Comment: Recommending source as unnamed stream trib to unnamed stream. Spring is about 50m upstream of diversion point, at which point the system is clearly a stream. This stream appears to be trib to another unnamed stream, although it may have a local name, trib to East Fork Weiser River.

Re: Evidence of Priority Date & Change of Address

Dear Claimant(s):

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation that this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your claim or as otherwise changed by you.

Please sign your name at the bottom of this letter and return that part of the letter to our office. Make corrections to your name and address if necessary before returning this letter. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

Additionally, the Notice of Claim to a Water Right (claim) identified with the number shown above your name has been filed in the Snake River Basin Adjudication (SRBA). The claim indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed. **Proof must be provided by the claimant supporting the priority date claimed and the historic use of the water.**

Enclosed you will find a computer printout of your claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. A map of the general area stated in your claim is also enclosed. If you irrigate, please outline the location of lands irrigated based on your claim, as well as the location of any points of diversion, if possible. If you have a claim other than irrigation, please outline the location of your place of use (i.e. house) and note the location of wells or other points of diversion. Please submit the completed map along with your evidence of priority. This will assist me in making a more accurate recommendation of your claim(s).

PLEASE NOTE: If no evidence is submitted, IDWR will recommend the SRBA Court decree the claim be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. Send the documents in the enclosed envelope to assure it arrives at the correct location. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. You can contact the Basin 67 team via e-mail at B67questions@IDWR.idaho.gov. If you wish to call, our toll free number is 1-800-451-4129.

McBRIDE EASEMENT

McBride Spring

McBride Spring

This spring provides water for Ruth McBride (DB applicant), Surgener (1866) and Vern & Susie Pierce, (208-253-1105) (SUP).

Per phone call with B.Klarich (5/25/05), Sue and Jill will contact all of the above and present the option of DB easement for all concerned as "tenets in common".

Water from Spring

From McBride Spring looking down on concrete barrier 'catch basin'. Surgener's water pipe buried in road bed. McBride & Pierce water piped from catch basin to ditch.

HISTORY OF STEVEN'S STAGE COACH INN - OUR PLACE

The first people, of course, who inhabited this area were the fierce Nez Pierce and Shoshone Indians. They were short, well-proportioned, similar in appearance to the midwest tribes. Their skin ranged from light yellow to dark reddish. There were also many forts in the area, one only a mile south of here.

The first white settlers in the area were both young and fantastically energetic.

This house was built in the year 1872 or 1873 as a stage coach stop, and was named Steven's Stage Station. The first living room was the bar, the second living room was the dining room, and the upstairs was lined with bunks for overnight guests. At a later date, the kitchen girls doubled for the upstairs girls. Steven's daughter married Ketchup Bptile Tommy (Tommy Estes). It is not known what happened to the other members of the family. The bar was a favorite spot for travelers, local cattle and sheep herders, and the loggers who worked in the nearby woods. Solo was the most popular card game played in the bar room.

Steven's Stage Station was the only stop between Council and New Meadows. The stage coach started in Weiser, Idaho, and ended in New Meadows in the 1800's. The Indians were very troublesome to the settlers and travelers, many of the white people were killed including women and children.

Mr. and Mrs. Bert Gilmore bought this place, which was then 40 acres, in 1917 for \$ 350.00. They proceeded to repair existing irrigation ditches and build more to irrigate their crops. They planted a large garden and some fruit trees, with their field crops of grain, potatoes and some pasture. The former farmer and Doubleday Sheep Company owned the back 80 acres. Later on the Gilmore's bought the other 80 acres and proceeded to build more ditches to irrigate the back fields. Many of the original ditches are still in use today, doing a remarkable engineering layout.

Later on the Gilmores built a log cabin, at the time Steven's Station house was almost 50 years old, which has been gone for some 25 years now while Steven's Station is still inhabited.

Mrs. Gilmores parents moved to the Council area in 1883 when she was three years old, later buying what is now known as Zim's Hot Springs. At the time there was no North or South roads, only a trail used by all and crossing the Weiser River 75 time between Council and New Meadows. At the age of 89 and living in Payette, Mrs. Gilmore still recalls how rough it was when the coach wheels hit the rocks.

The railroad was built to Steven's Station in 1890, where passengers stayed overnight and went on by coach to New Meadows, and points North.

We bought this property from Art Capps in 1965. This history was compiled and written in 1966, one year later. Mrs. Gilmore was our main source, but we talked to several other pioneers, including an elderly gentleman at the Old Soldiers Home in Boise, who worked for the Doubleday Sheep Company and frequented Steven's Station.

Mrs. Gilmore also gave us the original photograph of Steven's Station which was taken in 1882 or 1883.
