Witness my hand this fifth day of October, 1909.

Jas. Stephenson, Jr.,
State Engineer.

O--------O

Hon. James Stephenson, Jr.,
State Engineer,
Boise, Idaho.

Dear Sir:-

On August 12th, 1909, I filed in your office Application No. 7276 for seventy (70) cubic feet per second of the waters of the Middle Fork of the Weiser River and designated the point of diversion as North 18° 30' East 2,060 feet from the quarter corner of south line of Section 8, in Twp. 15 N. Range 1 E., and thereafter and on the 5th day of October 1909 said application was approved by your office, and Permit No. 5270 issued to me, based on said application.

I now find that it is impracticable to divert the waters of said Creek at the point designated in said Permit and in said Application, and that the only practicable place for diverting said water is in the SE¼ of the NW¼ of Sec. 9 at a point North 33° 45' East 3,500 feet from the south-west corner of said Sec. 9, Twp. 15 N., Range 1 E.

I attach hereto a blue print of the ditch now partially constructed and by means of which I, and my successors in interest, expect to divert the water of the Middle Fork of Weiser River under said application and permit. Said ditch is now partially completed, and we think will be entirely completed by the 15th of June, 1910.

I find that there are no ditches whatever diverting water between the point of diversion in my application and the point of diversion of the ditch now being constructed and shown on the accompanying map.

I, therefore, pray that my said application and permit be amended by changing the point of diversion as hereinbefore stated, as no one will be injured by such change, and would request that notice from your office advising me that such change of the point of diversion will be approved by your office, be sent to my attorneys, Messrs. Richards, & Haga, of Boise. Idaho.

Dated at Boise, Idaho, this 4th day of February, 1910.

Respectfully,
J. J. Allison.

To the Honorable the State Engineer of the
State of Idaho.
Boise, Idaho.

Sir:-

Your petitioner, the Weiser Valley Land & Water Company, respectfully submits that it desires to irrigate under permit No. 5270, issued to J. J. Allison, and by him conveyed to your petitioner as shown by the records of your office, the following described lands in addition to the lands described in said Permit, to-wit; The S½ of the NE¼ of Section 15, and the S½ of the NE¼ of Section 16, Township 15 North, Range 1 West B. M.

And your petitioner prays that the lands above described may be added to the list of lands described in said Permit No. 5270, to be irrigated thereform, and that said Permit may be ammended accordingly and this your petitioner will ever pray.

THIS INDENTURE, Made this 10th day of September, A. D., 1918, between C. L. HAM, as Sheriff of the County of Adams, State of Idaho, party of the first part, and RAYMOND H. WILTSIE, of Cortland, New York, the party of the second part, WITNESSETH:

WHEREAS, In and by a certain decree rendered by the District Court of the Seventh Judicial District of the State of Idaho, in and for the County of Adams, on the 15th day of January, 1918, in a certain action then pending in said Court, wherein Edward D. Howland and Certrude Conzales were plaintiffs, and Weiser Valley Land and Water Company and others, were defendants, it was among other things, ORDERED, ADJUDGED AND DECREED that all and singular the mortgaged premises described in the Amended Complaint in said action, and particularly described in said decree, be sold at public auction, by the Sheriff of the said County of Adams, in the manner required by law, and according to the course and practice of said Court, and that certain of said premises, property, rights and franchises (being the premises and property hereinafter described), be sold without redemption, and that said Sheriff upon the Confirmation of said sale by said Court execute, acknowledge and deliver to the purchaser a deed to the premises and property, real, personal and mixed described in said decree and ordered to be sold without redemption;

AND WHEREAS, A writ in the nature of an order of sale, reciting the material facts of said decree, and directing the said party of the first part, as such Sheriff, to execute the said decree by making the sale and applying the proceeds in conformity therewith, having been to such Sheriff directed and delivered, the said Sheriff did, at the hour of 4 o'clock P.M., on the 19th day of August, 1918, after due public notice had been given, as required by the laws of the State of Idaho, and the course and practice of said Court, duly sell at public auction, in front of the Court House in Council, County of Adams, State of Idaho, agreeably to the said decree and the provisions of law, the premises, property, rights and franchises in said decree mentioned; at which sale the property, rights and franchises hereinafter described, were fairly struck off to the said Raymond H. Wiltsie, for the sum of $10,000.00 (Ten Thousand Dollars) lawful money of the United States, the said Raymond H. Wiltsie being the highest bidder, and that being the highest sum bid for said property;

AND WHEREAS; Said Sheriff of Adams County, Idaho, thereupon made, executed and filed with the Clerk of said Court his Return attached to said order of sale, showing the manner in which the said writ and order of sale had been executed and carried out by said Sheriff, the manner in which the said property had been sold and notice of such sale; and all such other things as were necessary to give said Court full information relative to said sale and the execution of said writ;

AND WHEREAS, The said Court did, on the 7th day of September, 1918, duly confirm said sale by an order made and entered in said cause on said date, after notice to all parties appearing in said cause, in which said order the Court did further order and direct the execution and delivery of this indenture by the said Sheriff to the said Raymond H. Wiltsie, upon the payment of said purchase price, either in cash or bonds, or part cash and part bonds;

AND WHEREAS, the said Raymond H. Wiltsie has paid the said purchase price partly in cash and partly in bonds, in the proportion required by said order of confirmation and decree, and is now entitled to a deed for the property and premises hereinafter described;

NOW, THIS INDENTURE WITNESSETH, That the said party of the first part, the said C. L. Ham, Sheriff of Adams County, State of Idaho, as aforesaid, in order to carry into effect the sale so made by him, as aforesaid, in pursuance of said decree, and in confirmity to the statute, in such cases made and provided, and, also, in consideration of the premises and of the said sum of $10,000.00 so bidden and paid to him, as aforesaid, by the said purchaser, the party of the second part, the receipt whereof is hereby acknowledged, hath granted, bargained, sold and conveyed, and by these presents doth grant, bargain, sell and convey unto the said party of the second part and to his heirs and assigns forever, all property, real, personal and mixed, of the defendant, Weiser Valley Land and Water Company and the rents, issues, interest, income and profits thereof, including the following described property, rights and franchises situate in Adams County, Idaho, to-wit:

Cert. 5270

July 1, 1925.

Mr. M. G. VanHosen,
Mesa, Idaho.

Dear Mr. VanHosen:

Agreeable to your request, I have analyzed the abstract of water permits covering Mesa Orchards and Last Valley Reservoir and offer the following suggestions as to further proofs which should be offered.

Permit No. 5270 calls for 70 second feet of the flow of Middle Fork of the Weiser River. This permit has ripened into a license for 39 second feet and so far as I can determine no further permits or proofs are necessary so far as the right to the use of Middle Fork is concerned.

Permit No. 6203 covers Last Valley Reservoir. Proof of completion of works under this permit was made in 1915 and a certificate issued for a dam 58 feet high with a storage capacity indicated as approximately 14,000 acre feet.

Subsequently, and under date of August 23, 1921, proof of beneficial use of water was made under this permit and a license granted for 96.45 second feet. In this license and proof the lands described in the attached sheet have water dedicated to them at the rate of 1 inch per acre, which is the maximum that could be allowed under the Statutes.

You will observe that in making proof of completion of works under this permit the certificate of completion of works was issued up to the present maximum capacity of the reservoir and even more. It is my opinion that this is the permit upon which rights in the present reservoir should all rest.

If there are lands entitled to water from the reservoir which are not included in the enclosed list, such lands should be included in a list submitted to the State Reclamation Department with the request that the permit be amended to include the said new list of lands, and subsequent to the amending of such permit, then an additional proof of application of water to beneficial use should be offered and such additional lands by this means included in the permit. Such new lands assume in all of necessity, so far as the records of this Department are concerned, have to take a later date of priority than the original lands in the permit but such a procedure is not out of harmony with the plans you have outlined to transfer reservoir property to a reservoir operating company.

The records further indicate that the rights to the enlargement of the said reservoir are still in force and effect and are covered by Permits No. R-312 and Use Permit No. 15717. Under the terms and conditions of these permits one-fifth of the work required must be performed on or before September 30, 1925.

5270

WSF #2

It may be that the work already performed may be construed as constituting one-fifth under these permits. There is considerable doubt, however, in the event the permits were intact as to the action the Court might take in this matter. In order to be sure of keeping these rights intact it is my suggestion that new permits be taken out in the comparatively near future, covering the said enlargement rights.

Very truly yours,

Commissioner of Reclamation.

Re: Transfer Water.

Mr. E. C. Van Hoesen,
Mesa, Idaho.

Dear Sir:-

Referring to the application for transfer of water right by the Mesa Orchards Company, H. J. Woodmansee, president, would say that June 12 has been set as the date for the hearing, at this office, at ten o'clock a.m., and notice for the required two weeks publication has today been mailed to the Adams County Leader, at Council.

It will not be necessary for the applicant to appear at this office on the date set for the hearing, unless a protest is filed, in which case you will be further advised.

Very truly yours,
W. G. SWENDSEN,

Re: Transfer Water.

Mr. E. C. Van Hoesen,
Mesa, Idaho.

Dear Sir:-

Referring to the application for transfer of water right by the Mesa Orchards Company, H. J. Woodmansee, president, would say that June 12 has been set as the date for the hearing, at this office, at ten o'clock a.m., and notice for the required two weeks publication has today been mailed to the Adams County Leader, at Council.

It will not be necessary for the applicant to appear at this office on the date set for the hearing, unless a protest is filed, in which case you will be further advised.

Very truly yours,
W. G. SWENDSEN,
Commissioner of Reclamation.

Ofc. # 5270

July 1, 1925.

Mr. W. G. VanHoesen,
Boise, Idaho.

Dear Mr. VanHoesen:

Agreeable to your request, I have analyzed the abstract of water permits covering Boise Orchards and Lost Valley Reservoir and offer the following suggestions as to further proofs which should be offered.

Permit No. 5270 calls for 70 second feet of the flow of Middle Fork of the Weiser River. This permit has ripened into a license for 39 second feet and so far as I can determine no further permits or proofs are necessary so far as the right to the use of Middle Fork is concerned.

Permit No. 6303 covers Lost Valley Reservoir. Proof of completion of works under this permit was made in 1915 and a certificate issued for a dam 20 feet high with a storage capacity indicated as approximately 14,000 acre feet.

Subsequently, and under date of August 23, 1921, proof of beneficial use of water was made under this permit and a license granted for 54.451 second feet. In this license and proof the lands described in the attached sheet have water dedicated to them at the rate of 1 inch per acre, which is the maximum that could be allowed under the Statutes.

You will observe that in making proof of completion of works under this permit the certificate of completion of works was issued up to the present maximum capacity of the reservoir and even more. It is my opinion that this is the permit upon which rights in the present reservoir should all rest.

If there are lands entitled to water from the reservoir which are not included in the enclosed list, such lands should be included in a list submitted to the State Reclamation Department with the request that the permit be amended to include the said new list of lands, and subsequent to the amending of such permit, then an additional proof of application of water to beneficial use should be offered and such additional lands by this means included in the permit. Such new lands assume in will of necessity,, so far as the records of this Department are concerned, have to take a later date of priority than the original lands in the permit but such a procedure is not out of harmony with the plans you have outlined to transfer reservoir property to a reservoir operating company.

The records further indicate that the rights to the enlargement of the said reservoir are still in force and effect and are covered by Permits No. R-313 and Use Permit No. 15717. Under the terms and conditions of these permits one-fifth of the work required must be performed on or before September 30, 1925.

5270

It may be that the work already performed may be construed as constituting one-fifth under these permits. There is considerable doubt, however, in the event the permits were intact as to the action the Court might take in this matter. In order to be sure of keeping these rights intact it is my suggestion that new permits be taken out in the comparatively near future, covering the said enlargement rights.

Very truly yours,

Commissioner of Reclamation.

Question 5 [illegible]

Works of Diversion:

1. Middle Fork Flume, taking water out of the Middle Fork of the Weiser River and conveying it by what is known as the Council Mesa Orchards lands and other lands of the Council Mesa surrounding the orchards. Capacity of Middle Fork flume, 70 second feet. This water is used throughsubstitution under Permit 6503 in connection with Permit 5270, which latter permit authorizes the diversion of the waters of the Middle Fork of the Weiser River, provided it is put into and out of the Lost Valley Reservoir under Permit 6503.

2. East Fork Ditch, taking water out of the East Fork of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of East Fork Ditch 800 inches, as shown by official records. This water is used out of the East Fork Ditch on those certain lands described in Permit 6503, and the waters of Lost Valley Reservoir are substituted to prior rights in place of the East Fork Ditch water.

3. Robertson-Seavy Ditch, taking water out of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of Robertson-Seavy Ditch 500 inches. This water is used out of the Robertson-Seavy Ditch on those certain lands described in Permit 6503, and the waters of Lost Valley Reservoir are substituted to prior rights in place of the Robertson-Seavy Ditch water.

4. Farmers' Canal, taking water out of the Weiser River and conveying it to lands in Townships 16 and 17, North, Range 1 West, in the Council Valley. Capacity of Farmers' Canal, 700 inches. This water is used out of the Farmers' Canal on those certain lands described in Permit 6503 and the waters of Lost Valley Reservoir are substituted to prior rights in place of the Farmers' Canal water.

5. Glenn Ditch, taking water out of the West Fork of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of Glenn Ditch 150 inches.

6. Hahn Ditch, taking water out of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of the Hahn Ditch, 1.35 inches.

6543

No. 2.

Question 10: The water for 1800 acres of the Council Mesa lands was used in 1911 and each subsequent year, and on the balance of the Council Mesa lands in 1918 and each subsequent year.

It was used through substitution for the waters of the Middle Fork of the Weiser River, to the amount of two acre feet per acre during the period from July 15th to October 1st of each year, in connection with Permit No. 5270.

5270

One Hundred Sixty acre feet of said water was used in the year 1919 and each and every year thereafter on the following of said lands, to-wit, S½NW¼ and Lots 3 and 4 of Section 1, Tp. 16 N R 1 W., B M, except five acres thereof; and the S½S½S½ and S½S½NW¼SE¼ Sec 11; and the North 15 acres of the NE¼NE¼ and the North 35 acres of the NW¼NE¼ and the North 30 acres of the SE¼SE¼ Sec. 14, all in Township 16 N R 1 W., B M; and the E½SW¼ Sec. 35, Township 17, N R 1 W., B M, the same being used through substitution of the waters of the East Fork of the Weiser River, and from and during the period from July 15th to October 1st of each of said years, the same being used in connection with water decreed to said lands under decree of the District Court of the Seventh Judicial District of the State of Idaho in and for the County of Washington, entered under date May 9th, 1918 and as affirmed by the Supreme Court of the State of Idaho under decree entered under date June 30th, 1921.

The remaining of said acre feet of water, to-wit, 790 feet thereof, were used in the year 1920 on that portion of said lands described in said permit and not hereinbefore described in this answer ten, as follows, 30 acre feet thereof through substitution of of the waters of the West Fork of the Weiser River and 760 thereof through substitution for the waters of the Weiser River, between the 15th day of July, and the 1st day of October of that year, the same being used in connection with water decreed to said lands under decree of the District Court of the Seventh Judicial District of the State of Idaho in and for the County of Washington, entered under date May 9th, 1918 and as confirmed by the Supreme Court of the State of Idaho under decree entered under date June 30th, 1921

And that all of said water hereinbefore mentioned in this answer to question ten, has been and is being so used through such substitution from said respective rivers and for the respective waters thereof on said lands during the year 1921, such use by substitution being commenced on or about August 1st, 1921.

Mr. C. K. Macey,
Vice Pres. Orchards Water Co.,
Boise, Idaho.

Dear Sir:-

I acknowledge receipt of your letter of the 15th inst enclosing affidavit of Mr. F. C. Horn regarding the condition of spillway of the Lost Creek Reservoir, upon which corrections were required by this Department as specified in my letterto you under date of October 6th; Certificates of Completion of Works under our Permit No. 6503 being withheld until such corrections should be made.

The spillway is not yet in shape that the we would like to see, but its condition at the time it was left by the force engaged in making the enlargment was such that the dam will comply with the terms of the Permit to the extent of providing works sufficient to divert and convey the required amount of water. In view of this fact, it has been decided to issue Certificate of Completion of works under Permit 6503, and in the event further work on the spillway is found necessary, to proceed under the provisions of Section 155.

The certificate will issue within a short time in the regular course.

Very truly yours,

State Engineer.

REPORT OF ENGINEER

1. State name of applicant and number of permit: Orchard Water Co-Permit 6503.

2. State source of water supply: Lost Creek.

3. Location of point of diversion: (From Weiser River) (1) S.24 deg.15'W.1320' from NE cor.Sec.31-T15N-R.2W.(2) N.28 deg.E.1145' from W 1/4 cor,Sec.6 T.14 N.R.2 W.(3) N.67 deg.30' W.2560' from SE cor.Sec. 22,T.14 N. R. 3W. B. M.

4. State whether or not the works of diversion are fully completed and in accordance with terms of permit: Yes, except corrections to dam, as per State Engineer's letter 10/6/15 to O. K. Macey, V.Pres. Orchards Water Co. Boise,Idaho.(File 116 Dam and Emb)

5. Describe works as they exist, giving dimensions and capacities of same: Earth dam 30' high, 20' long at bottom, 250' long at top, forming reservoir of about 14,000 ac.-ft. capacity.

6. State whether or not water has been turned into works of diversion: yes.

7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): See Permit 6503

8. Submit map on enclosed plat, showing location and details of above description. See Permit map, #6503.

Remarks: Spillway of dam is approximately 10' wide with effective depth of about 2', which is inadequate, and should be increased. Downstream slope of dam is to be increased to 2:1 and downstream toe of dam to be protected against scour by flow of water from outlet tunnel. These corrections to be made in accordance with State Engineer's letter to O. K. Macey, 10/6/15, before certificate of completion of works should be issued.

This examination was made on the 3rd day of October, 1915.

THIS INDENTURE, Made this 27th day of July, in the year of our Lord one thousand nine hundred and twenty-five, between Elizabeth O. Van Hoosen, (a widow), of the Town of Mesa, County of Adams, State of Idaho, the party of the first part, and the Lost Valley Reservoir Company, a corporation organized under the laws of the State of Idaho, with its principal place of business at the Town of Mesa, County of Adams, State of Idaho, the party of the second part, WITNESSETH:

That, WHEREAS, The said party of the first part, by the terms of a certain written proposal dated the 20th day of June, 1925, for the consideration therein named, offered and agreed to transfer and convey unto the said party of the second party, by good and sufficient Quit Claim Deed, an interest in and to that certain reservoir known as the "Lost Valley Reservoir", water rights, rights of way, franchises and dams, situated in Adams County, State of Idaho, and more particularly described as follows, to-wit:

An interest in and to said Lost Valley Reservoir, which is situated on Lost Creek in Township 19 North of Range one West of Boise Meridian, Adams County, Idaho, the outlet of which into Lost Creek being at a point South 39 degrees 30 minutes East 2002 feet from the Northwest corner of Section 28 in said Township and Range, to the extent of about 6050 acre feet, together with a proportionate interest in the present capacity of said reservoir, rights of way, dams, franchises and water permits hereinafter mentioned, but reserving unto said first party all her interest over and above the present capacity of said reservoir, in and to said water permits and right to appropriate, use and dispose of such water under said permits, rights of way, franchises and dams, and the right to enlarge said reservoir and store, own and sell water under said permits that are over and above the present capacity of said reservoir; said water permits above referred are those necessary to the present capacity of said reservoir and in particular Permit No. 6503 to appropriate the water of Lost Creek, under the application filed May 27, 1910, by the Weiser Valley Land and Water Company.

AND WHEREAS, The interests above referred to are those over and above said interests in said reservoir, water rights, rights of way, dams and franchises which have been heretofore conveyed and transferred to certain other parties in said reservoir and up to the present capacity of said reservoir.

AND WHEREAS, By resolution of the stockholders and Board of Directors of the party of the second part at their meetings, the President and Secretary of said second party were duly authorized, empowered and directed to accept this conveyance of the above mentioned and described property for and on behalf of said second party, pursuant to the terms of said written proposal;

WHEREFORE, The said party of the first part, in consideration of the premises aforesaid, and of the sum of One Dollar ($1.00) in lawful money of the United States of America, to her in hand paid by the party of the second part, the receipt whereof is hereby acknowledged, does by these presents remise, release and forever Quitclaim, unto the said party of the second part and to its successors and assigns, an interest in and to that certain reservoir known as the Lost Valley Reservoir, water rights, rights of way, franchises and dams, situated in Adams County, State of Idaho, and more particularly described as follows, to-wit:

An interest in and to said Lost Valley Reservoir, which is situated on Lost Creek in Township 19, North of Range One West of Boise Meridian, Adams County, Idaho, the outlet of which into Lost Creek being at a point South 39 degrees 30 minutes East 2002 feet from the Northwest corner of Section 28 in said Township and Range, to the extent of about 6050 acre feet, together with a proportionate interest in the present capacity of said reservoir rights of way, dams, franchises and the water permits necessary therefore but reserving unto said first party all her interest over and above the present capacity of said reservoir, in and to said water permits and right to appropriate, use and dispose of such water under said permits, rights of way, franchises and dams, and the right to enlarge said reservoir and store, own and sell water under said permits that are over and above the present capacity of said reservoir; said water permits are those necessary to the present capacity of said reservoir and in particular Permit No. 6503 to appropriate the water of Lost Creek, under the application filed May 27, 1910, by the Weiser Valley Land and Water Company.

TOGETHER, WITH all and singular the appurtenances thereunto belonging or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

TO HAVE AND TO HOLD, all and singular the said rights, titles and interests, together with the appurtenances, unto the said party of the second part and to its successors and assigns forever.

IN WITNESS WHEREOF, the said party of the first part, has hereunto set her hand and seal the day and year first above written.

THIS INDENTURE, Made this 27th day of July, in the year of our Lord one thousand nine hundred and twenty-five, between the Orchards Water Company, a corporation organized under the laws of the State of Idaho, with its principal place of business at Boise, Ada County, Idaho, the party of the first part, and the Lost Valley Reservoir Company, a corporation organized under the laws of the State of Idaho, with its principal place of business at the Town of Mesa, County of Adams, State of Idaho, the party of the second part, WITNESSETH:

That, WHEREAS, The said party of the first part, by the terms of a certain written proposal dated the 5th day of July, 1925, for the consideration therein named, offered and agreed to transfer and convey unto the said party of the second part, by good and sufficient Quit Claim Deed, all of its interests as hereinafter stated in and to that certain reservoir known as the Lost Valley Reservoir, water rights, rights of way, franchises and dams, situated in Adams County, State of Idaho.

And, WHEREAS, By resolution of the stockholders and Board of Directors of the party of the first part, at their meetings, the President and Secretary of said first party were duly authorized, empowered and directed to transfer and convey its interests in the property herein stated unto said second party for and on behalf of said first party, pursuant to the terms of said written proposal;

NOW, THEREFORE, The said party of the first part, in consideration of the premises aforesaid, and of the sum of One Dollar ($1.00) in lawful money of the United States of America, to it in hand paid by the party of the second part, the receipt whereof is hereby acknowledged, does by these presents remise, release and forever Quitclaim, unto the said party of the second part and to its successors and assigns, all its interests in and to that certain reservoir known as the "Lost Valley Reservoir", and the water rights, rights of way, franchises and dams appurtenant thereto, situated in Adams County, State of Idaho, and more particularly described as follows, to-wit:

An interest in and to said Lost Valley Reservoir, which is situated on Lost Creek in Township 19, North of Range One West of Boise Meridian, Adams County, Idaho, the outlet of which into Lost Creek being at a point South 39 degrees 30 minutes East 2002 feet from the Northwest corner of Section 28 in said Township and Range, to the extent of about 6250 acre feet, together with a proportionate interest in the present capacity of said reservoir, rights of way, dams, franchises and the water permits necessary therefore, and particularly that certain permit designated as Permit No. 6503 to appropriate the water of Lost Creek, under the application filed May 27, 1910, by the Weiser Valley Land and Water Company, a corporation, the above interest therein having been transferred to the Orchards Water Company by a deed dated October 21, 1913 and filed for record in Adams County on November 17, 1913 in Book 2 of Deeds at pages 586, 587 and 588.

The said rights, titles and interests hereinbefore enumerated being conveyed to said second party with the understanding and agreement, by said second party, that said second party will deliver and release from said reservoir, to said first party, the above mentioned 6250 acre feet of water whenever said first party demands same.

TOGETHER, With all and singular the appurtenances thereunto belonging or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

TO HAVE AND TO HOLD, all and singular the said rights, titles and interests, together with the appurtenances, unto the said party of the second part and to its successors and assigns forever.

IN WITNESS WHEREOF, the said party of the first part, the Orchards Water Company, has caused its corporate name to be hereunto subscribed by its Vice-President, and its corporate seal affixed, attested by its Secretary, the day and year first above written.

Dear Mr. Swendsen:-

Last evening I received a letter from Mr. A. L. Freehafer, saying the notice for publication of our Reservoir water would be held in your office until the 16th and that Mr. Macey had only mentioned two canals for carrying these waters and asked me to send you the names of the various ditches to be used for carrying the water to all the farmers who have recently purchased this water from Freehafer, VanHoesen and myself. A few days prior to Mr. Freehafer's letter, I received one from Mr. Macey, saying he had arranged with you for me to make any corrections or additions with the Editor of the Leader here before the notice is published. And then to send you a copy. Now the time is too short for me to get this information into your office before you forward the above notice. So if satisfactory to you I will check over with the Editor the descriptions of the lands, add the names of the canals, when same is received here by the Leader office.

Trusting this will be satisfactory to you, I am,

Yours very truly,

Henry (Jim? Joe?) Williams filed on 67-4433 this date. Unn streams & springe waters 20 acres, part season (snow melt)

Also receives water through the Hlindale ditch out of Wasir river.

POU & Transfer file does not show any other WR for his property except for 67-7589 & 67-7733 which are new rights & adj. claim unnecessary.

He was under assumption that WR # 67-00079 [Biggerstaff] appurtenant to his land.

Unless there is been a transfer it doesn't. No transfer on record.

Also. the Hlindale ditch

company filing for users. We may be included. Mr. Williams will contact me to give me the secretary of state number. Name is Tim Haas. Will they file? Will his land be included? What numbers will they file from?

Williams also holds 20 shares of East Valley Reserv. which cannot be used on his property. Possible procedure will be to give shares back to E.V. to be used on other properties.

Dear Mr. Ledger:

I have researched our files for water right covering lands in the SE¼ SE¼, Sec. 2, Twp. 17N, Rge. 1W, and enclosed is a copy of the abstract of those water rights.

The water right found covering your land description is underlined and was in the name of Biggerstaff. In this decree the water rights were all allotted 2/8 of an inch of water per acre and the number of acres per water right were never listed. Therefore, we take the amount of water which is 0.90 cubic feet per second and convert it into inches. This would be 45 inches of water which at 5/8ths of an inch per acre would be enough to cover 72 acres. The legal description covers the S½SW¼, Sec. 1, which is 80 acres, and the S¼SE¼, Sec. 2, which is also 80 acres for a total of 160 acres. At the time of the decree 72 of the 160 acres were being irrigated and it is those 72 acres that the water right covers. Normally, when trying to figure how many acres were covered in the decree in your quarter-quarter (40-acre tract), you will have to figure which acres could have been irrigated only by a gravity system and flood irrigation at the time of the decree. Your water right has a priority of 6/1/1890 and obviously no pumps or sprinklers were in use at that time. The number of acres you come up with would probably be close to the number the decree covered.

I hope this information helps, but if you have any questions, do not hesitate to contact us.

Sincerely,

Dear Mr. Hohs,

I have received your letter of June 4, indicating the location of your places of use.

Enclosed are two water right proofs which are appurtenant to the lands described. These water rights should be filed by the owner of said lands. In the case of the Biggergstaff right, if you own a portion of this land, we can split the right.

Also enclosed is a listing of water rights held in sections two and three. If any of these individuals were previous owners of land you now own, you may file a claim on these also. A water right claim must be appurtenant to the land where the water is used.

These water rights came from our data base, however, it is the responsibility of the landowner to file a claim on all water rights held.

Enclosed are two forms which you may use to file your claims. Form 42-1409(2)a is for an irrigation right and 42-1409(2)b can be used for your domestic filing. A fee schedule is also enclosed.

If you need further assistance, please feel free to contact me.

Sincerely,

Linda Werner

Dear Ms. Werner,

Our ditch co. properties are located in the south ends of Sections 2 and 3 of T17N, R1W. Our water rights are covered under the Biggerstaff decree of June 1, 1890.

I believe there is only one water right for all of us. If this is not enough information just write me at this address or call me on the weekends at the above phone number and I'll try to give you any other information you need.

Sincerely,

Dear Mr. Hohs;

I am writing in response to your letter of May 19. In answer to your questions:

1. A person may, but is not required, to file a water right in this adjudication if they use less than 13,000 gallons/day for a domestic or stockwater usage. I have enclosed a booklet to explain the advantages to filing.
2. The above uses must be filed separately from irrigation unless both uses were started at the same time and from the same system.
3. The water rights for the ditch company may be filed on one claim if the company holds only one water right. If each individual holds their own water right, then each must file.
4. There will most likely be a mobile unit in that area; however, I am unsure of the date at this time. It will be announced over radio and in the local newspaper.
5. In regard to the Lost Valley Reservoir Company, they will probably file; however, you may want to give them a call to be sure.

If you will give me a legal description of the properties in question, or previous water right number(s), I will be glad to research any water rights and give you more details about what needs to be done. Please contact me if you have any further questions.

Sincerely,

Linda A. Werner

Dear Sirs,

I am the president of the Glendale Ditch Company and it has come to my attention that, once again, the members of our ditch are being asked for money to re-register our water rights.

If you could please send me the proper form and its instructions I will attempt to fill it out. I have heard from other people that the instructions are a tad difficult to understand. If it was difficult for them it will be worse for me so, if I may, I am asking you to answer a few questions personally.

Must a person re-file a claim for domestic and/or stockwater rights from a well and if we don't do we lose those water rights? Must this be done seperately from the re-filing for irrigation rights? What could be the consequences of losing the rights to your wellwater?

Can all eleven of us file one form (as a ditch company) and therefore pay one flat $50 fee? Will your "mobile claims taking office" be traveling through our area? If so, when? If any of the forms must be filed individually please send me eleven forms and I will distribute them among the ditch members.

Also, though we don't get water from it, we all have shares in the Lost Valley Reservoir Company. What should we do about these?

Thank you for any help you can extend.

Sincerely,

Timothy J. Hohs

Dear Mr. and Mrs. Newman;

This office has received your letter dated September 10, 1989 requesting the necessary forms for filing on the water out of Lost Valley Reservoir.

While Mr. Hohs is taking care of water right filings for water conveyed through the Glendale Ditch it would still be necessary for you as individuals to file on the storage water from Lost Valley Reservoir. Enclosed is a Notice of Claim to a Water Right form with instructions which may be used to make this filing. When filling out this form, please indicate that you have Lost Valley Reservoir shares, the amount and type of shares. Lost Valley has four decreed water rights and one license. In order to determine which water right is applicable to your type of share I must know what type of certificate you hold.

I am enclosing a copy of water right claim 67-02053 which I believe is the license applicable to your certificates. You may use this copy as a guide when filling out your claim form. Also enclosed is a form explaining the fee schedule.

The Lost Valley Reservoir filings present a unique situation in the Snake River Adjudication. Therefore, if you have any questions please contact me. You may wish to file your claim here at the Western Region office. If so, please call to make an appointment with myself.

Sincerely,

Linda A. Werner

Gentlemen:

We received a card similar to this one enclosed in May 1989. We discussed it with Timothy Hohs who is the treasurer of the Glendale Ditch Co. to which we belong. At that time, he said he would handle all claim forms for all members in the Ditch Co. I believe there are at least twelve of us.

Anyway, now that we rec'd. this second post card from Mrs. Mark Conchan I'm worried this may not be being taken care of.

Please send us the necessary claim forms & instructions so we can file on our water rights. We have 3-C-shares and sure don't want to lose them.

Thank you,

Leon & Arlene Newman

R-675

Mr. K. B. Snow, Secretary
Lost Valley Reservoir Company,
Council, Idaho

March 15, 1945

Dear Mr. Snow:

We acknowledge receipt of your letter of February 3rd, in reply to notice of completion of works proof due under Permit No. R-675 on February 26, 1945, and also inquiring as to a permit to the Van Hoesens.

The records of this Department show two permits issued to Anders C. Van Hoesen, under date of March 30, 1923, as follows:

No. R-312, to store 30,000 acre feet of water from Lost Valley Creek. Proof of completion of works was made March 30, 1932, and certificate of completion of works issued for 14,000 acre feet, with priority of February 16, 1923.

No. 15717 was the companion to R-312, and was for 200 cubic feet per second from Lost Valley Reservoir, for the irrigation of 26,639 acres of land. Proof of completion of works was also made on this permit on March 30, 1932, and Mr. Van Hoesen was notified by office letter of March 29, 1933, that a certificate of completion of works would be issued for the 200 second feet upon payment of the statutory fee of $62.00. This was not paid; nor has the beneficial use proof been made, which was due on or before March 30, 1935.

However, the completion of works fee can still be paid, and the certificate of completion of works will be issued; after which the beneficial use proof can be made, although the priority date will have to be set forward the length of time the proof is past due, which would bring it to some time in 1935, if made now, instead of 1923; and the storage figures adjusted to the actual capacity of the reservoir.

There were two later reservoir permits issued to Mr. Van Hoesen, No. R-515 on February 29, 1932, for 30,000 acre feet from Lost Valley Creek, and No. R-630, on June 21, 1937, for 6,200 acre feet from Lost Creek; but both of these have been cancelled for failure to make the necessary proofs.

We understand that your company is now the owner of this reservoir, and if you wish to proceed with this final proof and obtain a license under Permit No. 15717, we will be glad to furnish you the necessary forms, and instructions in regard to making such proof.

As far as Permit No. R-675 is concerned, there have been no other filings on Lost Creek subsequent to this, and our suggestion would be that you file a new application to take the place of this one. If you wish to do this, we will be glad to send you the proper form of application.

Very truly yours,

M. K. R. KULP
State Reclamation Engineer

RECEIVED

Department of Reclamation

State Reclamation Engineer,
Boise, Idaho.

Dear Mr. Kulp:

I am in receipt of your notice Form No. 7 relative to permit No. R - 675.

I am not sure as to the identity of this permit, but presume it refers to a certain filing which I made in the name of the company.

Mr. Stafford understood at the time my motive which I will add was to rather tie that thing up in the interest of the public: in contemplation of the overall program which was being sponsored for the complete coverage of the Weiser River system.

Prior to that time it had been the seemingly, perpetual policy of certain selfish interests to keep filings on every site which might have a value. It was my opinion that such filings and permits might interfere and possibly result in profits for certain individuals, against the best interests of the public.

Needless to say we have constructed no works and have no thought other than to fit in the program of developing this thing for the best interests of the community.

There was a certain permit which I think was along about 1928 to 30, by Van Meesens and which resulted in actually raising the dam, creating what is known as class C stock in the reservoir. It is my understanding that proof of beneficial use of this water has never been made, although the water was all sold and is being used by the purchasers.
We might be interested in completeing this proof.

Very truly yours,

E O Lucas

Secretary Lost Valley Reservoir Company.

Dear Mr. Hamilton:

In response to your letter dated November 9th, we have searched our records for a permit issued to Fred Beckman or any other party wishing to file on additional storage water in Lost Valley Reservoir.

We find a filing No. R-1013 which has the same land description as R-675.

It seems that when Mr. Andy Lay was in the office, we found a permit under another name, but our stream index fails to show any such permit. Possibly Mr. Lay could give us the name of the person it was issued to, then we will look again.

Very truly yours,

Dear Linda,

Lost Valley Res. was first built in 1909 and 1910. I can not find a permit no. for then. In 1925 Mesa Orchard Co. incorporated and took charge of it.

I am sending what I found that may help. The permit issued in 1940 is when it was last enlarged. The no is not real clear. I think it is 675 but may be 673.

On July 15, 1925, M. C. Van HOESEN obtained PERMITS Nos. 16340 and R-375 for 200 second feet and 80000 acre feet, respectively. The diversion points set up in those permits were the same as those in PERMIT No. 15717 and PERMIT No. R-312 with the exception that the two diversion points in:

Section 30, Township 15 North, Range 2 West of Boise Meridian

and the diversion point in:

Section 27, Township 14 North, Range 3 West of Boise Meridian

were not included nor have any additional points of diversion been added by subsequent amendments.

PERMIT Nos. 16340 and R-375 have been assigned to Mrs. ELIZABETH C. Van HOESEN, administratrix.

It is my understanding that the company has now sold storage water to the above mentioned parties and that they, in turn, desire to obtain a right to divert it through the FARMERS' CANAL and, inasmuch as the FARMERS' CANAL is not mentioned as a point of diversion in either of the permits, desire to obtain such amendment.

In order that the record be properly made in this office the right must be referred to some specific award.

It was my understanding that these rights were not intended to be served from the company's decreed right, and that, inasmuch as PERMITS Nos. 15717 and R-312 are the next rights by priority and are

Dear sir, Please send me a copy of lease issued on Lost Valley Reservoir to Orchard Water Co. It is my home necessary for me to establish my right to water for my land from L. V. Reservoir. We had to make proof of the use of said water some years ago, & I would like to get a copy showing my proof. If you would be kind enough to send me said proof I would be much pleased & very thankful to you.

Abandonment.

Abandonment is a question of intention and must be evidenced by a clear and decisive act. Idaho Farms Co. v. North Side Canal Co. (1938), 24 Fed. Supp. 189.

Patentee of land, over which right of way for reservoir had been granted, or his successor in interest, may institute proceedings to declare forfeiture and quiet title in case of abandonment. Carns v. Idaho-Iowa Lateral & Reservoir Co. (1921), 34 Idaho 330, 202 P. 1071; Hurst v. Idaho-Iowa Lateral & Reservoir Co. (1921), 34 Idaho 342, 202 P. 1068.

Where it appeared from testimony of engineers that canal of prior appropriator lacked capacity to carry water decreed to it, and that the excess had been returned to str and used by subsequent appropriators, aba ment resulted against such prior appropriator, a five-year period having elapsed. Albrethsen v. Wood River Land Co. (1924), 40 Idaho 49, 231 P. 418.

An abandonment of a water right must have been continuous for five consecutive years. Carrington v. Crandall (1944), 65 Idaho 525, 147 P.2d 1009.

Only when an appropriator abandons his water by failing to apply it to a beneficial use for the statutory period of five years can it be considered and treated as unappropriated public water of the state. Colthorp v. Mountain Home Irr. Dist. (1945), 66 Idaho 173, 157 P.2d 1005.

Water right was not forfeited even though abandoned for over five years where applicant for transfer resumed use of water prior to filing petition for transfer. Application of Boyer (1952), 73 Idaho 152, 248 P.2d 540.

No forfeiture or abandonment results if the nonuser is prevented from exercising his rights by circumstances over which he has no control. Hodges v. Trail Creek Irr. Co. (1956), 78 Idaho 10, 297 P.2d 524.

Nonpayment of purported upkeep charge by plaintiff did not result in forfeiture or abandonment of plaintiff's water rights where the plaintiff received no notice or demand for payment from defendant irrigation company. Hodges v. Trail Creek Irr. Co. (1956), 78 Idaho 10, 297 P.2d 524.

An appropriator who fails to make beneficial use of his water for the statutory period may forfeit his rights, but title to such water right cannot be acquired by another, where such other claimant was the party who prevented the use. Hodges v. Trail Creek Irr. Co. (1956), 78 Idaho 10, 297 P.2d 524.

Where protestants asserted that water, which applicant had tried to appropriate by his permit, was seepage water to which they had superior rights through prior use and enjoyment, and there was no evidence as to the actual amount of water used by protestants over and above their decreed rights, or amount claimed at point of diversion that had not been adjudicated, the evidence was insufficient to establish that any of the protestants had abandoned any right to the use of their prior decreed rights. Cantlin v. Carter (1964), 88 Idaho 179, 397 P.2d 761.

A senior appropriator did not lose by laches his right to object to a conflicting diversion by a junior appropriator by failure to assert his rights in previous rights where such diversion had not previously interfered with his use of the water to which he was entitled. Martiny v. Wells (1966), 91 Idaho 215, 419 P.2d 470.

If no public interest is forwarded by the abandonment, equity is against declaring a forfeiture. Idaho Farms Co. v. North Side Canal Co. (1938), 24 Fed. Supp. 189.

Abandonment and forfeitures of water rights are not favored, and, even though forfeited and abandoned for five years prior to the time that subsequent appropriators initiated their right, if, subsequent to such five-year period, and prior to such subsequent appropriators' initiation of their right, the first appropriators and their predecessors in interest under claim of right and continuity of interest again began to exercise their water rights, there would be no abandonment which could inure to the benefit of subsequent appropriators. Zezi v. Lightfoot (1937), 57 Idaho 707, 68 P.2d 50.

Forfeiture of water rights is not favored, and all intendments are to be indulged in against a forfeiture. Hodges v. Trail Creek Irr. Co. (1956), 78 Idaho 10, 297 P.2d 524.

Action to Quiet Title.

Where predecessor in title of both plaintiff and defendant had transferred water right from ranch now owned by defendant to ranch now owned by plaintiff, latter could maintain action to quiet title to such water right although predecessor in title had not had statutory authority to make such change. Federal Land Bank v. Union Central Life Ins. Co. (1931), 51 Idaho 490, 6 P.2d 486.

Appeals.

Any party aggrieved by decision of commissioner may either appeal to district court or commence original action in said court. Crockett v. Jones (1926), 42 Idaho 652, 249 P. 483.

Hearing on appeal to district court from reclamation commissioner must be reviewed by Supreme Court on appeal and not by writ of review. State v. Adair (1930), 49 Idaho 271, 287 P. 950.

Proceedings before district court under this section are de novo. First Secur. Bank v. State (1930), 49 Idaho 740, 291 P. 1064.

On appeal from action of department of reclamation (now department of water resources), district court acquires full equitable jurisdiction over entire controversy. In re Rice (1931), 50 Idaho 660, 299 P. 664.

District court acquired full equitable jurisdiction on appeal from reclamation commission order and had full authority to impose reasonable conditions to avoid injury. Beecher v. Cassia Creek Irr. Co. (1944), 66 Idaho 1, 154 P.2d 507.

Appurtenancy.

Water right was not necessarily appurtenant to land on which it was used, and could be separated therefrom. First Secur. Bank v. State (1930), 49 Idaho 740, 291 P. 1064.

received water from a nearby creek was abandoned, such waterline became the property of the state of Idaho and was not included in a deed of land which included in its habendum clause "the appurtenances thereon." Sutton v. Brown (1966), 91 Idaho 396, 422 P.2d 63.

Burden of Proof.

In an action to quiet title, brought by subsequent appropriators on the theory that the former appropriators had abandoned the use of water, the burden of proof was on the subsequent appropriators to show that persons who had used the water by permission used more than that for which they had permission. Zezi v. Lightfoot (1937), 57 Idaho 707, 68 P.2d 50.

Carey Act Settlers Excluded.

This section was not intended to apply to settlers within a Carey Act (U. S. Code [9A, U.S.C.] tit. 43, § 641) project who were not themselves the appropriators of water from public streams of the state. Idaho Farms Co. v. North Side Canal Co. (1938), 24 Fed. Supp. 189.

Change of Diversion.

The owner of a water right had the statutory right to change his point of diversion provided that the rights of others were not injured, and such change did not work a forfeiture or an abandonment of such right. Graham v. Leek (1944), 65 Idaho 279, 144 P.2d 475.

A change in point of use will not be permitted without limitations if the enlarged use in time or amount increases the burden on the stream, or decreases the volume of water in the stream to the injury of appropriators on the stream. Beecher v. Cassia Creek Irr. Co. (1944), 66 Idaho 1, 154 P.2d 507.

Where the original permit incorrectly located the point of diversion, a subsequent petition to correct this designation to conform to the actual point of diversion was not a petition to change the point of diversion. Keller v. Magic Water Co. (1968), 92 Idaho 276, 441 P.2d 725.

It was error for the district court to enjoin landowners from changing the point of diversion of water from a well located on one section of their land to another, where such owners had filed a proper application for such change with the state reclamation engineer (now director of the department of water resources), who declined to hear or process the application. State ex rel. Tappan v. Smith (1968), 92 Idaho 451, 444 P.2d 412.

Construction.

Where one secures permit under this chapter and appropriates water thereunder, it is a statutory appropriation, and to change

Dear Dave;

Thank you for sending the information. I do not know if it is what the lawyer wants or not; but maybe coming from you he will know we are alive.

I am sending you a copy of a page at the beginning of Lost Valley Dam. IT has some permit numbers on it. It seem number 6503 belongs to us. That is the number I am using for our permit number. On this claim I sent in in 1989 it is down as 675 .I changed it to 6503 on my copy. Also the priority date is August 24, 1910. I did not know what was wanted when I sent the claim in so I put down the date it was formed as a Co. Then the diversion piont is down as Sec. 38 instead of 28.

We have 9582 A.F. out in shares; being used on land. What we thought several years ago, was that since we do not know how much water is realy in the lake we want to keep what is not sold as a way of being sure we have enough to cover the shareholders.

Thank You

RE: Notice of Claim to a Water Right for Lost Valley Reservoir Company in the Snake River Basin Adjudication

Dear Ms. Merk:

This letter is provided in response to your visit to our office today regarding the above-referenced Claim to a Water Right.

Please find enclosed a copy of the claim that you submitted on June 6, 1989, with a filing fee of $50.00. It is our understanding that the Lost Valley Reservoir Company advised its shareholders to file their own claims on their shares in Lost Valley Reservoir. It is further our understanding that the above-referenced claim is to be left on file to cover storage water that is not claimed by shareholders. Consequently, there are no specific lands identified in your claim, and a water right number has not yet been assigned to the claim. We will not be determining the adequacy of filings on the reservoir until we conduct the Weiser River Basin review, which will be several years from now.

Also enclosed for your information is a listing compiled as of July, 1991 of the individual claimants for Lost Valley Reservoir water.

If you have questions about your adjudication claims, please feel free to contact either Mr. Ron Howerton or myself.

Sincerely,

David R. Tuthill, Jr., P. E.

Idaho Dept. Water Res.

Mr. Ron Howerton,

Dear Ron,

I am sending this list of Lost Valley Res. Co. Certificate changes; In the last two years. There have been a few more changes in that time, but the certificates were not changed; for different reasons. I thought it might be best to wait until the verification; or when the people do make a change in the certificates to send the changes.

Jim Ball should have filed on the 194 -(A)- shares certificate # 87. Also he should have made a point of diversion change for each person that bought the shares; as they paid off their loan. The ones of us who bought and paid cash for ours from Jim!s mother were given a point of diversion change from the Water Dept. I do not know if he did.

If you think it would help, when people call to make an appointment to file for their water, tell them to contact me first to get the # of the certif. that went with their shares in 1989

Best Wishes

Dear Margaret,

I received your letters **Dtd. Aug. 2, 1991** and **Jan. 9, 1992.**

It sounds like you are about to begin the process of enlarging your reservoir. I hope the study will be a success!

As far as I know, the **Ed Woods** Application has not been advertised. It is still being held up at our State office.

Here is 1-set of Instructions and 2-Application forms, as per your request.

The Instructions will probably be adequate for filling out the Application, however, if you have questions, don't hesitate to call this office or myself.

Dear Ran,

I thought perhaps some of the people at Water Resources may not know Last Valley Res. is a private owned Res. It was built and is maintained with private funds. I don't know if that would help to determine how the permit is filed.

Also on the capacity - When the Res. is full with all the spillway boards in; It is 26 on the gauge - But because of safety and different weather conditions we are not always able to get it that full - There could be times when it would not be up to 19,000 AF With our spillway being too small we have to be very carefel how we time putting the boards in - We need some margine to work with - We would not be able to store all the water Ed wants filed on So we would want to protest his filing - We are wanting to enlarge the Res - but that takes time -

I believe Balls last their juidicated water in the Middle Fork of Weiser; But I understood they sold most of their Res water before the time ran out.

If it would be any help to have a copy of our Bylaws - I would be glad to make copies and send down.

Thanks again for your help and concern

Dear Margaret,

Thankyou, for the reservoir capacity table. This table may be a good reference for basing a claim or for a possible application for permit to appropriate additional water.

I'm sending you an alphabetical list of your **current shareholders**, corresponding to the list you gave me. Also, a second list of the **data entered claims** with their matching adjudication number. The ones not shown may be still waiting to be data entered or possibly still not claimed.

Apparently, there was a court hearing earlier this year that related to an **Ed Woods application 67-07853 for 750AF** of storage water from the reservoir. The application hasn't been advertised yet according to our records.

I will try to get a copy of the results from that court action next week. Maybe this will give you some direction as whether to file an application for permit, to possibly claiming a beneficial use of more storage, or something else.

Sincerely,
Ron Howerton

Dear Ken,

I didn't think to give you a copy of the Res. (Capacity Table) while you were here. It might help you to determine how much water we can store - When we have all the spillway boards in and it is at the top of them the gauge reads 26.00 - It was computed in 1936 I imagine it is still fairly close.

Then I'm sure you will find my subtraction mistake I made when I figured we needed over 600 additional A.F. to bring it up to 10,000 for our storage permit - It would only be 418 I don't know what Numbers I was figuring with.

I think I must have put some one down twice or miss numbered - I counted our Shareholders again and I only get 78 instead of 79.

Hope you had a nice trip home - Thank you for coming up and for your help -

Best Wishes
Margaret

P.S. - I think if you think we could store more than the 10,000 - with problem - We just as well file on it now

YO

Note: Capacity Table computed from Survey made by PAUL BERG December 1936 DEPT. OF RECLAMATION. O.D.B.

of the Reservoir for the season of 1938, and that the Lost Valley Reservoir Company will be and is responsible for any monies so borrowed. Motion was seconded by Clyde I.Rush and on being put to vote was unanimously carried.

Ellis Snow then offered the following resolution and moved its adoption.

RESOLUTION

WHEREAS, By accurate measurements of the inflow and outflow of the Reservoir and by actual survey made by Mr.Paul Berg in the fall of 1936 it has been determined to the satisfaction of all parties concerned that the present capacity of the Reservoir is 9228 Acre Feet, and

WHEREAS, Mr. E.G.VanHoesen while having charge of the Reservoir prior to 1927 has sold Class A,B,and C stock in the total amount of 9094 Acre Feet thereby creating a shortage of 296 Acre Feet,and

WHEREAS, It is to the best interests of all stockholders to increase the capacity of the Reservoir to 9524 Acre Feet which can be done by raising the spillway about nine inches,and

WHEREAS, The present amount of freeboard is sufficient to allow such raise and still be within the amount required by law,and

Whereas , The Department of Reclamation has tentatively agreed to approve the raising of the spillway, and

Whereas, Mr.E.G.Van Hoesen has agreed to bear the expense of raising the spillway,

NOW,THEREFORE,BE IT RESOLVED,That the Secretary be and he is hereby authorized and empowered to make any and all arrangements to have the above work done with the understanding that he shall incur no expense whatsoever to the Lost Valley Reservoir Company other than his own time and mileage.

Motion to adopt the above resolution was seconded by C.E.Craig and on being put to vote was carried unanimously.

There being no further business to come before the meeting it was by motion duly made, seconded and unanimously carried adjourned.

NOTES.

Duty of Water in District.

The Mann Creek Decree fixes the duty at .7 of an inch per acre, the Crane Creek Decree at 1 inch per acre, while the Weiser River Decree fixes the duty at ⅝ of an inch per acre for flood water, which amount is to be reduced as the flow of water decreases until the duty reaches ⅜ of an inch per acre, at which point priority begins.

Decrees on Record.

All water decrees for District 41 are recorded at the Washington or Adams County Recorders' offices and at the office of the State Commissioner of Reclamation at Boise, Idaho.

Extracts from the Weiser River Decree:

Court costs in the suit, including Referee, Reporters, transcript, hall rent, etc., are $5784.08, which make the cost per acre $.21.

Water Allotted to be Appurtenant to and for use upon the Lands Designated.

Headgates and measuring weirs to be constructed and maintained and to be so placed as not to unnecessarily impede the flow of water in the streams.

Water is allotted on basis of ⅝ of an inch per acre for lands irrigated and must not be diverted except for beneficial use, and the Water Master is ordered to shut off all ditches where the water is not put to a beneficial use or where the parties diverting the water permit wastage.

The Water Master shall rotate the water in the ditches whenever he believes the duty and efficiency may be materially increased thereby.

Any questions regarding the water rights of the District should be referred to A. Flournoy Galloway, Water Master, or to W. G. Swensden, Commissioner of Reclamation, at Boise, Idaho.

Weiser, Idaho, April 1, 1919.

Dear Ron,

Ladell & I have bought more Last Valley Reservoir water 10 more A shares and 1 B shares. We need to file on. I will need some forms to file on. I wonder if you could mail some to us?

How are things coming with the Storage permits for Last Valley?

I sure hope the Middle East situation will be over soon and you don't have to go.

Thanks & Best Wishes

Margaret Merk

Dear Ron Hawerton

Thanks for calling and your efforts for Last Valley. This is a copy of the Resolution to raise the capacity of the Dam in 1938. That you needed for a priority date to file for the Benifical use of 500 A.F.

also I'm sending a couple of copies of priority dates that would be the begining of the Last Valley Res Co. These dates and figures were determined by the Muir Vs Allison court case in early 1900's

call whenever I can help I'm out of the house a lot - but usually home -

Thanks
Margaret

of the Reservoir for the season of 1938, and that the Lost Valley Reservoir Company will be and is responsible for any monies so borrowed. Motion was seconded by Clyde L.Rush and on being put to vote was unanimously carried.

Ellis Snow then offered the following resolution and moved its adoption.

RESOLUTION

WHEREAS, By accurate measurements of the inflow and outflow of the Reservoir and by actual survey made by Mr.Paul Berg in the fall of 1936 it has been determined to the satisfaction of all parties concerned that the present capacity of the Reservoir is 9288 Acre Feet, and

WHEREAS, Mr. E.G.VanHoesen while having charge of the Reservoir prior to 1937 has sold Class A,B,and C stock in the total amount of 9584 Acre Feet thereby creating a shortage of 296 Acre Feet,and

WHEREAS, It is to the best interests of all stockholders to increase the capacity of the Reservoir to 9584 Acre Feet which can be done by raising the spillway about nine inches,and

WHEREAS, The present amount of freeboard is sufficient to allow such raise and still be within the amount required by law,and

Whereas , The Department of Reclamation has tentatively agreed to approve the raising of the spillway, and

Whereas, Mr.E.G.Van Hoesen has agreed to bear the expense of raising the spillway,

NOW,THEREFORE,BE IT RESOLVED,That the Secretary be and he is hereby authorized and empowered to make any and all arrangements to have the above work done with the understanding that he shall incur no expense whatsoever to the Lost Valley Reservoir Company other than his own time and mileage.

Motion to adopt the above resolution was seconded by C.E.Craig and on being put to vote was carried unanimously.

There being no further business to come before the meeting it was by motion duly made, seconded and unanimously carried adjourned.

ATTEST

July 9-1990 Clyde L Rush.
Secretary

I feel this work was probably completed in the fall of 1938. It would have made it possible to store 10,500 A.F. when all spillway boards are in - which was probably done most of time since 1939

NOTES.

Duty of Water in District.

The Mann Creek Decree fixes the duty at .7 of an inch per acre, the Crane Creek Decree at 1 inch per acre, while the Weiser River Decree fixes the duty at 5/8 of an inch per acre for flood water, which amount is to be reduced as the flow of water decreases until the duty reaches 3/8 of an inch per acre, at which point priority begins.

Decrees on Record.

All water decrees for District 41 are recorded at the Washington or Adams County Recorders' offices and at the office of the State Commissioner of Reclamation at Boise, Idaho.

Extracts from the Weiser River Decree:

Court costs in the suit, including Referee, Reporters, transcript, hall rent, etc., are $5784.08, which make the cost per acre $.21.

Water Allotted to be Appurtenant to and for use upon the Lands Designated.

Headgates and measuring weirs to be constructed and maintained and to be so placed as not to unnecessarily impede the flow of water in the streams.

Water is allotted on basis of 5/8 of an inch per acre for lands irrigated and must not be diverted except for beneficial use, and the Water Master is ordered to shut off all ditches where the water is not put to a beneficial use or where the parties diverting the water permit wastage.

The Water Master shall rotate the water in the ditches whenever he believes the duty and efficiency may be materially increased thereby.

Any questions regarding the water rights of the District should be referred to A. Flournoy Galloway, Water Master, or to W. G. Swensden, Commissioner of Reclamation, at Boise, Idaho.

RE: Claims for Storage of Lost Valley Reservoir.

After talking to Margaret today, it appears that Eldon was supposed to make 1) A claim for the storage of Lost Valley Reservoir for 10,000 AF. 2) A permit application for additional 500 AF. that the dam presently holds and has held since approx. 1940.

I advised Margaret that she could claim the 500 AF as a B/u and if she could send me a copy of the minutes in which showed the enlargement of the spillway we could tie it to the date to be claimed. She would get a copy of this to me. In the meantime I will start looking at the file Eldon started.

1) The first priority is to ~~the~~ see if and how much can be claimed back to 1925 or 1926

2) Second is to work up a permit for the 500 AF.

3) The B/u claim for additional AF.

Dear Linda,

I am writing about the storage permit for Lost Valley Res. Co. I mailed a claim to water res. with a $ 50.00 check June 5, I989. The claim is for iO,000 A. F. of storage; with a total consumptive use of 9,600 A. F. We have a total of 9,582 A. F. shares sold to shareholders. We want to claim the 4I8 A. F. of unsold shares as Lost Valley Res. Co. property to have some water to help insure we have enough water for the 9582 A. F. to reach the shareholders. The breakdown in class would be;

Class A - 6950
Class B - I798
Class C - I252

In I908 to I9IO water permit Nos. 5263 and 6503 and 6504 were issued to Lost Valley by the Reclamation Dept and State enginers for a total of 6950 shares. The names of the users then were Orchards Water Co. ; A. Freehafer; Freehafer and Pike and J. A. Carr.

As near as I can tell the B shares started in 1925 or I926 . The C shares started in I929.

Eldon was going to fix a permit for us when he got it all together and mail it to me. I do not know if he was going to fix one permit or three.

If you need more information to get the permit ready, please write me or call.

Thank You Margaret Merk

Dear Linda,

I am writing concerning our water claims. I trust they are all in order. Eldon Roush was kind to me and processed our claims (five in all); so I would not have to brave the Boise traffic to come down. He processed them last August; then sent them to us to be notorized and returned to him; with a check for $ 150.00. I had sent a check down in June for $ 140.00; with a claim for our adjudicated water in the Osborn Groom ditch and T. J. Glen ditch; and for the acres we irragate; also for our domestic water. I thought at that time that was all we needed to file on. Eldon decieded to file on Lost Valley water by each shareholder filing a claim for each class of water shares they have in Lost valley for a fee of $ 50.00 each. I think it has worked well. The overall cost to the shareholders is less that way than if I had filed as a group at $ I.00 per share.; also I'm sure a lot less mistakes.

We have 10-A- shares and 20-C- shares in Lost Valley and our flood water needed to be filed on so Eldon redone what I had sent down in June along with the rest of our water. I am sending a copy of what he fixed up for us. The reason being; One of our neighors said the claims for our Lost Valley water did not show up on your computer and you thought maybe I had not filed for them. I thought maybe when you have time you could check it out and let us know it is all okay.

The neighbor also seemed to think all you show on the computer for the amount of Acre feet in the Res. is 6950 A. F. Lost Valley has

6950*A- shares-- 1798 * B- shares --- 834 * C- shares

a total of 9582 shares filled on

I imagine you have all this information and all is okay; but I thought I had better check.

Eldon is still working on our permit numbers for Lost Valley I think. He said when he got it all figured out he would let me know.

Enclosed is a copy of the information on the claims and the cancelled checks

Thank you

Margaret Merk

Idaho Water Res.

Mr. Eldon Kouch,

Dear Eldon,

Hope you had a nice vacation. I had to make out two new Certif.

One to Dean Fairchild, Midvale, Id. for 100 shares of A stock certif # 100.

Dean Fairchild still has his 100 A shares with certif # 57

He now has 200 A shares.

The other change is for Wayne Sutton; he sold 100 of his shares to Dean Fairchild. Wayne Sutton now has 900 A shares certif. # 99. his old certif. # 40 has been canceled. Wayne Sutton is also at Midvale.

Also I found two more permit numbers for Lost valley Res. issued around 1925 I think they are # 5263 (Lapsed) and 6503. (67-2053)

Also since I did not fill out claim forms for our Res. water and our flood water; could you send me about 5 more claim forms please and I guess I have to have our forms back I did send in so I can get them notarized.

Has the filling date been extended to Jan? I will be sending a reminder to the Lost Valley shareholders before long; that they need to file for their water; so would like to know if it has been.

Thank You

Dear Eldon,

This is who Lost Valley Res. has on record now. It may change before the summer is over. The certif. no. does not always change when the property changes; that is why I put related certif. no at top of certif column.

We figure as near as we can tell that there is 10,200 A. ft. in the Res. with the normal 3 three ft. boards in and 10,500 with the extra 6" boards we put in to help people out all the way down the river if it is a dry year.

We have put the extra boards in several years. We put them this year.

I hope I have not left any one out or got them in a wrong column.

Best Wishes

Margaret Merk

Dear Eldon

I hope the copies I'm sending help some-

I have a good start on the run down of shares back to begining-

I find We have 10 more A shares and 10 more B shares than I told you we have A- 6950 - shares

B- 1798- shares

C- 834- shares

The shares were acounted for until 1976 I think when some property was changed to several different people and in the transaction the 20 shares were left out - I know the plans and how it should go but I think our directors will have to decid -

Best wishes

Margaret

I should have the run down to you by Wed or Thurs -

SO

TO THE STOCKHOLDERS OF THE LOST VALLEY RESERVOI

I hereby submit the following report o
in connection with the Lost Valley Reservoir an
nope to clarify many questions that have been in the minds of the various stockholders, as to present and past control,how was the cost of maintainance met during years prior to 1937, what does it cost to operate the Reservoir for one year, what is its present capacity, what are the classes of stock, how many shares are there in each class, etc.

The Lost Valley Reservoir Company,a corporation, was formed in June,1925 by Elizabeth G.Van Hoesen,M.G.Van Hoesen, and E.G.Van Hoesen. The Articles of Incorporation were executed June,18,1925; Agreement to take one share of stock each,with a par value of $10.00 each was signed by each of the above named persons on June 20th,1925; By-laws were assented to and adopted by the above parties under the date of June 20th,1925, and the company was given a Certificate of Incorporation by the Secretary of State for Idaho under the date of June 19,1925. The amount of authorized capitol stock was fixed at One Hundred and Twenty Thousand Dollars ($120,000.00) divided into twelve thousand (12,000) shares of a par value of Ten Dollars ($10.00) each. $30.00 was actually subscribed.

The original By-laws state that the stock shall be divided into Class A and Class B. That Class A consisting of 6950 shares shall have the first and prior right and that all shares over and above 6950 shall be Class B and have a second right.

The first meeting of the Stockholders and of the Directors was held June 20th,1925 there being present the above named three persons. The second meeting of the Directors was held July 8,1925 at which time 6250 shares of Class A stock was issued to the Orchards Water Company of Mesa,Idaho in exchange for certain rights and privileges held by that Company. There were no meetings of the stockholders or directors held or called from July 8,1925 until September 23rd,1929 and no assessments made, although several hundred acre feet (or shares) of water had been sold. Meetings were held Sept,23rd and 27th, and October 22nd,1929 by the board of directors at which time it was agreed by the three above named persons to raise the dam, sell one thousand acre feet of water to the Middle Valley Ditch Corporation for Ten Thousand Dollars ($10,000.00), limit Class B stock to 1800 shares and make all stock over and above 8750 shares to be classified as Class C stock.

No meetings of the stockholders were ever called or held after the Company was organized in 1925 until eleven years

later,in 1936, when the Orchards Water Company forced a deferred annual meeting to be called on October 31st. At this meeting new directors were elected and on the same day these directors held a meeting and elected officers.

All during 1936 your present Secretary,Clyde I.Rush tried to find out from Mr.E.G.Van Hoesen and from the Weiser River Watermaster how much it cost to operate the Reservoir and who paid this cost but neither of them would or could tell him anything. He did learn that there was some expense and therefore the Board of Directors met April 8th,1937 and levied an assessment of five cents (5¢) per share against all outstanding Class A,B, & C Stock. As a result of this assessment the Secretary- Treasurer books show the following;

Assessments collected from Stockholders--------	$473.25
Paid out from April 8,1937 to Jan.1,1938------	275.32
Balance on hand January,1,1938	$197.93

The above amount paid out is accounted for in the following items:

Harold Fitzgerald, 7 trips to Reservoir @ $3.00 ---	$21.00

--- Stock & Assessment Record ---

Class	Amount	Accounted for	Collected	Accounted for but not collected
A	--- 6950	6895	$344.75	$ 0.0
B	--- 1800	1798	87.40	2.50
C	-- - 834	834	41.10	0.60
	9584	9527	$473.25	$ 3.10

An accurate record was kept during 1937 of both the inflow and outflow of the Reservoir and a reading of the Reservoir gauge made each time. The result of these observations shows the following table;

Reservoir Gauge -25.45	Amount stored	9313	Acre Feet.
" " 25.60	" "	9400	" " .
" " 25.90	" "	9650	" " .

Your Secretary found last spring that when the Reservoir was completely full, that is, running over the top of the top flash board, that the gauge reading was 25.54. Therefore when the Reservoir is full it contains less than 9400 Acre Feet.

A complete survey made by Mr. Paul Berg for the Middle Valley Ditch Company in 1936 showed the capacity of the Reservoir to be 9288 and since a survey is the most accurate method this figure has been accepted. The stock in the Reservoir is therefore 296 Acre Feet oversold.

If the top of the spillway were raised about six inches so that another six inch flash board could be put on, the capacity of the Reservoir would be raised to the amount of stock sold. Your Secretary has contacted the State Department of Reclamation on this proposition and feels that they will consent to this being done since there will still be enough free board to conform to the law.

After considerable correspondence and inquiry your Secretary has ascertained that there are about 58 stockholders in the Lost Valley Reservoir Company of which 19 own Class A Stock, 20 own Class B Stock, and 19 own Class C Stock. There are 12 stockholders who own less than 10 shares and 19 who own between 10 and 20 shares. 55 shares of Class A stock have not been accounted for, and two shares of class B stock.

Since closing his books for the fiscal year 1937 the Secretary has learned that a Deputy Watermaster must be recommended by the Company and appointed by the State Department of Reclamation to measure the inflow and outflow of the Reservoir and apportion the water and that the company must pay the Watermaster for this service. No actual figures can be given for this service at this time but it is estimated to be approximately $100.00 . This additional expense will raise the cost of operating the Reservoir to about 4¢ per share per year.

Respectfully submitted

Clyde I. Rush,

Clyde I. Rush
Secretary-Treasurer.

THIS INDENTURE, Made this 29th day of October, 1921, between A. J. GUMP and NANCEY J. GUMP, his wife, of Hood River, Oregon, parties of the first part, and ADDISON C. MISSMAN, of Council, County of Adams, State of Idaho, the party of the second part.

WITNESSETH, That the said parties of the first part for and in consideration of the sum of One Dollar, lawful money of the United States of America, to them in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged, have granted, bargained and sold, and by these presents do grant, bargain, sell, convey and confirm unto the said party of the second part, and to his heirs and assigns forever, all the following described property, to-wit,-

Twenty acre feet of water for irrigation and domestic purposes, together with the undivided and proportionate share and interest of said twenty acre feet of water in and to that certain reservoir known as the Lost Valley Reservoir, situated on Lost Creek, in Township Nineteen North of Range One West of Boise Meridian, Idaho, and which said reservoir includes portions of Sections Eight, sixteen, seventeen, twenty-two, twenty-seven and twenty-eight of said Township and Range, the outlet from said reservoir into the said Lost Creek being at a point North 72 degrees and 25' East 1905 feet from the Quarter Corner on the West line of Section Twenty-eight, said Township and Range.

Said reservoir being more particularly described on the maps and in the field notes filed in the United States Land Office at Boise, Idaho, on December 23rd, 1908, in connection with the application of one J. J. Allison for a right-of-way over the Public Domain for the said reservoir, which said application was duly approved by the Department of the Interior acting through Frank Pierce, First Assistant Secretary of the Interior, on November 8th, 1909, and being also described in the application of E. S. Pierce for an additional right-of-way for said reservior site, and reference is hereby made to said maps and field notes for a full and particular description of said reservoir and all right-of-way therefor heretofore acquired by the said party of the first part.

And together with the undivided and proportionate share and interest of said twenty acre feet of water in and to those certain permits issued by the State Engineer of the State of Idaho, namely,-

That certain permit issued by the State Engineer of the State of Idaho, to one J. J. Allison on Novermber 28th, 1908, and known as Permit No. 4100, for seventy cubic feet per second of the waters of Lost Creek; also that certain permit issued by the State Engineer of the State of Idaho, to the Weiser Valley Land and Water Company, a corporation, on August 24th, 1910, and known as Permit No. 6503, for One Hundred Twenty-five cubic feet per second of the waters of said Lost Creek; also that certain Permit issued by the State Engineer of the State of Idaho, to one E. S. Pierce, on August 24th, 1910, and known as Permit No. 6504, for two hundred cubic feet per second of the waters of said Lost Creek.

The said twenty acre feet of water hereby conveyed have been heretofore appurtenant to the following lands, and now are so appurtenant to said lands, located in the County of Adams, State of Idaho, which said lands have on this date been

RECORD OF PROCEEDINGS

100 LEAVES

AMENDMENTS TO BY-Laws.

Article VII Section 2. Amended October 22, 1929 to read as follows:

Classes of Stock. The capital stock of this Company shall be divided into three classes designated as Class A, Class B and Class C.

Article VII Section 4a. Amendment added to the By-Laws on October 22, 1929 as follows:

AMOUNT OF EACH CLASS C STOCK ENTITLED TO. Each full share of Class C Stock entitles the owner thereof to have the third perpetual right to the use of, and receive, subsequent to, and third in time of use to the first and second rights, as evidenced by Class A Stock and Class B Stock in the said Reservoir of the Company designated as the "Lost Valley Reservoir" at the point of delivery from such reservoir, all deliverable in any one lesser period of time of thirty days or more, upon written reasonable notice to the Corporation, during the irrigation season in each year, one acre foot of water if available and stored in said reservoir, for irrigation and domestic use on the lands using such water, and shall be that proportionate part of the present capacity of said reservoir which is over and above 8750 acre feet if stored and available for distribution by the Company as each share of Class C stock shall bear to the whole number of subsisting and valid class C shares of said stock, representing all of the water over and above 8750 acre feet of water, if stored and available in said reservoir for distribution by the Company from the present capacity of said reservoir; and said Class C shares of stock shall entitle the owner thereof to a proportionate interest in or to said reservoir subsequent to and third in time to Class A and Class B stock which shall be a proportionate interest in the water rights and water appropriations used in storing and impounding water in said reservoir and in that part of the present capacity of said reservoir over and above 8750 acre feet of water capacity, based upon the total number of shares of Class C stock in the capital stock of the Company, and subject to such charges and costs in the operation, maintenance, repairs and replacement of said reservoir as rules and regulations as the Board of Directors may make regarding the distribution and delivery of water from said reservoir as may appear for the best interest of the Company and its stockholders.

The Chairman then announced that the above mentioned said persons were elected as Directors of the Corporation to serve for the ensuing year and until their successors be elected and qualified.

The Chairman then presented a written proposal from Elizabeth G. Van Hoesen offering to transfer and assign to this Company certain interest in what is know as the Lost Valley Reservoir, situated on Lost Creek, in Township 19 North of Range One West of Boise Meridian, Adams County, Idaho, and certain water rights, as mentioned and described in said written proposal, in exchange for 5050 shares of the capital stock of this Company. After due consideration, the said proposal was ordered filed, and the following resolution in relation thereto was offered, and upon motion, duly seconded, the same was unanimously adopted:

"WHEREAS, A proposition has been received from Elizabeth G. Van Hoesen offering to transfer and assign to this Company certain proportions of her interest in and to what is known as the "Lost Valley Reservoir", situated on Lost Creek, in Township 19 North of Range One West of Boise Meridan, Adams County, Idaho and certain proportion of her interest in certain water rights used in connection with the impounding of water in said reservoir as mentioned and described in said written proposal, in exchange and full payment for 5050 shares of the capital stock of this Company; and,

WHEREAS, It appears to the stockholders of this Company, that the said property is desirable for the purposes of the Company, and is reasonablyworth the purchase price thereof;

NOW THEREFORE, BE IT RESOLVED, That the said proposal for the exchange of said property for stock in this Company, to the amount above stated, be and hereby is approved, and the Board of Directors of this Company are hereby authorized empowered and instructed to accept the said proposal, and to cause stock in this Company to be issued to said Elizabeth G. Van Hoesen, or her order and when demanded, not exceeding in the aggregate 5050 shares in accordance with the terms of said proposal, and the President and Secretary of said Company be, and they are hereby, authorized and directed to deliver to the certain person mentioned in said proposal, receipt in full payment of said stock, as aforesaid, subscribed for by them upon the delivery to said Company proper conveyances of said property."

There being no further business before the meeting, on motion of stockholder E. G. Van Hoesen to adjourn, the meeting was, until July 8, 1925 at 2:00 P.M., duly seconded, the Chairman put said motion to a vote, and all persons present having voted in favor thereof, the Chairman declared the same was unanimously carried and so ordered.

W. Van Hoesen
Temporary Chairman

E. G. Van Hoesen
Temporary Secretary.

fully paid. The said proposal was ordered spread in full upon the minutes, and is as follows:

"Mesa, Idaho
June 20, 1925.

Lost Valley Reservoir Company,
Mesa, Idaho.

Gentlemen:

I hereby offer your Company, in exchange and full payment for 5050 shares of Class B stock of the capital stock of your Company, 5050 acre feet capacity in that certain reservoir, the same being a proportionate interest in that certain reservoir known as the "Lost Valley Reservoir", situated on Lost Creek in Township 19 North of Range One West Boise Meridian in Adams County, Idaho, together with 5050 acre feet of water in quantity, to be used in storing and impounding water in said reservoir, of Water Permits Nos. 6270, 6271, 6503, 6625, 0021, issued by the Reclamation Department and by the State Engineer of the State of Idaho.

In the event this proposition is accepted by your Company, it is to be upon the following conditions, namely:

FIRST. Your Company is to incorporate in its By-laws certain provisions to the effect that each stockholder is to be entitled to not less than one acre foot of water, if available, in said reservoir per share, and in the manner and according to the provisions of your By-Laws and certificates of stock, and to be issued upon and for the irrigation of the lands described in the stock certificate evidencing the ownership of such share, and to be made appurtenant to such lands unless forfeited as provided in your By-laws.

SECOND. All classes of stock shall have an equal voting power, and all of the said stock to be hereafter issued by your Company to me, or to those whom I may request, shall have an equal voting power with all other stock of your Company and may be voted by me, either prior to or after such issuance of the same, or by those to whom the same is issued.

THIRD. That the above 5050 shares of stock are to be held by your Company as my stock, and issued either to me or at my request to purchasers from me. All of said shares of stock to be subject to such assessments, charges and costs repair and replacement of said reservoir.

FOURTH. That it is expressly understood that this proposition assigns and transfers to your Company only that part of the undersigned's interests, above referred to, in and to said reservoir and water, and amount of water under said permits, and the undersigned does hereby retain all of the remaining interest she has in and to said water rights and water appropriations held by her from the State of Idaho, and retains her right to enlarge said reservoir at her own cost and expense, and to own and use said increased capacity of said reservoir and remaining water rights to be used in storing and filling said increased capacity of said reservoir, and your Company is to grant such authority and permission as may be necessary, at any time, to me to enlarge said reservoir from its present capacity at my own expense and I to own and have the right to dispose of the same upon me or my assigns paying such enlargement

of said reservoir and my proportionate costs, assessments and charges in operating, maintaining, repairing or replacing said reservoir.

FIFTH. In the event it should be determined that the present total capacity of said reservoir does not amount to 12,000 acre feet water capacity, then I will return to your Company the difference between what the actual present total capacity of said reservoir is and 12,000 acre feet of water capacity, out of my said 5050 shares of stock, the total capacity of said reservoir is to be determined by us within years from this date. In case it becomes necessary for me to return some of the stock to you as outlined above then you will deed back to me the proportionate interests in water rights and permits which the said stock represents.

In the event of your acceptance of this proposition, I will deliver to you proper conveyances of the above interest in said reservoir and water rights, and upon your Company adopting the proper resolutions authorizing the President and Secretary of your Company to issue to me, at this time, the proper instruments showing that I am the owner of said 5050 shares of Class B stock of the capital stock of your Company, to by issued to me at any time I may direct or, upon my order, tothose whom I may direct.

Respectfully,
Elizabeth G. Van Hoesen

The President then presented a resolution of the stockholders approving the said proposal and authorizing and instructing the Directors to accept the same, and to take such action in regard thereto as might be necessary to make such acceptance fully effective.

The following resolution was thereupon moved, seconded and unanimously adopted:

"WHEREAS, Said written proposal having been received from Elizabeth G. Van Hoesen offering to sell, convey, transfer and assign to this Company certain interest of hers in and to that certain reservoir called "Lost Valley Reservoir", situated on Lost Creek, in Township 19 North of Range One West of Boise Meridian, Adams County, Idaho. and certain interest in and to certain water right supplying water to said reservoir, as mentioned and described in said proposal, in exchange for 5050 shares of the capital stock of said Company fully paid and aggregating the par value of the sum mentioned in said proposal, to be issued to the persons mentioned in said proposal in the respective amounts therein mentioned.

AND, WHEREAS, It further appears to and is adjudged by this Board, that the property is desirable and necessary for the purposes of the Company, and is reasonably worth the purchase price thereof, mentioned in said proposal;

MINUTES OF ADJOURNED MEETING OF

THE STOCKHOLDERS OF THE

LOST VALLEY RESERVOIR COMPANY.

Held July 8, 1925.

The adjourned meeting of the stockholders of the Lost Valley Reservoir Company was held pursuant to due adjournment thereof at the office of the Company at Mesa, Idaho, at 2:00 o'clock P.M. on the 8th day of July, 1925.

There were present Stockholders Elizabeth G. Van Hoesen, M. G. Van Hoesen, E. G. Van Hoesen.

Elizabeth G. Van Hoesen acted as Chairman of the meeting and M. G. Van Hoesen as Secretary.

The minutes of the last meeting of the stockholders were read and approved.

The Chairman then presented a written proposal from the Orchards Water Company, a corporation, offering to transfer and assign to this Company a certain interest in what is known as the Lost Valley Reservoir, situated on Lost Creek, in Township 19 North of Range One West Boise Meridian, Adams County, Idaho, and certain water rights as mentioned in said written proposal, in exchange for 6250 shares of Class A stock of the capital stock of this Company. After due consideration, the said proposal was ordered filed, and the following resolution in relation thereto was offered, and upon motion, duly seconded, the same was unanimously adopted:

WHEREAS, A proposition has been received from the Orchards Water Company offering to transfer and assign to this Company a certain interest in and to what is known as the Lost Valley Reservoir, situated on Lost Creek, in Township 19 North of Range One West of Boise Meridian, Adams County, Idaho together with an interest in certain water rights used in connection with the impounding of water in said reservoir as mentioned and described in said proposal, in exchange and full payment for 6250 shares of Class A stock of the Capital stock of this Company; and,

MINUTES OF SPECIAL MEETING OF DIRECTORS

OF

LOST VALLEY RESERVOIR COMPANY

Held: September 27th, 1929.

BE IT REMEMBERED That on the 27th day of September, a Special meeting of the Board of Directors of this corporation was held at its office at Nesa, Idaho, there being present the following directors: E.G.Van Noesen, M.G.Van Noesen.

The minutes of the last meeting of the Board are read and approved.

There is read and considered the following written offer of Mrs. Elizabeth Van Noesen:

"When transferring to your company storage capacity in Lost Valley Reservoir in an amount of 5,050 acre feet capacity in return for 5,050 shares of your class B stock, it was mutually agreed between us that in the event a subsequent measurement of the capacity of Lost Valley Reservoir should determine a lesser capacity than sufficient to justify the issuance of 5050 shares of class B stock, you were to cancel a number of shares equal to the difference between the actual capacity available for class B stock and 5050 shares of stock - each share of stock representing one acre foot capacity - and you were further to deed back to me the reservoir rights etc. representing such cancellation.

It is my understanding that the capacity of the reservoir available for Class B stock has been determined to be 1800 acre feet of water. It is now my desire to have the storage capacity of Lost Valley Reservoir increased and in that event I ask that you incorporate the increased capacity within your company, issuing therefore suitable stock ~~therefore~~ to be determined as Class C stock evidencing reservoir rights created by the enlargement of the reservoir that are over and above the capacity reserved for class A and Class B stock.

It is satisfactory to me that you keep the rights etc. which I have deeded to you and reserve for me 3,250 shares of class C stock.

In the event subsequent measurement of the increased capacity of the reservoir does not warrant the issuance of the above mentioned 3,250 shares of Class C stock then I will refund to you the difference between the actual increased capacity and the 3,250 acre feet represented by the Class C stock, and you are

[illegible] rights etc. evidencing the shares of [illegible] In the event subsequent measurement [illegible] shows a capacity justifying the issuance of more than 2,000 shares of Class C stock then I will deed to you further [illegible] water rights and/or to increase your [illegible] stock certificates for additional Class C stock [illegible] actual increased capacity of the reservoir.

[illegible] enlargement of the reservoir is being made under [illegible] supervision of the State Engineer and the Department [illegible] will be approved and accepted by them before [illegible] entitled to the increased capacity in your [illegible].

Yours very truly,
(Signed) Elizabeth C. Van Loesen.

[illegible] considered a further written offer of Mrs. Elizabeth Van Loesen, as follows:

"In lieu of [illegible] to the 1002 shares of Class B Stock in the Lost Valley Reservoir Company, as provided by the terms of my offer, and accepted by the officers of said corporation, I direct that there be issued only 2 shares of said Class B stock, and that there be issued to the Middle Valley Ditch Company 1000 shares of said Class B stock, and that when the same shall be issued to the said Middle Valley Ditch Company, pursuant to this request, the Lost Valley Reservoir Company will be [illegible] from any liability or obligation to issue said shares of stock to me.

Yours very truly,
(Signed) Elizabeth Van Loesen.

After considering said offer and the interests of the said Elizabeth Van Loesen in the Lost Valley Reservoir Company as appears from the minutes of the meeting of the directors of said corporation held on June 20th, 1930, and as further appears by Section 2, Article 8 of the By-laws of said corporation, and it appearing therefrom that the offer of the said Elizabeth Van Loesen is fair and reasonable and the best interests of the Company will be promoted by its acceptance, the following resolution was duly offered and unanimously passed:

"BE IT RESOLVED that the capacity of the Lost Valley Reservoir is such that the amount of Class B Stock in this Company should be limited to 1800 shares, evidencing the ownership of 1800 feet of water subject to the conditions printed on the face of said Class B shares of stock, that the written offer of the said Elizabeth Van Loesen be accepted and that there be issued to the said Elizabeth Van Loesen, or to such person or persons as she may request in writing, 1002 shares of Class B Stock of this cor-

of the Reservoir for the season of 1938, and that the Lost Valley Reservoir Company will be and is responsible for any monies so borrowed. Motion was seconded by Clyde I.Rush and on being put to vote was unanimously carried.

Ellis Snow then offered the following resolution and moved its adoption.

RESOLUTION

WHEREAS, By accurate measurements of the inflow and outflow of the Reservoir and by actual survey made by Mr.Paul Berg in the fall of 1936 it has been determined to the satisfaction of all parties concerned that the present capacity of the Reservoir is 9288 Acre Feet, and

WHEREAS, Mr. E.G.VanHoesen while having charge of the Reservoir prior to 1937 has sold Class A,B,and C stock in the total amount of 9584 Acre Feet thereby creating a shortage of 296 Acre Feet,and

WHEREAS, It is to the best interests of all stockholders to increase the capacity of the Reservoir to 9584 Acre Feet which can be done by raising the spillway about nine inches,and

WHEREAS, The present amount of freeboard is sufficient to allow such raise and still be within the amount required by law,and

Whereas , The Department of Reclamation has tentatively agreed to approve the raising of the spillway, and

Whereas, Mr.E.G.Van Hoesen has agreed to bear the expense of raising the spillway,

NOW,THEREFORE,BE IT RESOLVED,That the Secretary be and he is hereby authorized and empowered to make any and all arrangements to have the above work done with the understanding that he shall incur no expense whatsoever to the Lost Valley Reservoir Company other than his own time and mileage.

Motion to adopt the above resolution was seconded by C.E.Craig and on being put to vote was carried unanimously.

There being no further business to come before the meeting it was by motion duly made, seconded and unanimously carried adjourned.

MEMORANDUM FOR INFORMATION OF DIRECTORS

Gentlemen:

Further investigation reveals the fact the the Van Hoesens never made final proof of the beneficial use of the water created by the raising of the dam about the year 1928 and which amounts to 834 acre feet known as "Class C" stock.

This particular proof to which I refer is made with the State Department of Reclamation under Idaho laws and has no relation to matter of easement about which I issued a memorandum on June 10th of this year.

Ver truly yours,

E B Snow

Dear Eldon

I found a little information - I hope will help some
I found with the A-stock 6250 Shares were issued to
Orchard Water Co in 1925 - there were 700 shares
reserved for Truckee, Carr & Pike - without Certif.
I found in 1945 - Mr. E. B. Swan made notation that Last
Valley had 6545 outstanding stock certificates and 405
deeded stock (A) stock. I now have 6938 A shares out.
if I have added right.

67-2053

I found a permit #3 6503 from Reclamation had been
issued to Elizabeth Van Haesen around 1925 for the
storage of B-stock - there was a 12,000 A.F capacity
talked about then.

In 1938 - Mr Paul Berg determined the capacity was
9288 - there were A-B-+C Shares out totaling 9584 - Mr
E. G. Van Haesen said to have the capacity enlarged -
May be a permit was issued to him.

Elizabeth - M. G. + E. G. Van Haesen formed the Co in 1925.

Idaho Dept. of Water Res.

Dear Linda,

I thought I should explain the complex situation in regards to my filing for Lost Valley Res. shareholders.

I talked with some water res. people ealier, they said the Res. could file for their sharholders or not which ever we chose, we chose not to file for the shareholders. They have been notified of that.

We have 76 shareholders; Some live as far away as Hawai. Several do not live on the land that the water is being used on. Some do not use the water for irragation. Some own shares but are not using them at present.

The shareholders live from 15 miles north of Council to a few miles south of Midvale about a distance of 50 miles. Several get their water from creeks and exchange it for their Res. shares. Since there would be agreat chance in errors, should I attempt to do the filing for their Lost Valley water; we chose not to file for them. I did not want to put Lost Valley in jeopardy for errors.

Some people have only one share and some 1000 or more. To try to collect the fee as a group would be very difficult. To divide it up would be unfair. Some have already filed and paid.

I will be glad to help the Water Dept. try to locate the areas; but we do not want to be responsible for the fees and filings, as alot of the shareholders have water other than Lost Valley.Some are filing in their ditch co.

I was told Lost Valley needed to file for just the Res. storage again, so that is what I filed for.

Best Wishes

Mr. Gordon C. Smith
Boise, Idaho

Dear Mr. Smith:

In reply to your inquiry relative to the status of the reservoir permits in Lost Valley, the records in this department show the following:

Permit No. R-312, in the name of Anders Van Hoesen, filed February 15, 1923, for the storage of 30,000 acre feet of water per annum from Lost Creek, for irrigation and domestic purposes.

This permit describes the outlet of the reservoir as being in the Northwest Quarter of Section 28, Twp. 19 North, Range 1 West, B.M. Completion of works proof was made on March 30, 1932, and Certificate of Completion of Works was issued June 13, 1933, showing a capacity of 14,000 acre feet.

Final or beneficial use proof has not been made.

Permit No. R-575, in the name of the Lost Valley Reservoir Company, was filed December 22, 1939, for the storage of 62,000 acre feet per annum. This permit stated that it was supplemental to the existing right, which included a dam 30 feet high and storing approximately 9,000 acre feet, and contemplated raising the dam to 40 feet, and increasing the capacity to 15,500 acre feet.

However, no proofs were made on this permit, and it was accordingly cancelled June 26, 1945.

Very truly yours,

MARK R. KULP

1. Lost Valley

a. Location and Description

The existing Lost Valley Dam is located on Lost Creek, a tributary of the West Fork of the Weiser River. The dam is located 8 miles above the mouth of Lost Creek and 16 miles directly north of the town of Council. The existing earthfill dam was built 60 years ago and has been raised at least once to its present height of 34 feet above streambed. The dam is owned by Lost Valley Reservoir Company, a private organization of water users. The reservoir has a capacity of approximately 10,000 acre-feet. It supplies irrigation water for 3,365 acres.

11,000 ±

In researching the history of the Lost Valley Reservoir, I found this project anything but 'small'...

The fruit industry was growing and expanding from its start around 1880 in the Council Valley, north of Weiser Idaho. Orchards, strawberries and grapes were found to be good yielding crops in this area. Apples became the dominant orchard variety and samples of fruits were taking prizes at the Chicago Worlds Fair in 1893. Some fruits were even sent as far away as London and Paris for exhibition.

By 1907, the local orchard growers organized the Council Valley Fruit Growers Association and encouraged the planting and promotion of commercial orchards in the area. The new Growers Association sent an exhibit of apples this same year to the Boise Fair and won 22 first prizes and 8-second prizes, along with 17 additional prizes at the National Horticultural Congress in Council Bluffs. Suddenly the orchard industry became the thing to do and everyone was interested.

Apple, (of which over 6000 known varieties have become extinct since 1900), Peach, Pear, Plum and Cherry trees were being planted by the thousands. Approximately 5000 trees had been planted, both in the fall of 1905 and again in the spring of 1906, in the Council area alone. By 1908 there were approximately 175 acres of young fruit trees and in 1909, another 20,500 trees were shipped and locally planted. The Forest Service even planted an assortment of fruit trees to help determine which varieties were best suited for the local climate and soils.

Orchard growers boasted that the Council Valley was one of the best and safest fruit growing areas in the state. Their claims included lack of insect or frost damage, along with abundant water. Blight, although, was a pathogen taken seriously. Any confirmed blight outbreak resulted in immediately destroying the infected trees or facing stiff legal penalties.

The most adventurous plan in this area was a project named the "Council Mesa Orchards", and later renamed the "Mesa Orchards Company". The goal was nothing less than the biggest orchard in the United States to be planted eight miles south of Council.

The idea of the Mesa Orchards began in 1908, with John J. Allison, who was also one of the organizers of the Weiser Valley Land & Water Company. Once the land in the Mesa area was purchased and an orchard management plan was laid out, the issue of securing water rights and delivering water to the new project became the focus.

A unique plan began to formulate. If a dam was built on Lost Creek, about 25 miles north of the Mesa area, this new reservoir could supply the needed water to trade, share for share, with those rights on the Middle Fork of the Weiser River. This was an unusual plan, but it worked – exchanging water from river to reservoir. In order to take water from the Middle Fork, the orchard owners had to replace it with enough water to insure the people with water rights below them on the Main Weiser River, that there would be enough water to fill their owned shares. (Crops down river on the Main Weiser River near Cambridge and Midvale utilizing these water shares were mostly beans and corn.)

On December 23, 1908, the original reservoir right of way was applied for by, J.J. Allison, within the Weiser National Forest of Idaho with the US Department of Agriculture. The estimated cost of the dam was $50,000, and it was to be 55 feet tall, 40 feet at the bottom by 350 feet at the top, when built. The Lost Valley Reservoir dam construction was completed in November of 1909.

First Lift 11/15/09

But yet another obstacle lay in their way! Diverting the water from the Middle Fork to the Mesa Orchards involved a seven-mile-long, wooden flume, 40-42" in diameter, plus several miles of ditches at the cost of $300,000, which still had to be dug.

To aid in the construction of the flume and delivery of the water, a sawmill on the Middle Fork was built to cut lumber and 100 men were hired to dig ditches. In 1910, the fruit of Council Valley continued to win top prizes. Local growers ordered 300,000 more trees and the following advertisement appeared in the Weiser newspaper:

LARGEST SINGLE ORCHARD TRACT IN THE U.S.

A 10-acre farm in Council Mesa Orchard will provide a living income for life.

72,000 trees planted in the last two months.

Water supply perfect and abundant and a perpetual water right follows the land.

[There is not any proof that the Mesa Orchard was or was not the largest single Orchard in the US! Also, in spite of these claims, irrigation was not adequate that year, and most

of the trees died. Water was hauled in barrels on wagons until the irrigation system was finally completed in 1911.]

In 1911, with the flume in place, potatoes and asparagus were ingeniously grown in between the rows of fruit trees. This revenue off the land aided the Mesa investors, as they had to wait several years for their trees to grow and reach maturity before producing a profitable crop.

In June of 1912, David W. Van Hoesen applied for an easement providing for an enlargement of the reservoir. In 1915, this application was approved by the U.S. Interior Department, but he failed to make the enlargement as applied for.

On June 18, 1925, the Lost Valley Reservoir Company was formed as a non-profit corporation, by the children of David Van Hoesen: Elizabeth G., M.G., and E.G. Van Hoesen. Their main purpose was to provide a continued and adequate water supply to the downstream properties. Apparently there was not any attempt to commercialize this undertaking by selling water to other landowners. (Although, later after the expansion of the Dam in 1929, the reservoir held more water than Mesa Orchard needed to replace, so shares were sold.)

On April 11, 1927, Mrs. Elizabeth Van Hoesen, daughter and administrator of the Estate of D.W. Van Hoesen, amended or supplemented the previous application by her father for the enlargement of the reservoir. On the application, it is noted that both the current

reservoir and the proposed enlargement would be partly on private land. The only improvements that would be effected by the enlargement was a government pasture fence built in 1924 at the cost of $87.31. The timber involved did not have any market value therefore no harvesting fee was to be assessed. Her application was also approved and the USFS issued a free, special-use permit, to construct the expansion of the dam, with an easement to flood the area.

Use 6950 (No of shares issued - more accurate)

This enlargement was completed in 1929 and the reservoir capacity was increased from 7,000 ac-ft to 9,600 ac-ft. In 1938, the reservoir capacity was further increased to its present capacity of 10,100 ac-ft, by the use of temporary flash boards in the spillway.

1929 7,000 to 9,600

Also in 1929, the Mesa Orchards irrigated acreage was just over 1250 acres. Peach, Plum, Cherry, Pear, but mostly Apple trees, now covered the mesa. Mesa Orchards was one of the many Idaho orchards winning Horticulture and national awards for their fruit, which now was being shipped as far away as Norway, Sweden, and Egypt.

In 1930, there were approximately 50 Lost Valley Reservoir water shareholders. Over the years, as the land has been sold and divided, the share holders have increased to around 84. Much of this growth was seen shortly after Mesa was abandoned in 1967, and Lost Valley Reservoir water shares were sold to other shareholders down river.

Flashboard 1938 Raise

This year, 2001, the Lost Valley Reservoir records indicate a total of 9,582 water shares: 6950 A shares, 1798 B shares and 834 C shares, (each share amounts to enough water to cover an acre of ground one foot deep).

Through several unsuccessful attempts to raise the dam over the years, it was decided in 1938 to add temporary flash boards, which permitted the spillway to be raised about 9 inches. This increased storage allowed the reservoir to cover the amount of C shares that had been sold. The stored water in the reservoir today provides irrigation to over 11,000 acres in the Council, Cambridge and Midvale areas.

Recreational activities have made this reservoir a popular spot for fishing, bicycling, horseback riding, camping, hunting, hiking and boating. It also supports an important fishery.

The Lost Valley Reservoir sits at 4,774 feet above sea level and is filled by capturing and storing winter snow melt and rain flows, after the peak of the runoff has occurred. Irrigation releases then are managed to reach the minimum pool level shortly after the irrigation season ends in mid to late-October. In the earlier years of operation (prior to 1950), the reservoir was completely drained annually. This practice was discontinued after the Idaho Department of Fish and Game started stocking the reservoir with perch, catfish, rainbow trout and bass. Scheduled drainages do occur.

During a study period from 1928-1977, Lost Creek runoff averaged 28,700 ac-ft, per year. The present reservoir capacity of 10,100 ac-ft, is only about one-third of the average annual runoff, therefore not fully developing the potential of this area.

Efforts are now under way to show how increasing the capacity of Lost Valley Reservoir from 10,100 ac-ft to 30,000 ac-ft, would more fully suit the water resource of Lost Creek. Using the existing dam in a proposal, an Engineering team has examined various expansion alternatives. They have generally determined the conditions that exist at the Lost Valley Dam site, are conducive to this proposed enlargement of the dam and reservoir. This team also stated that, 'a site with the potential of Lost Valley Reservoir Dam and its reservoir is rarely found.'

Is it possible that this 'small project' that began back in 1908, is yet unfinished?

C. Small Projects

1. Lost Valley

a. Location and Description

The existing Lost Valley Dam is located on Lost Creek, a tributary of the West Fork of the Weiser River. The dam is located 8 miles above the mouth of Lost Creek and 16 miles directly north of the town of Council (see Figure 4). The existing earthfill dam was built 60 years ago and has been raised at least once to its present height of 34 feet above streambed. The dam is owned by Lost Valley Reservoir Company, a private organization of water users. The reservoir has a capacity of approximately 10,000 acre-feet. It supplies irrigation water for 3,365 acres.

b. Water Supply

Lost Valley Reservoir, with an existing capacity of 10,100 acre-feet, does not fully develop the runoff of Lost Creek, a tributary of the West Fork of the Weiser River. Lost Creek runoff averaged 28,700 acre-feet per year during the study period 1928 through 1977, ranging from a minimum of 13,700 acre-feet to a maximum of 57,700 acre-feet.

Increasing the capacity of Lost Valley Reservoir from 10,100 to 30,000 acre-feet would more fully use the water resource of Lost Creek.

New storage in the enlarged Lost Valley Reservoir would - 1) provide irrigation water to Council area lands, 2) generate hydropower, and 3) provide flood control, fishery, and recreational benefits. Council area irrigators now own a small amount of storage in Lost Valley Reservoir. This stored water is not now directly usable on the Council area lands; it is exchanged for natural flows from other streams which would otherwise be required to fill water rights downstream.

c. Enlargement Potential

The existing dam site is very suitable for a larger dam. The existing 34 ft. dam would need to be increased to a height of 64 ft. to triple the storage capacity of the reservoir to 30,000 acre-feet. A reservoir of this volume would essentially fully control the runoff from the watershed above. The existing dam could be used in the upstream portion of the new dam, and a stable spillway could be constructed into the hillside around the left abutment. The 750 acre surface area of the existing reservoir would be increased to 1000 acres, providing additional high quality recreational opportunity.

d. Project Benefits

Enlargement of the Lost Valley Reservoir could provide for increased irrigation, recreation, and Fish & Wildlife benefits. The installation of hydropower

facilities at the damsite was considered but determined not to be practical. However, the opportunity does exist for using reservoir releases downstream for hydropower development by diverting these flows across a divide into Warm Springs Creek. Further discussion of each of these benefits follows:

1) Irrigation

Existing agricultural lands and new lands (previously studied by the Bureau of Reclamation) capable of being irrigated in the Council area could benefit from new storage in the Lost Valley Reservoir. Even though the routing of water from Lost Valley Reservoir would be changed from the plan proposed by the Bureau, it would still serve the same lands. After the water passes through the proposed power facilities in Warm Springs Creek, discussed below, it would be siphoned across Weiser River and connected into the proposed Lost Valley-Council Canal to serve the Council agricultural lands (see Figure 5). The previous studies by the Bureau of Reclamation identified and classified lands in this area (see Figure 6). These were again reviewed in this study and it was determined that the land classification data in the Bureau's wrap-up report of March 1972 reflects, with reasonable accuracy, the current potential for irrigation development

LOST VALLEY Irrigation Facilities

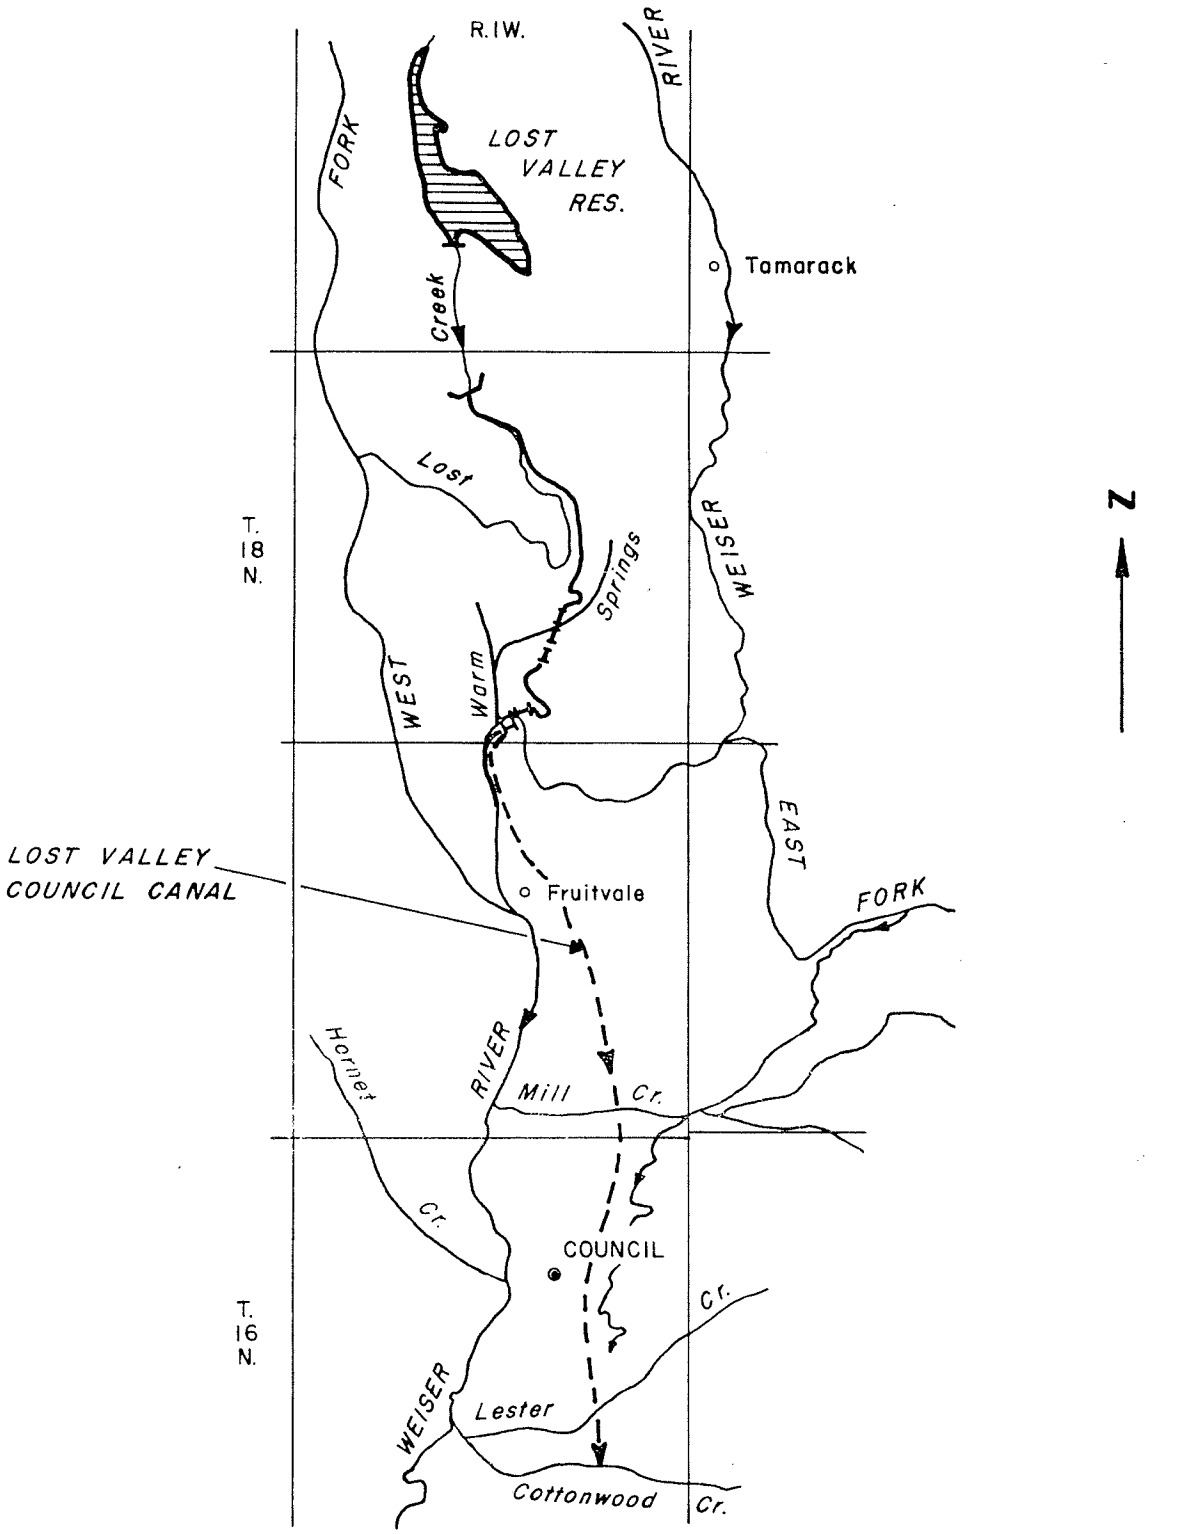

Figure 5

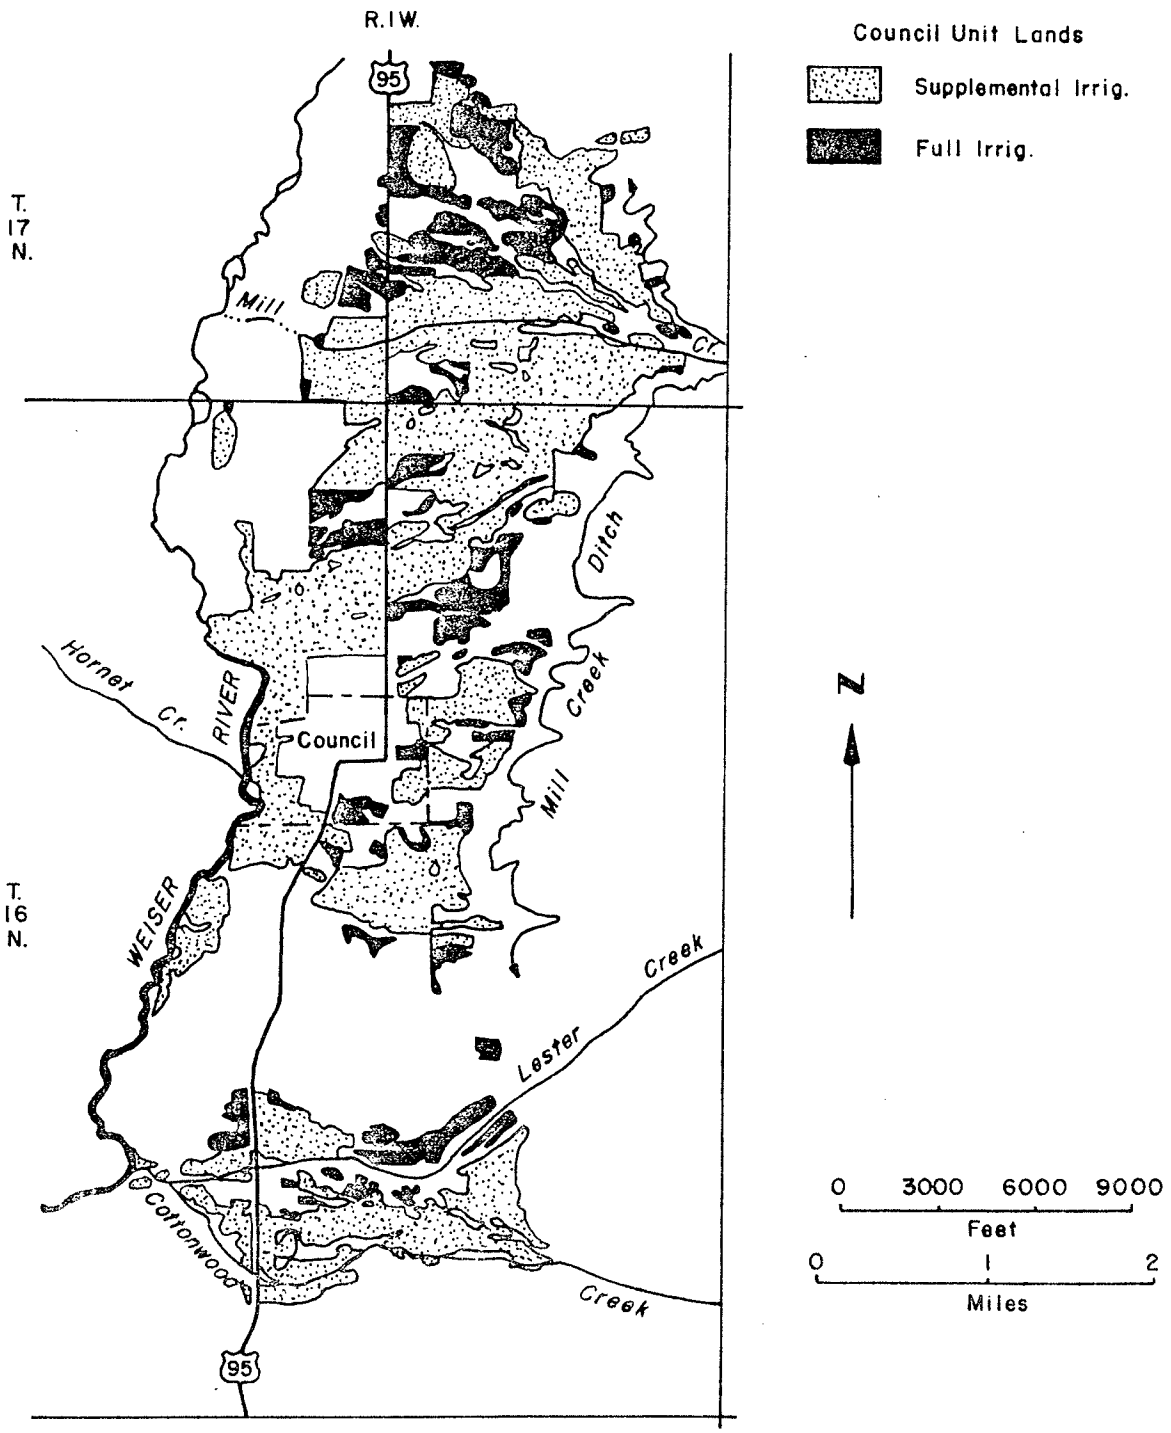

COUNCIL - Irrigation Service Area

Figure 6

within the Council area.

No significant changes have occurred in the crops grown or the irrigation practices or methods since the Bureau studies were completed in the 1960's. Agriculture in the Council area is characterized by small farms, many of which are part-time operations. Hay, pasture, and small grains produced on the irrigated lands support the livestock industry that has developed in the upper Weiser Basin. Nearby rangelands, both public and private, provide summer pasture for the beef herds that are found on full-time farms. The small, part-time farms do not have summer range, and livestock are kept on the irrigated lands throughout the year. Most part-time farmers work in the lumber industry, either in the woods or at Boise Cascade Lumber Mill, located in Council.

It is not likely that provision of supplemental water for presently irrigated lands or a full supply for new lands will change the established agricultural economy. Small, part-time farms will still be dominant. For this analysis, it is assumed that irrigated lands will continue to produce feed and forage in support of livestock production. Agricultural benefits are based on the production of alfalfa hay and barley

11

and treated as cash crops. This alfalfa hay-feed grain cash crop approach serves as a proxy for the potential small livestock operation with hay, pasture and feed grains in support of the livestock enterprise.

The estimate is based on 1979 price levels. The prospect of a commercial apple industry being reintroduced into the area with an adequate water supply does exist on those lands having good air drainage and relatively free of subsurface drainage problems. However, it appears that the acreage within the Council area that would meet these criteria would be limited. The total agricultural benefits could be increased if highly intensive fruit orchard enterprises are included in the determination of benefits. The prospects of fruit production to the south of Council in the Mesa appear to be much better. Considering alfalfa and barley as the major crops grown, the crop irrigation requirement for this area is 1.6 AF/acre. Under project development it was assumed that sprinkler irrigation would be used. An on-farm efficiency of 65 percent was allowed and a 20 percent conveyance loss estimated. The unit water requirements are summarized as follows:

Irrigation water requirements are:

Crop irrigation requirement		1.6 AF/acre
Farm efficiency	65 percent	
Farm delivery requirement		2.46 AF/acre
Conveyance efficiency	80 percent	
Diversion requirement		3.08
Use		3.1

The monthly pattern for irrigation use is as follows:

Month	Percent	Month	Percent
April	4	August	22
May	13	Sept.	13
June	20	Oct.	3
July	25		

Assuming that the irrigation needs for the months of April and May would be met by inflow to the stream below the reservoirs, the normal storage release would be approximated by:

Month	Percent	Month	Percent
June	25	Sept.	15
July	30	Oct.	5
Aug.	25

outflow away from the toe of the dam, and deepen, widen, and improve the spillway.

A consulting engineer reported on the condition of the dam after his inspection of April 20, 1925. His report stated that the dam and gate were in good condition and the spillway was deemed adequate for all flows except an "unprecedented cloudburst."

The file contains as-built plans for additional construction in November of 1929, but they do not represent the current structure. These plans indicate 35 feet of fill height and extensive enlargement of the spillway. The existing maximum fill height is near 32 feet and the spillway is smaller than the as-built plans indicate. Reports indicate that some additional fill was placed in 1929. Refer to Appendix II for a sketch of the dam cross-section as estimated at the time of the inspection by comments from the dam owners and the information in IDWR files.

A reservoir and site survey was made by Mr. Paul Berg in December, 1936.

The owners requested approval for a 9-inch rise in height of piers in the spillway in April, 1938. Approval was granted. An inspection on May 26, 1939 noted an 8-inch rise on the piers and noted that the tops of the piers were now at gage 25.90 with approximately 3.5 feet of freeboard.

Gate controls for the conduit were replaced as reported by the owners in a letter of November 26, 1955. The owners reported that they raised the dam 2 feet in the fall of 1968. It is believed that the crest was actually regraded to conform to other features of the dam and to correct historical settlement.

A summary of inspections is located in Appendix V.

E. Operating History

The reservoir level reaches gage 25.9, and sometimes higher, in June of each year. In many years, the reservoir has been near empty in October.

Flashboards are placed in the spillway after the threat of spring flood flows has diminished. The time of placement of flashboards is based on observations made by the present operator and is not controlled by a statistical projection of runoff or written operation schedule. Water is allowed to rise above the flashboards and run through the spillway.

The gate is controlled by the dam operator. He and the Directors have keys to the lock. Releases through the conduit are normally made from June through September for irrigation needs and at various times as necessary during the winter in order to control reservoir levels. The gate controls are accessible during a flood, either from the footbridge across the spillway, or from the right abutment.

The present operator has kept his own personal set of records which are available for review. This data includes reservoir gage readings, dates of installation and removal of flashboards, outflow estimates, and other pertinent data which he collected on his trips to the dam.

The seepage at the dam has not been monitored but reportedly has occurred since the original construction. The operator stated that seepage has not changed from its original amount and is not affected by reservoir level.

No. 1.

Works of Diversion:

1. Middle Fork Flume, taking water out of the Middle Fork of the Weiser River and conveying it to what is known as the Council Mesa Orchards lands and other lands on the Council Mesa surrounding the orchards. Capacity of Middle Fork flume, 70 second feet. This water is used throughsubstitution under Permit 6503 in connection with Permit 5270, which latter permit authorizes the diversion of the waters of the Middle Fork of the Weiser River, provided it is substituted out of the Lost Valley Reservoir under Permit 6503.

2. East Fork Ditch, taking water out of the East Fork of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of East Fork Ditch 800 inches, as shown by official records. This water is used out of the East Fork Ditch on those certain lands described in Permit 6503, and the waters of Lost Valley Reservoir are substituted to prior rights in place of the East Fork Ditch water.

3 - Robertson-Seavy Ditch, taking water out of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of Robertson-Seavy Ditch 500 inches. This water is used out of the Robertson-Seavy Ditch on those certain lands described in Permit 6503, and the waters of Lost Valley Reservoir are substituted to prior rights in place of the Robertson-Seavy Ditch water.

4. Farmers' Canal, taking water out of the Weiser River and conveying it to lands in Townships 16 and 17, North, Range 1 West, in the Council Valley. Capacity of Farmers' Canal, 700 inches. This water is used out of the Farmers' Canal on those certain lands described in Permit 6503 and the waters of Lost Valley Reservoir are substituted to prior rights in place of the Farmers' Canal water.

5. Glenn Ditch, taking water out of the West Fork of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of Glenn Ditch 150 inches.

6. Hahn Ditch, taking water out of the Weiser River and conveying it to lands in Townships 16 and 17 North, Range 1 West, in the Council Valley. Capacity of the Hahn Ditch, 3.25 inches.

INTER-DEPARTMENT MEMO

TO: Steve

FROM: Jan

SUBJECT: 67-02053

DATE: 10-12-93

Here is a copy of the memo Eldon wrote that tells why we (I agreed with him) felt that 67-02053 shouldn't have been listed as superceded. Usually, the licenses that were superceded were ones issued prior to the decree being completed & signed by the Judge. Also, another right was supposed to have been found - 67-00081 etc. were what Moore based the superceding on. Since the license wasn't completed until later & transfers filed & approved after the decree it seems like Mike thought it was good?

Dear Eldan

Sorry I have a couple of more changes. People want to get their changes through before they file.

One isn't really a change; just in the name - to get an estate settled.

1- Vernon Ingebretsen (Cambridge Ida)
30 shares of B- stock Certy # 64
Is now Alice Ingebretsen Certy # 65

2- Dena Potter (Cambridge Ida)
5 shares of C-Class certy # 26
is now B & G- Logging Co. Inc. Certy # 77

Hope I don't have to do any more till all are filed

Best wishes
Margaret Mark

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
Certificate of Water Right
Transferred Right No. 378.

This is to certify that the Mesa Orchards Company, of Mesa, County of Adams, State of Idaho, has rights to the use of the waters of the Middle Fork of the Weiser River, and the Lost Valley Reservoir for irrigation and domestic purposes, and that said rights were obtained by virtue of Water Licenses Nos. 5270 and 6503, issued by the Commissioner of Reclamation of the State of Idaho, dated May 10, 1922, said rights bearing dates of priority of August 12, 1909 and May 27, 1910, for the purpose of irrigating the following described lands, in the County of Adams, State of Idaho, to-wit: SW¼ of Section 9, and S½ of Section 21, in Twp. 15 N., Rge. 1 W., B. M.; that the said licenses have been entered in the records of the Department of Reclamation of the State of Idaho, at Boise, in Book 6 of Licenses at Pages 2934 and 2935; that, upon the application of M. J. Woodmansee, President of the Mesa Orchards Company, for a transfer of water rights, made before the Commissioner of Reclamation of the State of Idaho, and the said application having been granted, the rights to the use of 1.52 second feet of the waters of the Middle Fork of the Weiser River, and 134 acre feet of the waters of the Lost Valley Reservoir, are hereby abandoned upon the lands above described, and the lands to be irrigated under such rights, and to which the water right hereby confirmed shall by this certificate become appurtenant for irrigation and domestic purposes, are described as follows, to-wit: 92 acres situated in the NW¼ NW¼, Sec. 23, SW¼ SW¼, Sec. 14, and SE¼ SW¼, Sec. 15, all in Twp. 15 N., R. 1 W., B. M.; said right to be limited at any given time to an amount actually needed and beneficially used for such purposes and shall not exceed the following amounts, to-wit:

1.52 sec. ft. from the Middle Fork of the Weiser River dated August 12, 1909.

134 acre feet of the Lost Valley Reservoir dated May 27, 1910.

The right to the use of the waters aforesaid, hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of the State of Idaho.

No right to the use of water on the lands herein described exists at the date of this certificate except as herein stated.

WITNESS, The seal and signature of the Commissioner of Reclamation of the State of Idaho, affixed at Boise, this 23rd day of June, 1926.

JAMES L. BALL, as Personal Representative of the Estate of EMMA BALL, deceased; EDWARD H. WOODS, and ELAINE M. WOODS, husband and wife; PATRICK BALL and MARTHA BALL, husband and wife; PATRICK WALSH and J. K. WALSH, husband and wife;

Defendants.

CASE NO. 2654

FINDINGS OF FACT CONCLUSIONS OF LAW AND JUDGMENT

INTRODUCTION:

This district judge held a two day court trial on November 27 and 28, 1990, on the water rights claims of Edward H. Woods and Elaine M. Woods (Woods) against James L. Ball, as Personal Representative of the Estate of Emma Ball, deceased, (Ball Estate), and Patrick Ball and Martha Ball, (P&M Ball). Mr. Lary C. Walker, attorney at law, Weiser, Idaho, represented Woods, and Mr. Louie Gorrono, attorney at law, Emmett, Idaho represented the Ball Estate and P&M Ball. The controversy between the parties relating to an

sement and the right to open and close a gate was settled by stipulation of the parties.

Woods originally filed a cross-claim on December 20, 1989, seeking an order to transfer water rights or, in the alternative, for damages of $10,000.00. The Ball Estate and P&M Ball admitted Emma Ball, deceased, sold property to Woods, and that the property was conveyed to Woods by warranty deed, but denied the rest of Woods' claim. They raised as affirmative defenses the Statute of Limitations, in I.C. 15-3-801 to 15-3-804, and in I.C. 5-216, 5-217, and 5-218, the failure of Woods to file a claim against the Ball Estate, the defense of laches, and the defense of estoppel. The pre-trial conference order provided that Woods' amended cross-claim was deemed filed as of May 7, 1990. Woods' amended claim asserts they were conveyed all water rights appurtenant to the property, that they checked with the Idaho Department of Water Administration and was specifically advised that waters in the Lost Valley reservoir were stored water and not subject to being lost by nonuse, that the failure of Emma Ball to transfer the stock for the water rights was fraudulent and a breach of contract, and that Woods had acquired from Defendants Patrick Walsh and J. K. Walsh (Walshes) additional property which had the same water right claim. The Ball Estate and P&M Ball asserted the same admissions, denials and defenses, as to both the Woods' original claim, and the claim acquired from the Walshes.

This district judge, after considering all the evidence, makes these findings of fact, conclusions of law, and judgment:

FINDINGS OF FACT:

1. Woods contracted to buy certain property (Parcel 1) in the Mesa Orchards, in Adams County, Idaho, from Emma Ball (EB) about October 16, 1975; the contract in part provided:

> "Said property is also being purchased 'as is', in connection with existing irrigation ditches and there are no representations or warranties as to delivery of irrigation water, as aforesaid.
>
> It is specifically understood, calculated on an acre basis, the pro-rata share of water rights connected with the acreage being sold herein is included in this contract, but seller disclaims any representations or warranties, expressed or implied, as to delivery of water, by any form of conveyance to the property sold. The delivery or conveyance of water to the property being sold, if the delivery should ever come to pass, is the sole responsibility and obligation of the buyer.
>
> There are no covenants or representations as to availability or delivery of irrigation or domestic water, in connection with said premises being sold." (See pl. ex. 4)

2. About May 29, 1979, Woods recorded with the Adams County Recorder a warranty deed for Parcel 1 from EB, which deed included this language: "TO HAVE AND TO HOLD the said premises, with their appurtenances unto the said Grantees, their heirs and assigns forever." (See pl. ex. 5)

3. About August 30, 1975, Walshes contracted to buy certain property (Parcel 2) in Mesa Orchards, Adams County, Idaho, from EB; the contract contained the last two paragraphs listed in Finding No.1 and a general "as is" provision. (See pl. ex. 3)

4. About September 24, 1985, Walshes had recorded with the Adams County Recorder a warranty deed for Parcel 2 from EB; the deed contained the same language listed in Finding No. 2. (See pl. ex. 6)

5. In April, 1990, Walshes contracted to sell Parcel 2 and to assign to the Woods "any right that they may have to bring action relating to the water rights" and "all lawsuit rights against the Balls concerning representations relating to ... the water rights to property..., the contract contained the same water rights language contained the Ball to Walshes contract. (See pl. ex. 8)

6. About April 5, 1990, Woods had recorded with the Adams County Recorder a warranty deed for Parcel 2 from Walshes,; the deed contained the same language listed in Finding No. 2. (See pl. ex. 7)

7. At the time EB contracted to sell Parcel 1 to Woods and Parcel 2 to Walshes, two separate water rights were appurtenant to those parcels: Water Right 67-0081, for water stored as shown by 4040 shares of capitol stock (1 share equaled 1 acre foot of water, if available) in Lost Valley Reservoir Company (LVRC) with a priority date of May 27, 1910; Water Right 67-0080, for water from the natural flow of the Middle Fork Weiser River with a priority date of Sept. 11, 1909. Both of these water rights were decreed originally to the Orchard Water Company by virtue of the decree in MUIR v. ALLISON dated June 20, 1921.

8. In 1971 EB applied for and was granted by the Department of Water Administration (DWA) an extension of time to avoid forfeiture of both water rights. About December 10, 1975, EB applied for but was denied by the DWA a second extension of time. In 1977 EB applied for and was granted by DWA transfers of about

3540 acre feet of water represented by capital stock in Lost Valley Reservoir, under Permit No. 67-0081. EB during her lifetime did not transfer to Woods nor Walshes any shares of capitol stock in LVRC.

9. EB during 1974 to 1977 contracted to sell various other parcels of land in Mesa Orchards, Adams County, to buyers, using the same "as is" and water rights provisions found in the Woods and Walshes contracts. (See defs. ex. E) EB did reserve the right to certain reservoir water on Bacon Creek in one contract in 1974, (See defs. ex. E-1) but did not specifically reserve any reservoir rights in Lost Valley Reservoir in any contract.

10. EB died on January 15, 1981; James L. Ball (JLB) was appointed Personal Representative of the Estate of EB on February 9, 1981, and still serves in that capacity. JLB published notice to creditors starting on February 19, 1981, and ending on March 5, 1981. Woods and Walshes have not presented any claim for breach of contract to the Ball Estate at anytime.

11. Woods knew in 1975 that part of the water rights for Parcel 1 included water stored in Lost Valley Reservoir, but did not discover until 1988 that such water was represented by capitol stock shares in LVRC. Woods in 1989 made demand on JLB of the Ball Estate to transfer capitol stock shares to Woods for Parcel 1, but JLB refused to do so.

12. When the deeds from EB to Woods and Walshes were delivered and recorded, all water rights appurtenant to Parcels 1 and 2 were conveyed to each set of respective grantees. The "as is" and water

rights provisions in the Woods and Walshes contracts are not ambiguous. These provisions clearly show the parties intended that the pro-rata share of all water rights appurtenant to the parcel were included, but that buyers had the sole responsibility to deliver the water so that it could be put to beneficial use.

13. By clear and convincing proof, the evidence shows from 1975 to the present: Woods and Walshes have not applied these appurtenant water rights to the beneficial use for which they were appropriated or to any beneficial use whatsoever; Woods and Walshes have not been billed nor paid any annual assessments of LVRC.

14. Woods has failed to show P&M Ball has any control over the Ball Estates' remaining shares of capitol stock in LVRC. Woods have not presented clear and convincing evidence that EB made any fraudulent representations to mislead Woods or Walshes about the water rights to the parcels Woods or Walshes purchased from EB. Woods have presented clear and convincing evidence that a mistake was made when EB conveyed to Woods and Walshes the water rights for Parcels 1 and 2 in that no capitol stock in LVRC was included.

15. However, Woods and Walshes did not act with due diligence from 1975 to 1988 to discover if any mistake was made in the conveyance to them of any water rights appurtenant to the Parcels. The "as is" and water rights provisions would alert a reasonable person to make inquiry to the DWA to ascertain the nature, extent and validity of any water rights appurtenant to the Parcels. That inquiry would have led to discovery of the mistake by EB who failed to transfer shares of stock in LVRC with the Parcels.

CONCLUSIONS OF LAW:

1. Jurisdiction is not vested in this district judge to determine as to all other water users if Woods and Walshes have valid water rights claims appurtenant to their land and the date of priority of such claims. Jurisdiction is vested in the district court in the case entitled: "In Re the General Adjudication of Rights to the Use of Water from the Snake River Basin Water System," Twin Falls County District Court Civil No. 39576.

2. Jurisdiction is vested in this district judge to determine if Woods and Walshes have a valid claim against the Ball Estate and P&M Ball for damages or for specific performance to have about 44 shares of capitol stock in LVRC transferred to them.

3. P&M Ball were parties to the controversy over the easement and gate, which controversy was settled at the trial. Woods at trial did not assert any water rights claim against P&M Ball. P&M Ball are not a prevailing party and are not entitled to any attorneys fees nor court costs.

4. The Muir v. Allison decree confirmed both water rights so that they became appurtenant to Parcels 1 and 2. When EB conveyed the Parcels to Woods and Walshes, both water rights passed as an appurtenance to the Parcels. "...all rights to water confirmed under the provisions of this chapter, or by any decree of court, shall become appurtenant to, and shall pass with a conveyance of, the land for which the right of use is granted." Idaho Code Section 42-220; Russell v. Irish, 20 Idaho 194, 118 P. 501 (1911).

5. When Woods and Walshes failed to put the appurtenant water rights to use for a period of five (5) years, those rights were forfeited. Those rights reverted to the state and became subject again to appropriation. Idaho Code Section 42-222; Jenkins v. State Department of Water Resources, 103 Idaho 384, 647 P.2d 1256 (1982). This forfeiture was established by clear and convincing proof. See Crow v. Carlson, 107 Idaho 461, 690 P.2d 916 (1984).

6. Woods have the right to apply to the Department of Water Resources (DWR) to appropriate such forfeited water rights. "The policy of the law of this State is to secure the maximum use and benefit, and least wasteful use, of its water resources." Poole v. Olaveson, 82 Idaho 496, 356 P.2d 61 (1960).

7. Woods are not entitled to any relief for damages or specific performance against the Ball Estate based upon breach of the covenants in the deed. Woods have failed to prove any breach occurred, because EB did convey all water rights appurtenant to the parcels. Woods failed to prove any damages, if a breach had taken place. Woods are not entitled to specific performance, because the water rights were forfeited and have reverted to the State.

8. Woods are not entitled to any relief against the Ball Estate based on fraud, because Woods have failed to show by clear and convincing evidence any fraud occurred or any alleged fraud proximately caused any damage to Woods. See Faw v. Greenwood, 101 Idaho 387, 613 P.2d 1338 (1980).

9. Woods are not entitled to any relief against the Ball Estate based on mistake. Woods' claim for mistake was not pled,

but this district judge rules Woods' trial motion to conform the pleadings to the proof should be granted. The Ball Estate should be allowed to raise any defense to this claim, including the statute of limitations and the issue of Woods' due diligence to discover the mistake. The evidence is clear and convincing that EB made a mistake when she failed to transfer a pro-rata portion of the LVRC capitol stock to Woods and Walshes . However, Woods and Walshes have failed to show this mistake proximately caused them any damages. Also the water rights have reverted to the State, so any remedy to rectify the mistake is not needed. In the alternative, Woods and Walshes could have discovered EB's mistake by due diligence in 1975, so that any claim based on mistake is barred by Idaho Code Section 5-218. See Aitken v. Gill, 108 Idaho 900, 702 P.2d 1360 (Ct. App. 1985).

10. The Ball Estate is a prevailing party in this action and is entitled to court costs but not attorneys fees. This district judge concludes this was not an action to enforce the terms of the Woods and Walshes contracts, but rather an action to enforce the covenants of the deed that conveyed the appurtenant water rights. Acceptance of a deed is generally considered as a merger of the agreements of the underlying contract into the terms of the deed. Any claim for relief must be based on the covenants contained in the deed and not the agreements contained in the prior agreement. See Jolley v. Idaho Securities, Inc., 90 Idaho 373, 414 P.2d 879 (1966).

JUDGMENT:

IT IS HEREBY ADJUDGED AND DECREED:

1. WOODS are not entitled to any relief on their cross-claim for water rights against the Ball Estate or against Patrick Ball and Martha Ball.

2. The Ball Estate is entitled to recover its court costs but not any attorneys fees, and Patrick and Martha Ball are not entitled to recover any court costs or attorneys fees.

3. The parties have settled any controversy regarding the easement and the use of the gate. (Counsel for the Ball Estate and P&M Ball is requested to submit a proposed order.)

4. Adams County is dismissed as a party to this action, pursuant to the written stipulation of the parties filed on November 26, 1990.

Dated this 11 day of December, 1990.

ABSTRACT OF

LOST VALLEY RESERVOIR CO.

by
Eldon L. Roush
Senior Water Resource Agent
Western Region

SHARES (CERTIFICATES) WITHIN LOST VALLEY RESERVOIR CO. ARE ISSUED TO USERS IN THE FOLLOWING MANNER:

* 1 SHARE EQUALS 1 ACRE FOOT OF STORAGE
* SHARES ARE DIVIDED INTO 3 CLASSES:
  - "A"= FIRST PRIORITY
  - "B"= SECOND PRIORITY
  - "C"= THIRD PRIORITY
* SHARES ARE ISSUED BY CERTIFICATES AND EACH CERTIFICATE:
  - LISTS CERTIFICATE NUMBER
  - LISTS CLASS OF STORED WATER
  - LISTS AMOUNT OF SHARES (ACRE FEET)

LOST VALLEY RESERVOIR STORAGE IS COVERED BY THE FOLLOWING WATER RIGHTS:

DECREES

67-00071
67-00081
67-00082
67-00083

LICENSE

67-02053

NOTE DECREE NUMBERS 67-00071, 67-00082, AND 67-00083 WERE GROUPED TOGETHER BY THE LOST VALLEY RESERVOIR CO. AND CERTIFICATES ISSUED TO 27 SHARE HOLDERS. SINCE THE PLACES OF USE OF THESE SHARE HOLDERS MAY NOT BE THE PLACE OF USE LISTED IN THE DECREES, THESE DECREES HAVE BEEN COMBINED FOR THE SAKE OF FACILITATING THE SRBA CLAIMS TAKING FOR THE INDIVIDUAL SHARE HOLDERS. CLAIM SPLITS HAVE ALREADY BEEN GENERATED AND THE NUMBERS FOR EACH OF THE CLAIMANTS CAN BE FOUND IN THE ATTACHED LISTING AND IN THE WATER RIGHT NUMBERS IN THE HOST TEMPORARY.

NOTE LICENSE NUMBER 67-02053 HAS BEEN LISTED IN THE WATER RIGHTS DATA BASE AS BEING SUPERCEEDED BY DECREE 67-00081. THIS IS

PROBABLY IN ERROR FOR THE FOLLOWING REASONS:

*MUIR -VS- ALLISON DECREE OF MAY 09, 1918 WAS APPEALED TO THE STATE SUPREME COURT.

*THE STATE SUPREME COURT REVERSED IN PART AND REMANDED BACK TO THE LOWER COURT THE MAY 09, 1918 DECREE.

*THE LOWER COURT REISSUED THE MUIR -VS- ALLISON DECREE JUNE 20, 1921.

*LICENSE 67-02053 WAS ISSUED MAY 10, 1922 AND TRANSFER # 378 APPROVED JUNE 23, 1926.

A67-02053 HAS BEEN GENERATED AND IS IN THE HOST TEMPORARY AND IS AVAILABLE FOR SPLITS. (SEE ATTACHED INDEX)

DECREES 67-00071, 67-00081, 67-00082, AND 67-00083 COVERS THE CLASS "A" SHARES.

Remarks

THIS PROPERTY, DICK FISK RETAINED 2 AF SHARES FROM THE LOST VALLEY RES. THIS CLAIM, THEREFORE, REFLECTS THOSE 2 SHARES. A67-02053AA REFLECTS THE REMAINDING 8 SHARES NOW BELONGING TO LARRY FISK. ALSO-IT APPEARS THAT DICK FISK HAS RETAINED THE 2 SHARES FOR THE USAGE AROUND HIS HOME. LARRY FISK BOUGHT THE 8 ACRES; HOWEVER, DUE TO A LACK OF INFORMATION FROM DICK FISK REGARDING THIS I LEFT THE ACRES ON THIS CLAIM AT 8 ACRES. A FIELD EXAM MAY BE NECESSARY. ONE MORE THING-THIS CLAIM ORIGINALLY INDICATED A FLOW RIGHT, DICK FISK'S FILING DID NOT INCLUDE A FLOW AMOUNT. 4/5/90-L.R.W.**********

**A67-02053Z-THIS WATER RIGHT WAS INITIALLY CLAIMED BY DICK FISK
FOR 10 AF OF LOST VALLEY RESERVOIR. SINCE THAT TIME, THIS
PROPERTY HAS BEEN SOLD TO LARRY & PENNY FISK. IN THE SALE OF
THIS PROPERTY, DICK FISK RETAINED 2 AF SHARES FROM THE LOST
VALLEY RES. THIS CLAIM, THEREFORE, REFLECTS THOSE 2 SHARES.
A67-02053AA REFLECTS THE REMAINDING 8 SHARES NOW BELONGING TO
LARRY FISK. ALSO-IT APPEARS THAT DICK FISK HAS RETAINED THE 2
SHARES FOR THE USAGE AROUND HIS HOME. LARRY FISK BOUGHT THE 8
ACRES; HOWEVER, DUE TO A LACK OF INFORMATION FROM DICK FISK
REGARDING THIS I LEFT THE ACRES ON THIS CLAIM AT 8 ACRES. A
FIELD EXAM MAY BE NECESSARY. ONE MORE THING-THIS CLAIM
ORIGINALLY INDICATED A FLOW RIGHT, DICK FISK'S FILING DID NOT
INCLUDE A FLOW AMOUNT. 4/5/90-L.R.W.**********

Section 1. PLACE OF MEETING. All meetings of the stockholders of this Company shall be held at the principal office or place of business of this Corporation at Mesa, Adams County, Idaho.

Section 2. ANNUAL MEETING. The annual meeting of the stockholders shall be held on the first Monday in January in each year at two o'clock P.M., at which time there shall be chosen three persons, each of whom shall own at least one share of stock in the Corporation, to be Directors of said Corporation for the ensuing year. Notice of such meeting shall be given by publication thereof at least once a week for two weeks in a newspaper of general circulation published in Adams County, Idaho, and in case there should be no news paper published in said Adams County, then said notice to be published in a newspaper in the nearest county to its said place of business, and also such notice of said meeting shall be given in writing to each stockholder at least ten days befor e said meeting; provided, however, that such written notice and the publication thereof may be waived and consent given to hold such meeting without notice in writing, or publication, provided all stockholders of the Corporation sign said waiver and consent.

Section 3. DEFERRED ANNUAL MEETING. If for any reason the annual meeting of the stockholders shall not be held as hereinbefore provided, such annual meetings shall be called by the President or by the Board of Directors as soon as it conveniently may be. It shall be the duty of the Secretary, on the request

of the stockholders holding not less than 25 per cent of the issued stock, if the election for Directors has not been held as hereinbefore provided, to call a meeting of the stockholders, as provided in Section 2, for the election of Directors.

Section 4. SPECIAL MEETINGS. Special meetings of the stockholders may be called at any time by the President or the Board of Directors, and it shall be the duty of the President to do so whenever so requested in writing by stockholders owning 25 per cent of the issued stock. If the President, on such request, neglects for five days to call such special meeting, then the stockholders making the request may call such special meeting. Notice of such special meeting shall be given in writing to each stockholder at least ten days before said meeting; provided, however, that such written notice of such special meeting may be waived and consent givento hold such special meeting without notice in writing upon all of the stockholders of said Corporation signing said waiver and consent, and such notice in addition to stating the time and place at which said meeting shall be held, shall briefly state the objects of said meeting.

Section 5. QUORUM. At all stockholder's meetings stockholders holding at least a majority of the issued capital stock of the Corporation shall be necessary to constitute a quorum, but the stockholders present at any meeting less than a quorum may adjourn the meeting to some other day.

Section 6. OFFICERS. The President or Vice-President, or in the absence of both, the Secretary, shall preside at such stockholder's meetings, and they shall constitute a committee to pass upon the authenticity of all proxies.

ARTICLE II.

DIRECTORS.

Section 1. MANAGEMENT OF AFFAIRS. The affairs of this

Corporation shall be managed by a Board of three Directors, and each Director shall own and hold at least one share of stock in the Company.

Section 2. POWERS. The Directors shall have full power and authority to carry on any business and to exercise any and all of the powers conferred upon the Corporation by its Articles of Incorporation, and without any further or special direction or authority from the stockholders.

Section 3. ELECTION OF OFFICERS. The Directors shall elect all other officers of the Corporation, and such election shall be held annually, as soon as possible after the annual stockholder's meeting.

VACANCIES. Vacancies in the Board of Directors may be filled by the election by the remaining members of the Board at any regular meeting or at any special meeting called for such purpose.

Section 4. ANNUAL MEETING. The regular meetings of the Board of Directors shall be held annually on the first Monday in January in each year at three o'clock P.M. at the principal office or place of business of the Corporation in the Town of Mesa, Adams County, State of Idaho.

Section 5. SPECIAL MEETINGS. Special meetings of the Board of Directors may be held whenever called by the President, or by two of the Directors for the time being in office. The Secretary shall give notice of any special meeting by mailing or telegraphing or personal notice of the same at least five days before the meeting, to each Director, but such notice may be waived by any Director. At any meeting at which any Director shall be present, even though without any notice, any business may be transacted.

Section 6. QUORUM. A majority of the Board of Directors shall constitute a quorum for the transaction of business, but

if at any meeting of the Board of Directors there be less than a quorum present, a majority of those present may adjourn the meeting from time to time.

ARTICLE III.

ORDER OF BUSINESS OF STOCKHOLDER'S MEETING.

Section 1. ORDER OF BUSINESS. At all meetings of the stockholders the following order of business shall be observed, as far as consistent with the purpose of the meeting, viz.:

He shall keep a record of all stock issued and transferred by the Corporation, and shall be the custodian of the seal and stock and stock books of the Corporation, He shall with the President sign all certificates of stock; and shall affix the seal of the Corporation to all instruments required to be authenticated therewith, and shall perform such other duties as may be required of him by the By-laws of the Corporation or by the Board of Directors. He shall also have authority to sign and issue orders upon the Treasurer for the pay ment of money.

Section 4. TREASURER. The Treasurer shall keep full and accurate accounts of all receipts and disbursements in books belonging to the Corporation, and shall deposit all moneys received in the name and to the credit of the Corporation, in such depositories as may be designated by the Board of Directors. No money shall be paid out by the Treasurer except upon orders drawn on him and signed by either the President or Secretary. He shall render annually, and at any time called for by the President, an account of all moneys received and expended, and he shall, by order of the Board of Directors, and at the annual meeting of the stockholders and whenever they may require it, render an account of the financial affairs of the Corporation. He shall discharge such other duties pertaining to his office as shall be prescribed by the Board of Directors.

Section 5. OFFICIAL BONDS. The Directors may, by resolution require any or all of the officers of the Corporation to give bond with sufficient security, conditioned for the faithful performance of the duties of their respective offices, and may provide, if they desire, for the payment of the premium out of the funds of the Company.

Section 6. ABSENCE OF OFFICERS. In case of the absence of any officer of the Corporation, or for any other reason that may seem sufficient to the Board, the Board of Directors may delegate his powers and duties for the time being to any other officer or to any Director.

Section 7. NO INDEBTEDNESS TO BE INCURRED WITHOUT AUTHORIZATION OF BOARD OF DIRECTORS. No money shall be borrowed, nor shall the credit of the Corporation be pledged for any period without direct authorization from the Board of Directors. No officers, agents nor employees shall have the power to borrow money for the Corporation or to pledge the credit of the Corporation for any period, without such direct authorization from the Board of Directors.

ARTICLE VII

STOCK.

Section 1. CERTIFICATE OF STOCK. Certificates of stock of the Corporation shall be of such form and device as the Board of Directors may direct, conformable to the laws of this State, and such certificates shall be signed by the President and Secretary and express on their face their number, date of issuance, class, number of shares belonging to any such person or persons. The certificate books shall contain a margin on which shall be entered the number, date, number of shares, class and name or names of the person expressed in the corresponding certificate. the irrigation season in each year, one acre foot of water if available and stored in the reservoir designated as the "Lost Valley Reservoir", situated on Lost Creek in Township 19 North of Range One West Boise Meridian in Adams County, Idaho, at the point of delivery from such reservoir, all deliverable in any one lesser period of time of thirty days or more, upon written reasonable notice to the corporation, for irrigation and domestic uses on the lands using such water, and shall be that proportionate part of 6950 acre feet of water if available and stored for distribution by the Company from the present capacity of said reservoir of the Company, as each share of Class A stock shall bear to the whole number of valid and subsisting Class A shares of stock representing all of said 6950 acre feet of storage water, if available and stored for distribution by the Company from the present capacity of said reservoir; and said Class A shares of stock shall also entitle the owner thereof to a proportionate interest in 6950 acre feet capacity of said reservoir and in the water rights and water appropriations used in storing 6950 acre feet of water in said reservoir, based upon 6950 shares of Class A reservoir stock of the capital stock of the Company, and subject to such charges and costs in the operation, maintenance, repairs and replacement of said reservoir, and rules and regulations as the Board of Directors may make regarding the distribution and delivery of water from said reservoir as may appear for the best interest of the Company and its stockholders.

Section 4. AMOUNT OF WATER CLASS B STOCK ENTITLED TO. Each full share of Class B stock entitles the owner thereof to have the second perpetual right to the use of, and receive, subsequent to, and second in time of use to the first right, evidenced by Class A stock in the said reservoir of the Company, designated as Class A stock in the said reservoir of the Company, designated as "Lost Valley Reservoir", at the point of delivery from such reservoir, all deliverable in any one lesser period of time of

thirty days or more, upon written reasonable notice to the Corporation, during the irrigation season in each year, one acre foot of water if available and stored in said reservoir, for irrigation and domestic uses on the lands using such water, and shall be that proportionate part of the present capacity of said reservoir which is over and above 6950 acre feet if stored and available for distribution by the Company, as each share of Class B stock shall bear to the whole number of subsisting and valid Class B shares of said stock, representing all of the water over and above 6950 acre feet of water, if stored and available in said re servoir for distribution by the Company from the present capacity of said reservoir; and said Class B shares of stock shall entitle the owner thereof to a proportionate interest in and to said reservoir subsequent to and second in time to Class A stock which shall be a proportionate interest in the water rights and water appropriations used in storing and impounding water in said reservoir and in that part of the present capacity of said reservoir over and above 6950 acre feet of water capacity, based upon the total number of shares of Class B stock of the capital stock of the Company, and subject to such charges and costs in the operation, maintenance, repairs and replacement of said reservoir, and rules and regulations as the Board of Directors may make regarding the distribution and delivery of water from said reservoir as may appear for the best interest of the Company and its stockholders.

SECTION 4A ADDED OCTOBER 22, 1929 SEE PAGE 18A

Section 5. VOTING POWER OF STOCK. All classes of stock of this Company shall have equal voting power, and that stock of Class "B" to be hereafter issued and delivered to Elizabeth G. Van Hoesen or at her request to purchasers of water from said reservoir, shall have equal voting power with all other stock of this Company.

Section 6. UNISSUED STOCK. The unissued stock of this Corporation shall be held subject to the order of Elizabeth G.

Van Hoesen, and shall be issued to and at the request of the said Elizabeth G. Van Hoesen, to be delivered to purchasers of such stock from the said Elizabeth G. Van Hoesen, and made appurtenant to land, as provided in the written proposal of the said Elizabeth G. Van Hoesen to the Company, when in transferring to the Company as payment for such shares of stock, that part of her interest in the present capacity of said reservoir and that part of the water rights necessary in storing water to fill the present capacity of said reservoir. Such stock shall have equal voting power with all other stock of the Company, and may be voted by the said Elizabeth G. Van Hoesen or by those to whom she may sell the same, and shall be subject to all assessments, charges, and costs made or levied by this Corporation, the same as all other stock of the Company.

Section 7. EXPENSE OF MAINTENANCE AND REPLACEMENT OF RESERVOIR. For the purpose of defraying the expenses of the Company in operating, managing, repairing and replacing the reservoir of the Company, the Board of Directors of the Company are authorized, empowered, and directed to levy such tax or taxes, charge or charges, assessment or assessments, as in the judgment of the Board may appear necessary or proper to raise the money or revenue required. All such expenses, taxes, costs and charges to be apportioned among all the stock issued and said shares of stock to be issued to Elizabeth G. Van Hoesen above referred to in Section 6.

The taxes and assessments herein provided for, shall be levied against the owners of shares of stock regardless of whether water has been used for irrigation purposes by the holder of said stock, and against said shares of stock owned by Elizabeth G. Van Hoesen above referred to.

The Directors shall give notice by publication in a newspaper for a period of two weeks, of the amount of said charge, tax or assessment required against each share of stock, and of

the time and place of payment thereof. Upon the failure to pay such charge, tax or assessment for a period of fifteen days after the same falls due, the Board of Directors may refuse to deliver water to the holder of such stock or to the land described in such stock certificate, until such charge, tax or assessment, with any fines or penalties imposed by the Board of Directors, or by the rules and regulations of the Company, have been fully paid.

The Board of Directors may at any time after the first of January of each year, make an estimate of the amount of money necessary for the maintenance, repair, control and operation of the Company's reservoir and other necessary expenses of the Corporation, and at such meeting or at a subsequent meeting, may levy the tax, assessment or charge hereinbefore referred to, and may make such other and subsequent levies as the needs of the Company may from time to time require, and may provide that such taxes, charges and assessments may be paid in installments.

Section 10. ADDITIONAL RULES AND REGULATIONS. The Board of Directors shall have power and authority to make all such rules and regulations as they may deem expedient, concerning the issue, transfer and registration of certificates of the shares of the capital stock of the Company.

ARTICLE VIII.

MISCELLANEOUS.

Section 1. FINES AND PENALTIES. The Board of Directors are hereby authorized and empowered to impose such fines and penalties as they deem proper, for the failure of the stockholders to pay their assessments as they become due, or for violating any regulations adopted for the management of the reservoir.

Section 2. ELIZABETH G. VAN HOESEN RETAINS RIGHT TO INCREASE CAPACITY OF RESERVOIR. As Elizabeth G. Van Hoesen has only conveyed and transferred to this Company that part of her

interest in the present capacity of the reservoir designated as "Lost Valley Reservoir", situated on Lost Creek in Township 19 North of Range One West of Boise Meridian, Adams County, Idaho, the outlet from said reservoir into Lost Creek being at a point South 39 degrees 30 minutes East 2002 feet from the Northwest corner of Section 28, said Township and range, and that part of her interest in the water rights and water appropriations necessary to be used in storing and filling said reservoir to its present capacity, and retaining the remaining interest she has in the water rights and water appropriations now evidenced by certain water permits and water rights, held by her, from the State of Idaho, and retains her right to enlarge said reservoir at her own cost and expense, and to own and use said increased capacity of said reservoir and remaining water rights to be used in storing and filling the same, it is understood and agreed by this company with her, that she or her assigns shall have authority and permission from this Company at any time to enlarge said reservoir from its present capacity and to own and dispose of, if she desires, all of such increased capacity in said reservoir and her remaining water rights and appropriations to be used in filling and storing such increased capacity of said reservoir, upon her or her assigns paying their proportionate part of all costs and charges in operating said reservoir.

Section 3. SEAL. The Board of Directors shall provide a suitable seal, with the name of the Company in circular form about the outer edge and the words "Lost Valley Reservoir Company, Corporate Seal" in the center thereof, so mounted as to be capable of impressing said words on paper in raised letters, which seal shall be in charge of the Secretary.

Section 4. FISCAL YEAR. The fiscal or business year of the Company shall begin on the first day of January of each year and end on the 31st day of December following.

AMENDMENTS TO BY-Laws.

Article VII Section 2. Amended October 22, 1929 to read as follows:

CLASSES OF STOCK. The capital stock of this Company shall be divided into three classes designated as Class A, Class B and Class C.

Article VII Section 4A. Amendment added to the By-Laws on October 22, 1929 as follows:

AMOUNT OF WATER CLASS C STOCK ENTITLED TO. Each full share of Class C Stock entitles the owner thereof to have the third perpetual right to the use of, and receive, subsequent to, and third in time of use to the first and second rights, as evidenced by Class A Stock and Class B Stock in the said Reservoir of the Company designated as the "Lost Valley Reservoir" at the point of delivery from such reservoir, all deliverable in any one lesser period of time of thirty days or more, upon written reasonable notice to the Corporation, during the iffigation season in each year, one acre foot of water if available and stored in said reservoir, for irrigation and domestic use on the lands using such water, and shall be that proportionate part of the present capacity of said reservoir which is over and above 8750 acre feet if stored and available for distribution by the Company as each share of Class C stock shall bear to the whole number of subsisting and valid Class C shares of said stock, representing allof the water over and above 8750 acre feet of water, if stored and available in said reservoir for distribution by the Company from the present capacity of said reservoir; and said Class C shares of Stock shall entitle the owner thereof to a proportionate interest in and to said reservoir subsequent to and third in time to Class A and Class B Stock which shall be a proportionate interest in the water rights and water appropriations used in storing and impounding water in said reservoir and in that part of the present capacity of said reservoir over and above 8750 acre feet of water capacity, based upon the total number of shares of Class C stock of the capital stock of the Company, and subject to such charges and costs in the operation, maintenance, repairs and replacement of said reservoir and rules and regulations as the Board of Directors may make regarding the distribution and delivery of water from said reservoir as may appear for the best interest of the Company and its stockholders.

ARTICLE IX.

AMENDMENTS.

Section 1, These By-laws may be altered, amended, repealed, or new By-laws made and enacted at any annual or special meeting for that purpose of the stockholders, and the Board of Directors shall have power to amend, alter or repeal the same and to make additional By-laws by vote of a majority of all the Directors at any regular or special meeting of the Board ; provided, however, that notice of the intention to make, amend, alter or repeal any By-law or By-laws in whole or in part, or to make new By-laws shall be given to the members of said Board for at least five days before such meeting.

ARTICLE X.

Section 1. These By-laws shall at all times remain in the possession of the Secretary at the office of the Corporation in the State of Idaho.

WE, the undersigned stockholders of the Lost Valley Reservoir Company, owning and holding in our names all of the subscribed capital stock of said Corporation, having read and fully considered the foregoing draft of a Code of By-laws for said Corporation, hereby assent to and adopt the same as the By-laws of the Lost Valley Reservoir Company.

Witness our hands this 20th day of June, 1925.

CHAPTER 11

PLANS AND ESTIMATES

This chapter presents information on the Council Unit's facilities, construction costs, and operating costs and plans.

FACILITIES

The facilities of the Council Unit plan include Lost Valley Dam Enlargement; West Fork Diversion Dam; West Fork-Council Canal; and project operating, recreational, and fishery facilities. Existing distribution and drainage facilities would be used.

Lost Valley Dam Enlargement

The existing Lost Valley Dam is located on Lost Creek, a tributary of the West Fork of the Weiser River. The dam is located 8 miles above the mouth of Lost Creek and 16 miles directly north of the town of Council. The existing earthfill dam was built some 60 years ago and has been raised at least once since then to its present height of 34 feet above streambed. The dam is owned by Lost Valley Reservoir Company, a private organization of water users.

The existing dam would be used in the upstream portion of the new dam. The enlarged Lost Valley Dam would be an earthfill structure 64 feet in height above streambed, with a crest length of 500 feet. The design of the dam is shown on the next page.

Outlet Works and Spillway

The outlet works would be located in the right abutment (looking downstream). The outlet works would have a maximum capacity of 250 cubic feet per second and would discharge into Lost Creek below the dam.

The spillway would be an uncontrolled concrete chute located on the left abutment of the dam. The crest of the spillway would be at elevation 4797.5, the normal water surface of the reservoir.

A surcharge of 8,300 acre-feet (up to maximum water-surface elevation 4805.5 feet) in combination with the maximum spillway discharge of 1,680 cubic feet per second and the maximum outlet

works discharge would protect against the inflow design flood, the most severe flood considered reasonably possible at this site. The inflow design flood has a peak flow of 5,100 cubic feet per second and a 5-day volume of 13,900 acre-feet.

Damsite Geology

Geologic studies indicate that Lost Valley Dam can be enlarged safely as outlined in this report. Along the foundation of the proposed dam, competent bedrock--basaltic lava--occurs near the ground surface. Some grouting would be required in the basalt to prevent leakage through the foundation. Overburden in the stream channel consists of sand, gravel, and boulders; the remainder of the damsite is covered by loose and weathered rock and a shallow layer of topsoil.

Construction Materials

Embankment materials and rock for riprap are available near the damsite, and sand and gravel for concrete aggregate can be obtained within a reasonable distance of the site.

Lost Valley Reservoir Enlargement

The enlarged Lost Valley Reservoir would have a total storage capacity of 30,000 acre-feet at normal water-surface elevation 4797.5. By raising the water surface of the reservoir 22½ feet, enlargement would nearly triple the capacity of the existing 10,100-acre-foot reservoir. The existing and the enlarged Lost Valley Reservoirs are shown on the map on the next page.

Reservoir Geology

The reservoir basin was formed by erosion which cut into a thick series of nearly horizontal basaltic lavas. An enlarged Lost Valley Reservoir would not leak because the reservoir basin is covered in most places by a relatively impervious soil mantle which assures a reasonably water-tight reservoir. In addition, the springs and seeps in the area indicate that the local water table would be tributary to an enlarged reservoir. The area around the proposed reservoir contains no potential landslide conditions.

Right-of-Way

The Lost Valley Reservoir Company owns the existing dam and has rights to much of the present reservoir area. The U.S. Government would obtain these rights and in turn would provide the present spaceholders with an equal amount of storage space in an enlarged reservoir. Most of the land required for the reservoir enlargement

C. Small Projects

1. Lost Valley

a. Location and Description

The existing Lost Valley Dam is located on Lost Creek, a tributary of the West Fork of the Weiser River. The dam is located 8 miles above the mouth of Lost Creek and 16 miles directly north of the town of Council (see Figure 4). The existing earthfill dam was built 60 years ago and has been raised at least once to its present height of 34 feet above streambed. The dam is owned by Lost Valley Reservoir Company, a private organization of water users. The reservoir has a capacity of approximately 10,000 acre-feet. It supplies irrigation water for 3,365 acres.

b. Water Supply

Lost Valley Reservoir, with an existing capacity of 10,100 acre-feet, does not fully develop the runoff of Lost Creek, a tributary of the West Fork of the Weiser River. Lost Creek runoff averaged 28,700 acre-feet per year during the study period 1928 through 1977, ranging from a minimum of 13,700 acre-feet to a maximum of 57,700 acre-feet.

Increasing the capacity of Lost Valley Reservoir from 10,100 to 30,000 acre-feet would more fully use the water resource of Lost Creek.

New storage in the enlarged Lost Valley Reservoir would - 1) provide irrigation water to Council area lands, 2) generate hydropower, and 3) provide flood control, fishery, and recreational benefits. Council area irrigators now own a small amount of storage in Lost Valley Reservoir. This stored water is not now directly usable on the Council area lands; it is exchanged for natural flows from other streams which would otherwise be required to fill water rights downstream.

c. Enlargement Potential

The existing dam site is very suitable for a larger dam. The existing 34 ft. dam would need to be increased to a height of 64 ft. to triple the storage capacity of the reservoir to 30,000 acre-feet. A reservoir of this volume would essentially fully control the runoff from the watershed above. The existing dam could be used in the upstream portion of the new dam, and a stable spillway could be constructed into the hillside around the left abutment. The 750 acre surface area of the existing reservoir would be increased to 1000 acres, providing additional high quality recreational opportunity.

d. Project Benefits

Enlargement of the Lost Valley Reservoir could provide for increased irrigation, recreation, and Fish & Wildlife benefits. The installation of hydropower

facilities at the damsite was considered but determined not to be practical. However, the opportunity does exist for using reservoir releases downstream for hydropower development by diverting these flows across a divide into Warm Springs Creek. Further discussion of each of these benefits follows:

1) Irrigation

Existing agricultural lands and new lands (previously studied by the Bureau of Reclamation) capable of being irrigated in the Council area could benefit from new storage in the Lost Valley Reservoir. Even though the routing of water from Lost Valley Reservoir would be changed from the plan proposed by the Bureau, it would still serve the same lands. After the water passes through the proposed power facilities in Warm Springs Creek, discussed below, it would be siphoned across Weiser River and connected into the proposed Lost Valley-Council Canal to serve the Council agricultural lands (see Figure 5). The previous studies by the Bureau of Reclamation identified and classified lands in this area (see Figure 6). These were again reviewed in this study and it was determined that the land classification data in the Bureau's wrap-up report of March 1972 reflects, with reasonable accuracy, the current potential for irrigation development

LOST VALLEY Irrigation Facilities

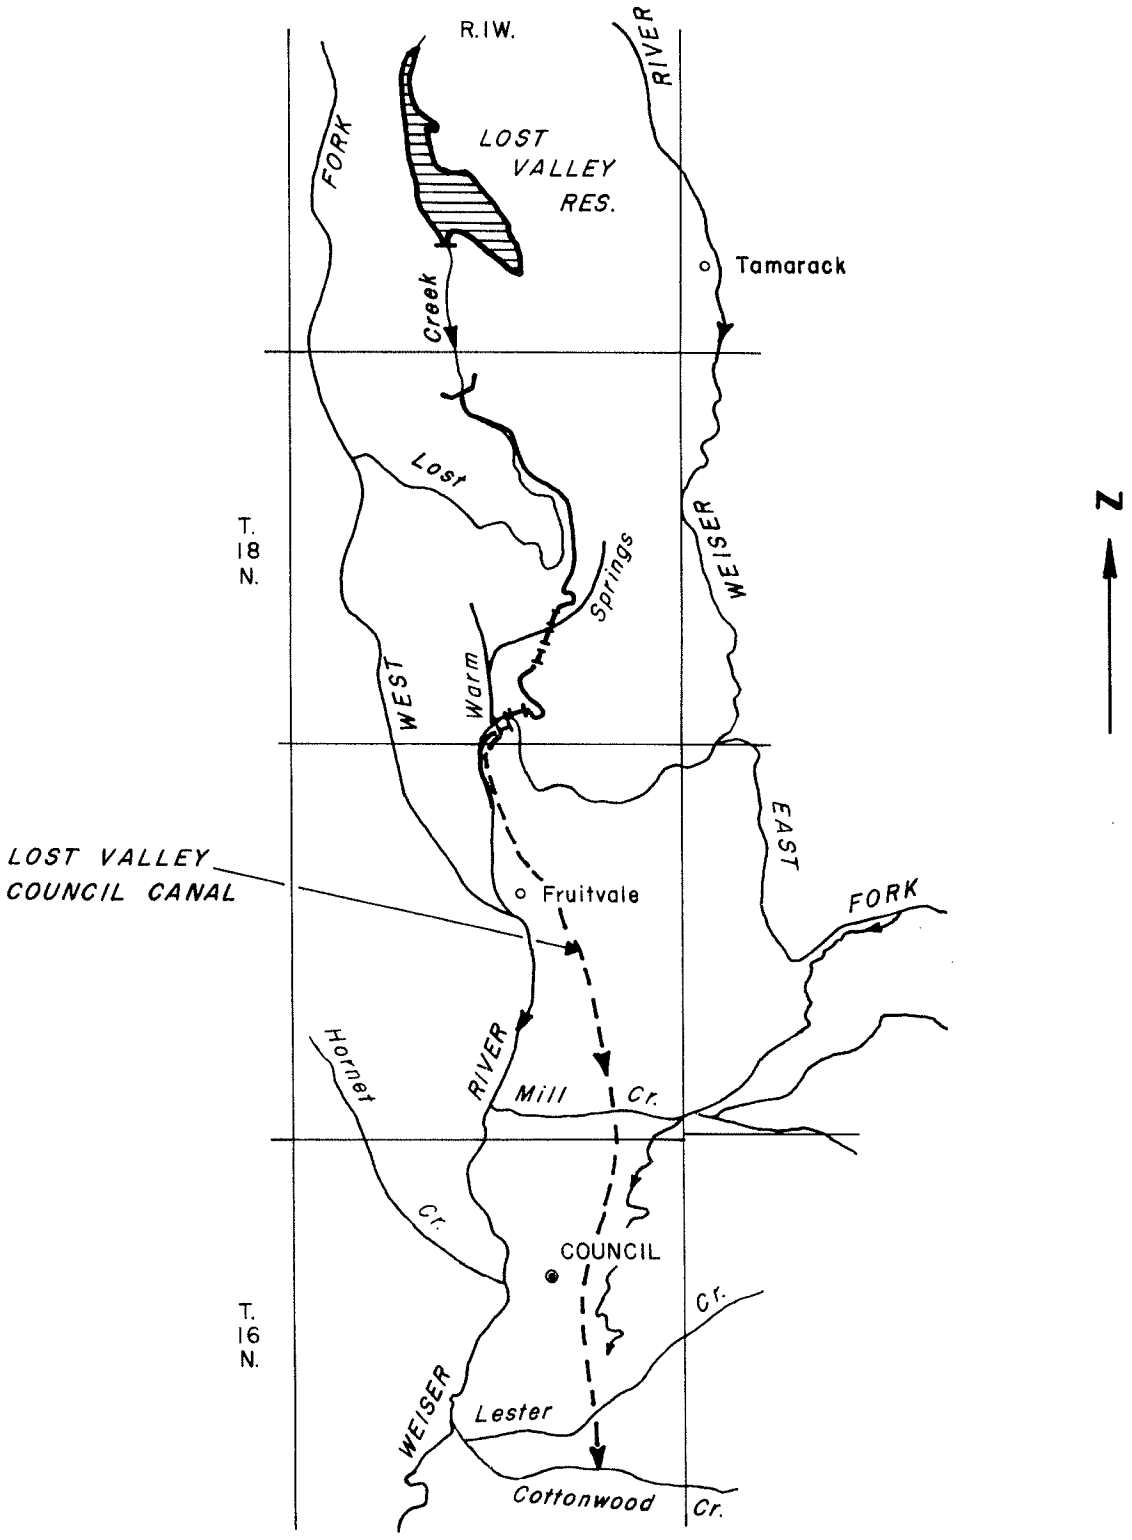

Figure 5

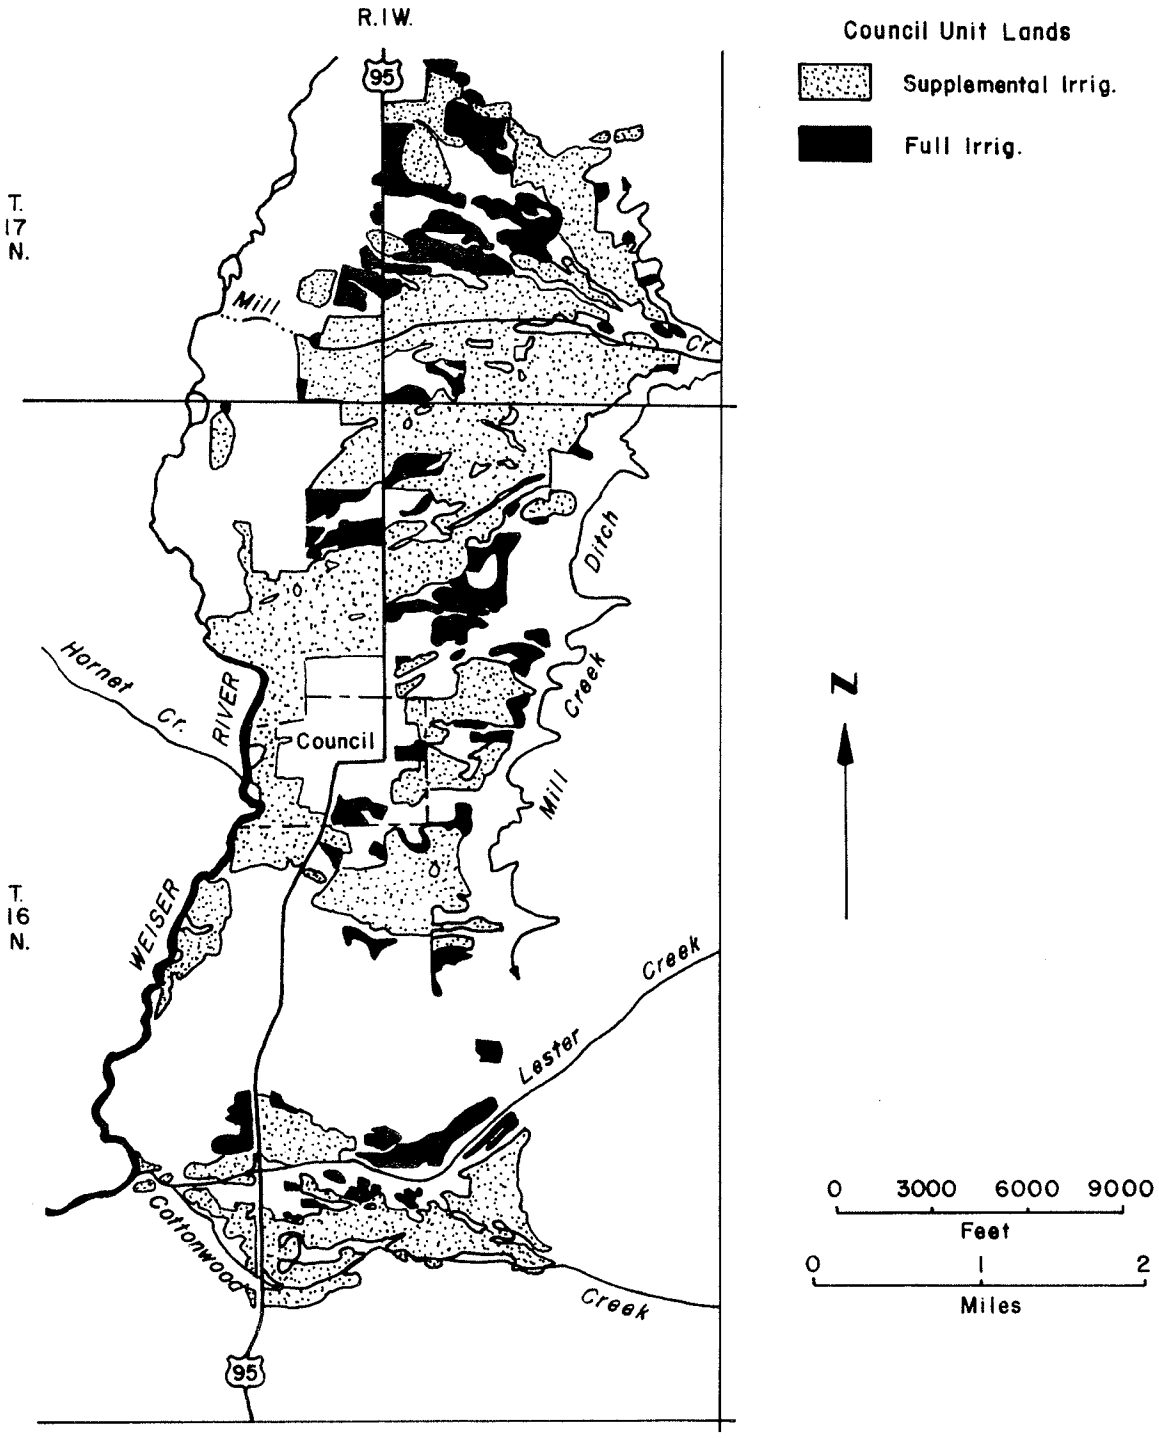

COUNCIL - Irrigation Service Area

Figure 6

within the Council area.

No significant changes have occurred in the crops grown or the irrigation practices or methods since the Bureau studies were completed in the 1960's. Agriculture in the Council area is characterized by small farms, many of which are part-time operations. Hay, pasture, and small grains produced on the irrigated lands support the livestock industry that has developed in the upper Weiser Basin. Nearby rangelands, both public and private, provide summer pasture for the beef herds that are found on full-time farms. The small, part-time farms do not have summer range, and livestock are kept on the irrigated lands throughout the year. Most part-time farmers work in the lumber industry, either in the woods or at Boise Cascade Lumber Mill, located in Council.

It is not likely that provision of supplemental water for presently irrigated lands or a full supply for new lands will change the established agricultural economy. Small, part-time farms will still be dominant. For this analysis, it is assumed that irrigated lands will continue to produce feed and forage in support of livestock production. Agricultural benefits are based on the production of alfalfa hay and barley

and treated as cash crops. This alfalfa hay-feed grain cash crop approach serves as a proxy for the potential small livestock operation with hay, pasture and feed grains in support of the livestock enterprise.

The estimate is based on 1979 price levels. The prospect of a commercial apple industry being reintroduced into the area with an adequate water supply does exist on those lands having good air drainage and relatively free of subsurface drainage problems. However, it appears that the acreage within the Council area that would meet these criteria would be limited. The total agricultural benefits could be increased if highly intensive fruit orchard enterprises are included in the determination of benefits. The prospects of fruit production to the south of Council in the Mesa appear to be much better. Considering alfalfa and barley as the major crops grown, the crop irrigation requirement for this area is 1.6 AF/acre. Under project development it was assumed that sprinkler irrigation would be used. An on-farm efficiency of 65 percent was allowed and a 20 percent conveyance loss estimated. The unit water requirements are summarized as follows:

Irrigation water requirements are:

Crop irrigation requirement		1.6 AF/acre
Farm efficiency	65 percent	
Farm delivery requirement		2.46 AF/acre
Conveyance efficiency	80 percent	
Diversion requirement		3.08
Use		3.1

The monthly pattern for irrigation use is as follows:

Month	Percent	Month	Percent
April	4	August	22
May	13	Sept.	13
June	20	Oct.	3
July	25		

Assuming that the irrigation needs for the months of April and May would be met by inflow to the stream below the reservoirs, the normal storage release would be approximated by:

Month	Percent	Month	Percent
June	25	Sept.	15
July	30	Oct.	5
Aug.	25		

Irrigation benefits were determined for a full irrigation service for new lands and for supplemental irrigation for those lands which are not now getting a full supply. Benefits were determined on an acre-foot basis. Direct irrigation benefits associated with delivery of irrigation water to irrigable lands in the Council area of the Weiser Basin were estimated to be $93 per acre for full irrigation service or $30 per acre-foot of water delivered to the farm turnout. The $30 per acre-foot is also applicable to supplemental irrigation service to be applied to additional water provided with project development. Although this appraisal level benefit value has been determined specifically for the Council area, it can also be used for appraisals in other water-short areas in the basin.

The total available water under the enlarged reservoir is 24,100 acre-feet annually, which provides for 14,000 acre-feet of new storage. Based on 20% delivery system loss, 11,200 acre-feet would be delivered to the farm headgate. There are presently 3490 acres of irrigated land in the Council area receiving a 60% full irrigation supply. Using the diversion requirement under sprinkler of 3.1 acre-feet per acre, these lands

will require 4,328 acre-feet of additional irrigation water annually. The remaining 6,873 acre-feet of new storage would be used to serve 2,217 acres of new land. Irrigation benefits from the project would be:

2,217 ac full irrigation ($93/ac)	= $206,181.00
3,490 ac supplemental ($93/ac x .40)	= 129,828.00
Total Benefits	$336,009.00

2) Recreation

Recreational benefits for this project were assessed by the National Park Service and the U.S. Forest Service as part of the previous studies done by the Bureau. The enlarged Lost Valley Reservoir would be a good recreational lake.

In considering the enlargement of Lost Valley Reservoir, the Service stated that:

> The quiet seclusion of Lost Valley, combined with the ease of access from U.S. Highway 95, has established the area as a good recreation spot and it should continue to provide the same benefits to the public after enlargement of the reservoir . . .

They determined that due to increasing recreational demands and the superior environment of the area, initial use of the reservoir would total 10,000

recreation days annually (in addition to 7,000 days of existing use). Annual recreational use of the reservoir was estimated to reach an optimum additional level of 48,000 days over current use about 40 years after construction of the new dam.

The estimated recreational day values were updated to reflect those guideline values (willingness to pay) in the Rules & Regulations published December 14, 1979 in the Federal Register, Vol. 44 #242. Since a variety of recreational activities are associated with the Lost Valley Reservoir, an average value of $5.00 per recreational day was used. The gross annual increased recreational benefits for the Council Unit could therefore range from $85,000 for new initial use to a total of $240,000 for optimum use. Since some of these benefits would not be realized until many years in the future, the benefits were converted to annual equivalent amounts over a 100-year period at 7 3/8 percent interest. The net benefit credited to the Council Unit plan, $218,665, was then derived by deducting from the total annual equivalent benefits annual equivalent costs of the future year's recreational facilities. This method reserves benefits to justify the future recreational developments which would be built as needed by the Forest Service.

3) Fish and Wildlife

Lost Valley Reservoir provides excellent fishing. Trout are the principal game fish found in the upper basin. The enlargement of Lost Valley Reservoir would enhance the fishing. Two management measures recommended for the reservoir are eradication and fish stocking. The Fish and Wildlife Service estimated that the fishery enhancement program for the enlarged Lost Valley Reservoir would increase angler use by an average of 10,000 days annually. At an estimated value of $6.25 per fisherman-day, fishery enhancement benefits would be $62,500 annually.

4) Hydropower

An analysis of hydropower facilities at the dam determined that it would not be feasible to install facilities at this site. However, by diverting water released from the reservoir at a point downstream from Lost Creek, it can be conveyed by canal along the hillside to a point where it will cross over the ridge and drop into Warm Springs Creek. The drop is 780 ft. (see Figure 7). A power facility at this location could generate 20,000,000 kwh annually with an installed plant capacity of 8.43 mw. The water from the tailrace of this plant could again be carried along the side of the hill above Warm

LOST VALLEY PROJECT - Power Facilities

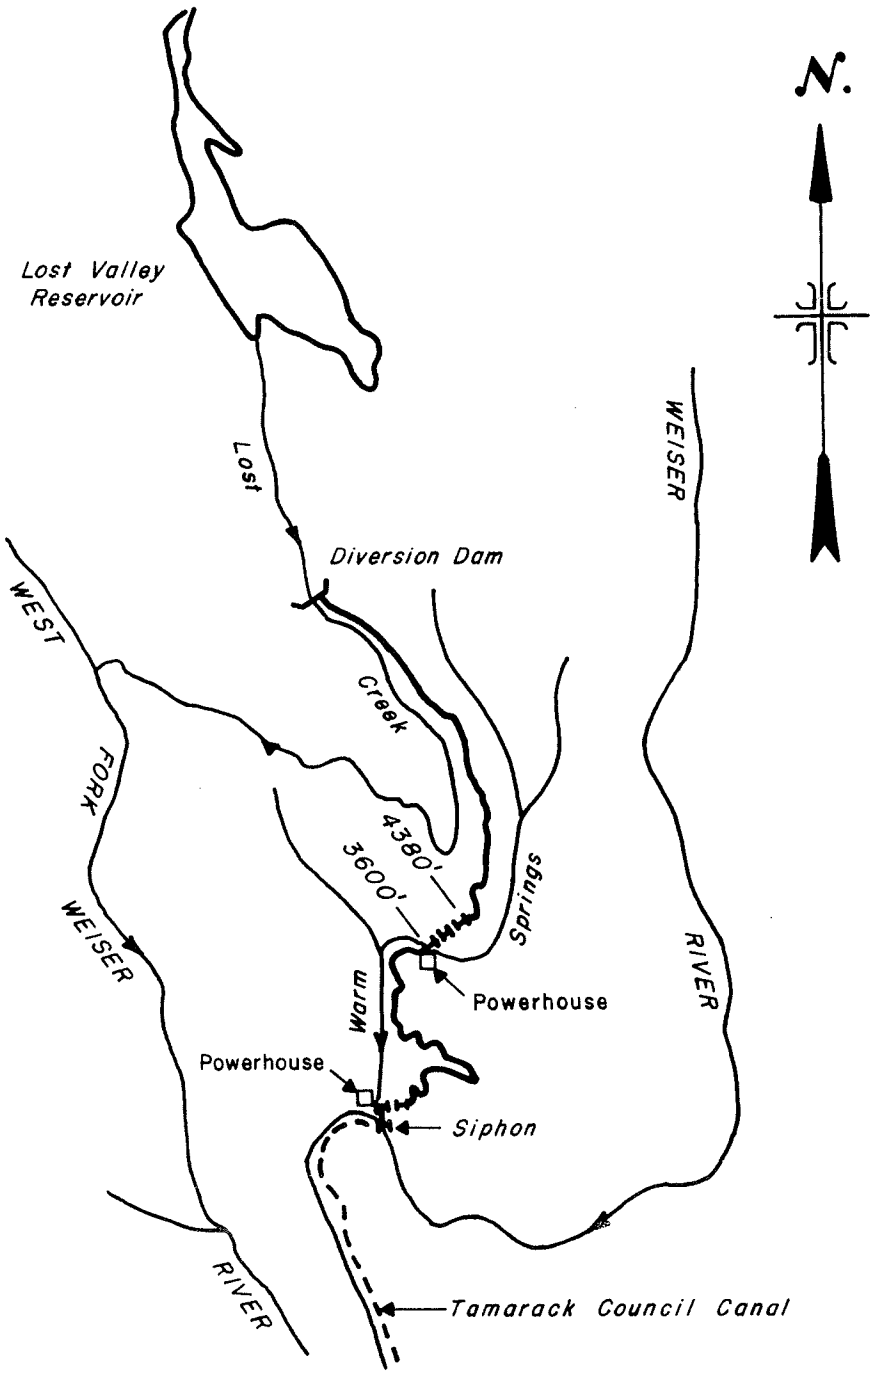

Figure 7

Springs Creek and dropped back again into Warm Springs Creek just above Starkey. The drop at this site would be 420 ft. (see Figure 7). This hydropower plant could generate 10,750,000 kwh of electricity annually. In order to maintain elevation to siphon water across the Weiser River to a new irrigation canal along the east side of Council Valley, the drop at this second site would be limited to 350 ft. The power output would then be 8,975,000 kwh.

Power values were determined by using the voidance cost as defined by PURPA and established by the Idaho Public Utilities Commission.

The hydropower benefits of diverting flows under present conditions without enlarging the present reservoir was also considered. It was determined that 15,048,000 kwh of energy could be generated from plant No. 1 with an installed capacity of 6.74 mw.

Plant No. 2 would generate 8,102,750 kwh with an installed capacity of 3.63 mw without allowing for head for siphoning water to a new irrigation canal. With the new canal, the energy generated would be 6,752,300 kwh using an installed capacity of 3.02 mw.

5) Total Annual Benefits

Agriculture benefits are maximized in the above alternative. Therefore, values determined for hydropower during the five month operation period using the PUC formula were as follows:

June	26.6 miles	September	31.6 miles
July	35.9 miles	October	16.3 miles
August	38.6 miles		

(enlarged reservoir)

Irrigation (with new irr. canal)	$ 336,000
Recreation (net)	218,600
Fish and wildlife (net)	62,500
Hydropower #1	652,800
Hydropower #2	292,800
Total	$ 1,562,700

A preliminary evaluation of the power benefits that would be obtained from a hydropower development without enlarging the reservoir was made. The values determined are shown below:

Total Annual Hydropower Benefits
(present conditions-no enlargement of reservoir)

Hydropower #1	$ 490,939
Hydropower #2	264,350
Total	$ 755,289

e. Project Costs

1) Construction Costs

Dam and reservoir enlargement	$ 3,250,000
Irrigation facilities	5,010,000
Fishery enhancement	10,000
Hydropower #1	6,288,000
Hydropower #2	3,000,000
Bond Costs	526,000
	$18,084,000

2) Annual Costs

(based on 30 yrs. @ 9 1/2%)

Dam and reservoir enlargement	$ 330,500
Irrigation	509,400
Fish enhancement	1,000
Hydropower #1	639,300
Hydropower #2	305,000
Bond Costs	53,500
Total	$ 1,838,700

f. Benefits vs. Costs

Total annual benefits as shown above are $1,562,700 as compared to annual costs of $1,838,700. This gives a B:C ratio of:

$$\frac{1,562,700}{1,838,700} = 0.85$$

g. Alternative Development

Under this alternative, only 4,328 acre-feet of the new storage would be used to supply supplemental water to existing irrigated lands. This alternative would permit a maximizing of the power benefits from the project with less installed capacity (2.5 & 1.5 mw). Under this alternative, the benefits and costs would be as follows:

1) Benefits (Annual)

Irrigation (4,328 x $30)	$ 129,840
Recreation (net)	218,600
Fish and wildlife (net)	62,500
Hydropower (60.53 Mil) #1	1,210,600
Hydropower (60.53 Mil) #2	650,700
Total	$ 2,272,240

2) Costs (Annual)

Dam and reservoir enlargement	330,500
Fish enhancement	1,000
Hydropower #1	500,000
Hydropower #2	250,000
Bond Costs	33,000
Total	$ 1,114,50

3) Benefits vs. Cost

$$\frac{2,272,240}{1,114,500} = 2.04$$

h. Recommendations

The Lost Valley dam and reservoir enlargement, including the proposed diversion of water into Warm Springs Creek for hydropower development, should be studied in more detail. The favorable B:C ratio shown by this preliminary study indicates that a feasible project may be developed. Federal participation in a project to provide funding of the public benefits would increase the viability of the project. Also, federal funding of project cost may provide a lower interest rate and longer pay-out period, thereby increasing the B:C ratio.

It is recommended that a detailed feasibility study be made on this project. The study should address project feasibility under state financing, federal financing, and joint state and federal financing.

2. Tamarack Valley

a. Location and Description

This site is located on the Weiser River at the confluence of Mosquito Creek approximately two miles above Tamarack, Idaho (see Figure 4). The reservoir will store 30,000 acre-feet of water. About 17,500 acre-feet of this storage will be active and used to irrigate 5,645 acres of project lands in the Council area. The remaining 12,500 acre-feet is proposed as inactive storage for scenic, recreation, and fish and

Defendants.

CASE NO. 2654

FINDINGS OF FACT CONCLUSIONS OF LAW AND JUDGMENT

INTRODUCTION:

This district judge held a two day court trial on November 27 and 28, 1990, on the water rights claims of Edward H. Woods and Elaine M. Woods (Woods) against James L. Ball, as Personal Representative of the Estate of Emma Ball, deceased, (Ball Estate), and Patrick Ball and Martha Ball, (P&M Ball). Mr. Lary C. Walker, attorney at law, Weiser, Idaho, represented Woods, and Mr. Louie Gorrono, attorney at law, Emmett, Idaho represented the Ball Estate and P&M Ball. The controversy between the parties relating to an

easement and the right to open and close a gate was settled by stipulation of the parties.

Woods originally filed a cross-claim on December 20, 1989, seeking an order to transfer water rights or, in the alternative, for damages of $10,000.00. The Ball Estate and P&M Ball admitted Emma Ball, deceased, sold property to Woods, and that the property was conveyed to Woods by warranty deed, but denied the rest of Woods' claim. They raised as affirmative defenses the Statute of Limitations, in I.C. 15-3-801 to 15-3-804, and in I.C. 5-216, 5-217, and 5-218, the failure of Woods to file a claim against the Ball Estate, the defense of laches, and the defense of estoppel. The pre-trial conference order provided that Woods' amended cross-claim was deemed filed as of May 7, 1990. Woods' amended claim asserts they were conveyed all water rights appurtenant to the property, that they checked with the Idaho Department of Water Administration and was specifically advised that waters in the Lost Valley reservoir were stored water and not subject to being lost by nonuse, that the failure of Emma Ball to transfer the stock for the water rights was fraudulent and a breach of contract, and that Woods had acquired from Defendants Patrick Walsh and J. K. Walsh (Walshes) additional property which had the same water right claim. The Ball Estate and P&M Ball asserted the same admissions, denials and defenses, as to both the Woods' original claim, and the claim acquired from the Walshes.

This district judge, after considering all the evidence, makes these findings of fact, conclusions of law, and judgment:

FINDINGS OF FACT:

1. Woods contracted to buy certain property (Parcel 1) in the Mesa Orchards, in Adams County, Idaho, from Emma Ball (EB) about October 16, 1975; the contract in part provided:

"Said property is also being purchased 'as is', in connection with existing irrigation ditches and there are no representations or warranties as to delivery of irrigation water, as aforesaid.

It is specifically understood, calculated on an acre basis, the pro-rata share of water rights connected with the acreage being sold herein is included in this contract, but seller disclaims any representations or warranties, expressed or implied, as to delivery of water, by any form of conveyance to the property sold. The delivery or conveyance of water to the property being sold, if the delivery should ever come to pass, is the sole responsibility and obligation of the buyer.

There are no covenants or representations as to availability or delivery of irrigation or domestic water, in connection with said premises being sold." (See pl. ex. 4)

2. About May 29, 1979, Woods recorded with the Adams County Recorder a warranty deed for Parcel 1 from EB, which deed included this language: "TO HAVE AND TO HOLD the said premises, with their appurtenances unto the said Grantees, their heirs and assigns forever." (See pl. ex. 5)

3. About August 30, 1975, Walshes contracted to buy certain property (Parcel 2) in Mesa Orchards, Adams County, Idaho, from EB; the contract contained the last two paragraphs listed in Finding No.1 and a general "as is" provision. (See pl. ex. 3)

4. About September 24, 1985, Walshes had recorded with the Adams County Recorder a warranty deed for Parcel 2 from EB; the deed contained the same language listed in Finding No. 2. (See pl. ex. 6)

5. In April, 1990, Walshes contracted to sell Parcel 2 and to assign to the Woods "any right that they may have to bring action relating to the water rights" and "all lawsuit rights against the Balls concerning representations relating to ... the water rights to property..., the contract contained the same water rights language contained the Ball to Walshes contract. (See pl. ex. 8)

6. About April 5, 1990, Woods had recorded with the Adams County Recorder a warranty deed for Parcel 2 from Walshes,; the deed contained the same language listed in Finding No. 2. (See pl. ex. 7)

7. At the time EB contracted to sell Parcel 1 to Woods and Parcel 2 to Walshes, two separate water rights were appurtenant to those parcels: Water Right 67-0081, for water stored as shown by 4040 shares of capitol stock (1 share equaled 1 acre foot of water, if available) in Lost Valley Reservoir Company (LVRC) with a priority date of May 27, 1910; Water Right 67-0080, for water from the natural flow of the Middle Fork Weiser River with a priority date of Sept. 11, 1909. Both of these water rights were decreed originally to the Orchard Water Company by virtue of the decree in MUIR v. ALLISON dated June 20, 1921.

8. In 1971 EB applied for and was granted by the Department of Water Administration (DWA) an extension of time to avoid forfeiture of both water rights. About December 10, 1975, EB applied for but was denied by the DWA a second extension of time. In 1977 EB applied for and was granted by DWA transfers of about

3540 acre feet of water represented by capital stock in Lost Valley Reservoir, under Permit No. 67-0081. EB during her lifetime did not transfer to Woods nor Walshes any shares of capitol stock in LVRC.

9. EB during 1974 to 1977 contracted to sell various other parcels of land in Mesa Orchards, Adams County, to buyers, using the same "as is" and water rights provisions found in the Woods and Walshes contracts. (See defs. ex. E) EB did reserve the right to certain reservoir water on Bacon Creek in one contract in 1974, (See defs. ex. E-1) but did not specifically reserve any reservoir rights in Lost Valley Reservoir in any contract.

10. EB died on January 15, 1981; James L. Ball (JLB) was appointed Personal Representative of the Estate of EB on February 9, 1981, and still serves in that capacity. JLB published notice to creditors starting on February 19, 1981, and ending on March 5, 1981. Woods and Walshes have not presented any claim for breach of contract to the Ball Estate at anytime.

11. Woods knew in 1975 that part of the water rights for Parcel 1 included water stored in Lost Valley Reservoir, but did not discover until 1988 that such water was represented by capitol stock shares in LVRC. Woods in 1989 made demand on JLB of the Ball Estate to transfer capitol stock shares to Woods for Parcel 1, but JLB refused to do so.

12. When the deeds from EB to Woods and Walshes were delivered and recorded, all water rights appurtenant to Parcels 1 and 2 were conveyed to each set of respective grantees. The "as is" and water

rights provisions in the Woods and Walshes contracts are not ambiguous. These provisions clearly show the parties intended that the pro-rata share of all water rights appurtenant to the parcel were included, but that buyers had the sole responsibility to deliver the water so that it could be put to beneficial use.

13. By clear and convincing proof, the evidence shows from 1975 to the present: Woods and Walshes have not applied these appurtenant water rights to the beneficial use for which they were appropriated or to any beneficial use whatsoever; Woods and Walshes have not been billed nor paid any annual assessments of LVRC.

14. Woods has failed to show P&M Ball has any control over the Ball Estates' remaining shares of capitol stock in LVRC. Woods have not presented clear and convincing evidence that EB made any fraudulent representations to mislead Woods or Walshes about the water rights to the parcels Woods or Walshes purchased from EB. Woods have presented clear and convincing evidence that a mistake was made when EB conveyed to Woods and Walshes the water rights for Parcels 1 and 2 in that no capitol stock in LVRC was included.

15. However, Woods and Walshes did not act with due diligence from 1975 to 1988 to discover if any mistake was made in the conveyance to them of any water rights appurtenant to the Parcels. The "as is" and water rights provisions would alert a reasonable person to make inquiry to the DWA to ascertain the nature, extent and validity of any water rights appurtenant to the Parcels. That inquiry would have led to discovery of the mistake by EB who failed to transfer shares of stock in LVRC with the Parcels.

CONCLUSIONS OF LAW:

1. Jurisdiction is not vested in this district judge to determine as to all other water users if Woods and Walshes have valid water rights claims appurtenant to their land and the date of priority of such claims. Jurisdiction is vested in the district court in the case entitled: "In Re the General Adjudication of Rights to the Use of Water from the Snake River Basin Water System," Twin Falls County District Court Civil No. 39576.

2. Jurisdiction is vested in this district judge to determine if Woods and Walshes have a valid claim against the Ball Estate and P&M Ball for damages or for specific performance to have about 44 shares of capitol stock in LVRC transferred to them.

3. P&M Ball were parties to the controversy over the easement and gate, which controversy was settled at the trial. Woods at trial did not assert any water rights claim against P&M Ball. P&M Ball are not a prevailing party and are not entitled to any attorneys fees nor court costs.

4. The Muir v. Allison decree confirmed both water rights so that they became appurtenant to Parcels 1 and 2. When EB conveyed the Parcels to Woods and Walshes, both water rights passed as an appurtenance to the Parcels. "...all rights to water confirmed under the provisions of this chapter, or by any decree of court, shall become appurtenant to, and shall pass with a conveyance of, the land for which the right of use is granted." Idaho Code Section 42-220; Russell v. Irish, 20 Idaho 194, 118 P. 501 (1911).

5. When Woods and Walshes failed to put the appurtenant water rights to use for a period of five (5) years, those rights were forfeited. Those rights reverted to the state and became subject again to appropriation. Idaho Code Section 42-222; Jenkins v. State Department of Water Resources, 103 Idaho 384, 647 P.2d 1256 (1982). This forfeiture was established by clear and convincing proof. See Crow v. Carlson, 107 Idaho 461, 690 P.2d 916 (1984).

6. Woods have the right to apply to the Department of Water Resources (DWR) to appropriate such forfeited water rights. "The policy of the law of this State is to secure the maximum use and benefit, and least wasteful use, of its water resources." Poole v. Olaveson, 82 Idaho 496, 356 P.2d 61 (1960).

7. Woods are not entitled to any relief for damages or specific performance against the Ball Estate based upon breach of the covenants in the deed. Woods have failed to prove any breach occurred, because EB did convey all water rights appurtenant to the parcels. Woods failed to prove any damages, if a breach had taken place. Woods are not entitled to specific performance, because the water rights were forfeited and have reverted to the State.

8. Woods are not entitled to any relief against the Ball Estate based on fraud, because Woods have failed to show by clear and convincing evidence any fraud occurred or any alleged fraud proximately caused any damage to Woods. See Faw v. Greenwood, 101 Idaho 387, 613 P.2d 1338 (1980).

9. Woods are not entitled to any relief against the Ball Estate based on mistake. Woods' claim for mistake was not pled,

but this district judge rules Woods' trial motion to conform the pleadings to the proof should be granted. The Ball Estate should be allowed to raise any defense to this claim, including the statute of limitations and the issue of Woods' due diligence to discover the mistake. The evidence is clear and convincing that EB made a mistake when she failed to transfer a pro-rata portion of the LVRC capitol stock to Woods and Walshes . However, Woods and Walshes have failed to show this mistake proximately caused them any damages. Also the water rights have reverted to the State, so any remedy to rectify the mistake is not needed. In the alternative, Woods and Walshes could have discovered EB's mistake by due diligence in 1975, so that any claim based on mistake is barred by Idaho Code Section 5-218. See Aitken v. Gill, 108 Idaho 900, 702 P.2d 1360 (Ct. App. 1985).

10. The Ball Estate is a prevailing party in this action and is entitled to court costs but not attorneys fees. This district judge concludes this was not an action to enforce the terms of the Woods and Walshes contracts, but rather an action to enforce the covenants of the deed that conveyed the appurtenant water rights. Acceptance of a deed is generally considered as a merger of the agreements of the underlying contract into the terms of the deed. Any claim for relief must be based on the covenants contained in the deed and not the agreements contained in the prior agreement. See Jolley v. Idaho Securities, Inc., 90 Idaho 373, 414 P.2d 879 (1966).

JUDGMENT:

IT IS HEREBY ADJUDGED AND DECREED:

1. WOODS are not entitled to any relief on their cross-claim for water rights against the Ball Estate or against Patrick Ball and Martha Ball.

2. The Ball Estate is entitled to recover its court costs but not any attorneys fees, and Patrick and Martha Ball are not entitled to recover any court costs or attorneys fees.

3. The parties have settled any controversy regarding the easement and the use of the gate. (Counsel for the Ball Estate and P&M Ball is requested to submit a proposed order.)

4. Adams County is dismissed as a party to this action, pursuant to the written stipulation of the parties filed on November 26, 1990.

Dated this 11 day of December, 1990.
