CONDITIONS/REMARKS:

1. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
2. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
3. The change approved by this transfer is subject to the terms of the court's final decree of this right in the ongoing Snake River Basin Adjudication.
- * 4. Domestic use is for the Minidoka Dam powerplant, warehouse, office, Lake Walcott Park campgrounds, headquarters and 1 home at the Minidoka Wildlife Refuge.
- * 5. In the event that further investigations determine the surface water and groundwater sources are not interrelated, the Director retains jurisdiction to advance the priority date of this right.

DATE: 8-27-93

FROM: Jim Stanton

SUBJECT: App./Trans. 36-11114

On 8-24-93, I met with facility manager George Pethtel at Minidoka Dam concerning this transfer. We toured the old spring house below the dam, and the new well in the park area above the dam. Three pipelines bring spring water into a 3' x 4' x 5' concrete box; a pump, removed in 1990, fed water to 8 restrooms in the dam complex and one more at the Fish & Game check station. As the only domestic source until the well was put into service in 1990, use of the spring probably goes back to construction of the dam in 1909. Mr. Pethtel said that it took several hours for the collection box to re-fill when it was drawn down by heavy demand, which would calculate to a flow of less than 0.02 cfs from the source. The 1/2 hp pump in the springhouse would probably pump the 0.04 cfs claimed. Although the transfer proposes to keep the springhouse as a diversion point, Mr. Pethtel stated that it will eventually be destroyed during the present construction work at the dam (which ends in 1996).

According to Mr. Pethtel, two wells were drilled in the park area in the 1970's. One well has never been used, but a 20 hp pump was installed in the other well in 1990 or 1991. Besides the original uses, the well is used for dam cooling during construction, 7 restrooms being built in the park, and for two more restrooms in mobile homes being used by the construction crew. Both the cooling and construction-crew uses will end in 1996. Use of this well for more than 18 gpm and 2500 gpd is a violation of Idaho Code. Since the theoretical capacity of the well is 0.44 cfs (116' lift, 70 psi, 20 hp), operation of the well is illegal without an approved permit. To date, no application for permit has been filed. Claim 36-11115 has been filed for irrigation & domestic use, but appears to have little value. According to Mr. Pethtel, all irrigation on this property comes from the Snake River.

By the admission of the Bureau's own geologist, the spring and the well use water from two different sources. On that basis, it appears unlikely that the transfer could be approved. Even if the transfer was approved, it would not legalize operation of this well. Therefore, I recommend that this transfer not be approved until the Bureau obtains an approved permit for cooling and domestic purposes with a total flow rate of 0.40 cfs. Between this and the approved transfer or Claim 36-11115, the system capacity would be covered. I told Mr. Pethtel that they should file for the permit, but he suggested that I talk to Dayla Walton of their Burley office. At Loren's suggestion, I am moving the transfer along but have not pushed the permit issue with the Bureau.

II. STATEMENT OF THE RESPONSE

2. ☒ Source: I respond to the objection concerning the source of water.
3. ☒ Quantity: I respond to the objection concerning:
5. ☒ Points of Diversion: I respond to the objection concerning the legal description of the point(s) of diversion.
9. ☒ Place of Use: I respond to the objection concerning:
- 9a. ☒ The legal description of the place of use.
11. ☒ Remarks: I respond to the objection concerning the "remarks" listed with the water right.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 2 and 5 and all allegations of the objection regarding these items IDWR responds as follows: The United States seeks a description of elements of the right different than stated on their notice of claim. The United States improperly seeks to use the objection

process to amend its notice of claim. IDWR believes that a claimant must obtain leave of the court to amend a claim after the director's report is filed, just as a party must obtain leave of the court to file a late claim after the director's report is filed. If leave to amend the claim is granted, IDWR further responds as follows: The purported change in source and point of diversion occurred in 1990. Changes in use occurring after commencement of the SRBA cannot be claimed as an accomplished change pursuant to Idaho Code section 42-1416A. The changes sought may be accomplished only through the administrative procedures set forth in Idaho Code section 42-222. IDWR therefore denies this portion of the objection and all allegations regarding this portion of the objection not expressly admitted herein.

In response to Statement of the Objection items 9 and 9.a, and all allegations of the objection regarding these items, IDWR responds as follows: Information currently available to IDWR does not support the change in the description of the place of use sought by the claimant. IDWR therefore denies this portion of the objection.

In response to Statement of the Objection items 3 and 11, and all allegations of the objection regarding these items, IDWR responds as follows: As recommended, water right nos. 36-11114 and 36-11115 do not require a combined use limitation. The diversion rate recommended is the diversion rate claimed. The remarks correctly describe the current uses of water pursuant to this right as claimed by the United States and as confirmed by IDWR. This right is based on beneficial use and does not properly include uses to be made in the future. IDWR therefore denies this portion of the objection.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

DATE: 8-27-93

FROM: Jim Stanton

SUBJECT: App./Trans. 36-11114

On 8-24-93, I met with facility manager George Pethtel at Minidoka Dam concerning this transfer. We toured the old spring house below the dam, and the new well in the park area above the dam. Three pipelines bring spring water into a 3' x 4' x 5' concrete box; a pump, removed in 1990, fed water to 8 restrooms in the dam complex and one more at the Fish & Game check station. As the only domestic source until the well was put into service in 1990, use of the spring probably goes back to construction of the dam in 1909. Mr. Pethtel said that it took several hours for the collection box to re-fill when it was drawn down by heavy demand, which would calculate to a flow of less than 0.02 cfs from the source. The 1/2 hp pump in the springhouse would probably pump the 0.04 cfs claimed. Although the transfer proposes to keep the springhouse as a diversion point, Mr. Pethtel stated that it will eventually be destroyed during the present construction work at the dam (which ends in 1996).

According to Mr. Pethtel, two wells were drilled in the park area in the 1970's. One well has never been used, but a 20 hp pump was installed in the other well in 1990 or 1991. Besides the original uses, the well is used for dam cooling during construction, 7 restrooms being built in the park, and for two more restrooms in mobile homes being used by the construction crew. Both the cooling and construction-crew uses will end in 1996. Use of this well for more than 18 gpm and 2500 gpd is a violation of Idaho Code. Since the theoretical capacity of the well is 0.44 cfs (116' lift, 70 psi, 20 hp), operation of the well is illegal without an approved permit. To date, no application for permit has been filed. Claim 36-11115 has been filed for irrigation & domestic use, but appears to have little value. According to Mr. Pethtel, all irrigation on this property comes from the Snake River.

By the admission of the Bureau's own geologist, the spring and the well use water from two different sources. On that basis, it appears unlikely that the transfer could be approved. Even if the transfer was approved, it would not legalize operation of this well. Therefore, I recommend that this transfer not be approved until the Bureau obtains an approved permit for cooling and domestic purposes with a total flow rate of 0.40 cfs. Between this and the approved transfer or Claim 36-11115, the system capacity would be covered. I told Mr. Pethtel that they should file for the permit, but he suggested that I talk to Dayla Walton of their Burley office. At Loren's suggestion, I am moving the transfer along but have not pushed the permit issue with the Bureau.

202-272-8351

If filed by an attorney, notice of pending court proceedings will be sent to the attorney only.

II. STATEMENT OF THE OBJECTION

Please check each "box" which states your objection to the recommendation in the Director's Report.

1. ☐ Name and Address: I object to the name and/or address of the owner of the water right.
2. ☒ Source: I object to the source of water.
3. ☒ Quantity: I object to:
 - a. ☐ the total quantity of water used in cubic feet per second; or
 - b. ☐ the total quantity of water stored in acre-feet per year; or
 - c. ☐ the total quantity of water reserved for each and every purpose, including all present and future uses.
4. ☐ Priority Date: I object to the priority date.
5. ☒ Points of Diversion: I object to the legal description of the point(s) of diversion.
6. ☐ Instream Flow: I object to the legal description of the beginning and ending points of the instream flow.
7. ☐ Purpose(s) of Use: I object to the purpose(s) of use.
8. ☐ Period of Year: I object to the period of year when water is used or is necessary for the purpose stated.
9. ☒ Place Use: I object to:
 - a. ☒ the legal description of the place of use; or
 - b. ☐ the number of irrigated acres within each forty (40) acre subdivision.

10. ☐ Consumptive Use: I object to the annual volume of consumptive use.
11. ☒ Remarks: I object to the "remarks" listed with the water right.
12. ☐ Water Right Recommendation: I object to:
- a. ☐ this water right being recommended at all; or
- b. ☐ this water right not being recommended.
13. ☐ Description of Reservation: I object to the legal description of the reservation.
14. ☐ Other: I object to:

REASONS SUPPORTING EACH BOX CHECKED

In the space following you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

Box 2 and Box 5 - The United States has submitted a change in point of division and source for this right under the administrative process of the Idaho Department of Water Resources. Idaho Department of Water Resources is processing the change.

Box 3 - Remarks should be added to clarify the quantity in conjunction with right No. 36-11115.

Box 9 - Fish and Wildlife place of use was not established in the original claim.

Box 11 - The diversion rate should be increased to the allowable amount for public campgrounds under the Idaho Code to permit an adequate supply of water for 14 flush-type toilets, day use for up to 2300 users, the U.S. Fish and Wildlife Headquarters and residence, and the Minidoka Powerplant, offices, and museum. Upon completion of the Walcott Centennial Park in 1993, this right in conjunction with 36-11115 will also be the source of water for 75 overnight camping spurs. The 1991 U.S. Bureau of Reclamation Recreation report showed 65,000 day-use visitors and 320,706 recreation use visitor hours at Walcott Park.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

- 2 - Source is Groundwater
- 5 - Point of Diversion is T09S R25E S01 Lot 5 (NENENE)
- 9 - Place of Use need to add T09S R25E S01 Lot 9 SENE
- 11- This right, in combination with right 36-11115, is limited to 13,000 gallons per day (I.C. 42-111(A)).

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary.

Subscribed and sworn to before me this 29th day April,
1993.

Gary E. Carlen
Notary Public for Idaho
Residing at: Boise
My Commission expires: 5/5/93

INSTRUCTIONS FOR MAILING

You must mail the objection, including all attachments, to the Clerk of the Court. FAX filings will not be accepted by the Clerk of the Court. You must also send a copy to the owner of the water right, if other than yourself; to the Office of the Attorney General, State of Idaho; and to the United States Department of Justice, as set out below in the Certificate of Mailing. Finally, you must sign the Certificate of Mailing to show that you followed these steps.

CERTIFICATE OF MAILING

I hereby certify that on the 29 day of April, 1993, I mailed the original and copies of the foregoing objection, including all attachments, to the following persons, by mailing the original and/or true and correct copies, postage prepaid and addressed as follows:

1. Original to:

Clerk of the District Court
Snake River Basin Adjudication
253 Third Avenue North
P. O. Box 2707
Twin Falls, Idaho 83303-2707

2. One copy to the owner of the water right, and you must fill in the following information:

Owner name: United States of America
Bureau of Reclamation
U. S. Department of Interior
Owner's address: 1150 North Curtis
Boise, Idaho 83706-1234

3. One copy to:

Chief, Natural Resources Division
Office of the Attorney General
State of Idaho
P. O. Box 44449
Boise, Idaho 83711-4449

4. One copy to:

United States Department of Justice
Environment and Natural Resource Division
550 West Fort Street, Box 33
Boise, Idaho 83734

Signature of Objector or attorney
mailing on Objector's behalf

Attn: Ed Thomas

RE: Notice of Error in the Snake River Basin Adjudication for the
Recommendations for rights 36-04265, 36-11114 & 36-11115

Dear Mr. Thomas:

This letter is in response to the issues you identified on the notices of error you recently filed with the Department for the above referenced recommendations.

The issue you identified for 36-04265 was that the Department should not award this water in another claimant's name. In response to this matter the Department has in fact disallowed the claim for 36-04265 which was filed by the USA for expanded acres within the A & B Irrigation District service area and instead recommended rights 36-15127, 36-15192, 36-15193, 36-15194, 36-15195 & 36-15196 which were claimed by the A & B Irrigation District essentially for the same acres. Since both entities appear to have ownership in these rights they are being recommended in the name of the USA, Acting thru the Bureau of Reclamation as well as the A & B Irrigation District. We list the USA as the "current" owner and the A & B Irrigation District as the "present" owner in our computer record. It does not appear we have erred with regards to this issue so the recommendation is not being changed.

The issue you identified for 36-11114 & 36-11115 was the remark which limited both rights to a combined total diversion of 2500 gallons per day. This limit was originally imposed since it appeared that the total use met definition B of Section 42-111 of the IDAHO CODE. I have re-evaluated these rights with regard to the definition and have made an adjustment to the recommendation. Please find enclosed new proof reports for these rights. It appears that since 36-11114 is not groundwater and has a priority of earlier than 1971 and assuming the fee of \$54 will be collected for this claim that the volume of water for this right would not be limited to 2500 gallons per day. The limit would be what ever has been historically used. The limit for 36-11115 still applies since the use fits within definition B and was

PAGE 2

Oct. 5, 1992

established without obtaining a water right permit. Since it appears that the spring use under 36-11114 was discontinued in 1990 you may wish to pursue filing a transfer of this right to the well or make application for permit to cover the use of the well beyond 2500 gallons per day.

If you still disagree with IDWR'S recommendations, you will have the opportunity to file an objection to the Director's Report with the court. you will be mailed a notice that will contain more information about the objection process.

Sincerely,

A handwritten signature in cursive script, appearing to read "Allen Merritt".

(Instead of filling in items 3 and 4 below you may include a copy of your proposed recommendation with the changes marked on the copy.)

3. Describe the portion of proposed recommendation with which you disagree:
- 2500 gallon per day limit

4. Describe the changes you wish to have made in the proposed recommendation:
- Limit should be not less than 15,500 gallons per day in conjunction with 36-11115.

5. Describe why you disagree with the proposed recommendation:
- Limit should be not less than 15,500 gallons per day, i.e.:
- | | |
|--|------------|
| Minidoka powerplant and museum | 2,500 gpd |
| U.S. Fish & Wildlife Headquarters and residence | 13,000 gpd |
| TOTAL: 15,500 gpd | |

NOTE: The point of diversion of this right was transferred to a well (Claim No. A36-11115) in 1990. If right No. A36-11115 is confirmed for 15,500 gallons per day, with a 1909 priority, claim No. A36-11114 can be withdrawn.

DON SHAFF & LYNN KROGH-HAMPE

SUBJECT: REVIEW OF USBR CLAIMS AROUND MINIDOKA DAM

ON JUNE 7, 1991 I VISITED MINIDOKA DAM AND MET WITH JOHN FENNELLS THE DAM TENDER AND OTHER MEMBERS OF THE STAFF TO LOCATE THE WELLS AND PUMPS AS DESCRIBED ON THE USBR'S CLAIMS. THE ATTACHED MAP SUMMARIZES THE LOCATIONS OF THE IMPORTANT FEATURES WITH THE FOLLOWING REMARKS.

ITEM #1 IS THE WELL REPORTED TO BE DRILLED IN 1970. THIS WELL IS CLAIMED UNDER A36-11118. THE WELL IS PRESENTLY UNUSED AND R36-11118 HAS BEEN CREATED RECOMMENDING DISALLOWAL. NO BENEFICIAL USE HAS BEEN FOUND.

ITEM #2 IS THE WELL REPORTED TO BE DRILLED IN 1972. THIS WELL WAS REPORTED TO BE DEVELOPED FOR USE IN 1990 WHEN THE PUMP HOUSE WITH THE PUMP AND THE 6920 GALLON STORAGE TANK WERE INSTALLED. THIS PUMP (20 H.P. U.S. MOTOR ID# F429/S08S348R065F-3) PRESENTLY SERVES ALL DOMESTIC WATER FOR THE DAM AND PARK AREA. THIS INCLUDES WATER TO DRINKING FOUNTAINS AND SPIGOTS (8) IN THE PARK, WATER FOR THE FISH AND WILDLIFE OFFICE & BUILDINGS, AS WELL AS POTABLE WATER USED AT THE DAM AND SURROUNDING FACILITIES. THE USE OF THIS WELL REPLACES THE USE OF THE SPRING IDENTIFIED IN ITEM #7. THIS WELL IS CLAIMED UNDER A36-11115 AND BEING RECOMMENDED UNDER R36-11115 WITH THE INTENT THAT THE RECOMMENDED USE BE DOMESTIC UNDER THE PART (B) DEFINITION WHERE IT IS LIMITED TO 2500 GAL/DAY. ANY USE BEYOND THIS LIMIT SHOULD BE PERFECTED BY FILING FOR A WATER PERMIT SINCE THE USE WAS ESTABLISHED AFTER 1963.

ITEMS #3, #4, #5 & #6 ARE THE DIVERSIONS OF WATER FOR IRRIGATION WITHIN THE PARK. THIS USE IS COVERED UNDER A01-04048. ITEM #3 IS A LARGE PUMP ON THE BANK OF THE RESERVIOR. THIS PUMP IRRIGATES APPROX. 1/4 OF THE PARK. ITEM #4 IS A SMALL PUMP IN THE BOAT HOUSE OF THE FISH & WILDLIFE SERVICE FOR THE SMALL LAWN AROUND THE OFFICE. ITEM #5 IS TWO PUMPS NEAR THE CONTROL GATES OF THE DIVERSION CANAL. THESE PUMPS IRRIGATE APPROX. 3/4 OF THE PARK. ITEM #6 IS A PUMP IN THE CANAL WHICH WATERS A BELT OF TREES ON THE WEST SIDE OF THE PARK.

ITEM #7 & #8 THESE ARE THE SPRINGS WHICH ORIGINALLY SERVED THE POTABLE WATER SUPPLY TO THE DAM & FACILITIES AND WATER IN THE PARK UNTIL REPLACED BY THE WELL DESCRIBED IN ITEM #2. ITEM #8 IS A SPRING WITHIN THE POWER HOUSE WHICH WAS THE FIRST SPRING DEVELOPED WHEN THE DAM WAS BUILT IN 1909. IT WAS REPORTED THAT THIS SPRING WAS OBLITERATED IN THE 1940'S WHEN UNIT #7 WAS BUILT; SPRING AT ITEM #7 WAS DEVELOPED WHICH REPLACED THE SPRING AT ITEM #8. THE USE OF THE SPRING WATER IS CLAIMED UNDER A36-11114 AND HAS BEEN RECOMMENDED UNDER R36-11114 ALTHOUGH THE USE OF THIS SPRING HAS BEEN DISCONTINUED IN 1990 BY DEVELOPMENT OF THE WELL.
