RE: Claim 87-11471, springs diverting water to troughs

Dear Mr. Thompson,

Thank you for taking my call today, it was a pleasure talking to you. As I indicated, The Idaho Department of Water Resources (IDWR) is in the process of reviewing claims filed in the Palouse River Basin Adjudication. While reviewing your seven claims, we found an issue with claim 87-11471, springs diverting to concrete troughs. You listed two springs which are ½ mile apart, supplying water to two different troughs. Separate systems require their own claims, so I can only recommend one spring on this claim. Per our conversation, I will assign the southernmost spring to claim 87-11471. (See the map for the locations). I am including an Amended Claim which shows the changes, ready for your approval. There is no charge for amending the claim.

The second spring will require filing a new claim to cover its water use. I used the information from your original claim to complete the form and map, ready for your approval. There is a \$25.00 filing fee for this claim.

All the paperwork needed to complete these two transactions is included with this letter. Please review both claims, and if they meet your approval, sign and return them to me with a \$25.00 check, made out to IDWR. If you could return them by January 22, 2021, then I can complete the recommendations.

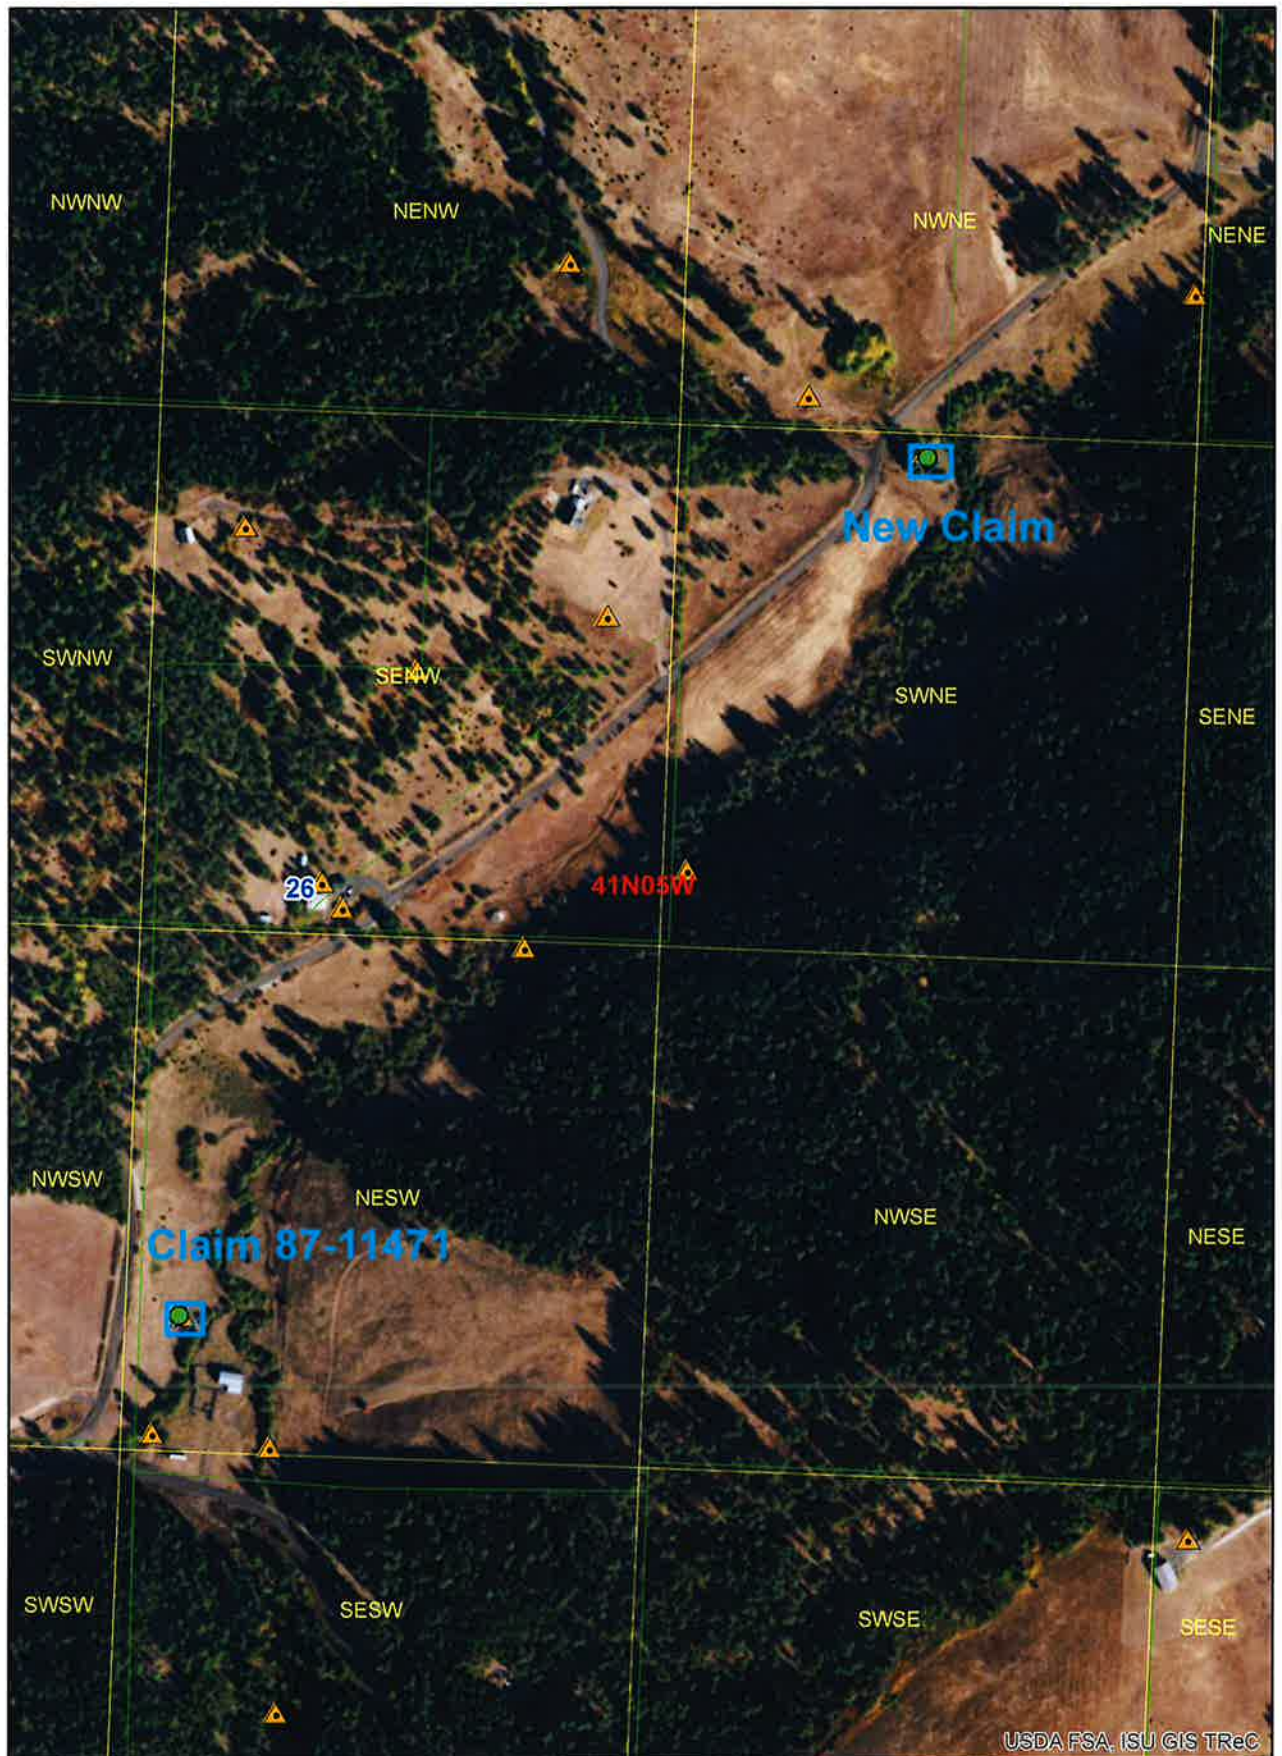

If you have any questions, please contact me at (208) 287-4872 and reference Claim # 87-11471. Thank you.

Sincerely,

Glen Gardiner – Analyst 3
