Total Acres: 9484

Conditions of Approval:

1. S39 The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
2. 135 The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.
3. E55 Right Nos. 03-2006 and 03-7005 are limited to the irrigation of a combined total of 423 acres in a single irrigation season.
4. E56 The rights listed below are limited to the irrigation of a combined total of 9484 acres in a single irrigation season. Combined Right Nos.: 67-8, 67-9, 67-10, 67-11, 67-12, 67-13B, 67-14, 67-15, 67-16, 67-17, 67-18, 67-19, 67-20, 67-21, 67-22, 67-2168B, 67-2169H, 67-14621, 03-2006, & 03-7005.
5. 001 A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.
6. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
7. K06 This right is limited to the irrigation of 315 acres within the place of use described above in a single irrigation season.
8. R32 This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for irrigation of the lands above.

Remarks:Comments:

1. dfavreau 11/8/2006 preliminary condition

Comment: The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary will be provided when the Basin 67 water rights for the claimant are presented in a Directors Report and will be stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use will be included with the Basin 67 water rights to illustrate the place of use described by the digital boundary.

2. dfavreau 11/9/2006 preliminary condition

Comment: Rights have also been claimed to water from Basin 67 for the same purpose of use at the same place of use described above, which will be included in a Directors Report to be filed at a later date. Any water rights recommended in the Basin 67 report for the same purpose of use at the same place of use described above will contain combined use limitations for this right and the Basin 67 rights.

The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

PLACE OF USE:

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary will be provided when the Basin 67 water rights for the claimant are presented in a Directors Report and will be stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use will be included with the Basin 67 water rights to illustrate the place of use described by the digital boundary.

This right is limited to the irrigation of 315 acres within the place of use described above in a single irrigation season.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

Rights have also been claimed to water from Basin 67 for the same purpose of use at the same place of use described above, which will be included in a Directors Report to be filed at a later date. Any water rights recommended in the Basin 67 report for the same purpose of use at the same place of use described above will contain combined use limitations for this right and the Basin 67 rights.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.

Re: West Ridge license No. 03-07005

Dear Danielle:

Enclosed is a summary I received from your Department. The District has already paid almost \$10,000 for the fees. The letter further indicates that the West Ridge license was filed under claim A03-7005 by Vince Derig.

As per your instructions I have resubmitted 3-7005. We believe the priority date should be October 1, 1910 as per our application dated May 21, 1975.

The original pumping system in the Snake River was installed in 1910 and was replaced by a gravity fed line from the Galloway Canal in 1928. I am enclosing copies of the minutes. In 1970 the system was rebuilt by the Weiser Irrigation District, see attached map. It is pumped to a stem pipe that is the beginning of a pipeline system built by the West Ridge Irrigation District in 1970 to deliver water.

I will be gone through September 14 and will be able to meet with you later that week.

Sincerely yours,

Jay Edwards
Sec.

Enc.

WEISER IRRIGATION DISTRICT
CLAIM SUMMARY

Vincent Derig, with Weiser Irrigation District, combined all the District's decreed and licensed rights from the Weiser River on SRBA beneficial use claim 67-10280. He used the earliest decreed priority date as the claim's priority date. The District now wishes to "uncombine" the claim and file separate claims on their decreed and licensed rights to properly preserve the integrity of their rights.

Mr. Derig also filed claim 67-10279 for 18,000 af of Crane Creek Reservoir water. I talked to Jackie Ray, Secretary of the Reservoir Co. (549-0765), and she stated that Weiser Irrigation District has 15,100 af (shares) of primary water and 2800 af (shares) of secondary water for a total of 17,900 af of storage water. Jackie stated that the Reservoir Co. did not file for all its shareholders because some folks with historical storage rights refused to participate as shareholders. As a result, the total deliverable storage water in Crane Creek Reservoir is divided and claimed as follows:

Institute Canal Co.:	4200.0 af (A67-10557, A67-10558)
Crane Creek Reservoir	
Independent Water Users:	10061.7 af (A67-10894)
Weiser Irrigation Dist.:	17900.0 af (A67-10279)
Weiser Cove Irrig. Dist:	16015.3 af (A67-10895)
Non-participants:	<u>3823.0 af (various claims, see file -10894)</u>
Total active (deliverable) af:	52000.0 af

(Total reservoir capacity is 56800 af per John Westra)

The District's primary and secondary shares have a common priority date of 4/9/1920. Claim A67-10279 will be amended to correct the priority date and total af the District owns in Crane Creek Reservoir. The District's A & B share proportions will be designated in the claim remarks.

Note: the District's outstanding permit 67-2129 is part of license 67-2384A and should be relinquished. License 67-2384A is included in claim A67-10279.

Mr. Derig also filed claim A03-7005 on the District's Snake River license 3-7005. This claim appears to be acceptable.

Weiser Irrigation District paid a total of \$9,788.57 for claims A67-10279, A67-10280 and A67-03-7005 and 9,522.5 acres of irrigation. Jay Edwards, with Weiser Irrigation District, is currently working with Mark Larson to establish an accurate District boundary. Additional fees for additional acres may be required, depending on the end result. Fees should not be required for the District's late claim filings. Once the District's PPU has been established, balance paid -vs- balance due can then be determined.

Weiser, Idaho

January 3, 1928

This being the time for the regular January meeting of the Board of Directors of West Ridge Irrigation District, the Board proceeds to meet at its general offices. There being present William Giffels, Frank Maupin, the hold over directors, and Hugh Laird, the director elected at the general election held in said district on December 13, 1927, and the following proceedings were had:

Hugh Laird, the director elect having qualified as such director takes the oath of office as such, and the board proceeds to organize as a board, and elect William Giffels President and Hugh Laird Secretary.

On motion duly made, seconded and carried by the vote of all of the directors, the board determines to abandon the pumping plant heretofore operated supplying water by pumping from Snake River for the irrigation of the lands within said district, and determines to construct the pipe line leading from the canal of the Weiser Irrigation District to the lands within said West Ridge Irrigation District, and there connect with distribution system of said West Ridge Irrigation District and supply said lands for irrigation by means of a gravity flow of water. R. J. Wood, the engineer of the district, was instructed to make such surveys, examinations and plans as may be necessary for the performance of said contemplated construction work and estimate of the costs of such construction work and submit his report to the district.

THERE being no further business coming before this meeting of the Board, on motion the Board adjourns to meet at its general offices at the hour of 8 o'clock in the evening of January 26, 1928.

/s/ WM. GIFFELS, President

Attest:

/s/ HUGH LAIRD, Secretary

Identification No. 03-7005

Permit No. 03-7005

STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder Weiser Irrigation District, a quasi-municipal corporation
- b) Post Office Address 28 West Idaho St. Weiser, Idaho 83672
2. Permit Number 03-7005
3. Date of Priority that you are prepared to establish 10-1-1910 Permit No. 6671
4. a) Source from which water was appropriated Snake River, a tributary of Columbia River
- b) Location of the point of diversion: NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 35
- Township 11 North, Range 6 West Boise Meridian, Other points of diversion: _____

5. a) The amount of water and use to which the water has been applied:

Amount <u>2,000 a.f.</u> for <u>irrigation</u> purposes from <u>4-1</u> to <u>10-30</u> incl.
(cfs and/or acre-feet per annum) <u>constant flow</u> (Month-Day) (Month-Day)
Amount <u>8 c.f.p.s</u> for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)

- b) Total amount appropriated 2000 ~~2000~~ ~~acre-feet~~ acre-feet per annum

- c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: mechanical measuring device installed in pipe line
leading from 2 - 50 hp pumps

6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:

- a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use:

Weiser Irrigation 3/8 mile of pipeline. West Ridge Irrigation Lateral
District, distribution of water to users.

- b) Describe the agreement or understanding by which you take water from the works:

Weiser Irrigation District furnishes water to stand pipe. West Weiser Irrigation Lateral Dist. is responsible for delivery of water to its users.

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (if from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) 2 pumps attached to 50 hp motors - 21' pipe (steel) line
partially buried and partially above ground (3/8 mile). Irrigation works
belonging to West Ridge Irrigation Lateral District.

- b) Describe the type and size of measuring device which you have installed at your point of diversion:

22" OD Rate-a-flow meter - Saddle Type - acre feet measure

- c) Give well driller's name and address and the date the well was completed: _____

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use: _____

1" Tee Smith

6" Tee Wright

6" Tee Arima

Tee for Drain

Tee McKinley

9"

15"x10" Tee
9" Release Valve.
