Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,

DAVID B. SHAW

Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

DUE TO PRIORITY DATE DISCREPANCY? (Y/N) N N

ARE THERE OBVIOUS REASONS TO QUESTION THE PRIORITY DATE CLAIMED? Y() N()
IF YES EXPLAIN.

REMARKS: Based on evidence supplied, priority date of June 21, 1917 is recommended. This is based on the sale of bonds to Keeler Brothers for the Hazelton Mutual Water Works development. Additional evidence supporting the intended development is documentation dated July 9, 1917 at which time the city council passed resolution to purchase property on which to develop the water works.

REMARKS:

This well incorrectly described on 243 claim and adj claim. According to discussions with Don Austin and Dave Orr, city employees, this well is the only well that has had a water tower next to it. The water tower was removed in 1980 or 1981, but no other well has existed, specifically none north of this location.

MEMORANDUM

To: FILE A36-04250, A36-07858
From: Helen Harrington-Thornton
Date: January 10, 1992
Subject: Conversation Memo - *city of Hazelton*

=====

Background

Review of above referenced claims reflected that there were 4 wells -- 1 well in NW4SE4, Sec. 32 (4250); 2 wells in SW4SE4, Sec. 32 (7858); and 1 well in NW4NE4, Sec 5 (7858).

P/D of A36-04250 does not appear on A36-07858, however, A36-07858 mentions that 4250 well used in conjunction with license and states 2 P/D in SW4SE4, SEC. 32.

Conversations

1/3/92 - Phone conversation with Darrel Stone, Hazelton City Supervisor (829-5415)

There are only 3 wells in the system. 1 main well and 2 other wells; they all go to a storage tank. He was unaware of any older wells or any taken out of service at any time in the past.

1/7/92 - Field visit to City of Hazelton. Met with Darrel Stone and Dave Orr, city employee.

The current water system went on line in April 1980. The old water tower was torn down shortly after that, probably in 1980. There has only been one water tower in town.

Northside Canal irrigation water is used throughout the city limits for domestic irrigation. The municipal water is only used for potable purposes.

The municipal system supplies water to domestic uses outside the city limits, specifically Saunders Subdivision and a house by the Simplot land. (Follow-up phone conversation confirmed that lands outside city limits supplied by city also use Northside Canal water for domestic irrigation). There are 5 homes served in Saunders Subd and the 1 other home.

Visited well ~~were~~ old water tower used to be. This is the well described as Well #1 on license 36-07858 and is apparently the same well as described on A36-04250. Confirmed with Mr. Stone that the well is located on Lot 7, Block 26 which is located in SW4SE4, Sec. 32.

Claim Review

A flow measurement for A365-04250 is unnecessary because that well was measured as a part of the licensing exam for 36-07858.
