

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A36-11574

Date Received: 8/02/1989

Receipt No: 5008733

Received By: 40

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: LAVERNE R. WILLIAMS 208-436-6088
Address: 1710 FIR
RUPERT, ID 83350

2. Date of Priority: MAY 01, 1963

3. Source: WASTE WATER Trib. to: SINKS

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
08S	24E	25	SW	SE	NE		MINIDOKA

5. Description of diverting works:
POND, PUMP TO SPRINKLERS.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	03/01	11/01	1.600		

7. Total Quantity Appropriated is:
1.600 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 240.0 Acre Feet Per Annum.

9. Non-irrigation uses:
NONE

10. Place of Use:

Township	Range	Section	1/4 of	1/4 of	Lot	Use	Acres
08S	24E	25	NE	SE		IRR	40.0
			NW	SE		IRR	40.0

Section Acres 80.0

Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

Project Minidoka Branch Field Division State Idaho

RECEIVED

LICENSE FOR ERECTION AND MAINTENANCE
OF STRUCTURES

OCT 19 1990

1. Pursuant to authority given by the Commissioner of the Bureau of Reclamation, thereunto duly authorized by the Secretary of the Interior, the undersigned hereby accepts a license to erect and operate and maintain a check structure and turnout located in the NE¹/₄ of Sec. 25, T. 8 S., R. 24 E., B. M., such well being part of and used

in connection with the Minidoka Project, Bureau of Reclamation, constructed pursuant to the act of Congress approved June 17, 1902 (32 Stat., 388), and acts amendatory thereof or supplementary thereto, at a point where the D drain crosses Mr. William's north line

upon the terms and conditions hereinafter set forth:

2. The licensee shall be liable for any and all damages to the property of the United States, or of any third party or parties, by reason of the exercise of the privileges conferred by this license.

3. This license shall continue so long as in the opinion of the licensor it is considered to be expedient and not detrimental to the public interest, and shall be revocable by said officer upon ten days' written notice to the licensee. Upon such revocation the aforesaid structure or structures and all accessories shall be removed without delay at the expense of the Licensee (B.W. Williams, Rt. 3, Rupert, Idaho). This license shall be considered renewed and the charge payable as stated hereinafter, unless terminated by the Licensee in writing before the 31st day of December.

4. The aforesaid structure or structures shall be so erected as not to obstruct in any manner the flow of water in the canals, laterals, or drain ditches of the United States, or to interfere in any manner whatsoever with the construction, operation, and maintenance of any part of the Project.

5. In the erection of the aforesaid structure or structures the following specifications and conditions must be complied with:

(a) Construction, operation and maintenance of the structures shall be at the sole cost of the Licensee and shall be under the supervision of the Project Superintendent of the Minidoka Project, U. S. Bureau of Reclamation.

6. Covenant against Contingent Fees. Licensee warrants that no person or agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial agencies maintained by the licensee for the purpose of securing business. For breach or violation of this warranty, the Government shall have the right to annul this contract without liability or in its discretion to require the licensee to pay, in addition to the contract price or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

25 acres

MICROFILMED
FEB 08 1993

7. Non-Discrimination Clause. In connection with the performance of work under this license, the licensee agrees not to discriminate against any employee or applicant for employment because of race, religion, color, or national origin. The aforesaid provision shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The licensee agrees to post hereafter in conspicuous places, available for employees and applicants for employment, notices to be provided by the Project Manager setting forth the provisions of the non-discrimination clause. The licensee further agrees to insert the foregoing provision in all subcontracts hereunder, except subcontracts for standard commercial supplies or raw materials.

8. This license is granted for the purpose of the Licensee utilizing drain water for irrigating an estimated 25 acres of land in the $N\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 25, T. 8 S., R. 24 E., B. M., above the Minidoka gravity canal. A flat rate of \$3.50 per acre shall be charged, totaling \$87.50. Payment shall be made on or before April 1st of each year. The first year of this license being 1962.

9. It is understood that the water is primarily for other project lands and is only temporarily in the drain. The use of drainage water being a temporary use, this license shall not be construed as creating a water right for any land irrigated regardless of how long temporary water is secured hereunder. The United States does not warrant a water supply and shall not be held responsible for the availability or nonavailability of a sufficient supply of water at any time or for the quantity of water which may thus be available. The Licensee is entitled to the use of the water whenever it is available.

10. No member of, or Delegate to Congress, or Resident Commissioner shall be admitted to any share or part of this license, or to any benefit that may arise herefrom, but this restriction shall not be construed to extend to this license if made with a Corporation or Company for its general benefit.

Dated at Rt. 3, Rupert, Idaho

Per phone conversation with Bill Williams:
The place is being rented to Max Robbins this year.

The system is one 100 HP turbine pump lifting water out of a sump tied into a storage pond. MID water, ~~A~~ A & B water & waste water is commingled in the pond and is then delivered to the P/U via 3 mainlines. One mainline supplies water to a standard 1/4 mi center pivot that waters the N 1/2 SE 1/4 & ~~SW~~ NE. This is a low pressure system. The corners surrounding this pivot have been placed in the set-a-side program. A second line runs north to a center pivot in the north 1/2 NE 1/4. This pivot has a radius of approx 1000 ft. The third main line runs east ~~into~~ to the SE 1/4 NE 1/4 where hand lines irrigate approx 20 trees.

The system can operate all three systems at once if needed. If a portion of the system is shut down, excess pressure is relieved through casing perforations that allow extra water to return to the sump. The system operates at approx 60 PSI when all three mainlines are operating. Bill estimated the capacity at somewhere between 1500 & 2000 GPM at full op. cap.

theoretical $\frac{100 \text{ HP} \times 8.8 \times .7}{10' + (60 \times 2.3)} = \underline{\underline{4.16 \text{ CFS}}}$

Per Vergil Temple, manager of A & B Irr District

The "D" main drain ends on the Williams property where there is a pond constructed in the $5\frac{1}{2}$ of the NE $\frac{1}{4}$. Excess water ponds up and then overflows into injection wells.

He stated that the irr district only delivers water to the Williams property when there is no waste water available. The system used to overflow and eventually reach the Minidoka system. The result was lawsuits were filed for flood damage.

The utilization of the "waste water" by the Williamsons has virtually eliminated this problem and their practice is condoned by the canal Co.

Mr. Temple did not know how long this system had been in existence (waste water use on N $\frac{1}{2}$ SE $\frac{1}{4}$) but he felt it has been going on for some time.

Kelly K. Christensen
