

The screenshot displays the ArcGIS Desktop interface. On the left, a map shows a red dirt area with a cyan rectangle highlighting a specific feature. The interface includes a 'Identify' window on the right with a tree view showing the data source 'Idaho_NHAP_Image_Footprint_Years_1980s' and a table of results. The table has columns 'Field' and 'Value' with rows for OBJECTID_1, OBJECTID, Name, Year_Acqui, and Shape.

Field	Value
OBJECTID_1	161
OBJECTID	161
Name	g_c_16057_11_16057_00065_0018_1981
Year_Acqui	1981
Shape	Polygon
