SUBJECT: Returned Notice of Claim to a Water Right

Dear Mr. Schaper:

On February 11, 2019, we received a Notice of Claim to a Water Right for domestic usage from a ground water (well) source. We are returning the claim, and supporting documents, for the following reason(s):

Item 2: Date of Priority – Please include the first usage date for the domestic water usage.

Would you also clarify the following items:

Items 4 and 9 – The legal description, which, based on your parcel number is T39N, R5W, Section 16, NE1/4SE1/4. Please fill in the section number and quarter, quarter section.

Item 6 – Under the quantity, which is listed as cfs (cubic feet per second); you claimed 20 cfs, which is equal to approximately 8900 gallons per minute (gpm). Did you wish to claim 0.04 cfs for the domestic use and perhaps 0.01 cfs for the stockwater usage for a total of 0.05 cfs? I noticed that your well report states a well capacity of 18 gpm. This is equal to 0.04 cfs.

Item 8 – Please indicate how many head of stock. Also, pasture irrigation is mentioned. This claim covers domestic usage and ½ acre of lawn/garden irrigation. Are you irrigating more than this? If so, the Application for Permit you included with the claim is required; however, we are unable to accept the application without a fee, so I am returning the application, with instructions, which shows the fee structure. The application form is similar to the claim form regarding the legal description and the quantity. Be sure to include a map of the diversion and place of use with the application. Questions regarding the completion of the application may be directed to Adam Frederick or Shaun Maxey at the phone number listed above.

On the claim - be sure to initial and date each change that you make, as well as re-signing the document under item 15, signature; and return the packet of information to my attention by March 8, 2019. Upon receipt, we will complete the data entry and begin the claim recommendation process.

Please be sure to contact me if you have any questions. I can be reached at (208) 762-2802 or by email at linda.werner@idwr.idaho.gov.

Sincerely,

Linda A. Werner
Water Resource Agent, Sr.
