Dear Claimant(s):

In the past you submitted the claim(s) identified with the number(s) shown above your name and address at the top of this letter. You indicated on the claim(s) that the basis for establishing the water right(s) was Beneficial Use, meaning the water right was not previously confirmed by a decree, water right license or permit before you filed the claim(s).

The purpose of this letter is to request evidence supporting the priority date(s) you have claimed. The enclosed pamphlet describes what this means. While I encourage you to read all of the pamphlet, I direct your attention to the right-hand half of the pamphlet after you open it. There you will find two sections: What Kind of Evidence is Required, and Some Examples of Documents which May Be Evidence of the Priority Date. These sections tell you what must be submitted. The other sections tell you why the evidence is necessary and what the consequences of not submitting the evidence could be.

Please submit the requested evidence by November 1, 1990. When returning to the Department please reference all documents with the claim(s) identification number(s) listed above.

If you have questions not addressed by the pamphlet or need other technical assistance, please feel free to contact this office. For advice on your water right(s), please contact your attorney.

Sincerely,

Allen Merritt, P.E.
Water Rights Supervisor

DIRECTIONS TO PROPERTY / REMARKS:

Mr Lamun showed me the P/O, P/U, & delivery system. The centrifugal pump is a belt driven pump lifting water about 6' and then pushing water for another 15' (vert elevation) to open discharge into a cement ditch. The motor was still in storage but Mr Lamun stated that it was 10HP. He can use either waste water or canal Co water on the property. The Canal Co. water enters the cement ditch system at the same point as the waste water but is supplied through a pipe line from the south (See orthophoto used as field notes)

See also memo from Allen Merrett dated 3-16-92
from referencing canal company has no interest in the waste water.
and does not object to this claim.

TO: A36-11483SUBJECT: Waste waterFROM: Allen MervittDATE: 3/16/92

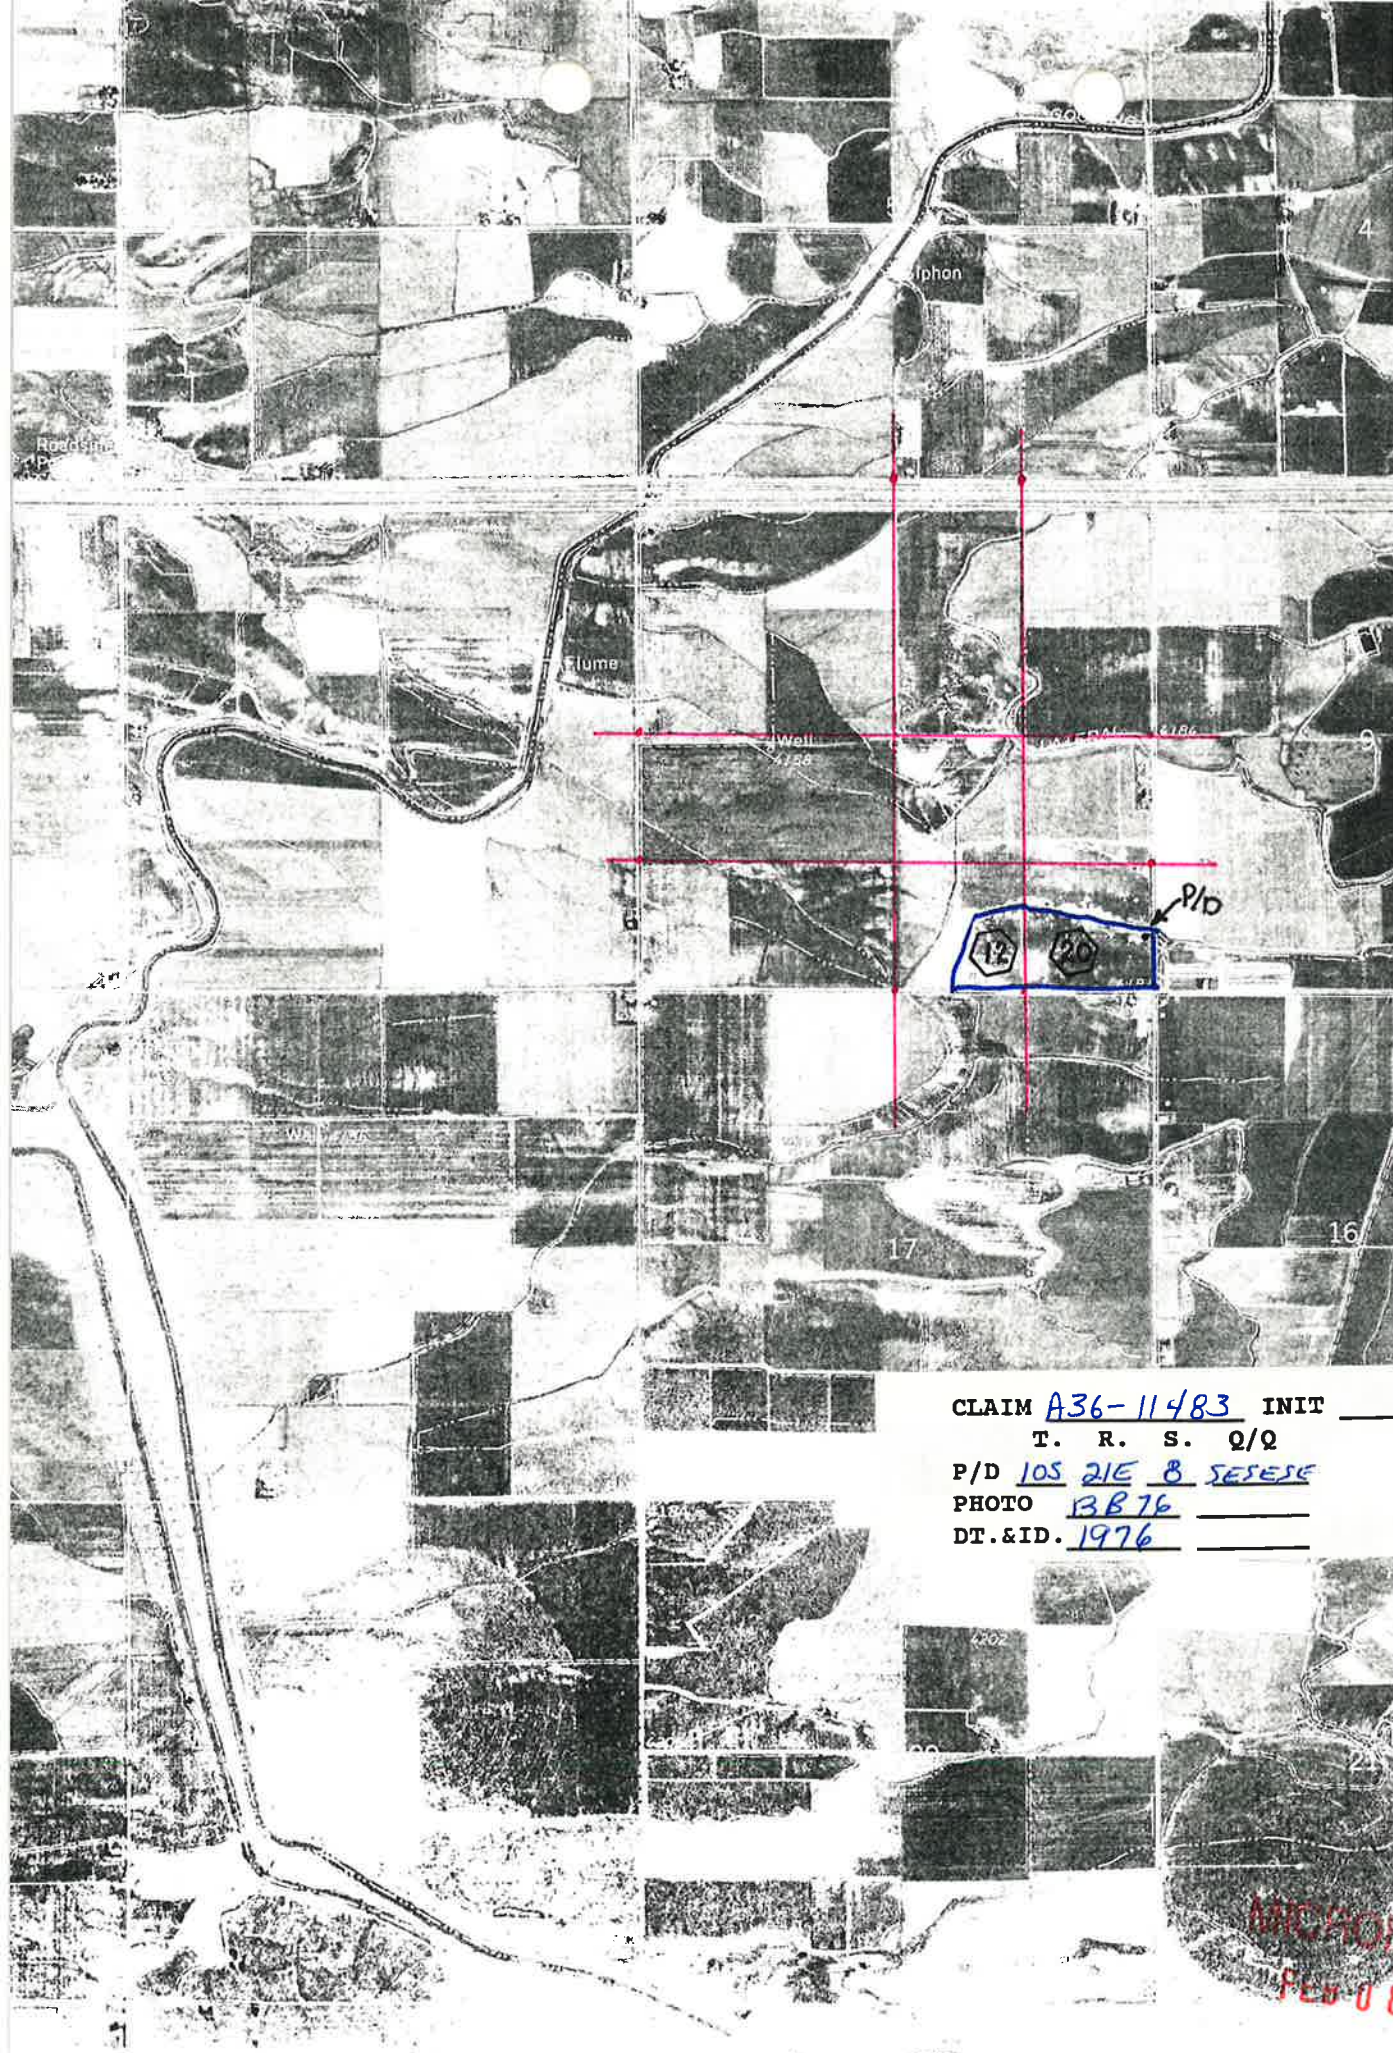

This day Ted Deihl from NSCC called after my call to him last Friday. Ted had his people look over the ~~the~~ waste water that comes from the AFD into the lands served by the NSCC. Particularly the Lagoon & Civil/gist property. He indicated that the water from the AFD goes under the LP Lateral and is kept separate. He indicated the NSCC had no problem with them using that water. The water goes under the lateral in case 9 T105 R21E.

PICTURE # 1

This picture was taken from the northeast corner of the P/U and is looking south. The drain ditch in the foreground is the source and the pump is next to the electrical pole. The pump is a belt driven centrifugal pump powered by a 10 hp electrical motor. The motor was not installed at this time as the exam was conducted prior to the irrigation season. Water is conveyed underground from the ditch to a cement tile which is just to the left of the pump. It is not visible because of the grass.

PICTURE # 2

This picture, looking east, was taken past the southwest corner of the P/U and shows the same drain ditch shown in picture 1. The disked ground in the foreground is NOT a part of the P/U.
