14. Remarks:

This claim was created in order to allow IDWR to combine recommendations 67-209 and 67-210. In order to resolve the recommendation 1.6 acres was added to the recommended PPU for 67-209, 67-210, 67-211, and 67-4066. After 1.6 additional acres was added to the recommendations, the recommendations needed to be split due to a change of ownership. Splitting 67-209 would create un-manageably small portions. Since 67-209 and 67-210 were recommended with all the same elements except the quantity (Priority, POU, POD, Source, Season, and Purpose of use), the recommendations were combine so when split, the portions would be large enough to be manageable (csaxton 9-12-07)

This right is a split from former right 67-14900.
