BEFORE THE IDAHO WATER RESOURCE BOARD
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION)
02-2209 TO LEASE WATER TO THE)
WATER SUPPLY BANK)

RESOLUTION

WHEREAS, the Cottonwood Canal Company (applicant) has submitted an application to place 58.1 cfs of water represented by License No. 02-2209 into the Water Supply Bank (bank) which is administered by the Idaho Water Resource Board (Board); and

WHEREAS, the Director of the Department of Water Resources (Director) has investigated the water right and the application to lease the right to the bank as required by Water Supply Bank Rule 3.3 and there is a question as to the validity of this water right which will be determined at a later time by the Director; and

WHEREAS, the Director and the Board find that other requirements for leasing water to the bank have been met by the applicant,

NOW, THEREFORE, BE IT RESOLVED:

1. That rental of water from the bank under License No. 02-2209 be contingent upon the future review of the license and finding of the validity of the right and that this resolution shall not be considered an approval of any type or nature of the validity of the said water right.

2. That the Board accept License No. 02-2209 into the bank on a contingency basis with payment to be made to the lessor only upon rental of the right or portion thereof from the bank; and

3. That the rental price of the water be consistent with the rental amount charged in Water District 1.

Adopted this 22 day of March, 1991.

RE: LICENSE 02-2209 - APPLICATION TO WATER SUPPLY BANK

Dear Mr. Ringert:

I have reviewed your letter dated January 22, 1991, together with the enclosures in connection with the ownership of the above referenced water right.

It appears that 58.1 cfs of this right may be offered to the Water Supply Bank by Cottonwood Canal Company (Cottonwood). The portions of the original water right then appear to be as follows:

58.1 cfs	- Owned by Cottonwood Canal Company
12.8	- Owned by Wootans
8.8	- Appurtenant to land owned by the BLM

79.7 cfs - TOTAL

I plan to brief the Water Resource Board pursuant to Water Bank Rule 3.3 in connection with the merits of the offered lease by Cottonwood of 58.1 cfs of this right into the Water Supply Bank.

I'm not sure when the Board will schedule their next meeting, but I guess it will be sometime in February since proposed amendments to the Water Supply bank rules are also pending before the Board. Feel free to contact me if you have questions.

Sincerely,

L. GLEN SAXTON, Chief

RE: LICENSE 02-2209

Dear Mr. Ringert:

I have reviewed your letter dated December 28, 1990, together with the attachments in connection with ownership of the above referenced license. I have not been able to reconcile the rates of diversion referred to in the Agreement as related to the licensed place of use and the land conveyed by the BLM to the Wootans.

More specifically, license 02-2209 was issued authorizing the diversion of 79.7 cfs for the irrigation of 3,985 acres (1 Miner's inch per acre). The patent document issued by the BLM to the Wootans does not show conveyance of the following tracts of land to which the license is appurtenant:

T6S, R10E, BM

Sec 11 - NWNE, NENW, SENW	120 acres
---------------------------	-----------

T6S, R11E, BM.

Sec 19 - NESW, SESW, SE	240 acres
Sec 20 - NWSW, SWSW	80 acres

440 acres

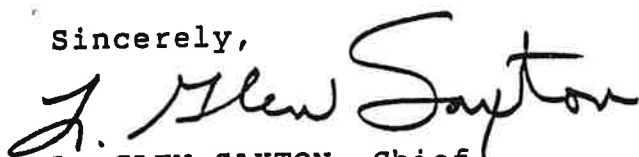

This acreage at 0.02 cfs per acre is 8.8 cfs which indicates that 70.9 cfs is appurtenant to the land conveyed to the Wootans by the BLM.

Enclosed is a copy of the license with the 40 acre tracts highlighted which apparently were not conveyed to the Wootans. If the Wootans own these 40 acre tracts or the water appurtenant to them, please provide the supporting information. Upon your clarification of this matter, I will review it further with respect to Cottonwood's pending application to the Water Supply Bank.

AGREEMENT

THIS AGREEMENT, made and entered into as of the 15th day of December, 1990, by and among COTTONWOOD MUTUAL CANAL COMPANY, an Idaho corporation (Cottonwood), PAUL R. HOGG and LUANN HOGG, husband and wife, LEFAWN OTTLEY, SARAGENE SMITH and RINGERT, CLARK, HARRINGTON, REID, CHRISTENSON & KAUFMAN, CHARTERED (collectively, the Owners), and WESLEY R. WOOTAN and CHRISTINE WOOTAN, husband and wife, of Hammett, Idaho (Wootan);

W I T N E S S E T H:

RECITALS

1. Wootan has acquired from the Bureau of Land Management of the United States Department of the Interior (BLM), the lands described in United States Land Patent No. 11-91-0001, a copy of which is attached hereto as Exhibit A and made a part hereof, together with certain appurtenances thereto, which include the interest claimed by BLM in 74.10 cfs of Water License No. 02-2209;
 70.9 ?

2. Cottonwood is the holder of record, and claims ownership, of Water License No. 02-2209, issued by the Department of Water Resources of the State of Idaho, evidencing a water right for 79.70 c.f.s. from the Snake River with priority date of February 25, 1963, for irrigation of 3,985 acres of land, 3705.00, more or less, of which are described in Exhibit A;

3. BLM claimed ownership of Water Right No. 02-2209 by virtue of cancellation of the desert land entries formerly

existing on the land described in Exhibit A, and filed a formal claim of ownership in a water right adjudication proceeding, Ada County Case No. 73804, which was dismissed on May 30, 1989, and BLM still claims 5.6 cfs of Water Right No. 02-2209;

4. Cottonwood desires to resolve its claim to 61.30 cfs of Water Right No. 02-2209 in order to avoid further litigation with respect to ownership of that portion of the water right;

5. Wootan desires to clear Cottonwood's claim from 12.8 cfs of Water Right No. 02-2209 in order to irrigate the acres Wootan has acquired from BLM;

6. Cottonwood and the Owners are agreeable to the transfer to Wootan their claim to 12.8 cfs of Water Right No. 02-2209, and a portion of the irrigation system through which Wootan's 12.8 cfs of water right under Right No. 02-2209 can be delivered;

NOW, THEREFORE, THE PARTIES AGREE AS FOLLOWS:

OPERATIVE PROVISIONS

7. It is agreed that Cottonwood and the Owners herein named do not relinquish their claim to the 5.60 cfs of Water License No. 02-2209 which remains in dispute between them and the BLM;

8. Cottonwood and The Owners shall transfer and quitclaim to Wootan their right, title and interest in and to 12.8 cfs of Water License No. 02-2209.

9. Wootan shall transfer and quitclaim all of his right, title and interest in and to 61.30 cfs of Water License No. 02-2209 to Cottonwood and the Owners, and shall disclaim in favor of

Cottonwood and the Owners all interest in the 5.6 cfs of Water Right No. 02-2209 claimed by the BLM and all incidents of ownership in the irrigation system except as set out in Article 10 hereafter.

10. The Owners agree to transfer to Wootan all their right, title and interest in the pump base, the penstock, and the portion of the pumping facilities identified in Exhibit B, attached hereto, as being transferred to Wootan. The pump base is located in Lot 6 of Section 9, Township 6 South, Range 11 East, B.M., in Elmore County, Idaho, and the penstock extends westerly from the pump base to the lands described in Exhibit A. The Owners retained interest in the balance of the irrigation system comprises approximately 74% of the interest therein, and the Owners shall have the right to remove any components comprising the retained ownership at any time within two years following the date of this Agreement. The components which comprise the Owners retained ownership are identified and described in Exhibit B as being retained by the Owners. The Owners also shall have the right, at their option, to salvage any lateral mainlines or segments thereof on the lands described in Exhibit A during the period of one year following the date Wootan delivers to the Owners a signed original of this Agreement, provided that the salvage operations shall not in any way interfere with operation of the irrigation system by Wootan or others and shall not interfere with Wootan's farming operations

on the lands described in Exhibit A. If the Owners are unable to complete salvage operations because of potential interference with Wootan's farming operations on any portion of the land, the time for removal of the lateral mainlines or components thereof on those lands shall be extended so as to expire one year after the farming operations on that land have been concluded, and Wootan expressly acknowledges that this extension applies to lands which Wootan has prepared for crop production during the 1991 growing season. In conducting the salvage operations, the Owners shall backfill each trench as soon as the pipe is removed therefrom, and shall make reasonable efforts to use topsoil, if available at the site, for the top 12 inches of backfill.

11. Cottonwood and the Owners agree to transfer and convey to Wootan their interest in all rights of way and easements for the irrigation system. Wootan shall be responsible for preparation of the instruments required to accomplish transfer and conveyance of the rights of way and easements. Transfer and conveyance of the rights of way and easements shall be in the nature of a quitclaim and without any warranty on the part of Cottonwood or the Owners.

12. Cottonwood and the Owners will cooperate in execution of necessary documents to clear title to the land described in Exhibit A, and 12.8 cfs of Water Right No. 02-2209, for Wootan, if necessary.

EXECUTION IN COUNTERPARTS

14. Two or more counterparts of this Agreement have been prepared and the signing of any one of such counterparts shall be deemed to constitute signature of all other counterparts hereof, and all signed counterparts of this Agreement shall be bound together and shall constitute the Agreement among the parties hereto.

BINDING EFFECT

15. The covenants herein contained shall bind, and the benefits and advantages hereof shall inure to, the parties hereto and their respective heirs, personal representatives, successors and assigns.

IN WITNESS WHEREOF, the individual parties have hereunto subscribed their names, and the corporate and governmental parties have caused their names to be hereunto subscribed by their duly authorized officers and representatives, all as of the day and year herein first above written.

RE: LICENSE 02-2209 - APPLICATION TO WATER SUPPLY BANK

Dear Mr. Ringert:

I have reviewed your letter dated January 22, 1991, together with the enclosures in connection with the ownership of the above referenced water right.

It appears that 58.1 cfs of this right may be offered to the Water Supply Bank by Cottonwood Canal Company (Cottonwood). The portions of the original water right then appear to be as follows:

58.1 cfs	- Owned by Cottonwood Canal Company
12.8	- Owned by Wootans
8.8	- Appurtenant to land owned by the BLM

79.7 cfs - TOTAL

I plan to brief the Water Resource Board pursuant to Water Bank Rule 3.3 in connection with the merits of the offered lease by Cottonwood of 58.1 cfs of this right into the Water Supply Bank.

I'm not sure when the Board will schedule their next meeting, but I guess it will be sometime in February since proposed amendments to the Water Supply bank rules are also pending before the Board. Feel free to contact me if you have questions.

Sincerely,

L. GLEN SAXTON, Chief

RESOLUTION

WHEREAS, the Cottonwood Canal Company (applicant) has submitted an application to place 58.1 cfs of water represented by License No. 02-2209 into the Water Supply Bank (bank) which is administered by the Idaho Water Resource Board (Board); and

WHEREAS, the Director of the Department of Water Resources (Director) has investigated the water right and the application to lease the right to the bank as required by Water Supply Bank Rule 3.3 and there is a question as to the validity of this water right which will be determined at a later time by the Director; and

WHEREAS, the Director and the Board find that other requirements for leasing water to the bank have been met by the applicant,

NOW, THEREFORE, BE IT RESOLVED:

1. That rental of water from the bank under License No. 02-2209 be contingent upon the future review of the license and finding of the validity of the right and that this resolution shall not be considered an approval of any type or nature of the validity of the said water right.

2. That the Board accept License No. 02-2209 into the bank on a contingency basis with payment to be made to the lessor only upon rental of the right or portion thereof from the bank; and

3. That the rental price of the water be consistent with the rental amount charged in Water District 1.

Wesley R. Wootan
Christine Wootan
P.O. Box 636
Glenns Ferry, Idaho 83623

Dear Mr. and Mrs. Wootan:

This letter is in response to a conversation you had with the Idaho State Director, K Lynn Bennett, in the fall of 2004. At that time, you inquired about the possibility of having a patent reservation removed from a patent you received from the Bureau of Land Management (BLM) in 1990 (Patent No. 11-91-0001). When the patent was issued, you agreed to the reservation which restricted you from using a portion of the property for irrigated farming. Mr. Bennett promised you that the BLM would review the original patent file and the situation on the ground to determine if your request to remove this reservation from the patent was justified. After reviewing the situation, we are comfortable that we can accommodate your wishes. We have determined that the best solution is for you to request that we correct the patent to remove this reservation.

In accordance with the regulations concerning Correction of Conveyancing Documents (43 CFR 1865), you will need to submit a letter application to the above address. This application should include: (1) a non-refundable fee of \$100; (2) the name, mailing address, and telephone number of any others known by you that hold or purport to hold any title or other interest in, lien on or claim to the lands described in the patent; (3) all documents which show your title to the lands; and (4) as complete a statement as possible explaining the problem with the original patent and your suggestions for correcting it.

We will begin processing your application upon receipt of your written request and the \$100 application fee. Please call Laura Summers at (208) 373-3895 if you have any questions.

Sincerely,

Jimmie Buxton
Chief, Branch of Lands, Mineral & Water Rights

The United States of America
To all to whom these presents shall come, Greeting:

IDI-23538

WHEREAS

Wesley R. Wootan and Christine W. Wootan

are entitled to a land patent pursuant to the Act of October 21, 1976
(Section 206, 90 Stat. 2756; 43 U.S.C. 1716), for the following-described land:

RE: LICENSE 02-2209

Dear Mr. Ringert:

I have reviewed your letter dated December 28, 1990, together with the attachments in connection with ownership of the above referenced license. I have not been able to reconcile the rates of diversion referred to in the Agreement as related to the licensed place of use and the land conveyed by the BLM to the Wootans.

More specifically, license 02-2209 was issued authorizing the diversion of 79.7 cfs for the irrigation of 3,985 acres (1 Miner's inch per acre). The patent document issued by the BLM to the Wootans does not show conveyance of the following tracts of land to which the license is appurtenant:

T6S, R10E, BM

Sec 11 - NWNE, NENW, SENW	120 acres
---------------------------	-----------

T6S, R11E, BM.

Sec 19 - NESW, SESW, SE	240 acres
Sec 20 - NWSW, SWSW	80 acres

440 acres

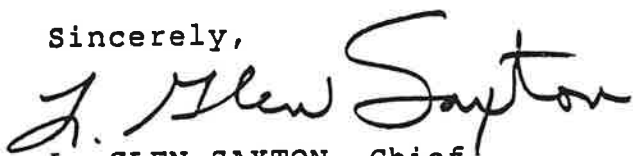

This acreage at 0.02 cfs per acre is 8.8 cfs which indicates that 70.9 cfs is appurtenant to the land conveyed to the Wootans by the BLM.

Enclosed is a copy of the license with the 40 acre tracts highlighted which apparently were not conveyed to the Wootans. If the Wootans own these 40 acre tracts or the water appurtenant to them, please provide the supporting information. Upon your clarification of this matter, I will review it further with respect to Cottonwood's pending application to the Water Supply Bank.

Re: Application to Water Supply Bank
Cottonwood Canal Company - 02-2209

Dear Mr. Saxton:

The above numbered application by Cottonwood Canal Company and some of its stockholders has been pending, but somewhat inactive, for quite some time. We have not taken any action recently because of inability to furnish anything other than the license itself as proof of ownership as required by your letter of August 11, 1988. A written request to the Elmore County Recorder for title information, on August 15, 1988, produced nothing.

A major part of our long-standing dispute with the Bureau of Land Management over ownership of the water right has now been resolved. The BLM has conveyed all but 280 acres of the land to which the water right originally was appurtenant to Wesley and Christine Wootan, without any reservation of the water right. A copy of the patent from the United States of America to the Wootans is enclosed. The 280 acres is the designated place of use for 5.6 cfs of the water right.

An Agreement has been signed by the Wootans, and submitted to the Cottonwood stockholders for signature, under which Wootans receive 12.8 cfs of the water right, and the title of Cottonwood Canal Company to 61.3 cfs of the water right is cleared by a release, relinquishment and assignment from Wootans. A copy of the Agreement, showing signatures thus far by Wootans and this law firm, is enclosed.

On November 14, 1988, you approved an extension of time within which to resume the use of the water right to July 1, 1991. A copy of the application, with your order endorsed thereon is enclosed, to show that the right has not been lost through abandonment or forfeiture, which was the second requirement in your August 11, 1988 letter.

Mr. L. Glen Saxton
December 28, 1990
Page Two

In response to the third requirement of your letter, that evidence demonstrating the relative availability of water in the source to fill the right be furnished, I am enclosing a copy of a printout from the United States Department of the Interior, Geological Survey, showing discharge at the King Hill gauging station during the period from October 1987 to July 18, 1988. The maximum discharge is 18,000 cfs and the minimum is 6390 cfs. So far as I know, the only significant diversion from the Snake River between the Cottonwood Canal Company pumping station and the King Hill gauging station is the Black Mesa pumping station of King Hill Irrigation District, which is located immediately downstream from the Cottonwood pumping station. My personal observation of the stretch of the Snake River between the Cottonwood pumping station and the Sailor Creek/Grindstone pumping stations a few miles downstream in Section 34, Township 5 South, Range 9 East, B.M., is that the water supply is more than ample to satisfy the demand of License No. 02-2209. During the period from 1974 through 1981 all major pumping stations on that stretch of the river operated full-scale without experiencing any shortage of water. Reduced pumping at some stations since 1981 has been voluntary, and did not result from lack of water.

Please advise if any further information is required in order to fulfill the requirements of your letter of August 11, 1988.

Since the Wootans now hold 12.8 cfs of the water right and the BLM still disputes Cottonwood's ownership of 5.6 cfs of the water right, I believe it is appropriate to amend the Water Bank application to reduce the quantity offered to 61.3 cfs, that being the quantity to which the Cottonwood stockholders hold undisputed title. If it is permissible to do so, we will submit the amendment in a letter from Mr. Hogg, president of Cottonwood. If something further is required in order to amend the application, please advise.

Yours very truly,

W. F. Ringert
