An adjudication claim cannot be filed on an application for permit which has not been approved. Therefore, we are returning your Notice of Claim to you. An application for permit must be approved in order to establish a water right to file on.

✓ Other: If you wish to pursue this claim, additional fees
of \$31.00 are due.

_____ If you are returning your claim form(s), please complete the item(s) checkmarked in this letter, initial and date any changes or additions made to the claim form(s), and return the form(s), with the requested fee (if one is required), to our office within 30 days from the date of this letter. If the claim(s), or fee requested, is not received within this 30-day period, the claim(s) will be rejected and your fee(if one was paid previously) will be refunded. Please contact our office at the address listed below, within the 30 day time period, either in writing or by phone, to let us know if there is a problem returning the claim(s), or fee, in order to keep this claim(s) valid. If the claim(s) is rejected and fee refunded, due to no response within the 30-days, the claim(s) can be resubmitted up until claims in this area are prepared for court decree. However, at that time the corrected claim(s) along with the regular filing fee that was refunded, and an additional late fee will be required. Please return either your claim(s), any other form or information requested in this letter, and the fee requested, if any, to the Department of Water Resources, Western Region Office, 2735 Airport Way, Boise, ID 83705.

Feel free to contact this office if you have any questions concerning the items checked in this letter.

Dear Permit Holder:

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on June 9, 1988, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on April 10, 1987.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before August 8, 1988, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.

MEMORANDUM

TO: File

FROM: Monica Van Bussum

DATE: March 6, 2006

RE: 67-2356 and 67-14076 need for field exam

Lapsed permit 67-2379 is associated with the properties in the claims above. The permit was for surface water and lapsed because of nonpayment for examination fee. It appears 67-14076 is meant to claim property and diversion rate that would have been under permit 67-2379.

67-2356 is a licensed groundwater right for property also appurtenant to 67-14076. Claimants underclaimed diversion rate for 67-2356 at 1.07 cfs, which is licensed for 4.27 cfs.

A field exam will need to be conducted to:

1. Conduct a flow measurement for 67-14076
2. Determine extent of acres irrigated using well water from 67-2356

These two recommendations will need limiting conditions associated with them during the recommendation process.

Dear Permit Holder:

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be of no further force nor effect on June 9, 1988, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on April 10, 1987.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before August 8, 1988, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Enclosed is a fee information sheet that must be completed and submitted to the Department to keep the permit in good standing. If you have questions, please contact any office of the Department.
