Remarks:Comments:

1. csaxton 10/30/2006 POU

Comment: 67-477 was claimed in two pieces 67-477A and 67-477B. SRBA 67-477A claimed use of decreed water on a place of use that was not originally decreed. Evidence indicates that there was an accomplished change in POU. In 2004 the POU claimed under 67-477A was split and thus the SRBA claim was split into 67-14505 and 67-14506. The portion claimed under 67-14506 is the POU that is not in the decreed POU while 67-14505 ended up with the POU that was within the claimed POU. Without looking at the history, it would appear that 67-14506 just claimed a decreed right that they should not have. However, it appears that the accomplished change took place before the split of the right and therefore 67-14505 and 67-14506 both should have a portion of decreed right 67-477A. This is supported by watermaster delivery records that show delivery to the owner that is applicable to 67-14506 and the ground that is applicable to 67-14505. Recommended diversion rates were taken directly off of the water master delivery records since it was impossible to proportion out delivery rate based on acreage as so much additional acreage was added when combining this decreed water with other supplemental rights.

2. csaxton 10/30/2006 Stock Water number

Comment: Recommended stock water head was based on the diversion rate claimed. IDWR standards chart shows 0.02 cfs can water up to 50 head.

3. csaxton 10/30/2006 From Claim (1)

Comment: This right is a split from former right 67-00477a.

4. csaxton 12/19/2006 NOE

Comment: POU amended per NOE. Claimant asked for 66 acres. Taking into account error in the rectification of the air photo, I still could only find 63 acres.

Re: Original Notice of Claim to a Water Right No. 67-0477A

Renumbered to Notice of Claim to a Water Right No. 67-14505

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section
