Subject: Water Right Claims 87-10296 and 87-10297
Attachments: AmendedNoticeOfClaim87-10296Map.pdf; AmendedNoticeOfClaim87-10296.pdf

Categories: Blue Category

Good morning, You filed water right claims 87-10296 and 87-10297 in May 2019. As I understand it, each claim is for an individual well on your property. I am working toward recommending your claims and have a few questions. Is there more than one home on your property? Are the two wells part of the same water delivery system? We can include two wells on one water right recommendation. I have attached amended claim 87-10296. It includes both wells as points of diversion. With this option you are authorized to divert from both wells and are limited to 13,000 gallons per day.

If you choose to keep both claims, one for each well, one claim will be limited to 13,000 gpd. The second claim would be recommended for 2,500 gallons per day and combined they will still be limited to 13,000 gpd.

If you agree with including both wells on one claim you can signed the attached amended claim and return it to me. Please let me know if you have any questions.
