Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

Dear Allen Merritt,

I am writing in regards to identification no. A36-04263 in behalf of Richard Dalley. On Mar. 15, 1974, I made a statutory claim increasing the total consumptive use of water on my farm of 352 irrigable acres located at township 07S, range 24E, parts of section 19 and 30. I began irrigating with this increase in water on the acres listed in the statutory claim as of March, 1973.

Sincerely,

James G. Phillips

Dear Ms Dalley

In response to your Notice of Error and our telephone conversation yesterday, I have re-evaluated the change in priority date and could find no basis for the change. I have changed it to read 3-15-74 as it was originally claimed. This is the only change that I made to your claim.

If you have any further questions please contact this office and someone here can assist you.

Additional review by KKC:

I could find no reason why the Priority date was
advanced to 1975 therefore I have changed it back

Dear Mr. + Mrs. Dalley

After you left from our conversation yesterday I located Anna Baumhoff's notes explaining how she processed your claims. I am enclosing a copy of the notes to help you understand.

The value of 0.174 cfs beneficial use was generated in this way. Under A36-15156 for 352 ac, and 4.42 cfs, this allows
$$4.42 \text{ cfs} / 352 \text{ ac} = 0.0125568 \text{ cfs/ac.}$$

Claim 36-04263 was treated as expansion claim for 59 acres (no additional water but additional acres are irrigated)

$$59 \text{ acres} \times 0.0125568 \text{ cfs/acre} = 0.74 \text{ cfs}$$

This is not actually allowed, however, since this is treated as expansion acres.

Probably by now you have received copies of the recommendations on your other claims and that will help you understand.

Please excuse this handwritten note, but I wanted to send Anna's notes to you promptly to help you understand.

Respectfully, FEB 02 1993

Robert V. Worstell

* Claim 36-04263 was accepted in 1985 although it was in violation of the permit statutes, because IDAHO CODE 42-1416 had been enacted and the claim was accepted as an expansion as described under this code.

POINT OF DIVERSION: 1 well for all three claims.

Well 475' deep, lift 275' (from lic. exam), 65 psi (verbal); pump, Layne Turbine 200hp ser. #23708; motor, hollowshaft 250hp ser. #1275190

Well is located in: Govt. Lot #3, NW¼, SW¼, Sec. 19, T7S, R24E

RECOMMEND the above legal description for the point of diversion.

DIVERSION RATE:

Well was measured during the Beneficial Use Exams for the Licensed rights on the same date and was found to be producing at a rate of 4.55 cfs. (see copies of Engineer's Exams) However the permitted amounts for the rights, when combined totaled only 4.42 cfs, which was less than the measured amount of 4.55 cfs, and therefore the lesser rates were licensed under 36-02065B & 36-02077, which when combined total 4.42 cfs.

rate per acre analysis: 36-02077 3.13cfs/193ac = 0.0162 cfs/ac
36-02065b 1.29cfs/100ac = 0.0129 cfs/ac
For 293 acres the average rate = 4.42cfs/293ac = 0.0151 cfs/ac

For the total acres combined the rate = 4.42cfs/352ac = 0.0126 cfs/ac
This rate is greater than 0.01 cfs/ac and because the system is all sprinklers the entire permissible place of use can be recommended.

RECOMMENDATION: limit both rights to the combined total diversion rate of 4.42 cfs.

CLAIM NOS.: A36-15156 and A36-04263

PLACE OF USE (POU):

There are several problems with the claimed POU however, based upon the maps and licenses this claim is based upon it appears that the problem was a data entry error. Because of this our recommendation will correct the error in legal descriptions.

Claimed	Recommend
NWNE S-19	SWNE S-19
NENW S-19	SENE S-19
NWNW S-19	SWNW S-19

All claims have described a permissible place of use, for a total of 352 acres. Claim A36-04263 is filed as an expansion claim, based upon the second presumption.

Evaluation of the original licensed rights 36-02065b & 36-02077 = = = >

36-02065B lic. acres = 102

36-02077 lic. acres = 193

overlapping acres - 2 see map "OVERLAP ANALYSIS"

total acres licensed = 293

Current irrigated acres for the original POU were found using NAPP photography, orthophotoquad map and the ASCS photo for the farm.

For the original POU 287 irrigated acres were found. This indicates that an accomplished transfer of 6 irrigated acres most likely occurred. If this 6 acres is transferred to the area of new irrigation then the resulting number of irrigated expansion acres is 59. We will assume the transfer occurred at the same time as the expansion (1974) and thus no injury analysis will be required.

Licensed acres = 293

expansion acres = 59

total irrigated acres = 352 RECOMMENDED AS A PERMISSIBLE PLACE OF USE

36-04263 will be limited to the irrigation of 59 acres.

36-15156 will be limited to the irrigation of 293 acres.

Both limited to a combined total of 352 acres.
