Dear Claimant:

Payment has not been received as directed in the certified letter you received on August 8, 1991. Rather than returning the claims to you, the record of the claims will go into a rejected status and remain in that category until payment is received from you. The account will continue to accrue interest, and any fees will not be returned whether the claims are investigated or not.

This will be your last notice until such time as the findings of the Director are included in his report to the Court of the water right claims in that area. Without further payment on the claim fee account, the findings of these claims will be that the claims were rejected for insufficient fees.

If your payment and this letter pass in the mail, I apologize for this letter.

Sincerely,

Donald V. Shaff

36-7881 is based on permit which includes Acres in S. 21 + S. 22. Claim states it is operated as two separate systems; one for S. 28 and one for 21/22. Since it overlaps these claims above this POD/POU #'s will be linked to 36-7881. Hopefully, this will be clarified upon licensing.

THIS IS AN IMPORTANT LEGAL NOTICE CONCERNING YOUR WATER RIGHT CLAIMS IN THE SNAKE RIVER BASIN ADJUDICATION

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT
OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	)	Case No. 39576
	)	NOTICE OF FILING AMENDED DIRECTOR'S
	)	FOR REPORTING AREAS 1, 2, AND 3
_____	)	(BASINS 34, 57 AND 36)

TO: ALL CLAIMANTS OF RIGHTS TO THE USE OF WATER IN REPORTING AREAS 1, 2 AND 3
(BASINS 34, 57 AND 36)

The Idaho Department of Water Resources has filed Amended Director's Reports for Reporting Areas 1, 2, and 3 (Basins 34, 57, and 36, also known as the test basins) with the SRBA District Court. One of the purposes of the Amended Reports is to conform the director's reports to the requirements of the adjudication statute, Title 42, chapter 14, Idaho Code, which was amended in 1994.

The Amended Reports amend the "preamble" to the director's reports, which include "general provisions." The general provisions apply to all water rights or certain classes of water rights, and are recommended to be included in the court's decree of water rights. The amendments significantly reduce the general provisions, and include some changes in the text of the remaining general provisions. The remainder of the preamble consists of explanatory material. The Amended Reports do not change the list of water rights in the report. IDWR will file amended reports at a later date that revise the list of water rights in the reports.

The SRBA District Court has entered an order granting the amendments to the Director's Report for Basin 57 in part. The order further provides that no additional objections to the remaining general provisions in the Basin 57 report will be allowed. The court has entered an order setting a hearing on the Amended Reports for Basins 34 and 36 on January 16, 1996, at 1:30 p.m., at the SRBA Courthouse. **The order provides that any party opposing the amendments to the report shall file with the court a notice and brief in opposition by 5:00 p.m. January 8, 1996;** any party wishing to file a response to the objections shall file their briefs prior to 5:00 p.m., January 15, 1996.

Some claimants have filed a motion asking the court to designate the general provisions as "Basin Wide Issue No. 5" for determination by the court. The court has entered an order designating the general provisions in Basin 57 as Basin Wide Issue No. 5. (One of the general provisions, concerning the Reynolds Creek Decree, was referred to the special master for Basin 57.) A hearing on the designation of general provisions in Basins 34 and 36 as part of Basin Wide Issue No. 5 will be held January 16, 1996, at 1:30 p.m. at the SRBA Courthouse.

REMARKS:

P/U # is clearly greater than the claimed acres covered by claims A36-7002B AND A36-2416. The additional acres are apparently covered by PERMIT 36-7881 which has not been licensed at this time. Final acre recommendation left to Water allocations and the licensing procedures for 36-7881. Overlap analysis also excludes the permit. I recommend the P/U as a permissible P/U covered by claims A36-7002B & A36-2416. ASCS photos & BPP photos show irrigation in excess of the claimed acres. limit this right to 1479 acres in Remark K/D 6
