87-10487 Phone Call Summary
12/09/2020

On 12/09/2020 I spoke on the phone with Randy Sexton regarding the above claim. My initial questions were if the source of water is a spring or a well. On the claim form, number 3 was check marked as the source being ground water, but on number 5 and the written affidavit addresses the source as a spring.

Randy Sexton described the source to me. He said the ground surface was wet at the POD location. Then, his father hand dug out the location approximately 10 ft. deep. It was then brick and concrete lined, and the water was piped to the home. After our conversation, we decided the source was a hand dug well, a groundwater source. This is how it was claimed on number 3, so the claim does not need amended.

Christopher Holmes

A handwritten signature in blue ink that reads "Christopher Holmes". The signature is written in a cursive, flowing style.
