Re: Snake River Basin Adjudication - Change in Ownership

Jerome Co.
Dear Mr. Higginson:

Pursuant to the requirements of Idaho Code §42-1409(7), you are hereby notified that the property described in the enclosed "Description of Lands" has been sold by The Travelers Insurance Company, a Connecticut corporation to Roost Potato Company, Inc., whose current mailing address, according to our records is 952 S. 1400 East, Eden, Idaho 83325.

The water rights appurtenant to those lands and for which the owner is required to file a notice of claim in the Snake River Adjudication are identified by the following water right numbers in the record of the Department of Water Resources or Notices of Claim numbers in the Snake River Basin Adjudication:

Water Licenses Nos. 36-2324, 36-7000, and 36-7763.

OK
Yours very truly,

COMES NOW the claimant Roost Potato Co., by and through its attorney, and moves the Court, pursuant to Rule 14d of the SRBA Administrative Order 1 and Rule 60(a) of the Idaho Rules of Civil Procedure, for an Order striking the following words, to-wit: "The quantity of water under this right shall not exceed 2,500 gallons per day." from the Partial Decree entered herein on March 20, 1998, on the grounds and for the reasons that the inclusion of such phrase under the quantity element of this water right was a clerical mistake and error arising from oversight, and the phrase is inconsistent with the 134 acre-feet per year allowed under the quantity element of this water right and the diversion rate of .56 cfs to provide water for a

RE:

SEVERAL ISSUES

He had several questions on the following rights:

36-07000 – This was partially decreed with the N06 code limiting to 2500 gpd but with a volume of 134 afa. Appears it should not have the N06 code. Must file a motion to Alter or Amend but this right is decreed over 1.5 years ago... late, late.

36-13931 – This right has a greater diversion than de minimis use but his copy shows the condition code limits it to 13,000 gpd. My computer record show the codes were removed a day before the decree was issued/signed. He will try to see what the court has on record.

36-02324 & 36-15152 – These rights were transferred under T# 3912 and it has been approved (8/20/99) and the WR side is updated to show the new POD & POU. The AJ record still shows the old data. I will try to notify our staff of the new Trans. And see that it gets applied to the R-record, which is listing a new season of use.

CLAIMS

A36-13931

Stock water in a feedlot.

The current system is 4 wells tied together into a combined ~~m~~ buried mainline system. A second buried mainline system used for dust control has been abandoned. (see attached memo dated 1-27-92 RE: Office visit)

The system diagram was provided by Calvin Jones and is attached.

I am recommending adding the P/U in Sec 29 and Sec 21 to the P/U on 36-7000 without adding ~~the~~ to the Stock numbers.

Recommendations:

Right	Hd	CLAIMED RATE	LEGAL LIMIT
A36-7000	10,000	0.32 CFS	0.66 CFS
A36-13931	3,000	0.56 CFS	2.20 CFS

The delivery system includes the well previously used to deliver irrigation water under 36-2324 therefore the system is more than capable of supplying the claimed dis rates. Recommend as claimed.

Office visit with Calvin Jones

He is transferring the P/O & P/U from 36-02324 & 36-15152 to Sec 36, T 8S, R-20E (pending approval) - application made this date.

No dust abatement is claimed under 36-15152. Also the transfer P/U is based upon the adjudication field exam.

Stock water:

All 4 existing wells now ~~supply~~ ^{supply} water for feed lot. Wells claimed under 36-13931 are now the primary source with the well under 36-7000 used to supplement & the irrigation well originally licensed under 36-2324 being used for backup. That well no longer supplies water for irrigation. The system used for dust abatement has been abandoned as of 1990. The system was approx 1 standard rainbird ($9/64 - 7/32$ ^{tip} range) per pen. for the pens located in Sec 28 & 29. The pens in Sec 27 used 1 big gun ($1''$ tip $\pm$) rotated between pens.

The stock pens and water systems in Sec 27 have been removed as of this date.

My father, Henry Jones
began the development of the feed lot
in the late fourties and the feed mill
in 1954 with all development as
claimed in A36-13931 was in place
in 1955. (See Attached letter)
At that time there was 3000 head of
cattle in the feed lot. The later
licenses 36-07000 and 36-02329 provided
for the expansion of the system where it
has served up to 20,000 cattle. In
1990 we served 10,000 cattle.
