Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

A36-11508

AHn: Allen Merritt, Water Rights Supervisor

The purpose of this letter is to provide evidence and explanation supporting the priority dates requested for A36-11508. When the adjudication process began, the A&B Irrigation District, Rupert, Id. developed tract maps showing the original farm tracts covered by their original water right licenses. The map on page 3 is a copy of the maps they gave to me showing the tracts relating to A36-11508. In the shaded areas, the acreage deemed in 1954 as non-irrigable can be seen. At some time after 1954, the homesteaders leveled the high ground and began to farm and irrigate the shaded areas, "water-spreading" with ~~the~~ ^{their} A&B water allotments. At another time, the tract^D was purchased by a neighbor who also owned Tract F and Tract G. On tract G, there was a private well drilled in 1961, and this farmer used part of the water from the well on tract G to supplement the A&B water. The map on page 4 shows the fields as they were irrigated and farmed when I purchased the property in 1978. In 1978, I converted the farm to sprinkler irrigation and connected the A&B water and the private well to the system to irrigate all three tracts as shown on the map on page 5. Because I did not know the dates that the original "non-irrigated" lands became irrigated, I just used the date I began to irrigate and farm the property personally. The aerial photography used to provide the maps should be sufficient to document the fields and irrigation. Please reply if more information is

required, or, if there is a good reason to document the "true" starting date for the irrigation of these lands, I would also like to be informed. I submitted as I did under the advice of other staff members in Twin Falls.

Sincerely

Larry L Hansen
