RE: Preliminary recommendations for Snake River Basin Adjudication (SRBA) claims 67-149, 67-14269 and 67-14271

Dear Mr. Griffin,

Per your request, I am sending you copies of the preliminary recommendations for your Keithly Creek water rights. Look them over and let me know if you have any questions.

Side Notes:

- 1) You have a private SRBA claim filed for your Lost Valley Reservoir Share water. This claim is being recommended as disallowed because the share water is being recommended in the name of Lost Valley Reservoir Co. **This does not mean** the storage water is not applicable to your ground. It just means that the water right is being recommended in the company name.
- 2) You are going to be notified about another water right applicable to a portion of your property. The source for this water right is the Weiser River. This is different than your Lost Valley "share" water. You told me on the phone you haven't been using live water from the Weiser, but Blendu filed a claim for it when he owned the property. Based on when the time the license was issued and when the SRBA claim was filed, I am not going to recommend this right as forfeited. It does not mean that someone else won't object to the recommendation and argue that it is forfeited due to non-use. When you get the information, look over it and if you do not wish to pursue the water right, give me a call.

Feel free to call if you have any questions.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent

Renumbered Notice of Claim to a Water Right No. 67-14271

Dear Claimants:

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time. You will be notified of any future action taken on this claim. Also enclosed is a copy of the original claim for your reference.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

RE: Adjustments to Snake River Basin Adjudication (SRBA) claims 67-149, 67-14271

Dear Mr. Griffin

I am writing to inform you of changes to the following SRBA claims:

- 1) Ownership of 67-149 was change into your name after re-reviewing a request for change of water right ownership submitted in 2000. It appears that this right is applicable to ground you own. Please review and retain for your records.
- 2) 67-14271 was the result of splitting claim 67-7280 into two parts per a request for a change of ownership submitted in 2001. My research indicates that the proportioning of the water right was not accurate as it was not calculated based on irrigated acres. Since IDWR conducted the original split, in order to fix an error, I have amended claim 67-14271 (and 67-14270) to more accurately represent the division of the water right claimed under SRBA claim 67-7280.

Please feel free to contact me with any questions.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent

Re: Re-calculating splits made due to a change of ownership.

On 8/4/2000 IDWR received a request for change of ownership for several rights. License 67-7280 was split into two parts based on deed information..

The split distribution was done in error as the right was split based on land ownership rather than irrigated ground. While reviewing for recommendation, it was determined that the right should be split differently.

I am amending claim 67-14270 and 67-14271 to reflect the respective portions based on irrigated ground rather than ownership of the ground for license 67-7280.
