MEMORANDUM

TO: FILES

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER 4998

DATE: January 7, 1998

=====

Transfer 4998 adds points of diversion and identifies the municipal place of use under Rights 63-02500, 63-02874, 63-07067 & A63-19456. The nature of use under 63-07067 is also changed from domestic to reflect historical municipal use.

The transfer combines these rights in a common system diverted from three (3) existing and two (2) proposed wells that provide municipal use within Boise and the surrounding service area. The rights are changed to reflect their common municipal use, year long season of use and the standard common municipal place of use described in remarks only.

Recommended conditions include drilling permit requirements, future annual reporting, multiple points of diversion/measuring devices, non-confirmation of claim and standard transfer conditions.

APPLICATION FOR TRANSFER OF WATER RIGHT

PART 1

Name of applicant United Water Idaho (UWI) Phone 362-7332

Post Office address 8248 W. Victory Road, Boise, ID 83709

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☒ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____

2. Describe the reason for the proposed change 1) To bring water rights into accord with the expanding service area provision of Idaho's new Water Rights Act, 2) To provide additional points of diversion for aging wells with declining yield, and 3) To allow the wells subject to this Application to be used as alternate points of diversion for each other, and thus retain the water rights associated with these wells by diverting them from new points of diversion in the same aquifer.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

	SW	SE	NW	9	3N	2E	Ada	Existing UWI 16th Street Well

5. Lands irrigated or place of use:

The place of use in this application is United Water Idaho's service area, including future changes in such area. This service area is established, and changed from time to time, by order of the Idaho Public Utilities Commission ("IPUC") after opportunity for hearing and a factual showing demonstrating need. As the community and surrounding areas grow, and demand for municipal water supplies increases, United Water will make additional changes to its service boundary.

United Water Idaho is a "municipal provider" as defined in the Idaho Code, and is entitled to hold water rights whose place of use is a changing service area. I.C. §§ 42-202B(2) and 42-219.

United Water Idaho's service boundary as of the date of this Application is shown on the attached map titled "United Water Idaho's changing service boundary as certified by the Idaho Public Utilities Commission." This map also depicts the service area of Boise Water Company (United Water Idaho's predecessor) as certified by the IPUC in July 1958. This map demonstrates the amount of growth in United Water Idaho's service area in the 38 years since 1958, and it indicates the extent of change that might be expected in upcoming years.

SEE PG 14

PART 1**6. General Information:**

a. Description of diversion system Idaho St. well is 24-inch diameter and 653 feet deep, 13th St. well is 24-inch diameter and 347 feet deep, 16th St. well is 20-inch diameter and 532 feet deep, and two 27th St. wells will be 18-inch diameter and #1 will be 565 feet deep and #2 will be 417 feet deep. All 5 wells will discharge into UWI's integrated distribution system.

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? N/A Yes N/A No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this matter.

N/A

d. Remarks:

The purpose of this application is to add two additional points of diversion - the wells denoted as 27th Street wells #1 and #2 - to the permissible points of diversion for the four water rights subject to this transfer and to list all five wells as points of diversion for each of the four water rights subject to this transfer, without increasing the overall rate of diversion under these rights. After the transfer, each of the five wells will serve as an alternate point of diversion for the other four. The addition of these points of diversion is necessary because the 13th, 16th, and Idaho Street wells are aging and are beginning to decline in productivity. After the transfer is approved, UWI expects that within the five-year "prove up" period under Idaho Code sections 42-204, 42-218, and 42-128(a), it will produce and beneficially use the full rate of diversion from the 27th Street wells in lieu of pumping from the 13th, and Idaho Street wells. Consequently, the Application does not assert any claim for a "future need" component to these rights under the Municipal Water Rights Act, Idaho Code sections 42-202, 42-202B, 42-217, 42-219, and 42-222. Ultimately, UWI may elect to cap and otherwise abandon these older wells and rely entirely on the 27th Street wells, but for the meantime, it needs these wells as part of its supply.
