CAMBRIDGE ID 83610
Telephone Number: (208)740-0286

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

My original sales agreement and the appraisal show that I own 9.17 acres, not the 8.80 that you show for the source. I am also supposed to have C Ben Ross Reservoir Rights. I was told by the real estate agent that I had 17" of the original 46. Also I filed for the water rights to this water. The other parcel that was sold off the original 80 acres was not filed on & is not being watered. Nelbert Legg said he retained 17" of the original 46. I irrigate ~ my neighbor doesn't. Is the water

2. Describe the changes you wish to make in the proposed recommendation:

3. Give a brief explanation as to why you disagree with these portions:

From C Ben Ross Res. included in this claim? I am a little concerned about having enough water to water my pasture. I was unable to attend the meeting because of the short notice. I AGREE with this proposed recommendation: no changes need to be made. I HAVE 68 acre feet of C Ben Ross Res. water.

Re: Original Notice of Claim to a Water Right No. 67-00490A, 67-10864

Renumbered Notice of Claim to a Water Right No. 67-14510, 67-14508

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section
Western Region
