RE: Irrigated POU

Claim 67-11166 was filed as a combination of 67-288 and 67-290 and claimed more acres than was decreed under these two rights. The claim was split through change of ownership splitting the right into 67-14262 and 67-14263.

67-14263 is held by Zundel and the POU claimed appears to be the same POU described under decreed right 67-290. The POU described under 67-290 was decreed for 12 acre in the NWNE of section 3. After the split, 67-14263 claims 21.86 acres within the NWNE of Section 3.

1987 photography shows about 9 acres of irrigation within the claimed POU for 67-14263. However, the 2004 photography I could find over 12 acres of ground that is green and could be irrigated. I looked at 1977 color photography in IDWR files called U2 air photos. They are not scanned or in ArcView, but the photo I am referencing can be found using the following information:

U2 Airphotos
2328-77-138
19/8/77
Southwest Idaho

The 1977 photo shows signs of irrigation in the NE corner of Zundels property but even with this corner being irrigated, the total irrigated ground at that time would not exceed 12 acres. Thus it appears that more ground could have been historically irrigated than was shown in the 1987 photography.

I think it is safe to recommend the 12 acres of irrigation that was decreed to the property as we have support of historical use from the 1977 photography, and from the 2004 photography showing irrigation, we could consider it resumption of the right. However, I cannot recommend more than 12 acres because I can not confirm that more was irrigated prior to the mandatory permit statute.

This claim is the result of a split due to change in ownership for a portion of 67-11166. by RB 6/2001

Change of ownership was received on June 12, 2001 requesting split of 67-11166. The change of ownership form designated the split portions and initially, the split was done as requested. However, when reviewing the splits of claim 67-11166 (67-14262 and 67-14263) it appears that the split was based on something other than acreage irrigated. It appears to have been acreage owned. This split should have been based on acreage irrigated or as close as possible. I am amending claims 67-14262 and 67-14263 to more accurately represent their portions of original SRBA claim 67-11166 (csaxton 4-7-06).
