Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.

RE: Evidence of Priority - Snake River Basin Adjudication
Claim #A36-10863

Dear Claimant(s):

Our records indicate that your claim(s) listed above, is based upon either a "Statutory Claim" or "Beneficial Use" of the water. For water rights of this type, the claimed "Priority Date" must be substantiated with supporting evidence. We previously requested this supporting evidence be submitted by November 1, 1990, and to date we have not received the requested documentation.

Before the Department can make a recommendation to the Court to decree the claim(s), some evidence of the priority date must be submitted. Again we are enclosing a brochure outlining the types of evidence you may submit, and a printout of your claim(s) for reference. We request that you submit your evidence of priority as soon as possible. **If we do not receive the requested documentation, your claim(s) will be recommended for disallowal due to lack of evidence supporting any priority date.**

Please submit the required evidence supporting the priority date(s) by April 23, 1991. Please reference the claim number on your correspondence. If you have questions or need other assistance please contact this office.

Sincerely,

for.

DIRECTOR'S REPORT CONVERSATION MEMO

1. PERSON(S) MAKING THE ENQUIRY:

Include address and phone no.
in case follow-up is needed.

Bruce Hunsaker

Rt 2 Box 353

Rupert, ID 83350

2. SUBJECT OF INQUIRY:

Mr Hunsaker wanted to review his notices of error reports on claims filed by his father, Ross Hunsaker, under his name and also under Mainline Ranches. He felt all their domestic claims were OK, but had questions on the combined claims and the permissible place of use claims - especially where acreages were reduced or diversion rates were reduced.

3. RESPONSE TO INQUIRY:

I reviewed his notices of error and pulled the file records for the claims involved and explained our policies and procedures for the CVR records and why any reductions made to the adjudication claims. He made notes to help his understanding of the records, thanked me for my explanations, and said he will review it with his father. He will probably send some notice of error cards to Boise on the change of periods of use and perhaps other changes.

RE: Water Rights in Reporting Area 3, Basin 36
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources supplemental recommendations for your water right(s) in basin 36 (the area north of the Snake River from near Lake Walcott on the east to near Hagerman on the west). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area.

In response to the Idaho Supreme Court's decision in Basin-wide Issue 5 after most water rights in Basin 36 had been decreed, the SRBA Court requested me to file supplemental reports for Basin 36 regarding the period of use for irrigation water uses and general provisions applying to all water rights in Basin 36. The enclosed documents fulfill that request. The general provision enclosed is in addition to those already adopted by the Court.

Note you have just over 30 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Hailey, Arco, Jerome, Rupert, Gooding, and Shoshone and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed later this year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

**NOTICE OF FILING SUPPLEMENTAL REPORTS
FOR REPORTING AREA 3 (IDWR BASIN 36) REGARDING
REVISION OF THE FOLLOWING:**

- ▶ **Period of Use (For Irrigation Water Uses)**
- ▶ **Conjunctive Management General Provision**

EXPLANATION

In response to the Idaho Supreme Court's decision in Basin-wide Issue 5, the Snake River Basin Adjudication (SRBA) District Court requested the Director of the Idaho Department of Water Resources (IDWR) to file supplemental reports for Basin 36 regarding the period of use for irrigation water uses and the conjunctive management general provision. This notice is to inform you that IDWR has filed those reports with the SRBA District Court.

Irrigation Season of Use

The supplemental report on irrigation season of use changes IDWR's recommendation for the irrigation season of use for irrigation water rights in Basin 36. Even water rights that have received partial decrees are receiving a new irrigation season recommendation because the Idaho Supreme Court determined that the use of the term "irrigation season" is not acceptable and specific dates must be set. The irrigation season of use recommendations only affect the season of use, and no other elements of the irrigation water rights.

If you claimed an irrigation water right a description of the Director's irrigation season of use recommendation for your claim is attached to this Notice. You need to carefully review the new season of use recommended for your irrigation right. The complete Irrigation Season of Use Supplemental Report for Basin 36 is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

Conjunctive Management General Provisions

Additionally, the Director of IDWR has filed with the SRBA District Court his supplemental report on conjunctive management for Basin 36. This Report is the Director's recommendation for the conjunctive management general provision that should be decreed for Basin 36. Attached to this Notice is a complete copy of the conjunctive management general provision the Director recommends for Basin 36.

INSTRUCTIONS FOR REVIEWING THESE REPORTS

You are free to agree or disagree with the Director's recommendations. If you agree with the Director's recommendations you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendations, you need to file an objection as described below. **You may only object to the Director's recommendations on irrigation season of use and conjunctive management.** You may not object to any other elements of your water right under this notice unless you have evidence that the irrigation season of use or conjunctive management recommendations affect other elements of your right.

INSTRUCTIONS FOR TAKING AN ISSUE TO COURT

What do I do if I disagree with a conjunctive management provision or a season of use recommendation?

If you disagree with a conjunctive management provision, or the season of use recommendation for your water right or anyone else's water right, and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form attached to this Notice. Copies are available from any IDWR office or from the SRBA Court. You may also download a copy of the objection form from the SRBA Web Site at www.srba.state.id.us.

Your objection to IDWR's conjunctive management provision, or the irrigation season of use for the rights listed above must be **received** by the SRBA Court on or before **September 10, 1999**.

What do I do if someone else objects to a conjunctive management provision or a season of use recommendation?

If someone files an objection to a conjunctive management provision, or the season of use recommendation for your water right or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form available from any IDWR office or from the SRBA Court. Your response must be **received** by the SRBA Court on or before **November 12, 1999**.

What happens if there are no objections to a recommendation?

After the deadline for filing objections, the SRBA Court will hear the uncontested recommendations on **November 16, 1999**, at **1:30 P.M.** at the **SRBA Courthouse**. Any part of the report to which no objections are filed may be decreed by the district court.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations. Additional information regarding the SRBA can be found on the SRBA Web Site at www.srba.state.id.us.

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA. The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office. You are also welcome to call IDWR at any of its offices or the SRBA Court. You may also want to consider contacting an attorney to assist you.

Dear Ms. Billington:

Thanks for your call of this morning regarding the sale of your father's property in Jerome County. As promised, I am enclosing a Notice of Change of Water Right Ownership and a self-addressed envelope.

I have taken the liberty of completing the "former owner/claimant" information as well as the water right number. The only thing you now need to do is pass the form along to the buyers of the property so they can complete the "new owner/claimant" information requested under items 4, 5 and 6. I have highlighted these areas as well as the description of the additional documents that will have to be included in order for the ownership change to be completed.

Once again thank you for being conscientious! If you have any further questions or concerns, please give us a call.

Sincerely,

4. ☒ **Priority Date.** Summary response: The use involved in this claim is an enlarged use which began, and has continued, without complying with the mandatory permit system applicable to water diversions and uses under Idaho law. Accordingly, the enlarged use must cease unless it qualifies as an enlargement as defined in I.C. § 42-1426, a statute which became effective April 12, 1994. To the extent the use qualifies as an enlargement, it may be recognized as a new water right in the SRBA only if it is subordinated to all other, non-enlarged water rights existing on that date or given a priority date no earlier than April 12, 1994. If the new water is not conditioned in this manner, it will cause injury to the priorities and the water rights of other water right holders, including members of respondent.

If the priority date asserted by the claimant in this matter is assigned to this enlarged right, without the subordination condition recommended by the IDWR, then Respondents' water rights will be injured by having new water rights created in the SRBA which are given priorities ahead of Respondents' water right priorities.

Recommendation. This water right claim should be denied unless it is decreed with the subordination condition as recommended in the Director's Report or given a priority date no earlier than April 12, 1994.

Subcase 36-10863A

Case No. 39576

ORDER GRANTING MOTION
TO ALTER OR AMEND/
ORDER SETTING TRIAL

A *Special Master's Report and Recommendation for Partial Decree for Water Right 36-10863A* was entered on December 16, 1997. On January 23, 1998, claimant Ross Hunsaker (Owyhee Ranches, Inc.) filed a *Motion to Alter or Amend Special Master's Recommendation for Partial Decree* in 36-10863A. Attached to the *Motion* was a *Standard Form 1, Objection*, in which the claimant objected to priority date, particularly the subordination language.

The claimant alleged that there was no showing that any water right with a priority date earlier than April 12, 1994, would be injured by the claimant's 1970 priority date. Hence the subordination language should be stricken. The claimant also alleged that a *Standard Form 1* was inadvertently mailed to IDWR and not to the SRBA Court before the *Special Master's Report and Recommendation* was entered.¹

The claimant's *Motion* was heard on February 23, 1998, at the Minidoka County Courthouse in Rupert, Idaho. Richard K. Smith appeared for the claimant and Nicholas B. Spencer appeared for IDWR. R. Lee Leininger monitored the proceedings for the United States of America. There was no opposition to the *Motion*.

At the hearing, claimant's counsel agreed that for all practical purposes, the *Motion to Alter or Amend* was a motion to file a late objection. In the event the *Motion* is granted, claimant's counsel also agreed to the following:

¹ After the claimant mailed the *Standard Form 1, Objection* to IDWR, counsel for the Magic Valley Ground Water District, *et al*, attempted to file with the SRBA Court their response. The District also attempted to file their notice of service of certain discovery. The Court returned the District's filings because there was then no record of an objection having been filed with the Court.

1. That the subordination language issue in subcase 36-10863A should be tried along with eleven (11) other subcases in Reporting Area 3 (Basin 36) now set for trial;²

2. That the claimant will be bound by the same pre-trial schedule entered in the eleven (11) subcases;

3. That the Magic Valley Ground Water District may re-submit its response for filing with the SRBA Court with the same filing date as the claimant's late objection; and

4. That the claimant will respond to the District's discovery request in a timely manner.

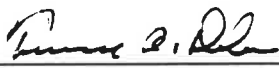

NOW, THEREFORE, for good cause shown, it is **ordered**:

1. That the claimant's *Motion to Alter or Amend* is **granted**. Claimant's *Objection* attached to the *Motion* shall be deemed filed the date of this **Order**;

2. That the issue of subordination language in 36-10863A is set for **trial** beginning **April 2, 1998, at 9:00 a.m.**, at the SRBA Courthouse in Twin Falls, Idaho. Further, all other pre-trial settings in subcase 36-10090, *et al*, shall govern; and

3. That the Magic Valley Ground Water District may file with the Clerk of the SRBA Court its response to the claimant's *Objection*, in which case it shall be file-stamped the date of this **Order**.

DATED February 25, 1998.

TERRENCE A. DOLAN
Special Master
Snake River Basin Adjudication

² The subordination language issue is set for trial to begin on April 2, 1998, at 9:00 a.m., at the SRBA Courthouse in Twin Falls, Idaho. The eleven (11) subcases are: 36-10090, 36-11643, 36-11871, 36-13531, 36-14807, 36-15152, 36-15179, 36-15264A, 36-15264B, 36-15356 and 36-15458.

- D. Magic Valley Ground Water District, Aberdeen-American Falls Ground Water District, Bingham Ground Water District, Tim Deeg, Mack Neibaur, and Ralph Breeding (collectively, "Respondents"), hereby respond to Ross Hunsaker's objections to the following elements.

4. ☒ **Priority Date.** Summary response: The use involved in this claim is an enlarged use which began, and has continued, without complying with the mandatory permit system applicable to water diversions and uses under Idaho law. Accordingly, the enlarged use must cease unless it qualifies as an enlargement as defined in I.C. § 42-1426, a statute which became effective April 12, 1994. To the extent the use qualifies as an enlargement, it may be recognized as a new water right in the SRBA only if it is subordinated to all other, non-enlarged water rights existing on that date or given a priority date no earlier than April 12, 1994. If the new water is not conditioned in this manner, it will cause injury to the priorities and the water rights of other water right holders, including members of respondent.

If the priority date asserted by the claimant in this matter is assigned to this enlarged right, without the subordination condition recommended by the IDWR, then Respondents' water rights will be injured by having new water rights created in the SRBA which are given priorities ahead of Respondents' water right priorities.

Recommendation.

This water right claim should be denied unless it is decreed with the subordination condition as recommended in the Director's Report or given a priority date no earlier than April 12, 1994.

STANDARD FORM 1

OBJECTION

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in a Director's Report. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR) or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number you are objecting to must be indicated above in the blank space following "Subcase." To object to multiple water right recommendations, you must use a separate form for each objection and there must be only one objector for each form.

You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

This form has been adopted by the court in *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996). Section 4, which may be consulted for further information.

Any party physically filing 25 or more objections must contact the Clerk of the SRBA Court no later than 14 days before the filing deadline and arrange an appointment to file multiple objections.

By filing an objection form, you are certifying that the objection is well-grounded in fact; that it is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needlessly increase in the cost of litigation.

REASONS SUPPORTING EACH BOX CHECKED

You **must** state the reason(s), by number, for each box checked. You may use additional pages if necessary.

The recommendation by IDWR for subordination of the priority date is based upon an assumption that injury would be sustained by all junior water rights prior to the effective date of the statute allowing the enlargement of claims (I.C. 42-1426).

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

All persons should be required to object to the priority date, and unless an objection is filed, the water right should receive the priority date as of the date of its use. (May 1, 1970)

Note: You should attach copies of documents which support your objection. Note on each document the box number it supports.

☐ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary.

You must mail the objection, including all attachments, to the Clerk of the Court. FAX filings will not be accepted. You must also send a copy to all the parties listed below in the Certificate of Mailing.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 3, 3a., 9, 9a., and 10 and all allegations of the objection regarding these items, IDWR responds as follows:

IDWR lacks sufficient information to form a belief as to whether any or all of the lands upon which water is diverted, conveyed, or used pursuant to this right are owned by the United States. IDWR admits that if the place of use is reduced by the court, the quantity of water allocated to this water right should

likewise be reduced. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

Box 9 is checked because the claim includes irrigation of land owned by the United States, for which a private water right cannot be obtained. Boxes 3 and 10 have been checked because the quantity of water is overstated to the extent that the water is used to irrigate federally owned land.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The places of use that should be deleted from the Director's Report are T08S R26E S14 NWNW and NENW. Also, it is requested that the Director's Report be changed to indicate a decrease in the quantity of water claimed in an amount proportional to the acreage deleted from the place of use.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.
