I David L. Hansen being first duly sworn,

deposes and says: I was raised on this farm. Although my father,

Ed Hansen, purchased this farm in 1936 and I wasn't born
till 1947, I am still very familiar with this farms history. When
my father purchased in 1936 the land had not been leveled and there
was no water for it. That 1st year he built a small house & drove a
sand point for a domestic well, and started leveling the land. In
1937 he hand dug a well on the south border of the farm, being
the highest point and started growing crops. In 1940 he dug a 2nd
irrigation well by the house for more irrigation water. In the fall of
1949 he hand dug a 3rd well out by the new barn for irrigation & livestock &
domestic and started watering from it in 1950.

RE: Water right research

Dear Mr. and Ms. Hansen,

Per our meeting on 3-25-05, I did some research on the water right claims for the property around your home that is supplied from the two irrigation wells we looked at with you. It appears that there is a claim filed on those wells for irrigation, domestic and stockwatering purposes. The Snake River Basin Adjudication (SRBA) claim # for this right is 67-14108 (enclosed).

SRBA claim 67-14108 states that it is a combination of two previously filed statutory claims 67-04014 and 67-04015. Both 67-04014 and 67-04015 claimed the same 40 acre tract of irrigated ground with the original claims showing two different priority dates

67-04014 = 6-1-1950

67-04015 = 6-1-1937

I am assuming the reason these two claims were combined when filing in the SRBA is because both wells serve the same property. However the oldest priority date was carried over on the SRBA claim 67-14108 which was 6-1-1937.

I checked the historical records on microfilm and there is no evidence of priority. Thus, what I need from you is evidence of priority dating back as far as you can go showing when each well was drilled and used for irrigation of the 40 acres irrigated.

Evidence of priority can be as simple as a statement from yourself or someone with first hand knowledge of when the wells were dug/drilled and when water was first used for beneficial use. Other examples of evidence of priority can be maps, pump power records, receipts from purchase of irrigation equipment, etc. For your convenience I am enclosing a pamphlet that describes things that can be used as evidence of priority. Please submit this information to myself referencing SRBA claim # 67-14108. Note, without receiving some evidence to support the priority date claimed, IDWR cannot make a favorable recommendation to the SRBA court.

Place of Use:

When we met with you, you indicated that you irrigated 80 acres with the two wells covered under claim 67-14108. However only 40 acres are claimed. I checked the tax lot data and it appears that you own the 40 acres in the T10N, R5W, S16, NWSW. For now, I can only recommend 40 acres under this right. If you actually irrigate 80, and have done so from the date of priority that you can support, then your claim needs to be amended for me to include it on the recommendation. Feel free to contact me if you have any questions.

Application for Permit:

Enclosed is the application for permit we spoke about regarding the slough water used on the property by the airport runway. Please complete the form and sent it to:

IDAHO DEPT OF WATER RESOURCES
ATTN: WATER ALLOCATIONS
2735 AIRPORT WAY
BOISE ID 83705-5082

Lastly, per your request, enclosed is a map that shows the locations of the wells we took GPS points on. The coordinates are IDTM projection and are as follows:

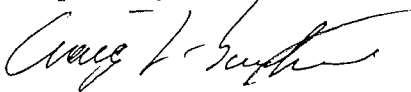

67-04016: N: 1449249
 E: 2263689

67-14108: North Well: N: 1448638
 E: 2264140

 South Well: N: 1448444
 E: 2264122

Please feel free to contact me with any questions.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent

THEORETICAL HORSEPOWER EQUATION WORKSHEET (cjh 1/92)

Water Right No.: 29-14108

Examiner: Craig L. Saxton

Date of Field Exam: 3/28/2005

A0014065

A0014066

P/D No.:	OPTION 1	OPTION 2	OPTION 3
PUMP HORSEPOWER	5	7.5	0
BOOSTER HORSEPOWER	0	0	0
PUMPING LEVEL	28	24	
DISCHARGE PRESSURE	0	0	0 AVE
RATE OF FLOW (cfs)	1.10	1.93	#DIV/0!

*3-28-05: Pumping level was set @ well depth (according to claimant).
At this worst case scenario, both wells have the capacity
to divert diversion rate claimed.*

Memorandum

Date: May 31, 2005

To: File

From: Craig L. Saxton

Subject: Diversion Rate and POD's for 67-14108

Number of POD's:

Claims 3 wells. 3 wells found. The two irrigation well, there is sufficient evidence that they existed prior to 1987 based on two statutory claims filed in 1971. Waiting evidence of priority on these two wells for the irrigation portion of the right.

However, there isn't evidence of when the third well was drilled. Bosco Bosler's field exam notes state that the third well A0014073 is not connected to the irrigation system and is only used for shop use, or domestic. Since we have no evidence that this well was drilled prior to 1987 and that it is not connected to the irrigation system. This well is not recommended as part of this water right. Based on Bosco's notes, since this well is used for domestic purposes, it is exempt from needing a water right anyway. If claimant wishes to pursue one, he can file on it at a later date.

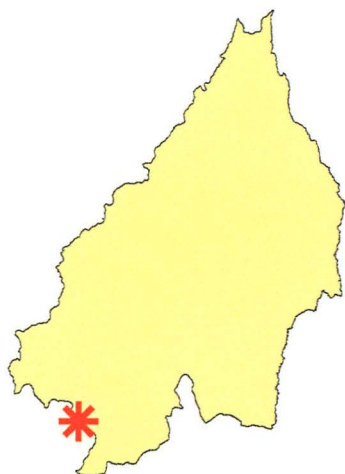

Diversion Rate:

This claim was filed as a combination of 67-04014 and 67-4015. On the statutory claims it lists the well for 67-4014 producing 600 gpm and 67-4015 producing 510 gpm. The first well according to the statutory claim 67-4015 was dug in 1937 and produced 510 gpm. I don't know which of the two irrigation wells that is but 510 gpm is 1.14 cfs. And both wells functioning would be 2.48 cfs. At one inch to the acre for 38 acres IDWR could only recommend 0.76 cfs. After looking at the wells during our field exam and comparing the data, I feel we can support 1 inch per acre for the current irrigation system.

Re: Identification Number Change for a Notice of Claim in the
Snake River Basin Adjudication (SRBA)
Washington County - Claim No. A67-14108

Dear Claimants,

The identification number of your Notice of Claim to a Water Right has been changed from A67-04014 to A67-14108. The claim you filed actually combines two previous claims: 67-04014 and 67-04015. The Idaho Department of Water Resources assigns identification numbers to claims that will allow processing without duplication or confusion; this change does not affect your claim in any other way.

Enclosed is a computer-generated copy of your claim with the new identification number. Refer to this record number in any future inquiries or correspondence. Please do not hesitate to contact this office, if you have any questions.

Sincerely,

Roxanne McCarthy
Sr. Water Resource Agent
Adjudication Bureau

CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Ed Hansen

post office address Rt 3 Weiser Idaho

2. The point of diversion is in NW $\frac{1}{4}$ of SW $\frac{1}{4}$ Section 16 Township 10 N

Range 5 W B.M. located on dug well

(name of source)

tributary to In County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed:

June 1950

amount: 1.25 c.f.s. or acre feet

amount: c.f.s. or acre feet

amount: c.f.s. or acre feet

Total claimed 1.25 c.f.s. or acre feet.

b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use Irrigation period of use from Apr 1 to Oct 15 (both dates inclusive)

use period of use from to (both dates inclusive)

use period of use from to (both dates inclusive)

use period of use from to (both dates inclusive).

4. Description of diverting works:

a. Surface water diversion dam and/or headgate: material is composed of

 ; length is feet; height is feet;

width at bottom is feet; width at top is feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known

b. Underground water diverting works: Is well flowing or pumped pumped; depth of well is

25 feet; diameter of well is 72 inches; type of pump is centrifugal

capacity of pump is 400 g.p.m.; name and address of well driller is dug well by
