Adjudication Recommendation Report 67-14589 V1

3. N13 The quantity of water under this right shall not exceed 13,000 gallons per day.
4. N11 The quantity of water decreed for this water right is not a determination of historical beneficial use.
5. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Comment: An email in the file from Lori Harris to Craig Saxton indicates that the claim did not contain any QQ information when submitted. Lori looked for well logs in the section claimed and found one in SWSW. However there is another well log from 1979 in SWSE. In the southeast corner of the NWSE, there appears to be a feed yard in the 2004 aerial imagery (the same feature appears to be present in the 1987 imagery as well). Based on the 2004 imagery, there is only one structure in SWSW and it is clearly a house. Based on this, and noting that the claimant described "lines to feed yard" in his description of the diverting works, I feel confident that the claimant intended this claim to be for the well and house in the SWSE.

From: Harris, Lori
Sent: Thursday, June 23, 2005 11:35 AM
To: Saxton, Craig
Subject: New Basin 67 Claims

Craig,

I just data entered two new Basin 67 claims that came in and am sending to your attention (barcoded to you). On 67-14589 they did not list a 1/41/4, so I researched the well logs since it was a newer priority date and found one that was drilled two years prior to the date they are claiming in the same area and pretty close in depth, so used these 1/41/4's, basically assuming that this is more than likely the same well. Of course these legals will have to be verified (just let me tell you how to do your job), but just wanted to give you a heads up as to where I got the information.

Lori

Wells
