Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

FRED BRAILSFORD, being first duly sworn, deposes and says:

That he acquired the ranch described in the attached claim in 1937;

That he has farmed said ranch since 1937 and has diverted all of the water from the springs which arise in the NW 1/4 SE 1/4 and the NE 1/4 of the SW 1/4 of Section 2, Township 9 South, Range 14 East, Boise Meridian, Gooding County, which springs now lie East of that certain road which is the main access road to the Idaho Power Company plant and the Clear Lakes Country Club. (Said road was recently moved. The springs previously arose West of the old road before the recent change.);

That of his own personal knowledge he is aware that his predecessor diverted all of the water from said springs since 1927, and believes that all of said waters have been diverted by previous owners of the ranch since it was first farmed;

That claimant has diverted through his diversion works the total flow for stock watering purposes on a year round basis, and for irrigation purposes between February 1 and November 30 of each year as well as some infrequent applications of water during December and January;

That claimant estimates the total flow through the years to be approximately ten cubic feet per second.

RE:

On 8/3 we met with Mr. Wright and looked at the diversion works for this claim. The headworks for this pipeline is in the forebay of the Clear Lake Powerplant. The pipeline is buried from the headgate with risers on the Wright property. There was no real good place to measure the water so the following method was used:

At the first riser a pygmy meter was placed into the inlet pipe to get an average velocity of the total flow.

$$Rev = 40$$

$$Time = 24.7 \text{ sec.}$$

$$Vel = \frac{40}{24.7} = 1.62 \text{ ft/sec}$$

$$Q = V A$$

$$Q = (1.62 \text{ ft/sec}) (0.785 \text{ ft}^2)$$

$$Q = 1.27 \text{ ft}^3/\text{sec.}$$

$$A = \pi r^2$$

$$A = (3.142) (.5)^2$$

$$A = 0.785 \text{ ft}^2$$
