3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Earth & Rock head canal picks up most of the water from springs and delivers it to a 14" pipeline approx 1000' in length. This pipeline delivers water to 3-10" pipelines which deliver water to Hatchery Bldg. and raceways. Water which is not captured by head canal is picked up by smaller ditches and delivered to lower ponds. Location of discharge into Alton Canyon Creek is SWNE Section 28. See Aerial Photo.
