Remarks:Comments:

1. jdean 10/27/2006 POU

Comment: The acres were reduced for the POU from 10 to 6.5 based on what was found using GIS. The claim may have been incorrectly split for 10 acres. The tax lot showed about 7.5 acres and then some of that ground was taken out due to development.

2. jdean 10/27/2006 Quantity

Comment: Diversion volume was calculated according to standard per acre and diversion rate was calculated according to proportions of license per acre.

3. jdean 10/27/2006 License

Comment: This claim was recommended proportionally from the license.

Re: Original Notice of Claim to a Water Right No. 67-2265A

Renumbered to Notice of Claim to a Water Right No. 67-14305

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new water right number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section
